Document Summary: Detailed description of preparations and logistics and support that were deployed in the Karbala' operation against an American force inside the Province headquarters

(Pages 1-5)

In the name of the Most High

The Karbala' operation against American forces inside the Province Headquarters

Details of the operation from the beginning its suggestion and the stages that followed …(from the beginning to preparation to the end)

Monday 1-1-2007 afternoon in al-Najaf: a meeting took place with the committee for the Central District, which consisted of the following Provinces: (al-Hillah, al-Daywaniyah, al-Najaf, Karbala') with the attendance of the heads of the Provinces and Specialties…

After an introduction of the tasking, adherence, elements of success, and duty to prepare based on our capabilities and not according to what is being requested of us "… prepare for them what you can of forces and horses, to terrorize the enemies of you and God…" [TC: Qur'anic verse]

Afterwards, I asked each of the Heads of the Provinces and Specialties to speak and to make a presentation in order to respond to the following questions:
The missions they executed, especially in the past two months (the operations in number and kind...)
Missions they are preparing for in the upcoming days
Problems that impede the progress of work
Suggestions to resolve problems and improve the work

All of the brothers presented the answers to the aforementioned questions; among them was the Head of Karbala' Province (Abu-Zayd) who presented the following topics:

The taking over [TC: new administration's assumption] of the Province
The scarcity of the enemy's movements within the Province
The presence of the enemy in the Province's Headquarters
Engineering preparedness of the roads to be used to move through
For other Provinces to benefit from the brothers that belong to this Province
To relocate some of the brothers of this Province to the jurisdiction of the areas where the work was weakened

After this session, I asked him not to leave before we meet to discuss the forces present inside the Province

A session with the Head of operations and the Head of Karbala', that revolved around the possibility of working on the Americans inside the Headquarters of Karbala'

Province…. After a general explanation about the presence of the available troops and their locations as well as the locations of the vehicles ….the police, the Province's buildings, the number of security points, and the procedures followed at the entrances. The responses were not sufficient., Hence, I asked him to answer the following questions:

The control points surrounding the Province
Photographing of the Headquarters, the entrances, and the locations of the Americans
Blue prints of the Headquarters defining the distances between the columns, the doors, and the buildings

Downloading the information on the blue prints of the buildings
Complete information about the police forces present at the entrances and in the rooms
The doors and how to manipulate them, especially those entrances used by the Americans
Who is authorized to enter the Headquarters with a vehicle and what is the make of these vehicles
How to deal with the Americans when they come (in each gate and obstacle)
What is the function of the national guard and what kind of cars they use within the buildings they are present in
The precise location of the Americans
The locations where enemy vehicles are kept and the routes taken (day or night)
Missions conducted during the day pertaining to vehicles and rooms
What security procedures are followed for the vehicles and the rooms
The number of vehicles in each location
The number of soldiers in each room and vehicles
Precise clarification of the places of the soldiers in the rooms
Selecting the best time to deal with them during the day time (according to their procedures)
The possibility of approaching them with vehicles within 5 meters
The enemy's procedures upon hearing gunshots
The police and the guard's procedures upon hearing gunshots

Return to Karbala' on Wednesday 03 JAN 2007 in the afternoon

Entry while accompanied by the Head of Karbala' to the Province's Headquarters and performing reconnaissance of all procedures and the spread out of the police and the Americans, closer study of the Headquarters, the entry bars, the entrances, security points, centers of all kinds, gathering locations of the police, the Province and the Brigade buildings, and to reach the nearest possible distance to see the Hummers stationed at the main entrance of the buildings in which they are located with the Head of Karbala'……

Evening session with the Head of Operations and the Head of Karbala', and the person responsible for following up for Karbala'. After reviewing the information he presented in response to the questions posed hereinabove, we agreed that he continue to provide the

missing information and the drawing of the Headquarters on large card board and details of the locations of the Americans. He also provided additional details as follows:

Photographing of the Hummers located by the prison
To know the security procedures therein
To watch the four Hummers for a whole day to know their weaknesses and the missions they perform
Photographing of the Hummers while at the main entrance to their location
To know the soldiers observation directions while inside the Hummers
To know the number of soldiers in the Hummers and the time of their presence or absence from the Hummers

To continue the collection of information to answer the previous questions
To draw in details the exterior of the Headquarters defining the gates on a large paper
To draw the locations of the Hummers , the soldiers, and the rooms on a large paper

Parted on the condition that we meet again after bringing the information in order to determine the possibility of working .....

Friday 05 JAN 2007

Private meeting with the Head of Karbala' about the presentation concerning the Province Headquarters. A detailed explanation was presented to sheikh Qays and Mr. Sadiq about the presentation of the Karbala' Headquarters in al-Nasiriyah in order to obtain an approval, even if a preliminary one, to continue to work on it; and it was agreed upon :

To continue answering the posed questions
To agree to capturing the Hummers located at the entrances, initially
To work on the soldiers inside the rooms and the rear stationed Hummers by throwing charges at them
To meet with Abu-Nur and explain the mission to him in order to prepare for the work (after his arrival from Baghdad)
To have the Head of Karbala' arrange for a location to maintain vehicles for Abu-Nur before and after the work

Friday Morning 12 JAN 2007

Meeting with Heads of Central, Karbala', and Operations to discuss the Karbala' proposal in detail. I listened to a detailed explanation by the Heads of Karbala' and Operations about the information they brought with them, based upon the agreed on questions. The results were good. The problem was,

The presence of an Iraqi guard on a tower overlooking the four Hummers, in case we wanted to fire on the Hummers from a close locations, we would have to shoot the guard …

We agreed on the minimum work, as follows:
Placing a vehicle at each barrier from the main entrance
Entering the place of the entrance to the two Hummers present at the Province building
Capturing the soldier with the weapon and the one behind the wheels
Shooting the soldier with the weapon in the same Hummer
Advancing to the window of the American soldiers' room and shot charges on them, in addition to using the PKS.
Advancing to the entrance of the room and to shoot any soldier attempting to exit from it
To take the two soldiers and withdraw quickly from the location

We agreed to hold a session this coming Monday in order to answer the following questions:

A location to place vehicles before the work (attack vehicles)
Securing the barriers after the work and the withdrawal

Identify the periods when the prisons are crowded with civilians
Identify the periods when people frequent the Headquarters and the crowded times
Routes of withdrawal and the times when they are most crowded and the length of each route
The best time for movement on these routes (on each route)
Establish routes for the brothers after the completion and withdrawal
Secure hiding locations to be used after completing the mission
Make 20 small explosives
Make 5 larger explosives
Secure 3 ten-minute timers

Monday 15 JAN [TC: 2007] moving to Karbala' at dawn and arriving in the afternoon.

Meeting with Sheikh Qays, I informed him about the plan for Karbala', as he requested, and what we decided and the possibility of entering the rooms to take care of the soldiers present there. Furthermore, this was in order to capture or kill them, and this was to prevent them from supporting the attacking forces at the minimum…

Conducting a session regarding the Karbala' plan with all concerned individuals in addition to Abu-Nur and his two brothers in attendance.

The session started with an introduction by the Sheikh about the plan and its importance, then he asked the Head of the Province to explain about the Headquarters. That was

completed in detail. The discussion started after that, due to the misunderstanding of Abu-Nur about the plan, and I explained it to him in detail.

Regarding the enemy:
There are between 18 and 24 soldiers and officers present
Between 5 and 7 Hummers remain for a period of six days inside the Province
The soldiers are replaced by other forces prior to their departure from the Headquarters.
The place will not be unattended
The forces mission to eavesdrop on the equipment inside of the Province (to analysis and not gather information)
There are four Hummers at the prison that are manned by four soldiers
The rest of the Hummers are located at the main entrances
There is an armed soldier on the Hummer closest to the main entrance and a soldier behind the steering wheel
There are no soldiers on the other Hummers at the entrance
The rest of the soldiers are in different rooms, near and far, on the first floor
There are two rooms located approximately 12 meters from the Hummer at the entrance
There are six soldiers, working on computers, in the first room
There may be two soldiers in the second, which is used for food and supplies
The rest of soldiers are in two other rooms on the first floor

Regarding the geographical location of the place:
It located in the building belonging to the Head of Karbala', in the middle of the Headquarters of the Province
Close to the room of the Brigade Commander responsible for Karbala'
In the center of the building , and with procedures appearing to be very strict from the outside
Routes leading to the place are blocked by the police and no vehicle is allowed to enter

The requested plan, including the following headers:
The first vehicle capturing the Hummer at the entrance
The possibility of entering the near rooms in order to capture and kill all inside
The mission of the second vehicle is to enter the rooms
Using 8 or 9 vehicles resembling American vehicles in order to enter
Controlling the first, second and side barriers
Detaining the police and guards at these barriers and bind them
Securing the doors of the observation points and prevent them from observation and interfering to help the Americans
Use a person identified as an interpreter, in each vehicle, to inform the police that the problem is only among Americans
Quietly descend from the vehicles close to the Americans
To immediately kill the armed soldiers
A group of two individuals should advance in order to pull out the soldier from behind the steering wheel

Two individuals should advance to pull out wounded soldiers off the Hummers
Launching of small explosives into attack rooms
Placement of five-minute timers in the Hummers at the entrance (5 kilograms explosives)
Place of two barrels filled with gas and burning oil
Placing a 5 Kilograms explosives with the barrels
Watching the 4 Hummers to stop any movements and shot them with missiles and explosives
Place a sniper to monitor the soldiers of the 4 Hummers.
Placing a group of PKS launchers and sniper to oversee the top of the Headquarters building to stop soldiers

We have agreed to send Abu-Nur and the Head of the Province to the Headquarters to recon the place and then discuss any changes with the first round and the other rounds to cover all the details.

We have met with the Head of al-Hillah and informed him of what is requested of him as follows:
Secure a place for two detainees
Arrange a route free from police procedures at the minimum

Choose a place to take custody of the "secured" and secure protection for that transaction and for the road [TC: the secured refers to the kidnapped people]

He informed us that the coordination with the police is very strong, and that he is in control of them and he is ready to benefit from them

After the return of Abu-Nur, there was another council concerning what he observed, and the problems he wanted us to resolve with respect to security during withdrawal and assuming control over the police. He answered the questions, and asked to go to the location the morning of the next day. We agreed that we need to be sure of the information that he is receiving personally from the brothers….

Meeting with the Head of the area and agreement with him to follow up on the following issues:
Secure places to put the cars while they are being prepared and places for the brothers that will go with them (the execution cars)
Secure a place to turn over custody of the "secured" from the execution cars
Secure a place to disguise the first car to look like American cars
Secure places to keep the detainees
Secure drivers to transport the cars to a secure location after the execution of the operation
Secure places to keep the cars after the execution of the operation, and spread them out. Do not keep them in one location

Reconnaissance mission of area of the Province Headquarters and its surroundings in order to be aware of the latest developments.

Tuesday 16 JAN

Council with Abu-Nur and other concerned individuals after they completed their morning tour of the Province Headquarters. During this council he and the Head of the area completed all the details of the operation, and all roles were assigned, as follows:
Go to Baghdad, and secure the supplies needed by Abu-Nur
Secure 9 Bahbahan vehicles [TC: possibly a GMC Suburban] for the internal work that Abu-Nur is responsible for
Secure the rest of the needs from the Head of the area
Confirm readiness on Wednesday
Do a trial-run to the places that have been decided upon; from the starting position to the gathering point to the Headquarters
Calculate the times at each location
Confirm that the execution is after noon and before dusk
Confirm to start [TC: the mission] from the Head of the Province, who is inside
The presence of engineering in the first vehicles and [TC: meaning of word unclear]
Place barrels filled with gasoline in the way of the four Hummers, and place bombs on the barrels to detonate them
Place time bombs on the Hummers before exiting
Secure a group on the building to shoot any soldier that moves on the roof of the Headquarters
Presence of a sniper on the market side of the Hummers

[Page 7 of 25]

Council with the Head of the area, the Head of the Province, and the Head of operations, in which the roles and duties of each were distributed:
The requests of the Head of the area who is with al-Hillah Province:
Secure a location to take custody of the "secured"
Set up a location in which three cars can be kept after execution
The brothers will relocate the cars to a secure location
Secure more than one location to hold the "secured"
Secure drivers for the four Monicas [TC: slang for a type of truck] and 3 cars
Place bombs on the roads from the base to Karbala' radio base
Secure the support from the radio base

What is requested from the Head of operations and the Head of Karbala' is the following:
Secure a location to receive the nine cars
Secure a guide for the cars to give to the brothers
Secure a place where the brothers can stay
Secure 2 snipers

Secure a group on the building: a launcher/ PKC and a sniper
Secure four groups to cut off the roads
Secure commando uniforms to close up the roads
Secure a place to make the cars look like American cars
Secure four engineers for the interior with the cars
Arrange for placing of a bomb at the entrance of the Headquarters or on the barriers or on both
Monitor the presence by the Head of the province after noon, and in the morning- from inside the Headquarters near the Hummers
Follow up on securing those materials needed for the maneuvers on Thursday- 9 civilian cars
Familiarize the brothers who coming from Baghdad with the Headquarters, and the routes

Conduct a tour surrounding the Headquarters to search for a house that can be used by a sniper in order to shoot the soldiers in the four Hummers – a house was chosen, newly built, and it overlooks the Hummers. We familiarized the concerned brother with it …

There was a lot of movement, during the night, conducted by the Americans – there were varied vehicles moving around for a long time …

I worked on writing important orders for the nine cars, and to the Head of the attack, I printed them and gave two copies of them to the Head of operations to give a copy to the Head of the Province and another set to Abu-Nur, the Head of the attack …

The mission of the first car: (four brothers for the first room- the engineer, and the two who will secure the second room- one driver)

Prepare the car to look like the American cars
Departure will be in the front of the patrol to the Headquarters after all the cars arrive
Proceed – pass the first and second barrier – as close as possible to the door of the Headquarters
Get out of the car, as has been agreed upon, to the door of the first room
After the brothers leave the car, get the car ready for the withdrawal
Break down the door while securing both sides
The other two will proceed from the center of the 'security' to the location of the soldiers
Take control of two soldiers and drag them into the car
Immediately shoot the American soldiers that have weapons
In the case that they cannot be pulled into the car, kill all of the soldiers
The engineer and Nur al-Din will immediately move forward to the second room
Open the door and throw small bombs inside the room
Nur will provide security towards the hallway to the room of the Major General [TC: or the brigade room]
Shoot any Iraqi soldiers if necessary

Throw small bombs in the first room after the group withdraws from it
Throw midsized bombs in both rooms once the brothers withdraw from them
Everyone will withdraw- while Nur al-Din provides security to the car
Make sure everyone is in the car and take off to the entrance of the Headquarters
Be sure that the second car is exited before heading towards the location of handing over the "secured"
Head with the second and third cars to the location where the "secured" will be handed over
Hand over the "secured," receive the cars, and withdraw to the agreed upon locations
Keep in contact with the brothers to make sure they arrived safely
Be sure to remove anything that needs to be removed from the car made to resemble [TC: reference to the car in bullet-point 1 above made to resemble an American car] and keep it in a location that is far from the location of the car
Do not leave any weapons or clothes that will indicate that this is a military car
Wash the car if it has blood in it
Be sure that when the car is transformed into a civilian car it has all the appropriate documentation
Explain the duties of the brothers, of the other cars, the security, the advance, and the withdrawal
Get to know the area and routes of withdrawal
Do a trial-run before carrying out the mission, and familiarize the brothers who are participating in this mission
Calculate the times needed to get from the rally points to the gathering points to the entrance of the Headquarters

The mission of the second car: (2 brothers for shooting- 2 for the first withdrawal, 2 for the second withdrawal- and the driver) [TC: In this context, withdrawal may mean the kidnapping of the targeted soldiers]

Fix up the car and prepare it as agreed upon
Depart after the first car to the Headquarters, after the arrival of all the vehicles
Pass the first and the second barriers, to the closest location near the Hummer with soldiers by the entrance
Two brothers aim at the soldier on the hilltop
Shoot the soldier, using a silencer
If the one with the silencer does not shoot the soldier, then the shooter without a silencer should shoot him
Get out of the car as agreed upon, to the door of the Hummer where the soldier is behind the steering wheel
Open the door of the Hummer and pull the soldier from it, while being secured by the shooters

After pulling the first soldier out of the Hummer, advance to the Hummer and pull out the second soldier
One of the shooters and another brother will pull the second soldier from the Hummer
After the brothers get out of the car, the driver should prepare the car for withdrawal
Shoot any Iraqi soldiers if necessary
Be sure that everyone is in the car and head towards the entrance to the Headquarters
Exit behind the first car then take off to the location where the "secured" will be delivered
Head out with the first and third car to the location where the "secured" will be delivered
Turn over the "secured" and receive the cars, then withdraw to the areas agreed upon
Keep in contact with the brothers to make sure they arrive safely
Be sure to remove anything that needs to be removed and put it in a location that is far from the car
Do not leave any weapons or clothes that will indicate that this is a military car
Wash the car if it has blood in it
Be sure that when the car is transformed to a civilian car it has all the appropriate documentation
Explain the duties of the brothers, of the other cars, of security, advance, and withdrawal
Get to know the area and routes of withdrawal
Do a trial-run before carrying out the mission, and familiarize the brothers who are participating in this mission
Calculate the times needed to get from the rally points to the gathering points to entrance of the Headquarters

The mission of the third car: (three brothers to secure the barriers, three to secure the entrance for the first and second car, the engineer, and the driver)

Fix up the car and prepare it according to the agreement
Advance after the first and second cars towards the Headquarters, only after all cars arrive
Advance past the first and second barriers to the entrance where the first and second car entered
Three mujahidin get out of the car towards the barrier
Arrest the guards and put them inside the Caravan

Prevent any Iraqi soldiers from getting close to the execution area
Three mujahidin will advance towards the location where the police cars are parked, close to the entrance
Arrest the police in the area, and prevent any of them from getting near or interfering
Gather them in an area where they can not affect us, and will not be harmed by the bombs on the Hummers
Place a time bomb inside the outer Hummer or under it, behind the tires
Put a time bomb in the inner Hummer after pulling the soldiers out of it

Throw small bombs at any locations where soldiers might be present if the situation gets dangerous
The driver arranges the car for withdrawal after the brothers exit from it
Shoot any Iraqi soldiers if necessary
Make sure everyone is back in the car before taking off
Exit behind the second car before departing to the area where the "secured" will be handed over
Take off with the first and second cars towards the area where the "secured" will be handed over
Turn over the "secured" and receive the cars, then withdraw to the areas agreed upon
Be sure to remove anything that needs to be removed and put it in a location far away from the car
Do not leave any weapons or clothes that will indicate that this is a military car
Wash the car if it has blood in it
Be sure that when the car is transformed to a civilian car it has all the appropriate documentation
Explain the duties of the brothers, of the other cars, of security, advance, and withdrawal
Get to know the area and routes of withdrawal
Do a trial-run before carrying out the mission, and familiarize the brothers who are participating in this mission
Calculate the times needed to get from the rally points to the gathering points to entrance of the Headquarters

Mission of the fourth car: (two brothers will secure the entrances of the guards; three will secure the location where the police cars are gathered, 1 driver)

Fix up the car and prepare it as agreed
Take off to the Headquarters after the third car and only after all cars arrive
Pass by the first and second barrier to the Province gate [TC: probably a Province building], before the concrete barriers
Get out of the car, from the side of the two guard doors, one brother at each door
Arrest the guards and take them to an appropriate place, and keep an eye on them
Prevent any Iraqi soldiers from getting close to the execution area
Three mujahidin will advance towards where the police cars are parked (in the courtyard)
Arrest the police there and prevent any of them from getting close or interfering
Gather them in an area so that they do not affect us and are not harmed by the bombs in the Hummers
The driver should set up the car for withdrawal after the brothers get out
Shoot any Iraqi soldiers if necessary

Ensure the arrival of all the individuals to the vehicle before driving
Driving after the third vehicle after executing the mission
Informing the fifth vehicle that the mission was executed

Drive with the first, second, and the third vehicle out of the Headquarters, to the separation point
Go to the place where the vehicle will be delivered (the sidewalk of the west bank)
Turning the vehicle, and riding another vehicle, with clothes and weapons, after taking them off
Drive to the chosen house to hide clothes, and weapons
Move to a safe house in the area
Ensure that objects that need to be removed are removed, and are placed in a place away from the car used for the mission
Do not to leave weapons, or clothes that indicate it is a military car
Car must be washed if there is any blood in it
Ensure that the paper work of the car is accurate when you change it to a civilian car
Explain the mission of the brothers, and the other cars, in addition to the methods of security, advance, and retreat
Get familiar with the area, and the method of withdrawal
Carrying out a trial run before the mission, and to know the brothers who are participating
Calculate the time from the exiting place, to the gathering place, to the Headquarters

The duty of the fifth car: (four brothers will secure the entrance, 1 engineer, 1 driver)

Arrange and prepare the vehicle according to the agreement
Drive after the fourth vehicle to the Headquarters, and after the arriving of all vehicles
Move forward from the first barrier to the right toward the al-Tasfirat door at the guard tower
Two brothers will get out of the vehicle and move toward the guard tower
Asking the guards at the tower to get down and arrest them
Arresting the guards, and place them in a suitable place under watch
Prevent any Iraqi soldier to get close to the place of execution
Arranging the vehicle, after the brothers get out of it, and let the driver withdraw
If it is necessary, shoot any Iraqi soldier
Unload 2 barrels at the beginning of the road near the tower
Place a time bomb with the barrels
Shoot the small charges at the barrels, as soon as you see the Hummer moving towards the gathering place
Shoot the Hummer with a rocket, when you see it coming from the tower direction
Ensure that all individuals arrive to the car before moving
Drive after the fourth vehicle after withdrawing from the site
Tell the sixth vehicle to withdraw

Charge, with the first, second, third, and fourth vehicle, out of the Headquarters to the separation point.
Move to the place where the vehicle will be delivered (the sidewalk of the west bank)

Return the vehicle, and use another vehicle with the weapons and clothing, after taking them off
Move towards the house that will be selected to hide the weapons and clothes
Move to a safe house in the area
Ensure that objects that need to be removed are removed, and placed in a place away from the car used for the mission
Do not to leave weapons, or clothes that indicate it is a military car
Car must be washed if there is any blood in it
Ensure that the paper work of the car is accurate when you change it to a civilian car
Explain the mission of the brothers, and the other cars, in addition to the methods of security, advance, and retreat
Get familiar with the area, and the method of withdrawal
Carrying out a trial run before the mission, and to know the brothers who are participating
Calculate the time from the exiting place, to the gathering place, to the Headquarters

The duty of the Sixth car: (four brothers will secure the barrier of the Women's Union, 1 driver)

Arrange and prepare the vehicle according to the agreement
Drive after the fifth vehicle to the Headquarters, and after the arriving of all vehicles
Move forward from the first barrier to the left toward the barrier of the Women's Union
Arresting the guards, and place them in a suitable place under watch
Prevent any Iraqi soldier to get close to the place of execution.
Arranging the vehicle, after the brothers get out of it, and let the driver withdraw
If it is necessary, shoot any Iraqi soldier
Monitor the brothers mission and assist then when requested
Ensure that all individuals arrive to the car before moving
Drive after the fifth vehicle after withdrawing from the site
Tell the seventh vehicle to withdraw
Charge, with the first, second, third, fourth and fifth vehicle, out of the Headquarters to the separation point
Move to the place where the vehicle will be delivered (the road of Qurayt towards al-Khayrat side)
Return the vehicle, and use another vehicle with the weapons and clothing, after taking them off
Move towards the house that will be selected to hide the weapons and clothes
Move to a safe house in the area
Ensure that objects need to be removed are removed, and placed in a place away from the car used for the mission
Do not to leave weapons, or clothes that indicate it is a military car
Car must be washed if there is any blood in it

Ensure that the paper work of the car is accurate when you change it to a civilian car
Explain the mission of the brothers, and the other cars, in addition to the methods of security, advance, and retreat
Get familiar with the area, and the method of withdrawal
Carrying out a trial run before the mission, and to know the brothers who are participating
Calculate the time from the exiting place, to the gathering place, to the Headquarters

The duty of the Seventh car: (four brothers will secure the entrance of the barrier of crimes, 1 driver)

Arrange and prepare the vehicle according to the agreement
Drive after the sixth vehicle to the Headquarters, and after the arriving of all vehicles
Move forward from the first barrier to the second barrier toward the Headquarters of the major crimes
Arresting the guards, and place them in a suitable place under watch
Close gate of crimes and prevent then from exiting
Prevent any soldier or police to get close to the place of execution.
Arranging the vehicle, after the brothers get out of it, and let the driver withdraw
If it is necessary, shoot any Iraqi soldier
Monitor the brothers mission and assist then when requested
Secure the area of the withdrawal of the brothers and the vehicle from inside
Ensure that all individuals arrive to the car before moving
Drive after the sixth vehicle after withdrawing from the site
Tell the eighth vehicle to withdraw
Charge, with the first, second, third, fourth, fifth, and sixth vehicle, out of the Headquarters to the separation point
Move to the place where the vehicle will be delivered (the road of Qurayt towards Al-Khayrat side)
Return the vehicle, and use another vehicle with the weapons and clothing, after taking them off
Move towards the house that will be selected to hide the weapons and clothes
Move to a safe house in the area
Ensure that objects need to be removed are removed, and placed in a place away from the car used for the mission
Do not to leave weapons, or clothes that indicate it is a military car
Car must be washed if there is any blood in it
Ensure that the paper work of the car is accurate when you change it to a civilian car
Explain the mission of the brothers, and the other cars, in addition to the methods of security, advance, and retreat
Get familiar with the area, and the method of withdrawal
Carrying out a trial run before the mission, and to know the brothers who are participating
Calculate the time from the exiting place, to the gathering place, to the Headquarters

The duty of the Eighth car: (four brothers will secure the entrance of the released detainees, 1 driver)

Arrange and prepare the vehicle according to the agreement
Drive after the seventh vehicle to the Headquarters, and after the arriving of all vehicles
Move forward from the first barrier to the headquarters of the released detainees before the second barrier
Arresting the guards, and place them in a suitable place under watch
Close gate of the Headquarters and prevent then from exiting
Prevent any soldier or police to get close to the place of execution.
Arranging the vehicle, after the brothers get out of it, and let the driver withdraw
If it is necessary, shoot any Iraqi soldier
Monitor the brothers mission and assist then when requested
Secure the area of the withdrawal of the brothers and the vehicle from inside
Ensure that all individuals arrive to the car before moving
Drive after the seventh vehicle after withdrawing from the site
Tell the ninth vehicle to withdraw during while exiting
Charge, with the first, second, third, fourth, fifth, sixth and seventh vehicle, out of the Headquarters to the separation point
Move to the place where the vehicle will be delivered (the road of Sayyid Isma'il Al-Najaf)
Return the vehicle, and use another vehicle with the weapons and clothing, after taking them off
Move towards the house that will be selected to hide the weapons and clothes
Move to a safe house in the area
Ensure that objects need to be removed are removed, and placed in a place away from the car used for the mission
Do not to leave weapons, or clothes that indicate it is a military car
Car must be washed if there is any blood in it
Ensure that the paper work of the car is accurate when you change it to a civilian car
Explain the mission of the brothers, and the other cars, in addition to the methods of security, advance, and retreat
Get familiar with the area, and the method of withdrawal
Carrying out a trial run before the mission, and to know the brothers who are participating
Calculate the time from the exiting place, to the gathering place, to the Headquarters

The duty of the ninth car: (four brothers will secure the main entrance of the Headquarters, 1 driver)

Arrange and prepare the vehicle according to the agreement
Drive after the eighth vehicle to the Headquarters, and after the arriving of all vehicles
Move forward from the first barrier

Arresting the guards, and place them in a suitable place under watch
Close gate of the Headquarters and prevent then from exiting
Prevent any soldier or police to get close to the place of execution.
Arranging the vehicle, after the brothers get out of it, and let the driver withdraw
If it is necessary, shoot any Iraqi soldier
Monitor the brothers mission and assist then when requested
Secure the area of the withdrawal of the brothers and the vehicle from inside
Ensure that all individuals arrive to the car before moving
Drive after the eighth vehicle after withdrawing from the site
Tell the ninth vehicle to withdraw during while exiting
Charge, with the first, second, third, fourth, fifth, sixth, seventh and eighth vehicle, out of the Headquarters to the separation point
Move to the place where the vehicle will be delivered (the road of Sayyid Isma'il Al-Najaf)
Return the vehicle, and use another vehicle with the weapons and clothing, after taking them off
Move towards the house that will be selected to hide the weapons and clothes
Move to a safe house in the area
Ensure that objects need to be removed are removed, and placed in a place away from the car used for the mission
Do not to leave weapons, or clothes that indicate it is a military car
Car must be washed if there is any blood in it
Ensure that the paper work of the car is accurate when you change it to a civilian car
Explain the mission of the brothers, and the other cars, in addition to the methods of security, advance, and retreat
Get familiar with the area, and the method of withdrawal
Carrying out a trial run before the mission, and to know the brothers who are participating
Calculate the time from the exiting place, to the gathering place, to the Headquarters

The duties of the Head of attacks, Abu-Nur

Secure missions' supplies to include cars, weapons, ammunition and clothes
Ensure the readiness of cars for the mission and assign a group for each car
Ensure the readiness of weapons and ammunition required for each car
Explain the mission of each group in detail and assign a commander for each group
Explain the mission of the operation and all the groups to everyone
Ensure that regulations agreed on [TC: rules of engagement]. Do not commit firing until ordered to or when it is necessary
Inform the brother of the gathering points, work place and withdrawal routes
Explain the mission designed process to the brothers (to clarify the mission when they hear the explosions)

Explain the written tasks for each vehicle and group
Train the brothers in the first vehicle on entering and securing the room
Train the brothers of the 2nd vehicle on attacking the soldiers, pulling them out of the vehicle, securing it and shooting at the soldier manning the PKT
Insure vehicles spread out to their appropriate positions, making use of cover, not revealing the body in all directions, and taking cover behind anything possible
Ensure driver doesn't leave the vehicle and keep the vehicle running
Ensure vehicles withdraw from the Headquarters, in the proper sequence
Every vehicle needs to follow the vehicle behind it when withdrawing
Every vehicle that gets ahead of the vehicle behind it, needs to wait until the following vehicle catches up
Focus on the 1st, 2nd, and 3rd vehicles - all need to withdraw quickly from the Headquarters
Resolve problems with the last 6 vehicles, without involving the first three, after withdrawal.
Any soldier moving on roof tops will be shot at by the group assigned to the buildings (PKC machine gun, sniper..)
Soldiers in the four Hummers will be shot by a sniper in the central market area
Charges will be placed on the withdrawal route, and timed bombs will be placed on the Hummers at the Headquarters
Report any of our injured so they may be treated quickly
Do not leave any martyred or wounded inside the Headquarters
Place obstacles during the withdrawal from the Headquarters, so they won't catch up with us. (Close the barriers with chains if possible, and place "dummies" on the road...)

Wednesday 17 JAN

Follow up on the brothers' arrival from Baghdad to Karbala', with the vehicles, and secure a place for them in the morning.

Meeting with the Head of Karbala' and we agreed we will meet today with Abu-Nur, when he arrives, to utilize the time. He said the brothers have arrived, except 8 of them. A place for them to stay was secured at hotels, and the vehicles were parked.

The follow-up for obtaining 2 mobile phones for the explosive charges, and we agreed he would get them on Thursday afternoon, while coming here with their equipment and training the brothers on it, as they will use it for the first time in the central region.

A meeting with the Head of the area, the Head of al-Hillah, and we were briefed about the operations they conducted, as agreed to yesterday. Readiness was apparent on all tasks required of them, they informed us of their readiness for mission execution, and supported conducting the operation Friday afternoon, due to relaxed conditions at check points and procedures, especially in Karbala', Thursday after noon and Friday morning until the afternoon prayers, and being exhausted from procedures there.

A meeting with Abu-Nur, the Head of the Province, the Head of Operations, the Head of engineering and the Head of Attacks and I distributed the missions after it was printed for each vehicle. I explained to them all unlearned missions , and we have agreed from this night to start explaining the tasks to all the brothers, after assigning the groups to vehicles.

Abu-Nur briefed on his latest findings, he is ready as he informed us. There was one vehicle of the nine vehicles did not come along with him. We agreed to secure a vehicle from the area. The problem was about the following issues:

There was no place set up for all the brothers who were participating in the raid
There were no places set up for all the brothers to change clothes, before taking off
Roads were not secured for the brothers to the rally point away from the checkpoints
Weapons were not downloaded from the vehicle and it will take a long time and that will effect the mission execution time

As a result, a sharp discussion took place and placing responsibility on the Heads of operations and Karbala', for their shortcomings and we agreed on the following:

Set up sessions for the brothers in two groups, beginning in the early morning
Distribute the brothers amongst the vehicles, starting tonight
Gather all the individuals together for a session based on attacks and securing the cranes
Delay unloading the weapons until the next morning
Secure a route to transport the brothers by a Boleman [TC: VW Van] in order for them to get dressed during the trip
Try to secure a place in order to train the brothers on how to advance to vehicle and soldiers
Try to secure a closer place for gathering while taking heed of check points
Carryout an exercise for tomorrow's attack and delay the main exercise until Friday morning

The session ended so Abu-Nur and the Head of Karbala' could go meet with the brothers and assign them to a car. I tried to calm the situation with some good words. It ended well, everyone was pleased, we agreed to have patience, and to handle the problem calmly, as well as to overcome the problems with patience. If God so wills for this matter to happen or not, because the issue reached a level that it was going to be announced not to be executed. All of that was based on discussion and pressure and the exchange of accusations between the groups…

Thereafter, I wrote the missions for the group responsible for the buildings and the snipers, and then passed it to the Head of Operations. Explained anything that was not clear to him and we agreed that he would explain it to the groups.

The mission of the group responsible for the building (Brothers, 1- launcher, 1- PKS, 1-Sniper, 1-Driver, and a Group leader)

Receive the appropriate clothing for the mission
Receive the special weapon for each Mujahid

Clean the weapon and clean the ammunition
Each Mujahid must be familiar with the mission from the beginning through the execution and to the withdrawal
Be familiar with the mission area and the method needed to execute the mission and how to climb the building
be able to head to the nearest place to the building upon notification of readiness
Shooters should be able to climb the building while the Bahbahanat [TC: Suburban vehicles similar to American vehicles] entering the Headquarters
Set up at the highest position on the building upon notification of readiness
Monitoring the top of the buildings inside the Headquarters to stop movements of any armed individuals
Shoot any anyone carrying weapon and imposing danger on the brothers inside the Headquarters
Shoot small burst of ammunition and walking in fire to hit the target
Do not shoot the launcher accept on a soldier who is protected behind a wall or similar object
Shoot directly at any American soldier seen only at the top of the building
Do not shoot at any soldier on the street inside the Headquarters regardless of the reason
Do not withdraw before you receive notification orders or seen the withdrawal of all the Bahbhanat from the Headquarters
Withdraw according to the agreed upon plan and location

The mission of the sniper (Brothers, 1-Sniper, 1-Driver, 1-Security and a Group leader)

Receive the weapons for each Mujahid
Clean the weapon and clean the ammunition
Be familiar with the mission in details from the beginning through the execution and to the withdrawal
Be familiar with the mission area and the method needed to execute the mission and how to climb the building
Be able to head to the nearest place to the building upon notification of readiness
Be able to climb the building while the Bahbahanat [TC: Suburban vehicles similar to American vehicles] entering the Headquarters
Set up at the highest position on the building to monitor the Hummers located inside the prison perimeter
Monitoring the top of the buildings inside the Headquarters to stop movements of any armed individuals if possible

Shoot directly at any American soldier seen from the building at the Tasfirat
Do not shoot at any soldier on the street outside the Hummers area regardless of the reason
Shoot around the Hummers even if you don't see any soldier
Start shooting after ordered or after acknowledging the start of the main mission
Stay in the location as long as possible or after seeing the withdrawal of all the Bahbahanat from the Headquarters
It is crucial to shoot towards the Hummers and the soldiers to stop them from exiting the location and keep them occupied for the longest period possible
Withdrawal from the building after completing the mission
Conduct the withdrawal plan as agreed on prior to the mission

Thursday 18 – 1

A meeting was conducted with the monitor of Karbala' and requested of him to follow up with the brothers because of the problems taking place and their disability of following up by the administrators and organize the situation…the teams…and the equipment….

Contacting the Head of the area and request his present as soon as possible regarding the recurring problems with Abu-Nur…..

A tour was conducted to select a place to train the brothers on the two vehicles responsible for capturing soldiers from the Hummers and from the rooms in Karbala'…..

A session with the Head of the Area, he informed me that all problems were resolved. Abu-Nur, the Head of Karbala' and the monitor came and discussed all the downfalls that lead to all the problems. A detailed presentation was given and we agreed on direct follow-up by the Head of the Area and secure the deficiencies that accrued. These securities are as followed:

Secure the location to maintain cars after the mission
Distribute uniforms and weapons at night specially for the brothers located in the houses
How to transport the brothers from Karbala' after the mission
How the brothers from Karbala' will transport the vehicles after the mission
Secure the route of withdrawal and changing it from the advancing one
Ensure that the commander forces are not able to detect the route of withdrawal
Hide the vehicles after changing them into civilian ones after the mission

The training for the brothers was delayed from night time until dawn of the next morning. Only the teams from the first and second vehicles must attend.

A follow-up was conducted to secure places for the aforementioned addresses of the brothers and that was very difficult …

Friday 19 JAN

Training the brothers of the two vehicles at the Husayniyah district inside of Karbala'. The group of the first vehicle, including Abu-Nur, was trained in the morning in the following subjects: (Five brothers, one engineer and one driver)

Exiting the vehicle in a beneficial order based on the mission
Advancing to the target, which is the first and second rooms
The first will be Nur, who will secure the second door for the group
After that, Abu-Nur and three others will enter the first room
One will open the door and the other one will enter to secure the right side of the room
The other person will enter from the left side to secure it
Two brother who are responsible for attacking the soldiers will enter under the security of other two brothers
Pull-out the soldiers from the room quickly and transport them to their allocated vehicles

The engineer brother in the rear and the sixth one in the group will advance to the door of the second room.
Open the door and launch small explosives 91 Kilogram) prepared previously
Nur who is advancing of the group will secure the left path towards the room of the Major General
After the withdrawal of the capturing group from the first room 2 kilograms medium size explosives will be launched into each room
A quick withdrawal will be conducted from the place. Nur will be the last one to withdraw after providing security to all personnel during the withdrawal

After that, the brothers of the second vehicle were trained as followed (2 armed soldiers, 2 drivers, and 1 inside the Hummer)

Distribute personnel on the vehicles based on their missions
The process of exiting the vehicle based on the order of the mission
The possibility of advancing 2 brothers to the parked Hummer to shoot the soldier standing on the PKT (Weapon)
The first one will climb on the hood of the engine of the vehicle to shoot the soldier from a higher location because of his protective position
The second brother will advance towards the door. He will shoot the door after it was shot by the first brother
Two will advance to the front door to open it and pull the soldier behind the wheel. It is possible this soldier might be a woman
The third will advance to the rear door towards the same direction to pull-out the soldier who was shot
The second brother who shot the soldier will advance to assist the third one pull-out the soldier
The first one will provide security for all personnel

Soldiers will be pulled to the vehicle and all will withdraw based on the mission mentioned previously

We have agreed for the brother to provide 2 small explosives in case we find the door to be shot by the driver to launch them from above into the Hummer in order to open the door

A session with Abu-Nur and the Head of the Area to resolve the shortcomings presented on the plan. Vehicles were secured, negative issues were resolved, and all requests were written in order to secure them.

Follow up on the readiness of the brothers and the vehicles to the start of the mission, for the purpose of moving to the place of execution at 2 pm

The execution did not take place today because the brothers did not depart from the execution place and were not ready …

The reasons the brothers were not there
The loss of two vehicles and we did identify their locations
Lack of control of the large number and lack of distributing them to their assigned vehicles
Lack of distributing uniforms to all personnel
Lack of securing uniforms for each individual
A few of the brothers informed others of their lack of desire to carry out the mission, minutes before execution
Lack of fuel for all of the vehicles
Loss of control of vehicles and personnel
Lack of vehicles to transport individuals from their locations to the rally point

Not providing enough individuals and guides to follow-up the transportation of the brothers from outside the Province

There are many problems that I didn't mention because of the lack of the presence of good administration on the part of those concerned and their lack of adherence to that which was agreed upon with them . . .

We informed them that there is no objection to delaying execution until tomorrow because of the arguments that occurred and the problems and shortcomings in ensuring the needs and following up on completion of readiness and consider it as a maneuver for execution until the end

I agree with the Head of the area about going to Abu-Nur and meeting him and discussing his observations in order to correct them [TC: the problems]

He will call for a meeting with the Karbala' committee and will inform them that all issues will be followed up with him and the observer,. No one is allowed to contact Nur or the Head of Karbala' concerning any thing. Tasks were assigned to them

Meeting of the Head of the area and the observer and his question on what occurred according to the agreement and he informed me that he agreed with them on what was agreed upon before and assigned tasks. He informed them not to communicate except with him and the observer, according to the agreement because of the inability to follow up on the readiness of the brothers, from outside, and who are the essential participants for the action on the inside . . .

Saturday 20 JAN 2007

Follow-up in the morning on the brothers' readiness and there was one vehicle we did not know its location. They informed us that a force of raiders consisting of 25 cars with approximately 100 soldiers and one officer arrived in the Province and then dispersed. We did not really know why they came.

We followed up on the readiness of the brothers and we requested them to begin departing at 2:30 in the afternoon

At three o'clock they informed us that this force withdrew from the Headquarters to the place of the raiders on the road. We have followed up on its departure direction and to measure its effects on our mission and the withdrawal

We confirmed the necessity of speeding-up the readiness and the movements of all groups to their locations according to the agreement and the brothers into the cars to the rally point to depart to the Headquarters

At four o'clock the brothers moved to the street to follow up on the groups work and we departed from Karbala'

The brothers were late entering the Headquarters according to the agreement until 5:50. The lights inside the Headquarters and the governor's building were our only help in seeing around. The mission was delayed because of the lack of readiness in meeting the timelines as agreed

The brothers entered and executed as agreed in details then departed according to the plan. They left according to the plan.

We were following the results of the action while we were on the road from Karbala'.

After a time, they informed us they had captured 9 soldiers and confirmed the news after our repeated inquiries.
We confirmed the withdrawal of all the brothers safely and all the brothers were moved from Karbala' according to the plan

We followed up on the condition of the detainees and we agreed to move some of them to another location starting tomorrow

At that time we tried to communicate with concerned leadership but we did not succeed, although we tried many times with all means and with all officials in order to inform them and the necessity of taking precautionary measures after the end of the action the capture . . . .

At 11:30 they informed us that there was fighting in the area where the detainees were hidden. We contacted the Head of al-Hillah and he informed us it is possible that the detainees were taken by the Americans with the help of mercenaries. The number of detainees were four . . .
We stayed the whole night following up on the matter without positive results . . .

Sunday, 21 JAN 2007

Following up on the results of conflicts with the brothers in al-Hillah who had the detainees and we have learned that they have left the Monicas [TC: Suburban like vehicles) after they got lost on the road and the police chased them and three of the detainees were injured on the road and died. One other didn't die but the brothers shot him before leaving the car.

Communicating with Sheikh Qays and agreement to meet with him tomorrow in the presence of the Head of the Central , al-Hillah and Karbala', if possible.

Monday 22 JAN 2007

Meeting with Sheikh Qays after his arrival and we informed him about what happened in Karbala' up until our arrival at 4 o'clock and our follow-up to the missing detainees and we agreed to wait for the arrival of the Head of the area and al-Hillah.

Arrival of the brothers and they explained to us what occurred after the delivery [TC: of the detainees] was as follows:

Reception by the brothers of the four detainees according to the agree upon plan
The departure to the hiding place of the detainees according to the agreement between them and the Head of the area
Hearing of report about vehicles departed from Karbala' to al-Hillah on the device belonging to individuals who received the secure [TC: possibly the detainees]

The brothers are going in three GMCs behind the detainees in the same direction and this conflicts with the plan
Loss of one of the brothers in the hostage convoy on the road which led to the delay of the convoy getting the police's attention
The police chased them on the dirt road that was agree upon for the detainees
Engagements with the police in more than one place
Loss of the brothers and they didn't know what they should do
The number of the brothers was approximately 30 Mujahidin who weren't concerned about keeping the detainees but how to withdraw safely

Killing of the soldier still alive and the withdrawal of all members from the place, walking for a distance of approx. 25 kilometers and leaving the detainees and the vehicles
Arrival of the police to the detainees and taking them with three GMCs and three Monicas
Raid of the house where two GMCs were parked and a civilian from the house was detained who was released later after he confessed on the person who parked the two GMCs at his place

After this discussion, the Sheikh spoke and the person responsible for al- Nasiriyah and the person responsible for the Central about the reasons that led to that and why they didn't try hard to keep the detainees.
I discussed the same subjects with the brothers and asked them questions which they understood in a negative way and then we ended the discussion …

It was clear that the brothers were very afraid and their main concern was to withdraw from the place safely with the many alternatives that they didn't consider such as taking the soldier still alive with them . . . or leaving one vehicle with the detainees and pulling the other one. . . and some engaging the police and the others withdrawing with the detainees . . . throwing the detainees out of the cars to the ground and especially because it was a dark night and it was impossible to find them . . . throwing the corpse on the same road and especially because the road is narrow to delay the police in chasing the brothers . . . however what happened - happened, and we should learn from this . . .

After it, the Head of for The Central explained what happened inside the Headquarters, which was:

The brothers entered the Headquarters at 5:55
The killing of the soldier manning the PKT and the pulling of the driver-soldier after his attempt to escape in the direction of the room
The brothers entered the two rooms and shooting the soldiers inside
The wall between the rooms was made of wood
Throwing of all the explosives into the small and mid-size rooms
Taking of the two soldiers from the rooms
Placing of the five-minute time-bombs on the Hummers outside and they exploded

Placing of the barrels and five-minute time-bomb and they exploded on the entry control point [TC: gates] of the prison
Staying inside the Headquarters for approximately five minutes and the barrel-bomb exploded during exiting
Withdrawal of all the brothers from Karbala' without obstacles
The sniper wasn't able to shoot because of the darkness
We didn't shoot the building because there was no need
Closing of the roads to the Headquarters according to the agreement and their withdrawal after the end
There were three detainees, two wounded and one healthy

After that, we regretted depending on al-Hillah more than we should have, however, regretting is not beneficial …

The brothers spoke about the achievement and its echo on the enemy and friend and the rumors that this mission was carried out by the Revolutionary Guard because of the kidnapping of the Iranian detainees held by the Americans . . .

Chart for the duty assignment of individuals

Vehicles	No. of Persons	Mission	Specialty	Notes
First	7	Capturing from the rooms	Infantry and Engineering	Attacking on two rooms and capturing from the first
Second	6	Capturing from the Hummer	Infantry	Presence of 2 armed soldiers in the Hummer and behind the steering wheel
Third	8	Securing from 2 directions	Infantry and Engineering	Securing entrance of HQ, for securing area and governor's room
Fourth	6	Securing from 2 directions	Infantry	Securing from side of national guard and the yard
Fifth	6	Securing the entrance	Infantry and Engineering	Preventing the Hummers from advancing to assist the

				attackers
Sixth	5	Securing the roll down gate	Infantry	Securing the left roll down gate
Seventh	5	Securing the roll down gate for criminals	Infantry	Securing the roll down gate and major crimes
Eighth	6	Securing	Infantry	Received the responsibility for the main gate mission, due to the Ninth vehicle not arriving
Ninth	6	Securing the entrance roll down gate	Infantry	Did not arrive
The Building	5	Securing the roof tops	Launcher PKS Sniper	Shooting at any soldier moving on the building tops
The Sniper	4	Shooting the prison guard	Sniper	Shooting at the soldiers at the four Hummers of the prison
Parcels	5	Parcels from Tawarij	Commandos	Stopping vehicles after the GMC Suburban's enter
Parcels	4	Parcels from Karbala'	Commandos	Stopping vehicles after the GMC Suburban's enter
Parcels	4	Parcels from inside	Commandos	Stopping vehicles after the GMC Suburban's enter
Transportation	2	Transport to vehicles	Infantry	Transporting before and after the mission to

				the GMC's
Transportation	2	Transport to vehicles	Infantry	Transporting before and after the mission to the GMC's
Transportation	2	Transport to vehicles	Infantry	Transporting before and after the mission to the GMC's
Transportation	2	Transport to vehicles	Infantry	Transporting before and after the mission to the GMC's
Receiving	4	Transport the detainees to the hideout	Infantry	Receiving the detainees from the GMC's and then transporting them in the Monica's to al-Hillah
Receiving	4	Transport the detainees to the hideout	Infantry	Transport the detainees to two locations
Receiving	4	Transport the detainees to the hideout	Infantry	[Empty]
Supplies	2	Cutting off Supplies	Engineering	Blow up any one following from Karbala'
Supplies	2	Cutting off Supplies	Engineering	Blow up any vehicle from al-Saddah
Supplies	2	Cutting off Supplies	Engineering	Using any vehicle to blow up the site in al-Hillah
Supplies	2	Cutting off Supplies	Engineering	Using any vehicle to blow up the site in al-Hillah

In addition to the brothers following up on the vehicles from Karbala' receiving … hiding … the Area and Province operation committee … transport the equipment and uniforms after work

General headings about our forces, the enemy, and the police

The time to prepare and execute the attack from 1 JAN 2007 to 20 JAN 2007; 20 days
The American attacking forces consists of 18 to 24 soldiers and one officer
The are 7 Hummers and one with a trailer available during the mission
There were three detainees wounded and one healthy soldier
Nine were killed inside the rooms and two were wounded
The four detainees were killed prior to leaving them and withdrawing
Bring 2 laptop computers
Bring case [TC: possibly for the laptops]
Bring weapons and pistols
Explode 2 timed bomb on a Hummer
Launch 5, 1-Kilogram and 2 2-Kilogram explosives into the rooms
Select the explosives base on only harming those in close proximity
Explode a 5-Kilogram time-bomb with two barrels filled with fuel and burning oil
Remain inside the headquarters for five minutes
Eight GMC's entered
It takes 25 minutes to go from the rally point to the target
All the brothers did not wear American clothing. The first, second and third vehicles were the most important
Do not injure any of the brothers during the work
We controlled five pull down gates and arrested those who were manning them
The withdrawal route was the same as the route of entry
One of the vehicles was delayed withdrawing from the headquarters
During the withdrawal, a time bomb exploded near one of our vehicles
Our engineering brother was impacted by the 2-Kilogram explosive after he shot it into the room
The four Hummers were not hit with explosives because of the presence of the police and civilians
Ensuring not to injure any of the police and the national guard, except if necessary
Do not injure any police and Iraqi's
Conduct a trial run to show the mission and calculate the readiness timeline
