CPATT IPLO DAILY SITREP

July 9, 2006

Baghdad (MND-B) [redacted] (b)(3), (b)(6)

Baghdad [redacted] (b)(3), (b)(6)

(BC0043) Al Muthana Local Police Station: Al Muthana has a new assistant commander, Major [redacted] (b)(6), (b)(6)c who was working at Al Rashad Local Police Station. There are 17 detainees in the Detention cell. A twelve year old boy has been held for eight days now with the reason given as 'faulty paperwork'. The boy was arrested for stealing a cell phone. The Team advised the Colonel that the boy must not spend another day at A Muthana. Colonel [redacted] (b)(6), (b)(6)c assured the Team he would try taking him to Rusafa again. Another inmate has been moved from station to station since 2004. The Team plans to follow up on this inmate and the circumstances for his detainment. Two new pickup trucks arrived and are assigned to this station.

(BC0057) Al Salaam Local Police Station: The station commander did not have any major incidents to report. The station is experiencing maintenance issues with three of their six vehicles. The station also has no available fuel and the fuel tanks recently installed are not functional. There is an ongoing issue concerning ammunition. The station records and the actual number of 9mm rounds on hand do not match. The Team discussed the problem with the LTC, and he decided to conduct an audit, which will be completed in the next few days.

(BC0062) Al Suleikh Local Police Station: The Team arrived on station and visited the detention area. There are 18 inmates housed. Compared to other facilities in the Baghdad area, this station surpasses them all. The jail personnel have a good grasp of humane treatment of the inmates. All prisoners have seen the judge. LTC [redacted] (b)(6), (b)(6)c reported that his driver was wounded yesterday by an IED that was set in the middle of the road. It happened on the bridge east of the station about 500 meters. He also reports of many incidents of neighborhood fights in the past week. The population base for this station is 1,000,0000, 75% unemployment, with an average income of $150 a month.

(BC0064) Al Taji Local Police Station: The Team set up the Joint Command and Control room. Four desks and four chairs were placed in the room (IP, IHP, IA and US Army personnel, who will be assigned to the room). A large map, dry erase board, two lamps, three trays and an easel were also placed in the room. The room was cleaned and then secured by the Team. A joint checkpoint was conducted on one of the Taji neighborhood streets. Two IP vehicles with ten IPs set up the CP. Barricades and traffic cones were used to stop traffic. A total of ten vehicles came through with no incidents. A short foot patrol was also conducted, encouraging IPs to develop their community policing skills.

(BC0089) Belet Al Shuhadaa Local Police Station: The Team learned that IPs were providing security for a local mosque and were shot at by unknown subjects. The Police Station also had shots directed at it. The station commander did receive minor injuries to his should from possible shrapnel from one of the rounds. No further information available.

(BC0096) Karada Miriam Local Police Station: KMPS will have its first female IP assigned to the station on Saturday. The Staff has been asking for a female for the last several months to help with the occasional female victim, searching females on visitation day, and handling the occasional female suspect. Fifteen students were trained in Defensive Tactics.

CPATT IPLO DAILY SITREP

(BC0093) Hy Al Amil Local Police Station: The Team continued their in-service training program for five IPs. The trainees were required to review what was learned from the last class. Topics covered in today's training included: person searches, contact cover, ethics, first aid, and bound/overwatch. In addition, seven other IPs were instructed on the proper method of taking pictures of a dead body and how to look for evidence on a dead body. Joint training is conducted with Hy Al Amil Patrol.

(BC0090) Boob Al Sham Local Police Station: Colonel [redacted] (b)(6), (b)(7)c reported a double homicide in the district. The victims were brothers, killed in a drive-by shooting. The murders are still under investigation. The Colonel discussed the fuel situation and advised the Team that repairs had been made to the tanks. The Team inspected and observed the repairs. The Colonel advised that MOI informed him that he would be receiving several new patrol vehicles in the next few weeks.

(BC0099) Al Madaein Local Police HQ: Colonel [redacted] (b)(6), (b)(7)c advised the Team that they were picking up seven vehicles. The Team advised the Colonel that there should be no less than 20 IPs at the new HQ at any given time. Colonel [redacted] (b)(6), (b)(7)c called the old HQ and ordered 14 IPs to report to the new HQ.

(BC0123) South Karkh Tafffic Police Station: BG [redacted] (b)(6), (b)(7)c agreed to bring 5 new traffic personnel over to work in the IZ. A special event sponsored by the British Government was held at the NATO building at the parade grounds in the IZ. Numerous heads of all Coalition governments were in attendance along with the new Iraqi Government officials. Extra traffic officers and IPs were brought in for this event to provide security.

An Najaf [redacted] (b)(3), (b)(6)

The Najaf PTT-P traveled to the Iman Ali Academy and upon arrival met with the Academy Director, Captain [redacted] (b)(6), (b)(7)c. The in-session July 2nd, 10 week Academy Course was discussed and Captain [redacted] (b)(6), (b)(7)c briefed on its progress. Also discuss was weapons range training for some of the Academy personnel and training dates were established. Director [redacted] (b)(6), (b)(7)c gave a tour of the Academy to visiting CF personnel.

Karbala [redacted] (b)(3), (b)(6)

No station visits were conducted.

Babil [redacted] (b)(3), (b)(6)

(BB0500) Babylon Police Academy: The Team attended Train the Trainer graduation on July 6th at the Babylon Police Academy. The graduating class was comprised of 32 officers from the rank of 2LT to Major. General [redacted] (b)(6), (b)(7)c and Colonel [redacted] (b)(6), (b)(7)c presented the graduates with certificates of completion from the Academy. MSG [redacted] (b)(6), (b)(7)c also presented the graduates with certificates of completion and a training packet of two discs containing a Training Officer Letter and various lesson plans from the Train the Trainer curriculum.

The Team met to discuss strategies on the production and creation of the Critical Incident Management and Control Drill. This course is top priority due to the deadline established by the Commander.

CPATT IPLO DAILY SITREP

Tikrit (MND-N) [redacted] (b)(3), (b)(6)

Diyala [redacted] (b)(3), (b)(6)

No station visits were conducted.

Salah Ad Din [redacted] (b)(3), (b)(6)

(TA0080) Salah Ad Din Provincial Police Headquarters: PTT surveyed various provincial assets with a team from CPATT. The element traveled to the PJCC to understand how information passes into and out of the facility. The group talked with the shift supervisor primarily since most departments were off for the weekend. The operations center appeared to be operating properly. The only critical issue mentioned was some of the command staff has not been paid sine the CF contract expired. CF agreed to look into the issue when they returned to Baghdad.

The element also visited the Provincial maintenance facility. Many issues arose including the need for training on how to repair American made vehicles and the need for tools and computer diagnostic equipment. The CPATT team assured the mechanics the inbound vehicles will arrive with maintenance manuals. PTT will try to purchase tools and computer diagnostic equipment.

The element then visited the Provincial Jail. During the visit, the jail staff was conducting an inspection/inventory of all the prisoners' possessions due to a tip that some prisoners had cell phones and sharp objects. While the IPs inventoried the contents of the prisoners' bags, some prisoners were allowed to watch to testify nothing was stolen by the IPs. Prior to the team's departure, a handmade razor blade was discovered. The IPs presented this discovery to the CF present.

The element ended the trip with a visit to Remagen BDFF. The team toured the detention facility. PTT also presented the CPATT team with the BCT plan to construct a training center on FOB Remagen.

(TA0064) Bayji District Police Headquarters: PTT went to the Bayji District HQ for the pupose of checking on the status of patrols in the area. LTC [redacted] stated he would like to get one or more of his personnel trained in EOD as the support he receives form the IA has not been sufficent in the location and desposial of IEDs. LTC [redacted] feels that if he had the trained men and equipment he would not need the support from the IA or CF to dispose of IEDs when found. LTC [redacted] further stated that there is a lack of information transfer between the IP and IA. LTC [redacted] was asked if additional training was needed for the spike strips. LTC [redacted] did not feel additional training was needed and that the strips had been given to his logistics officer for issue to LTC J[redacted] (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c

PTT spoke with MAJ [redacted] who was asked how the weapons exchange at Al Musafi and Makhul was progressing. MAJ [redacted] stated that most of the pistols had been exchanged and currently there are five pistols in Makhul that need exchanged and four or five at Al Musafi. (b)(6), (b)(7)c (b)(6), (b)(7)c

(TA0084) Samarra District Police Headquarters: PTT met with MAJ [redacted], CPT [redacted], and CPT [redacted] of the Major Crimes Unit. MAJ [redacted] complained that they did not have enough room for all the detainees they have been taking and that they do not have enough IP to help them for all the work they have. He stated that they have many (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c

warrants issued by the judge that they have not yet been able to serve due to the lack of personnel. PTT discussed with Major [redacted] the creation of a warrant squad that will specifically target those offenders. Major [redacted] stated that the creation of a special team would be a wonderful idea and that he would only need 30 IPs and two officers for this team.

PTT spoke with the officer being cultivated to run the apprehension unit who was very happy for the opportunity. He stated that he would make a list of 30 IPs that he trusts to be considered for the unit. He also stated that he would provide that list to the team ASAP so that we could approach LTC [redacted] and get permission to start the unit.

MAJ [redacted] stated that he was visited by the City Council President today. The CCP came into his office demanding to know how many IP and how many officers he has working for the MCU. Immediately after receiving this information the CCP demanded that the MCU release one of their detainees; a tribe member of the CCP. The detainee in question was arrested by the IP for threatening the life of an IP several days ago. MAJ [redacted] refused to release the detainee and told the CCP that the only person that can order the release of a detainee is the judge. The CCP then left his office. Major [redacted] stated that the he is bothered by the CCPs actions of trying to get him to release detainees without judicial approval.

PTT met with LTC [redacted] and CPT [redacted] of the QRF Battalion. The purpose of the meeting was to discuss their lack of supervision concerning several IPs not coming be work. PTT showed LTC [redacted] and CPT [redacted] the names of IPs who have not showed up for work. After reviewing their paperwork, it was determined that at least 45 have not showed up for work yet they were still receiving their salary. LTC [redacted] and CPT [redacted] are afraid to reprimand any of the IPs because most of them are from the Al Jobori tribe; General [redacted] tribe. PTT is going to follow up with LTC [redacted] and ensure that they request termination for any IP that has not shown up for work for more than 5 days, as required by departmental policy.

(TA0056) Balad District Police Headquarters: PTT visited the Cattle Market and T14 check points last night beginning at 2030 Hrs. Training classes were given on vehicle searches, searches of persons and rules of engagement to all officers at both check points while US Army patrol controlled the check points for the IPs.

PTT went out on an early morning patrol and visited the T-10 and Girls School check-points. In addition, they gave a class on vehicle/occupants search and also instruction on the rules of engagement.

At the Girls school CP the IP advised that they have been shot at by persons unknown who were hiding in the orchards and using weapons with laser sights.

(TA0022) Al Ishaki Local Police Station: PTT visited IP station Al Ishaki and met with Chief [redacted]. The recent event of the PTT catching the IPs at this station asleep was discussed and Chief [redacted] advised that the Officers involved would be reprimanded for their actions. PTT also met with a Major who was working as an investigator at the station who discussed his way of investigating crimes and how the station responds to a crime. The Major advised that his investigators needed help and training in the areas of conducting general investigations and crime scene investigations. The Major also advised that the lack of fuel hindered his ability to get out and do his investigations since he could not use a vehicle.

CPATT IPLO DAILY SITREP

(No FFID#) Al Ishaki Checkpoint Station: PTT proceeded to the Al Ishaki checkpoint (India 1), meet with Officers and delivered two cases of AK-47 ammo. The Officers complained to the PTT members that their night vision was not working. Team members advised that the issue would be addressed upon their next visit.

At Tamim [redacted] (b)(3), (b)(6)

No station visits were conducted.

Mosul (MND-N) [redacted] (b)(3), (b)(6)

Ninewah [redacted] (b)(3), (b)(6)

(MN0056) Ninewah Provincial Police Headquarters: General [redacted] (b)(6), (b)(7)c was in meeting all day with coalition forces and members of tribes in the area. The PTT-P spoke with him briefly about issues with personnel. The PDOP agreed to have investigators look into the matter. At this time the information in not being released until the investigation is completed. The PDOP was also involved with the PTT team in giving away a wheel chair to one of the IPs sons who can not walk.

The PTT met with Lieutenant Colonel [redacted] (b)(6), (b)(7)c in the jail at One West. There are a total of 242 prisoners, 239 currently in the jail and three at the hospital. The team did an inspection of the jail and found the rooms to be warm; they currently have fans and two air conditions, but the jail needs four more to put one in each room. The staff indicated they would request the fans from Logistics.

PTT Logistic members met with COL [redacted] (b)(6), (b)(7)c today to get the actual count on all of the radios in the communications section for the monthly PSMR. The Colonel stated that he is having minor problems programming the radios and a problem with one of the repeaters.

(MN0018) Al Nasir District Police Headquarters: PTT met with LTC [redacted] (b)(6), (b)(7)c and LTC [redacted] (b)(6), (b)(7)c. The primary topic of the discussion was re-implementation of the previously agreed to, daily in-service training schedule. This again will be based on a train-the-trainer concept to insure sustainability for the IP, with two IP from each station within the district attending. At this time, training will focus on force protection areas and investigation/intelligence gathering techniques.

The issue of insufficient fuel for both vehicles and generators remains a major issue which must become a primary focus for NPHQ. The stations in this district, in addition to fuel, need sufficient quantities of basic office supplies and office furniture.

The Al-Sumer station construction is still not complete and a significant amount of the construction is sub-standard. As the construction of this station was completely funded by CF, the local contractor needs to be held accountable for completing the project in a timely manner and to an acceptable level of quality. This should be immediately referred to the appropriate CF entity for action and resolution.

(MN0048) Mahkmoor District Police Headquarters: The PTT specific mission on this date was to drop off medical supplies at the Mahkmoor District HQ. COL [redacted] (b)(6), (b)(7)c was not there today and the officer at in charge of the station had no information in reference to the station

assessment. He did however, know that there are five IPs scheduled to attend the four day training at Debaga. This district station needs additional vehicles, radios, office supplies, and fuel.

(MN0928) Abi Tamaam District Police Headquarters: The PTT Abi Tamaam Team conducted a visit to Abi Tamaam District HQ to follow up on a SVBED attack on the station and an accidental shooting which occurred between an IP Major and an IP. No further information was given resultant of the attack on the sub station. Concerning the shooting incident, the IP Major may be moved to LSA Diamondback for further treatment. The Abi Tamaam District Commander stated that an investigation into the shooting will be conducted.

Abi Tamaam District HQ is loaning the District Commanders vehicles to Thakkafa IP Station so they can conduct daily patrols/check points. Abi Tamaam District has been mandated by One West to only conduct stationary check points at specific locations without deviation and not to conduct any mobile patrol without assistance with CFs.

(MN0042) Al Guear Local Police Station: PTT spoke with LT [redacted] (b)(6), (b)(7)c and conducted a station assessment and inspected the armory. The armory is in good condition and well organized; however, the station is using it for evidence storage as well. The Station has a continuous shortage of paper, vehicles, fuel, and general office equipment. The station has 42 vests but only 5 sets of plates. This station is sending five IPs to the bi-monthly training at Debaga starting Sunday.

(MN0962) Al Salaam Local Police Station: While meeting at another station, the Team learned that two IPs from this station were wounded in action while responding to the scene of a reported IED earlier on July 8th. The names of the IPs, the circumstances surrounding their injuries, and the extent of the injuries are unknown at this time. The Team will gather this information upon our next visit to the station.

(NO FFID#) Al Qadisiya Local Police Station: The IP leadership initiated and established IP presence at this location as an outpost of sorts. The grid coordinates are unknown at this time and to the team's knowledge, has no MN number. It is not certain if this location will be a permanent IP station in the future. The IPs currently occupy two buildings in the area. The Al Qadisiya neighborhood is a notoriously bad section of the city with many reports of insurgent activities in the recent past.

While at the station, PTT met with Station Commander, Major [redacted] (b)(6), (b)(7)c who stated that there are currently 187 IPs and three Officers assigned to the two buildings in the area. [redacted] (b)(6), (b)(7)c stated that they have three vehicles, only one of which has a mounted radio and have four PKCs and 200 AK-47s. Major [redacted] (b)(6), (b)(7)c reported that the relationship between the IPs, the IA in the area, and the civilian population is good at this time. He further stated that the IP presence has been well received.

(MN0020) Hassenqoi Local Police Station: Hassenqoi Station now has responsibility for manning four checkpoints, #16, 18, 20, and AY10. This requires 52 of the stations' 130 personnel to staff the checkpoints. A standard form for reporting Internal Affairs was provided to the station so that they can better document complaints lodged against IPs.

There were 33 prisoners with several who advised that they have completed their sentence some time ago, but not released. It is unclear if their cases have been heard. An officer from District HQ was in the station today providing training to the records personnel on ways to perform their responsibilities better.

CPATT IPLO DAILY SITREP

(MN0036) Al Dawasas Patrol Police Station: Upon a visit to the Al Dawasas Station, the IPs were alert and at there stations and checking all vehicles entering the police station area. Inspection of the jail faculties was conducted and found it clean and. PTT then traveled to Al

Hadba District HQ and met with the General and staff members. This visit was following the request forms sent in by Major [redacted] and where the supplies were he had requested. Staff members stated they had never received request forms for ammunition. PTT in turn gave them another request form and they stated One West was in charge of issuing all supplies. The PTT then traveled to NPHQ where they stated they would follow this request form through the proper channels.

(MN0009) Al Hadba District Police Headquarters: Today's visit was to check on the Al Hadba District roster and continuous assistance of the IPs daily activities. The District Chief stated during our meeting that he still is facing the shortage of IP manpower; however, this shortage is not only caused by ineffective management but also not having enough police experience. The team informed the chief that they would work together to improve their police activities.

(MN0045) Al Khazraq Patrol Police Station: The PTT learned that the commander has an arrest warrant for a relative of the mayor who is wanted in connection with a shooting. General [redacted] has ordered him not to serve it because of the possibility of angering the mayor. The commander is also trying to get approval to establish a registry of persons living in the area. He states 300 families have moved to Mosul from Basra and he wants to know about everyone living in the area.

The commander obtained funding to purchase new electrical cable and is requesting assistance in elevating the wire so that it can be installed. He also obtained fuel for his generator through the supply system but skipped some steps. He was mentored on the proper procedure by the PTT team.

(MN0220) Al Karama District Police Headquarters: PTT members responded to Al Karama District HQ and conducted a station assessment. PTT members asked COL [redacted] about the status of the inoperative vehicles in the district. He said that he personally told General [redacted] about the vehicles and the need to fix them at once. COL [redacted] was not given a positive response to his question but was told that new vehicles would be arriving shortly for the district. PTT members told COL [redacted] that was fine but the inoperative ones needed to be repaired. COL [redacted] said that he is not allowed to speak with the motor pool officer about his needs directly & that he has only contacted General [redacted]. It is unclear if One West motor pool officer, General [redacted] has been made aware of the acute shortage of vehicles and the need to field the ones requiring service and repair since there seems to be no direct communication allowed between the District Commander and motor pool officer. The severe vehicle shortage is affecting mission readiness of the members in the Al Karama district and this area may negatively affect respective PSMR areas.

Arbil

(b)(3), (b)(6)

No station visits were conducted.

Sulaymaniyah

(b)(3), (b)(6)

(No FFID) Sulaymaniyah International Airport: Due to the failure of the IP to follow through on recommended planning concerns in advance of the Academy graduate movement back to Mosul, the PTT members met with the Asaish personnel who control the

Sulaymaniyah International Airport and apprised them of the scheduled movement. The Asaish was also furnished a copy of the student manifest for their internal background checks. The Asaish was advised that this movement was to be conducted by the IPs, unassisted and that PTT members would endeavor to leverage the designated OIC over to personally meet with them within the next several days. A detailed Operational Plan was also prepared, complete with diagrams for the IPs reference. This Plan included a recommended timeline for planning and execution of these type movements.

Dahuk [redacted] (b)(6), (b)(7)c

(MD0002) Dahuk Provincial Police Headquarters: IPLOs met with General [redacted] to set up additional testing sites for JITPC. He advised that he could only send the 180 IPs that had already passed the literacy test and could not spare anymore personnel for testing.

General [redacted] also stated to the team that he advised his superiors in Irbil that he would not be able to provide the 330 IPs for JIPTC that he was suppose to because he is short on personnel.

Ramadi (MND-W) [redacted] (b)(3), (b)(6)

Anbar [redacted] (b)(3), (b)(6)

(RA0084) Baghdadi Local Police Station: The Baghdadi PTT convoyed to the District Headquarters and distributed June pay to the IPs. Twenty-eight IP candidates were convoyed back to Al Asad with the PTT for shipment to the training at JIPTC.

A total of 95 uniforms have been issued to the Baghdadi Police Station. The PTT issued 50 AK-47s, 50,000 rounds of ammunition, and 100 AK magazines in addition to 60 Glock pistols. Nine IP recruits are attending the Literacy Course at BPC along with the new IP recruits who are attending JIPTC. The IPs are continuing construction on the armory and offices within the District Headquarters; the Holding Facility is complete. Discussions regarding additional security of the facility were conducted. These conclusions led to preliminary planning to add additional concertina wire and sand bags around the facility.

(RA0110) Rawah District Police Headquarters: The PTT team conducted a mission to the Rawah Police Station and continued construction on work stations for the IP officers. In addition, IPs received their monthly pay.

(RA0032) Karmah Patrol Police Station: This station is authorized 120 IPs, current roster is 116; but only 64 have been actively accounted for via payroll. Six officers, three NCO and thirty-six IPs are staffing the station this week, others were off duty or otherwise excused.

The armory is organized and all firearms are accounted for and are in good working order. The IP conducted a weapons cleaning session of their Glock pistols, AK 47's and PKC's. A shift Lieutenant provided training for the IP's on the use of the air compressor and vehicle tire pressure and maintenance. A Captain provided training on an inspirational course of the importance of civil police taking on responsibility to patrol, interact and display courage, pride and honor in patrolling their community. An IP Officer gave a class on the proper care of the AK-47.

(RA0052) Al Anbar IHP Station 6: The IP's continue to keep the station clean and in good order. All the offices and hallways were swept and clear of any debris. Thirty Glocks and ID badges were issued to HQ personnel. It appeared that some IPs coming from other stations attempted get their weapons here. This will be more closely watched on the next issue date.

A follow-up class was given to staff members on working with the MS Excel program which will most likely be an on-going process.

(RA0048) Ramadi District Police Headquarters: IPLOs assisted with the fifth day of IP candidate screening being held at Camp Blue Diamond in preparation of the up coming shipment to Baghdad.

West Ramadi Station and District IPLOs continued to assist with the Iraqi Police Development Course for the 100 IP recruits at Camp Phoenix training site. Today's training consisted of Building Clearing classes in the morning and Reflexive Fire Training at the range for the afternoon. 100 IPs attended.

Babylon (MND-CS)

(b)(3), (b)(6)

Qadisiyah

(b)(3), (b)(6)

No station visits were conducted.

Wasit

(b)(3), (b)(6)

No station visits were conducted.

Basrah (MND-SE)

(b)(3), (b)(6)

Maysan

(b)(3), (b)(6)

No station visits were conducted.

Basrah

(b)(3), (b)(6)

PTT met with Maj. (b)(6), (b)(7)c in reference to the training course for BRT. PTT will be meeting with Major (b)(6), (b)(7)c and Major (b)(6), (b)(7)c again in the morning for possible coordination. In the meantime Major (b)(6), (b)(7)c will talk with Major (b)(6), (b)(7)c about this issue and how the IPs can coordinate the training numbers requested. PTT hopes to have an answer as to whether or not they will send anyone to this class by noon tomorrow.

Dhi Qar

(b)(3), (b)(6)

(BD0020) Areedo Local Police Station: This station had adequate building infrastructure for the amount of IPS currently assigned. This station has authorized coalition supported strength of 227 IPs with an assigned strength of 69 which is 25% of coalition supported strength which gives it a TRA Level 4. Under allocation of PDoP, PTT will have to confirm the needs and wants of the PDoP. There are 9 assigned officers and 60 IPs of other ranks. The station commander explained that 20 IPs are assigned to administrative duties. This leaves the station commander a patrol force of approximately 40 IPs to cover five patrol areas with a population of 200,000 people. He further advised that the assigned IPs have not been trained and that a number of these men are hired due to the influence of VIPs and other high ranking officials. This he attributes to the activities of members of the PJOC.

During our conversation with the station commander he expressed his displeasure with the training provided to his IPs which consisted of exactly, no training. He attributed his training as well as equipment shortfalls to the PJOC and the personnel that run the organization. He was very interested in the return of CPATT as well as Coalition Forces and desires to work
