CPATT IPLO DAILY SITREP

N6

July 13, 2006

Baghdad (MND-B) [redacted] (b)(3),(b)(6)

Baghdad [redacted] (b)(3),(b)(6)

(BC0002) Airport Police Local Police Station: Station inventory of the armory was conducted by the PTT. Training continues in the following areas: Basic Driving, Patrol Procedures, and Handcuffing, Search and Escort.

(BC0006) Adhamiya Local Police Station: The Team inventoried the arms room to find 1,600 rounds of AK-47 ammunition, less than what was reported yesterday; three IPs work the arms room. The IP was advised to get with the other two and find out what happened to it. Colonel [redacted] (b)(6),(b)(7)c was then advised of the missing ammunition and would look into the matter. The detainee with the infected arm was transported to the hospital for medical treatment.

(BC0010) Al Bayaa Local Police Station: An incident where a detainee used a razor to cut himself in the detention cell, afforded an opportunity to train IPs on search procedures. The detainees were removed from inside the cell, and the cell searched. The IPs were instructed on how to search, where to search, and what is prohibited in the detention cell.

(BC0038) Al Khansa Local Police Station: PTT met with Colonel [redacted] (b)(6),(b)(7)c Station Commander, upon arrival at Al Khansa LPS who advised that the IPs had been conducting undercover operations in the Karada district for approximately two weeks and had the proper paperwork giving them the authority to do so. Colonel [redacted] (b)(6),(b)(7)c said that Colonel [redacted] (b)(6),(b)(7)c at New Baghdad HQ sanctioned the operation.

(BC0042) Al Mishahidah Local Police Station: The Team set up, organized, equipped and commenced operation of the Joint Command Center (JCC). The Team also trained the staff and command officers on the operations and procedures to be used in the JCC by IPs. The Station Commander was tasked with having his staff generate a basic SOP to address the IPs operation of the JCC. US Army command will be notified that the JCC is open for manning and operations. It is planned and expected that the IA and Us Amy will also post a representative officer at the station in the JCC.

(BC0056) Al Sa'adoun Local Police Station: The Team conducted detainee checks, interviewing them and entering their personal information into the database. Of the 45 detainees, thirty were interviewed. One of the 30 was a woman and five complained that they were abused by the guards; however, no serious injuries were found. Power is still a problem at this station, and they still lack fuel for their generator.

(BC0067) Al Tarmiya Local Police Station: The Team helped set up a joint communications center for Coalition Forces, Iraqi Army, and IPs for the Tarmiya area of operation. Team members supplied logistical maps, stationary supplies, and SOPs.

(BC0069) Al Thawra Local Police Station: The Team mentored Major [redacted] (b)(6),(b)(7)c on the importance of security after observing one IP at the front gate and no towers manned. The Team organized a hands-on class pertaining to Manned Checkpoints. A checkpoint was set up in front of the station, one in each set of lanes. After a few minutes of mentoring, the IPs began demonstrating methods used to man a checkpoint.

CPATT IPLO DAILY SITREP

(BC0122) Sheikh Saad Local Police Station: The Team met with 1LT [redacted] who advised that the station received a new patrol truck that was parked, due to lack of fuel. (b)(6),(b)(7)c

(BC0123) South Karkh Traffic Police Station: BG Mothana advised PTT that five more officers would arrive at the station on Saturday.

An Najaf [redacted] (b)(3),(b)(6)

No station visits were conducted.

Karbala [redacted] (b)(3),(b)(6)

No station visits were conducted.

Babil [redacted] (b)(3),(b)(6)

(BB0500) Al Hilla Regional Police Academy: The Team met with General [redacted] and discussed training issues and then met with General Qais to finalize plans for the IP graduation on Thursday. (b)(6),(b)(7)c

Tikrit (MND-N) [redacted] (b)(3),(b)(6)

Diyala [redacted] (b)(3),(b)(6)

PTT met with a Senior Representative from the Provincial Training Department and training officers from eight Districts throughout the Province; the first of what is to be a Bi-Weekly event. The purpose is to bring training managers together to discuss and plan current and future training activities. The major topics discussed were the Street Survivability Course and Instructor Development class.

The main training concerns expressed by the IPs were that there are too many transfers of personnel, IP officers need more training on building searches and room clearing, and the training department at the provincial level needs a vehicle dedicated to them so they can travel to districts to evaluate/supervise training.

PTT continues the Instructor Development Course at the Provincial JCC. Eight of the nine students were in attendance.

The PTT MCU Advisor conducted an initial conference with GEN [redacted], Chief of the Baqubah National Information and Investigations Office (NIIO) of the Iraqi Ministry of Interior. The GEN stated that his office was currently assigned 67 officers representing the IA and IP. There are an additional thirty security personnel that provide security to his facility. The principle responsibility of the office is the collection and dissemination of actionable criminal intelligence concerning security issues in Iraq. The officers were recently reassigned from throughout the Province to the City of Baqubah for operational mission support. There remains 15 of the NIIO officers in outlying Provincial areas for support. (b)(6),(b)(7)c

The General stated he is badly in need of funding for equipment and does not have a modern communications or filing system for his office. His current office does not have any electric power backup and is without electricity approximately half of the time. He was advised that assistance could be given in the area of training and some limited logistics support, but that would depend on the productivity of his office. The General said that his office produces regular reporting and he agreed to provide copies so that suggestions for improvement might be made.

Compiled by [redacted] (b)(3),(b)(6), (b)(2) **6/16/2008**

CPATT IPLO DAILY SITREP

(BC0077) Al Zohour Local Police Station: PTT found that two new vehicles were delivered; one is for Al Zohour station and the other was delivered to Headquarters. There were sixteen detainees in the jail; eight were transferred to Rashidayh Jail because of overcrowding. The fuel tanks at the complex were tested and a small leak found. Colonel [redacted] was advised to have leak repaired. (b)(6),(b)(7)c

(BC0086) Baghdad Main Provincial Police HQ: The Team met with various commanders for PSMR reporting. Colonel [redacted] from Personnel reported receiving the IP station assignments for the Jordan Academy call #29. Headquarters has a stock of 1400 Motorola handheld radios to be used as back-ups which will be programmed in the days ahead. (b)(6),(b)(7)c

(BC0088) Baghdad Provincial Traffic Police HQ: This is the third day of training scheduled for station commanders. Captain and Lieutenants were requested to attend this third day of instruction. Once again the Team provided a detailed analysis of the Traffic HQ Emergency Plan.

(BC0090) Boob Al Sham Local Police Station: LTC [redacted] advised PTT that the station received a a new patrol vehicle. The Colonel likes the truck but said it will require too much fuel to patrol, so it will be used for special situations. (b)(6),(b)(7)c

(BC0096) Karada Miriam Local Police Station: IPs are maintaining a new vehicle they received from MOI and defensive tactics was taught to nine IPs. A meeting with the Colonel involved a discussion on manpower. The Colonel is asking for an additional 50 IPs.

(BC0119) Rusafa Patrol Police Station: Colonel [redacted] reported a man wearing a suicide vest ran into the path of his IPs that were travelling to the International Zone to set up a checkpoint. Three IPs were wounded and another IP from a different station was killed by the blast. (b)(6),(b)(7)c

(BC0120) Rusafa Directorate Police HQ: PTT met the new Station Commander, General [redacted] and learned that additional men have been transferred back to Rusafa's ERF unit, bringing the total number to 110. This should improve station security as well as provide additional patrols for Rusafa neighborhoods. Computer and radio repair problems continues to be the major logistical issues. The sewer construction project on the street in front of the station has been abandoned, and the line is broken right in front of the station entrance. (b)(6),(b)(7)c

(BC0121) Saba Al Boor Local Police Station: Captain [redacted] advised there were nine detainees; however, a problem has developed in which the vendor who has the contract to supply food to the detainees has refused to deliver to Saba Al Boor. The farthest the vender will go is Taji. The detainees are surviving on food brought to the station by family members. (b)(6),(b)(7)c

One police vehicle at the station is operational but there is no gasoline for it. The Team placed some gasoline into the new tank to insure it would now hold the. Captain [redacted] was unaware of the JCC room. He was explained the purpose of the room, and advised the IPs along with the IA would each have at least one person on duty 24/7. The Team also met with Captain [redacted] of the IA stationed in the adjoining building and explained the same to him. The Team brought supplies and furniture into the police station for the new communications room. (b)(6),(b)(7)c (b)(6),(b)(7)c

CPATT IPLO DAILY SITREP

Salah Ad Din [redacted] (b)(3),(b)(6)

(TA0080) Salah Ad Din Provincial Police Headquarters: MG [redacted] (b)(6),(b)(7)c was asked if he had received the approval to hire more IPs for the Province. He said he has spoken and sent a request to MOI, but he has not received approval as of this date. MG [redacted] (b)(6),(b)(7)c advised that he did not expect an answer from MOI any time soon and said that he would continue to work on this issue.

(TA0064) Bayji District Police Headquarters: PTT went to Bayji District HQ for the pupose of observing the operation of the station. PTT discussed the plotting of crimes on a map board which will be emplemented by personnel of the station.

It has been determined that a confiscated fuel tanker will be placed at the Sakik Station to be used for fueling IP vehicles. LTC [redacted] (b)(6),(b)(7)c wanted the tanker placed at the Bayji Station, so he could control the distribution of the fuel; however, it was determined that if it was placed at Sakik, it could better service the stations in the area

MAJ [redacted] (b)(6),(b)(7)c was injured by and IED on July 11th while driving an IP vehicle. His injuries were minor and the glass was broken out of the vehicle.

COL [redacted] (b)(6),(b)(7)c met with the Mayor and City Council of As Saniyah in reference to additional IPs. COL [redacted] (b)(6),(b)(7)c reported 23 IPs from the Bayji District have been vetted to attend the academy in Jordan.

(TA0069) Hal Al Nafit Local Police Station: PTT went to the Hal Al Nafit Police station for a night visit. One patrol had been out near the end of curfew checking for violations. This patrol had returned prior to the arrival of the PTT. It was noted by the PTT that several vehicles and persons had started to form a line at the gas staton to receive fuel the next day. The IPs were asked about this and told the people are allowed to stay with their vehicles in the immediate area of the station.

(TA0084) Samarra District Police Headquarters: PTT met with LTC [redacted] (b)(6),(b)(7)c CPT [redacted] (b)(6),(b)(7)c and the City Council President. The CCP stated that he needs to get 20 more IP uniforms and 2 more BKCs from the IP armory. PTT explained to the CCP that he needs to contact GEN [redacted] (b)(6),(b)(7)c and get his approval. LTC [redacted] (b)(6),(b)(7)c stated that he has already received GEN [redacted] (b)(6),(b)(7)c verbal approval to give the CCP any equipment they want. PTT reminded LTC [redacted] (b)(6),(b)(7)c that verbal permission is not acceptable when dealing with large amounts of equipment. PTT explained to LTC [redacted] (b)(6),(b)(7)c and the CCP that it is necessary to get written approval to protect all parties involved in the transaction. LTC [redacted] (b)(6),(b)(7)c stated that he has visited GEN [redacted] (b)(6),(b)(7)c several times and he will not give written permission. LTC [redacted] (b)(6),(b)(7)c stated that he will visit GEN [redacted] (b)(6),(b)(7)c tomorrow and attempt to get written permission to give MOI equipment to a non-MOI agency.

(TA0056) Balad Patrol Police Station: PTT gave training classes on person/vehicle searches to Balad check points 9 and 9A. PTT checked on the working conditions at the Girls School check point and Balad IP traffic station. Several traffic accident reports were viewed and discussed with the commanding officer of the traffic station.

(TA0089) South Ad Dululyia Patrol Police Station: PTT went to the South IP station and spoke to COL [redacted] (b)(6),(b)(7)c and advised him on inventory of manpower and equipment. The Colonel stated that he wasn't aware of the PTT and that he would have to consult with GEN [redacted] (b)(6),(b)(7)c before giving the team the list.

Compiled by [redacted] (b)(3),(b)(6), (b)(2) **6/16/2008**

CPATT IPLO DAILY SITREP

PTT then went to the North IP station and spoke to LTC [redacted] (b)(6),(b)(7)c The team asked [redacted] (b)(6),(b)(7)c how many men he had on duty and he said he didn't know. Apparently LTC [redacted] (b)(6),(b)(7)c is from a different station and doesn't work at the North station that much. The team would like to see about getting the commander from each station and GEN [redacted] (b)(6),(b)(7)c together so that PTT can rectify the communication problem.

At Tamim [redacted] (b)(3),(b)(6)

(TT0004) Aruba Patrol Police Station: PTT conducted a Train the Trainer class on Community Relations. The class was attended by 5 IPs and was very well received by the IPs and the local residents.

(TT0005) Tamim Provincial Police Headquarters: PTT convoyed to the Provincial HQ and met with GEN [redacted] (b)(6),(b)(7)c and GEN [redacted] (b)(6),(b)(7)c (IA). GEN [redacted] (b)(6),(b)(7)c advised there were only 7 detainees left from the arrest in Saddam village, all others have been released, and the investigation is on-going.

CFs advised GEN [redacted] (b)(6),(b)(7)c that there are over 100 new police vehicles in Taji that will need to be transported to Kirkuk.

(TT0009) Domies Patrol Police Station: PTT convoyed to Domies Police Station and met with COL [redacted] (b)(6),(b)(7)c who advised that he was not able to deploy any vehicle patrols due to a shortage of IPs. COL [redacted] (b)(6),(b)(7)c further stated that investigations, administration and force protection are fully staffed but the only IPs available were needed for transport of detainees to Headquarters.

PTT observed eleven IPs as they were trained in handcuffing procedures.

Mosul (MND-N) [redacted] (b)(3),(b)(6)

Ninewah [redacted] (b)(3),(b)(6)

(MN0056) Ninewah Provincial Police Headquarters: There are currently 1224 IPs and 301 officers assigned to PHQ. 25% of them have been to the academy.

The PTT observed the Iraqi Police Trainers conduct training in the Train the Trainer course. Instructing included person searches, building searches, check point details and how to instruct these courses to new students.

(MN0008) Al Gizlani Local Police Station: Upon arrival at the station, it was observed that the force protection of the station was in place. The purpose of this visit was primarily for the PTT to garner the needed information to complete their PSMR. There was also discussion on a need for pistol and rifle qualification/training and plans were made to take the IPs to the range in the near future to qualify. COL [redacted] (b)(6),(b)(7)c was informed that the team was to contact his HQ and request AK-47 ammo while the CFs will supply the 9mm.

(MN0923) Al Yarmook Local Police Station: PTT discussed maintenance of the station with LT [redacted] (b)(6),(b)(7)c. The team has been working with the IPs to improve security of the station. LT [redacted] (b)(6),(b)(7)c will give team the number of Officers and IPs that have not taken the language test.

Compiled by [redacted] (b)(3),(b)(6), (b)(2) 6/16/2008

CPATT IPLO DAILY SITREP

(MN0044) Ninewa Iraqi Police Academy: Upon arrival at the IPA, the team observed that the force protection of the station was in place; all sections were manned with guards, gates, towers, and armed police in stop vehicles blocking the entrance and exit.

(MN0061) Qayarrah District Police Headquarters: The Operations Room has white boards with status on personnel, weapons, ammo, and training events. SOPs for the armory and key control were discussed. Joint IP/IA patrols are conducted four times a week.

(MN0220) Al Karama District Police Headquarters: PTT members provided a block of instruction to a total of twenty IPs in the area of Crime Scene Processing. Team members instructed the IPs in different techniques and distributed assorted crime scene collection supplies.

Arbil

(b)(3),(b)(6)

(No FFID#) Irbil Traffic Police General Directorate: PTT conducted a class on leadership at the Traffic Police Directorate; the class was comprised of all officers from the rank of Lieutenant to Brigadier General who were attentive and very receptive to the training/discussions held today on Professionalism and leadership.

(MI0936) Irbil Security Police Station: PTT conducted Firearms Training for students attending the Special Weapons and Tactics Course. The students received instruction in Firearms and Range Safety, Weapon Maintenance, Principles of Marksmanship, Barricade shooting, Combat Reloading, Cover vs. Concealment, and Shoot and Move.

(MI0001) Irbil Provincial Police Headquarters: IPLOs traveled to the Irbil International Airport and found that 329 Kurdish Police were placed on flights to the Jordan Academy for training.

Sulaymaniyah

(b)(3),(b)(6)

(TS0008) Sulaymaniyah Provincial Police Headquarters: PTT members met with MG [redacted] and discussed future equipment distribution plans and the need for recording serialized inventories of distributed equipment by station. PTT members provided certificates for the Motorola radio training class for MG [redacted] review and signature. The final examinations are scheduled for July 17th.

(b)(6),(b)(6)

(b)(6),(b)(6)

PTT members discussed at length the implementation of an initiative to flood Sulaymaniyah with teams of Provincial Police, Traffic Police and Asaish and to begin checking Identification documents. These teams will work in cooperation with one another and provide assistance to one another wherever required. Both vehicular and pedestrian traffic will be affected. The media will be involved after the initiative is well underway and known to the populace. There are three immediate goals to be achieved through this initiative. The first is gauge the response of the populace to the local security efforts. The second is to demonstrate to the local populace that the police are active and interested in providing for local security, and reinstituting a local security consciousness in the populace as well as encouraging them to carry their identification. The third is to identify and detain suspicious individuals for further investigation and to apprehend those who are wanted for various offenses. This initiative will start immediately and will peak during afternoon and evening hours throughout the city and immediate environs.

Compiled by [redacted] (b)(3),(b)(6), (b)(2) **6/16/2008**

CPATT IPLO DAILY SITREP

(TS0500) Sulaymaniyah Regional Police Academy: PTT members met with LT [redacted] (b)(6),(b)(7)c of the In-Processing Unit and received a graduate roster for the second TIP/O-TIP class. These students have been captured in a District/station based format to facilitate tracking efforts.

PTT members conferred with MG [redacted] (b)(6),(b)(7)c regarding the Academy graduate movement to Mosul, and advised him of the latest flight schedules.

PTT members met with the SPTA Director and discussed a number of matters of mutual concern, including equipment, defective ammunition, delivery of vehicles destined for Kirkuk, student movements, TIP/O-TIP classes, CPATT Advanced/Specialized class needs in the area, and interpreter issues.

(TS0084) Sardow Local Police Station: The Operations PTT met with Major [redacted] (b)(6),(b)(7)c and his station personnel and the three week Force Protection Course resumed with practical instruction in Handcuffing and Defensive Tactics. The students were instructed on proper handcuffing of persons procedures and then they were required to do hands-on practical exercises until all students' demonstrated proficiency. This was followed by a practical Basic Defensive Tactics course of instruction.

(TS0005) Sulaymaniyah Emergency Police: The Tactical PTT administered the third day of the Glock Armor Program. A review of the first two days of instruction was conducted; including safety rules and safety functions of the Glock pistol. In addition, the slide and magazine components of the weapon were reviewed. The IPs in the class are doing well and has an excellent attitude towards the training.

(No FFID#) Crimes and Evidence Station: The Investigative PTT met with Major [redacted] (b)(6),(b)(7)c [redacted] (b)(6),(b)(7)c who reported that they had an insufficient number of computers, no evidence collection materials, no digital recording equipment, no cameras or video cameras, and are still in need of vehicles and communication equipment.

The PTT initiated a new investigations program, integrating the IP investigators and the legal investigators of the MOJ. This process is an experiment intended to bring the IPS investigators and the legal investigators closer together and to developing a better working atmosphere between the two agencies. Also, due to the new technology introduced into the Iraq culture it is hoped that the legal investigators can learn of these new technologies and better communicate their worth and reliability to the Chief Judge in order to broaden the current perspectives on evidence admissibility.

Dahuk [redacted] (b)(3),(b)(6)

No station visits were conducted.

Ramadi (MND-W) [redacted] (b)(3),(b)(6)

Anbar [redacted] (b)(3),(b)(6)

(RA0116) Farris Patrol Police Station: This station is currently understaffed as set forth by MOI. There are 25 IPs at the station under the leadership of three officers. No recruiting is scheduled until the station assessment and a PSMR/Inventory are completed.

Compiled by [redacted] (b)(3),(b)(6), (b)(2) **6/16/2008**

This station does not have any of the rated equipment which will have a negative effect on the operational readiness of the station for quite some time to come which will be addressed as time and needs are presented.

There is currently no IPs in training; the District Police Chief is currently making assignments from the roster for TIPS, OTIPS, JIPTC and BPC.

(RA0080) Al Quaim District Police HQ: This station rates 179 IPs but the staffing is currently undergoing changes due to an ongoing effort by the District Police Chief to staff other locations. There are no vehicles at the station but they are rated for eighteen.

(RA0110) Rawah District Police HQ: The PTT went over the command structure and patrol movements with the Police Chief. In addition, PTT worked with the interpreter on translation of disciplinary procedures and policies for the IPs.

(RA0002) Al Anbar Provincial Police HQ: PTT members spoke with General [redacted] (b)(6),(b)(7)c and learned that LTC [redacted] (b)(6),(b)(7)c from the West Ramadi station has been given the command of the new Al Jazeera station that is supposed to come on-line on July 15th. Arrangements are being made to escort three vehicle maintenance section personnel to the Government Center IP compound to evaluate 31 vehicles that are still there. Once each vehicle has been evaluated and a list of needed parts has been made, an order will be sent up the chain of command.

Training at the Headquarters continued today with classes on IP Disciplinary Action and a Medic's class.

(RA0052) Al Anbar IHP Station 6 - HQ: Under the direction of Colonel [redacted] (b)(6),(b)(7)c, the IPs constructed a wall that divides the station in two. This was done to give the staff more control over the IPs and also in response to continued threats of an impending attack against this station.

With the credible threat being made against the station, suggestions were offered on further force security measures and what responses the IPs might take, should the attack occur. A staff meeting was arranged for next week to begin to discuss disciplinary issues with the IPs.

Seven Glocks were handed out with badges being issued to those individuals. Two cans of diesel fuel were taken and given to the IPs for their generator.

Babylon (MND-CS) [redacted] (b)(3),(b)(6)

Qadisiyah [redacted] (b)(3),(b)(6)

(BQ0044) Daghara Checkpoint Local Police Station: The PTT traveled to Daghara Checkpoint to conduct checkpoint training to sixteen IPs. The training lasted approximately one hour and the IPs were very receptive.

The PTT dealt with arranging transportation for the IPs that were released from the Baghdad Police Academy. The team is planning to meet with General [redacted] (b)(6),(b)(7)c tomorrow to discuss this issue.

Wasit [redacted] (b)(3),(b)(6)

(BW0047) Wasit Police Academy: IPLOs from both PTT teams gave instruction to eleven IPs from Wasit Checkpoint HQ. Topics covered included checkpoints, how to setup and

employ a vehicle and personnel checkpoint, detaining persons and vehicles, and reacting to a hostile situation/environment. Practical application exercises were conducted to assist with any issues the IPs had. Immediate action drills were also conducted to give the IPs an understanding and to build up their confidence in performing checkpoint operations.

The IPs acknowledged several problems that exist at their respective checkpoints in Al Kut. Some of these areas are long work hours with no relief, VIP vehicles (senior ranking IPs, Governor and Government officials) that do not stop at checkpoints, and IPs being punished for performing there duties correctly. These issues will be addressed with LTC [redacted] on the next visit to Checkpoint HQ. (b)(6),(b)(6)c

Basrah (MND-SE) [redacted] (b)(6),(b)(6)

Maysan [redacted] (b)(3),(b)(6)

No station visits were conducted.

Basrah [redacted] (b)(6),(b)(6)

(BE0600) Auxiliary Police Headquarters: Members of the PTT met with Colonel [redacted] (b)(6),(b)(7)c who stated that he has about 42 police officers training in advanced courses; 18 at Shaibah, 18 at Camp Apache and 6 in Baghdad. He stated that all of the Police have been to either the BRT course, or the TIPS course.

The Col is requesting 50 additional police vehicles. He currently has 40 in good working order from the 90 that are currently assigned to him. In addition he would like a generator for his building, stating that the current one is frequently breaking down.

The APF is supposed to be the first responders to multiple murders and any kind of explosion that occurs in the city of Basrah. The Colonel stated that his men receive calls from the PJOC, from citizens, and from the officers that are on patrol. He also stated that he has 738 police and officers that work under him and they are divided up into 3 sectors.

Dhi Qar [redacted] (b)(6),(b)(6)

(BD 0008) Al Gharaf Local Police Station: PTT members were able to visit the above mentioned station along with the MSU for purposes of the PSMR information gathering. The team met with Station Commander, Lt. Col. [redacted] (b)(6),(b)(6)c who responded favorably to the visit.

The approach to the station was gated by walls with no wire and more than two guards in the area of the gate. The IPs were not wearing vests and very few had side arms, which would be consistent with 35 pistols for 122 members. This is a 24 hour manned station with no jail facility, and half the group works each shift; two shifts per day.

The commander advised they had recently taken 18 people to the jail at Ash Shatra Police Department.

It is believed this station could be better fortified with additional pistols for the officers, additional vehicles and furniture for the station. A request by the Commander for a new station needs more evaluation for proper consideration.

(BD0004) Al Daway Local Police Station: The PTT Team visited with Second Lieutenant [redacted] (b)(6),(b)(6)c and Sergeant [redacted] (b)(6),(b)(6)c because the Station Commander Colonel [redacted] (b)(6),(b)(6)c was not present.

This police station has 94 officers assigned to it; the officers work 24hr shifts. The manpower is split in half for shift work with about 40 men working twenty four hours. The other half will relieve the working shift the next day.
The Lt. stated that all of his IPs have attended TIPS training, but most of the IPs needed training in firearms so they could receive their weapons ID card.

The LT stated that the station has eighteen Motorola radios and one base station radio. He has three cars (only two are operable), and only two have radios: a request for more weapons had been made to the District Office. He stated that there are 59 Ak-47 rifles in the armory and wants to increase that quantity by 100. The Lt. stated that the station has 2 BKC rifles but could use two more. The station currently has 2 RPGs, and one sniper rifle. There were 2,600 rounds of 9mm, 3,386 rounds of AK47 ammo, and an unknown amount for small machine gun. There were 147 vests, but only 37 had SAPI plates. The Lt. stated that all of the IPs at the station only had one uniform and none of them had winter coats. In addition, only thirty six IPs have ID badges, and about the same number for weapons cards.

The station has two computers, but only one of them was working. The printer and the copy machine were broken, and there was no connection to the internet. The IT officer stated that he would like to have two more computers, two printers, and a new copy machine. The IT stated that the station does not have paper, and they have to purchase it with there own money. The station does not send officers to school at this time to learn basic computer skills, but the IT Officer teaches the other officers. There are no Uninterrupted Power Supplies (UPS) in the station. This item is critical for saving files and documents for the department. The Communication Officer is properly trained to handle calls and administer proper radio procedure.

Force Protection is a major concern for the police station at this time. Upon the arrival of the PTT, there were several people walking around in the building. There were also about forty Iraqi Army personal at the station when the team arrived. The IPs stated that the IA was there because there had been some fighting in the city earlier today and the army had came to help them arrest the people.

There is an active overwatch position overlooking the ECP or the front door. There are plenty of IPs on hand in case of an attack, but it is unknown if they have the proper training to defend against an attack. There is not a serpentine at the ECP or proper barricades at the outermost area of the compound. The PTT did not locate any plans for the QRF, or a call roster for other stations. There were two IPs stationed on the top of the roof. There was no proper 'Use of Force' warning prior to the entry control point nor was there a sign in Arabic declaring 'Deadly Force' is authorized. As stated in the Force protection area, pedestrians are not being searched properly prior to entry. There were no blast bunkers at the station and there is no wire on the barricades to defend the facility from an attack.

There is one generator and it seemed big enough to supply the station with enough electricity. The Lt. stated that the station needed more furniture and some air conditioning units. These items have been requested from the District Headquarters but no response has been received.

On the next visit the PTT will introduce financial budgeting. The Lieutenant stated the station was in good shape but when the power goes out everything else goes out, including the water.

Al Muthanna **unassigned**
