# CPATT IPLO DAILY SITREP

N7

**July 14, 2006**

**Baghdad (MND-B)** [redacted] (b)(3), (b)(6)

**Baghdad** [redacted] (b)(3), (b)(6)

**(BC0003) Airport Police Local Police Station:** Four IPs went through the 'Basic Driving' class. Two IP driving instructors are being utilized in the training; as the training progresses, they are given more responsibilities.

**(BC0007) Al Adhamiya Patrol Police Station**: The Team met with Commissioner [redacted] about supply requests who provided the team a copy of a document dated, Oct 15, 2005 for office supplies. He was advised to resubmit a new request. The PTT met with LTC [redacted], Station Commander, Colonel [redacted] from Karada HQ and Colonel [redacted], the new Patrol Commander for the station. Supply and maintenance issues were discussed.

District events include an IED going off in front of University by the Omar Mosque. Three IPs were injured. Militia near the Shadkah area killed Colonel [redacted] when two vehicles stopped his car and shot him. IP [redacted] was shot in the right foot while on his way home from work. NFI

A request for 80 IPs was submitted several weeks ago. The Colonel was informed he was only getting 13 IPs from Headquarters, but did not have a date when they would report.

**(BC0011) Al Dorah Local Police Station:** The shift commander reported that MOI placed the station on alert and held all the shifts over. The number of prisoners in jail was sixteen. The quality of care and feeding of the detainees has improved greatly in the past month. The armory and logistics section also improved in record keeping.

**(BC0025) Al Karada Patrol Police Station:** The Team met with the IP training officer and went over topic selection for the upcoming training. Selection of topics is based on the relevance to their primary missions and will focus on officer safety procedures while conducting patrols, how to safely perform a traffic stop, and patrol checkpoints. Incorporated in this training will be reacting to suspected VBIED and procedures on reacting to an IED.

**(BC0028) Al Karkh Police Directorate HQ:** Colonel [redacted] and LTC [redacted] were in a meeting with Major General [redacted] upon PTT arrival. The Team met with the Logistics commander regarding equipment issues (vest plates and uniforms). The Team continues to work on first aid training issues, and obtaining supplies for the Karkh Medical officer.

**(BC0039) Al Mamun Local Police Station:** Captain [redacted] reported a Traffic Police Captain was shot and killed at a traffic circle by suspected insurgents. Captain [redacted] said the victim, Captain [redacted] was in his official traffic uniform when he was dropped off by his nephew. A white Toyota Avalon pulled up behind the nephew's vehicle at which time a gunman opened fire with a PKC machine gun. The Captain received gunshot wounds to the head and chest.

Twenty five IPs participated in the use of the pistol in room clearing, defensive maneuvers, and combat reloading with both the AK and Glock. Joint patrol was conducted targeting illegal sale of gasoline.

**Compiled by** [redacted] (b)(3), (b)(6), (b)(2)

**6/16/2008**

# CPATT IPLO DAILY SITREP

**(BC0043) Al Muthana Local Police Station:** Minutes before PTT arrived at the station, an IED went off directly in front of the station. Information obtained was that a vehicle stopped, placed a bag containing an explosive device near one of the Jersey barriers out of view of the guard tower and front gate (because it was blocked by Hesco barriers). When an IP patrol came by, the IED was detonated. The blast injured seven IPs, three who were in the vehicle, and four who were walking in the area. A bomb also went off in the market area near New Baghdad Traffic, not far from a Sunni mosque. A suicide bomber walked into a restaurant and detonated himself. Station events have Captain [redacted] replacing Major [redacted] in Investigations (Major [redacted] was killed along with Colonel [redacted] on July 7th). Captain [redacted] will continue to do logistics for New Baghdad HQ.

(b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c

**(BC0057) Al Salaam Local Police Station:** The Team repaired one of the new fuel tanks recently installed at the station; the IPs are now able to fuel their patrol vehicles. The team conducted training on how to react to either an IED or mortar attack. A joint patrol with IPs took place in the local market area. The IPs require further training on how to properly place a checkpoint within a busy civilian market location. The IPs checkpoint jammed the busiest point of the market, instead of controlling the traffic into the market area.

**(BC0064) Al Taji Local Police Station:** The Team finished supplying the JCC room. A new air conditioner was installed, the window was sandbagged and maps and coverings were hung. Desk, chairs and miscellaneous supplies were brought in and stored. The Team responded to Saba Al Boor, to assist with standing up the JCC room there. A joint patrol was conducted with IPs to Camp Cooke so they could pick up additional vehicles.

**(BC0086) Baghdad Main Provincial Police HQ:** The Team met with the Maintenance section, Training section and the Statistics section for PSMR reporting. The Team then did a Force Protection assessment. The Team also met with Lieut. Murtadha in Communications and examined the radio equipment BHQ has in storage. BHQ was given programming material, manuals, instructions and cable to program the radios.

**(BC0090) Boob Al Sham Local Police Station:** Colonel [redacted] said there were no major crimes reported since the last Team visit. He briefed the Team on his participation in the current security operation. His staffing and patrolling activities were double the usual numbers and an emphasis has been placed on the market area of his city. He told the Team that both mounted and foot patrols and numerous checkpoints are taking place during this operation. The Team delivered 25 gallons of fuel for the patrol vehicles. A joint patrol was conducted in the city, led by Colonel [redacted] and two IP vehicles.

(b)(6), (b)(7)c (b)(6), (b)(7)c

**(BC0096) Karada Miriam Local Police Station:** Air Force TOC requested that IPs assist at the Al Rasheed; Triple Canopy had a vehicle that tested positive for an explosive and all five occupants tested positive. The entire area was shut down for security reasons. Four of the suspects were brought to the station where the Investigations Lieutenant questioned them. Some of the suspects had IZ escort badges, some had weapons badges and one had an MOI IP badge that he said was given to him by MOI so he could show he was an IP. Suspect admitted that he never went to an academy, and never really worked as an IP and he receives his pay directly from the MOI as did all the others in custody. All are working for Dr [redacted] as his security detail. The IP investigator was advised there are 17 men assigned to Dr. [redacted] (not really a doctor, but a title given him out of respect) who works alongside the Prime Minister.

(b)(6), (b)(7)c

(b)(3), (b)(6), (b)(2)

The driver was taken for interview by the Air Force as he was being held accountable for the other four in the vehicle. The vehicle reportedly is assigned to the Parliament or National Assembly for use by Dr. [redacted] (b)(6), (b)(7)c. All of the subjects were interviewed and eventually released and the vehicle returned to the driver.

**(BC0099) Al Mada'in Local Police Station:** The Team met with the US Army Ordinance Disposal Unit at the Old Madaein HQ and removed several confiscated live and disarmed ordinance. Colonel [redacted] (b)(6), (b)(7)c advised that HQ received seven new Chevrolet pickup trucks. Colonel [redacted] (b)(6), (b)(7)c was advised the Army would fill the new generator tank only once; the contractor would have 2000 liters delivered, after that it would be his responsibility and MOI to get diesel fuel. Colonel [redacted] (b)(6), (b)(7)c said he will be picking up six poles to mount the transformer and hook up the electricity to the building. No new attacks or major crimes were reported since the last station visit.

**(BC0103) Criminal Investigation Department HQ:** The Team met with investigators in reference to building plans, picked up detention report and setup a meeting with an IP on an ongoing case. Names of IPs for new investigative assistant's class were requested.

**(BC0104) Criminal Investigation Department Unit 1 (West):** The Team met with a Captain who had his weapon, passport, and police identification confiscated by CFs. The Team met with the Colonel in reference to a generator, and requested names of IPs for the new investigative assistant class.

**(BC0119) Rusafa Patrol Police Station:** The Team conducted an AK-47 marksmanship and safe weapons handling course. The course was attended by 11 IPs from the following stations: Rusafa Patrol, Rusafa Motorcycle TPS, Al Quanat LPS, Al Nahda TPS, and Middle Baghdad TPS.

**(BC0121) Saba Al Boor Local Police Station:** The Team observed fiver IPs manning the checkpoint with the IA upon entering the town of Saba Al Boor. The Team worked on the Joint Communications Center (JCC). The Team also escorted Colonel [redacted] (b)(6), (b)(7)c to a meeting at the Taji LPS. The meeting was conducted by Colonel [redacted] (b)(6), (b)(7)c, US Army and those involved with the JCC. New police vehicles were delivered; two 4x4, 4dr. Chevrolet 3500, pickup trucks arrived from MOI; two smaller Nissan pickup trucks and a Chevrolet sedan will arrive later in the day. Fuel is still a major issue as there was none for use today in the police vehicles.

**(BC0122) Sheikh Saad Local Police Station:** Colonel [redacted] (b)(6), (b)(7)c reported no major crimes in his district since last Team visit. He said General [redacted] (b)(6), (b)(7)c visited the station during the day. The Team was advised of a ten-day security operations that is in progress, ordered by MOI. As a result, the number of IPs on duty and patrols in the city were almost double the usual staffing levels. One patrol is assigned specifically to the market area and additional vehicle patrols will take place around the surrounding area of the market until it closes. Colonel [redacted] (b)(6), (b)(7)c advised the Team that IA soldiers near a fueling station on Route Dover fired upon him and his driver. He said he spoke with the Colonel in command of the local IA unit, who advised him to write a report on the incident. The Team told Colonel [redacted] (b)(6), (b)(7)c that meetings were being held between the US Army, IA, ING and IPS personnel in an attempt to put a stop to these types of incidents. The Team delivered 25 gallons of fuel for the station vehicles.

**(BC0123) South Karkh Traffic Police Station:** General [redacted] (b)(6), (b)(7)c, Traffic General for Baghdad, arrived and did a review of the traffic office. General [redacted] (b)(6), (b)(7)c advised that five new officers were being assigned to the station; one was a new Lieutenant that just completed

training at the Academy. General [redacted] and BG [redacted] also met with Major [redacted] 732nd Air Force and discussed manpower needs for the personnel, TCP's, and additional traffic patrols during the day.

**(BC0625) Mahmoudiya Patrol Police Station:** Training was given on investigative techniques. A lot of friction was encountered in attempting to get the IPs to overcome opinion-based police action and switch to fact-based police action.

**An Najaf** [redacted]

**(RN0624) Radiwiyah Local Police Station:** The Team met with Commander [redacted] who stated that he had 33 IPs on duty with 26 on force protection. The Captain assembled 13 IPs for training on weapons safety. The Commander was informed he would be receiving three new vehicles next week.

**(RN0626) Mahdi Local Police Station:** The Team conducted an inspection of the entire station to include the roof area. The Team met with logistics officer and issued 3000 rounds of 9mm ammunition. The station commander was advised of the planned issue of two IP vehicles.

**(RN0648) Zualfiqar District Police HQ:** The Team trained five IPs in Dynamic Entries. There were 10 detainees in custody at the Fukar Station Jail. All detainees appeared in good health and had no obvious signs of physical abuse.

**(RN0802) Patrol District Police HQ:** The Team met with Specialist [redacted] who is the assistant to training NCO Habbas. Hadar gathered 10 IPs who were trained on approaching a vehicle, removing occupants, and searching the vehicle. After demonstrating the techniques, each IP then conducted search of the vehicle.

**Karbala** [redacted]

**(RK0640) Al Tamur Local Police Station:** The Team met with Captain [redacted] Shift Commander, to complete the PSMR for the station. The station has 23 academy trained and 50 TIPS trained IPs. He also reported two repeaters were not working properly. Logistical needs include: additional vehicles, handheld radios, handcuffs, another water tank, and some way to hold fuel as they only have one vehicle and have to drive to Karbala every day for fuel.

**(RK0641) Al Kether Local Police Station:** The Team was told by the civilians that live in the area that Al Kether station was closed. The old police station now belongs to the Minister of Health. The Team learned that most of the IPs and equipment were transferred to the Al Baida Station. Al Kether Local Police Station is now closed.

**Babil** [redacted]

**(BB0500) Babylon Police Academy:** The Team attended the IP graduation ceremony at the Babylon Police Academy. The total number of this graduating class was 120. The graduation was well attended with representatives from the US Army as well as the State Department.

**Tikrit (MND-N)** [redacted]

**Diyala** [redacted]

Compiled by [redacted] 6/16/2008

# CPATT IPLO DAILY SITREP

**(TD0007) Al Nasser Local Police Station:** PTT met with the station Chief and was able to gather the stations latest logistics and personnel numbers. The Chief advised that he still had sixty three IPs assigned to the station. At the present time, one IP is attending the basic IP academy in Baghdad with seven still needing to attend.

Since the teams last visit, the station has received an additional vehicle and three vehicle radios. This brings the stations total number of vehicles to three from and authorized number of thirteen.

The team also toured the station facility and observed additional sand bag fighting positions that had been constructed in the courtyard of the station to help supplement the rear masonry force protection wall. The team observed no progress on the stations improvement projects. When asked, the Chief advised he had not been able to get the contractor to start the work yet on either the new room or the force protection wall on the roof of the facility.

**(TD0031) Jedidah Al Shaat Local Police Station:** PTT traveled to the Jedidah station to have station IPs accompany the PTT to another location and conduct a traffic checkpoint. On arrival at the station, the chief was not present and no IPs were available to conduct the checkpoint. The checkpoint was then conducted by CF without IP presence.

PTT observed that the permanent checkpoint in front of the station appeared fully manned by IPs and all appeared to have full equipment on and performing their duties properly.

**(TD0035) Khalis District Police Headquarters:** PTT spoke with the station Colonel who stated that there have been no changes in the stations personnel and there are no pay problems.

The COL stated the only major problem that he has is fuel and IP uniforms of which he has made several requests to the HQ, but has not received a response. PTT recommended that he make a written request to HQ, which he stated that he would do.

**(TD0026) Hibhib Local Police Station:** PTT met with the Colonel who stated there has been no change in manpower since their last visit, and they remain at sixty eight personal, and no pay problems.

The COL stated he has not yet received a generator after making several requests. PTT advised him to submit a written request to District HQ. Several HESCO barriers in the rear of the station are still empty, and the Colonel stated he would fill them; however, he needed the proper tools. PTT observed IPs at the front of the station stopping vehicles and foot traffic, and three IPs were observed on the roof top.

PTT was advised that the station currently has fifty three Glocks with fifty rounds of ammo for each gun, sixty three AK-47s with approximately 8,000 rounds of ammo, and 3 PKCs of which two are broken. The Colonel added that he has received an additional four hand held Motorola radios since the last visit, and that the station IPs ID cards have expired. He was advised to contact District HQ to request new cards.

**Salah Ad Din** (b)(3), (b)(6)

# CPATT IPLO DAILY SITREP

**(TA0064) Bayji District Police Headquarters:** PTT went to the Bayji District HQ to observe operations and spoke with CPT [redacted] of Logistics. CPT [redacted] was working on an excel spreadsheet that contained the names of the policeman and the serial number of pistols that had been issued to IP at the Makhul Police station. CPT [redacted] reported there were five IPs at the Makhul Station that had Baretta pistols that will be issued Glocks on Saturday.

MAJ [redacted] of Training was contacted who reported 27 IPs were presently in training at the academy in Jordan and three had been sent to Tikrit to be vetted. MAJ [redacted] expressed frustration that Tikrit chooses the candadates they want rather than ones he would like to send. MAJ [redacted] further stated Tikrit does not give feedback on the IPs until they send notice for the candadates to go to the academy.

**(TA0077) Salah Ad Din North IHP Station:** PTT visited Highway North Station to coodinate with the IP to assist in getting barriers moved at a traffic control point located north of the station on Tampa. These barriers need to be moved to allow larger traffic to pass. PTT went to the traffic control point to inspect and discuss where the barriers need to be placed. The barriers had not been moved as of the time of our departure. This should be considered a work in progress and will be followed up on.

**(TA0050) As Saniyah Local Police Station:** Nine personnel were on duty at the station with COL [redacted] as OIC. The completion of the force protection work was checked. The contractor has not moved the T-wall, has not completed the work on the Hescos and the lights have not been hung; the contractor's representive was not present. The contractor had E-mailed CF stating the work was finished and wanting to be paid. Payment will not be given until the work is completed to satisfaction.

COL [redacted] reported the IA has started, but is not fully working the fuel station and propane routes. COL [redacted] felt this will continue and more will be done by the IA.

COL [redacted] stated the neighborhood watch program was working well but participation has dropped in the past few days. He stated he will work to get the participation back.

This station is still in need of two handheld radios.

**(TA0068) Farhatia Local Police Station:** PTT convoyed to the Farhatia station and visited with all Officers present and conducted a station inspection. The station is fairly new and everything appeared in order. The station had adequate security around the station, but only a three man crew working. This station, as previously discussed, only has one operable vehicle which could be a safety problem if one patrol gets out and another is needed or their presence is required in more than one location at a time. The Officers working were all satisfied with their work environment other than the lack of fuel to run the generator.

**(TA0076) North Ad Dululyia Patrol Police Station:** PTT Traveled to the North IP station to conduct a meeting with GEN [redacted], COL [redacted], COL [redacted] and MAJ [redacted] in reference to the lists of manpower, weapons and other essential equipment that have, as of yet, not been provided to PTT. GEN [redacted] assured the team that the lists would be provided and that all his subordinates would provide the utmost cooperation when PTT arrived at any IP station in the future. GEN [redacted] also assured that all stations would be required to submit a weekly duty roster of both day and night shifts to the JCC and also a copy of the roster would be kept at each station to allow the team the ability to access manpower issues and to insure that all individuals that were getting paid were in fact working.

# CPATT IPLO DAILY SITREP

## At Tamim

(b)(3), (b)(6)

**(TT0004) Aruba Patrol Police Station:** PTT conducted a Train the Trainer class on Community Relations. The class was attended by five IPs and was very well received by the policemen and the local residents.

**(TT0005) Tamim Provincial Police Headquarters:** GEN (b)(6), (b)(7)c advised there were only seven detainees left from the arrest in Saddam village; all others have been released and the investigation is on-going.

CFs advised GEN (b)(6), (b)(7)c that there are over 100 new police vehicles in Taji that will need to be transported to Kirkuk.

**(TT0009) Domies Patrol Police Station:** COL (b)(6), (b)(7)c advised he was not able to deploy any vehicle patrols due to a shortage of IPs. COL (b)(6), (b)(7)c further stated that investigations, administration and force protection are fully staffed but the only IPs available were needed for transport of detainees to HQ.

## Mosul (MND-N)

(b)(3), (b)(6)

## Ninewah

(b)(3), (b)(6)

**(MN0056) Ninewah Provincial Police Headquarters:** The PDOP had a District Chief meeting at PHQ in which training, personnel, and force protection were discussed. The PTT observed the Iraqi Police Trainers graduate nine IPs from the train the trainer course.

**(MN0928) Abi Tamaam District Police Headquarters:** Investigative training scheduled for this weekend was discussed. An interactive class will be held with patrol IPs and IP investigators in order for them to introduce their current methods of investigative techniques. PTT will then follow up with an investigations course to further educate and build upon the IPs knowledge in this area. The objective is to hopefully steer the IPs toward proper crime scene operations, evidence/information collection and other basic investigative techniques which will help them in building proper case files for prosecution, suspect identification, etc.

**(No FFID#) Major Crimes Unit:** On this date IPLOs met with Colonel (b)(6), (b)(7)c at the MCU and mentored him on staying focused in his job as the MCU Commander. The Colonel had been recently questioned by the PDOP, General (b)(6), (b)(7)c, concerning rumors of corruption. It was learned that the Governor had previously mentioned these rumors to the PDOP in which he stated came from one of the Governor's sources. These rumors suggest that Colonel (b)(6), (b)(7)c has been taking bribes and allowing Terrorists suspects to escape prosecution. Colonel (b)(6), (b)(7)c stated that the person responsible for spreading these rumors is an IP Officer. IPLOs and Coalition counterparts have assured Colonel (b)(6), (b)(7)c and the PDOP that these rumors are far from the truth as IPLOs work closely with the Colonel every day. Colonel (b)(6), (b)(7)c has been very concerned about this matter and IPLOs repeatedly reassured him that he was doing a great job in the MCU.

**(MN0381) Al Zuhoor Local Police Station:** PTT was informed that IPs from the station responded to a drive by shooting in their district in which killed five civilians inside a vehicle. PTT spoke with the first officers on the scene. The team also conducted training on the first responders to a major crime scene.

Compiled by (b)(3), (b)(6), (b)(2) 6/16/2008

# CPATT IPLO DAILY SITREP

**(MN0953) Al Thakkafa Local Police Station:** PTT met with the major in charge of the station today for the first time and requested more frequent joint patrols with the IPs. The major agreed with the suggestion and a joint patrol was scheduled for tomorrow.

**(MN0201) Ninewah SWAT Team:** It was necessary for the SWATT Team to borrow two vehicles from the PJCC to PSD General [redacted] to PHQ. Numerous times over a four month period the team has filled out the necessary documentation for supplies to include; cell phones, computer, video camera, & uniforms.

(b)(6), (b)(7)c

**(MN0017) Al Namrood District Police Headquarters:** At this time there are enough personnel to perform the duties of this station. There is no generator, sewer, computer, landline phone, and only 33 bulletproof vests. Civil Affairs is working on a scope of work for station improvements. There are 51 trained IPs (Academy). Two who have been through the M&M training.

**(MN0036) Al Dawasa Patrol Police Station:** A visit by the PTT to the Al Dawasa Patrol Station found that the IPs were alert and at there stations checking all vehicles entering the police station area. Inspection of the jail faculties was conducted and found to be clean and in order for Iraqi standards. The weapons room was also inspected and found all weapons stored and files in order.

## Arbil

[redacted] (b)(3), (b)(6)

No station visits were conducted.

## Sulaymaniyah

[redacted] (b)(3), (b)(6)

**(TS0500) Sulaymaniyah Regional Police Academy:** PTT members monitored the movement of 194 Mosulian Academy graduates from the SPTA to the Sulaymaniyah International Airport. This movement was supposed to be handled exclusively by the IPs, and repeated advisements to that effect were communicated to the Academy personnel. This movement was intended to test the IPs capability to successfully complete this tasking unassisted and to assess their transitional readiness. Unfortunately, despite advisements that this was to be an independent operation, the IPs requested assistance of the SPTA Recruitment Officer who obliged and provided assistance throughout the movement.

**(TS0084) Sardow Local Police Station:** The Operations PTT met with Major [redacted] and his station personnel and the three week Force Protection Course resumed with station Group B (17 students) being trained on Handcuffing and Defensive Tactics. Following this, the practical Basic Defensive Tactics was administered, and again the students were required to do hands on practical exercises until they could demonstrate proficiency. During yesterday's session the Commander addressed the students and motivated them to give a maximum effort and to take advantage of this training opportunity. This seems to have had a positive effect as the students appeared to be much more enthusiastic during the day's sessions. After training with the IPS policemen, the Operations PTT administered training to the Commander and two officers on Force Protection SOP and then conducted a station security survey.

(b)(6), (b)(7)c

(b)(3), (b)(6), (b)(2)

# CPATT IPLO DAILY SITREP

**(TS0005) Emergency Services Station:** The Tactical PTT administered the fourth day of the Glock Armorer training, and initially reviewed firearms and the specific safety functions found on the issue Glock pistol. In addition, all components of the weapon were reviewed.

The pistol was broken down and each part gone over as to function. Each student conducted a breakdown and reassembly exercise.

A written examination was given. And a score of 80% or better was required to pass the program. All the IPs did well on this examination. A practical proficiency examination accompanied the written examination, and all the IPs passed this phase as well.

All were presented with Certificates of Accomplishment, as was the LA used, as the translation of the technical material was somewhat difficult and the interpreter worked hard preparing for each day's class.

The need for Glock pistols specific to this work has been previously addressed. There are no spare parts readily available for the repair and maintenance of these weapons. Any duty weapon broken down repeatedly will loosen up and any part broken or lost will take a duty weapon out of service. There are over 4,000 Glock pistols in service in our region and no spare parts available. This was not as critical prior to reaching recommended service time and having a cadre of IPS to deliver this servicing. The two firearms instructor trainers were originally provided a second weapon to accommodate this consideration, but the pistols were taken from them by their superiors.

With the issuing of the certificates, this training program was completed. The IPS personnel in the class did very well and had an excellent attitude towards the training. One of the instructor trainers for firearms from the IPS is capable of being an armorer instructor. This is an extremely responsible instructor position due to the detailed material in the program and the repercussions of making or teaching in error. It is the plan to seek out those capable from the basic program and develop them as instructors.

**(TS0052) Koya District Police Headquarters:** The Investigative PTT met with BG [redacted] (b)(6), (b)(7)c, who stated that he has received very little tangible assistance from the CF and is in need of an additional computer for the administrative office and for the investigators in order to maintain and retrieve records. The majority of IPs at this station only has two uniforms with only two patrol vehicles for 49 assigned personnel. The station does not have a sufficient fuel supply to enable them to conduct basic patrols. These concerns have been repeatedly forwarded to Provincial Police Headquarters but the budget is restrictive and allows for very little re-sourcing.

The Investigative PTT concluded the instruction segment of 'Crime Scene Investigation' with photography requirements and evidence evaluation at the crime scene. The IP personnel related that the material presented in class was very important and that they felt they received a great deal of information to advance their skills in crime scene investigation.

**Dahuk** [redacted] (b)(3), (b)(6)

No station visits were conducted.

**Ramadi (MND-W)** [redacted] (b)(3), (b)(6)

**Anbar** [redacted] (b)(3), (b)(6)

**Compiled by** [redacted] (b)(3), (b)(6), (b)(2) **6/16/2008**

**(RA0116) Akashat Local Police Station:** The PTT has one member permanently located at this position; two other members will be joining him promptly. No new information is known on the status of this station.

The PTT picked up ten Iraqi Police from the District Headquarters to be sent to Baghdad for mid-management training. This station should be assigned two of these Police.

**(RA0080) Al Quaim District Police HQ:** The PTT conducted a station visit to the District Headquarters to continue assistance with pay. The Team also picked up 10 Iraqi Police for transport to Baghdad for mid-management training.

The PTT coordinated and picked up 10 Iraqi Police for transport to Baghdad for the mid-management class. No training was conducted today at the station by the PTT. This was due to various other supportive missions.

**(RA0084) Baghdadi Local Police Station:** PTT convoyed to the District Headquarters and dropped off 2 air conditioning units to the FOB at the municipal building and delivered 2 to the District Headquarters. While at the District Headquarters, the PTT leader discussed plans for the IPs to start occupying the municipal building in Baghdadi with Colonel [redacted] (b)(6), (b)(6)c.

Sixty-one IP recruits are currently deployed to training at JIPTC. The IPs are continuing their construction on the armory and offices within the District Headquarters; the holding facility is complete. Discussions regarding additional security of the facility were conducted. These conclusions led to preliminary planning to add additional concertina wire and sand bags around the facility.

## Babylon (MND-CS) [redacted] (b)(3), (b)(6)

## Qadisiyah [redacted] (b)(3), (b)(6)

**(BQ0029) Qadisiyah Provincial Police Headquarters:** The PTT traveled to Qadisiyah PHQ with their military counterparts. The main issue dealt with today was the return of 479 IPs that were sent for training to BPC. The training of these IPs was cut short due to BPC saying that the IPs were already trained and they only train those who have no basic training. The IPs in question, were hired and trained by U.S. Forces in 2003 and although they only received from 1-3 weeks of training, BPC considered them as 'trained'. Progress was made with the Provincial MG concerning future training of IPs from the Province. Guidelines were set today with a clear understanding by the General.

The team learned that after leaving Afak District HQ three days ago, the militia came into the station and took control. Supposedly because an IP was drunk and driving his vehicle. The militias stopped him, drug him from his vehicle and then assaulted him. Evidently this IP told others and when members of the militia heard about it, they went to the station to confront him again. When PTT asked the General about this, he stated that he was going to fire the Afak District Commander for not notifying him about this problem.

## Wasit [redacted] (b)(3), (b)(6)

**(BW0054) Wasit Provincial Police Headquarters:** The PTT-P team convoyed to the Provincial Police Headquarters to visit with the director of training and inquire as to why no one was sent to the Police Radio Hand Held training class two days ago. The Colonel in charge stated that he will get with that section commander and will get an explanation for the

absenteeism of the IPs. There was also a brief training conducted with the training director on how to maintain a training schedule and information board in his office.

**(BW0607) Wasit Supply Facility:** The PTT team visited the Colonel in charge of supplies and made an inquiry if certain supplies requested from MOI were being received and to make sure they were properly distributed. Paper work copies were given to the PTT Team Leader to be translated on to what was received, where the supplies were sent and to what station.

**(BW0034) Wasit Check Point Headquarters:** The PTT team made a quick visit to the Checkpoint Headquarters to do a follow up on training that was given in the last couple of day and also to take pictures of the Headquarters in an attempt to make improvements on the facility and also better the force protection. Currently, force protection for Check Point Headquarters is at a minimum and exposes Iraqi Police stationed at the headquarters to risk of attack both small arms and possible VBIED attacks. The situation is being looked at by the El Salvadorian Army to make the compound more secure.

## Basrah (MND-SE) (b)(3), (b)(6)

### Maysan (b)(3), (b)(6)

No station visits were conducted due to the High risk levels in Al Amarah City and other taskings by the military.

PTTs met with Major (b)(6), (b)(7)c at Camp Balaclava (Camp Abu Naji) to discuss training issues. He was asked if he intended to send IPs to training at Al Kut on the July 29th for TIPS training, and stated that they would rather go to Jordan instead of Baghdad or Kut. The Major advised that the COP stated that it was very dangerous to send personnel to these classes. Major (b)(6), (b)(7)c was advised that his personnel needed to attend these classes.

Maj (b)(6), (b)(7)c also stated that they also need some advanced training in the areas of building entries and that they would like for the training to be held at Camp Balaclava. PTTs advised the Major that these issues would be sent to Baghdad to Major (b)(3), (b)(6) for further discussions. Twenty-six IPs graduated from TIPS class at Balaclava today.

### Basrah (b)(3), (b)(6)

A meeting with the various commanders of the MNF that are in charge of sector 6 and sector 3 stations was conducted. Also discussed was the situations at the stations and what the future plans are for the stations. It was also noted that about 530 IP vehicles were at FOB Shaibah. These vehicles, it is hoped, will be passed out at about 50 per week till the stations have there MTO filled.

**(BE0043) Basrah Provincial Police Headquarters:** Members of the PTT met with Col. (b)(6), (b)(7)c from Scientific Support and discussed the recent activities in the city and his units' involvement in the recent incidents. He stated that his people have been very busy, but have been having a hard time getting to the scene because of the problem of gasoline shortages.

The team was asked the Colonel if he could use an office trailer, and he stated that he could use this as an office for his EOD techs. He is also requesting air conditioning units for the various offices which contain electrical equipment used for his investigative sections.

The Colonel stated that he talked to a BG Jihad in Baghdad who is in charge of the EOD division of Iraq police. The Colonel was asking the BG for a letter that he can give to the courts of the area which would state that the EOD and SSU are not responsible for any

damage that is done to a vehicle that is suspected of being a VBIED. When asked why this is a problem, he stated that when the EOD personnel go to a vehicle and damage it they are taken to court by the owner of the vehicle. A letter was sent to Baghdad about trying to obtain this letter and expediting it's return.

**Dhi Qar** (b)(3), (b)(6)

PTT members, British MP's, MSU, and the Italians met for the continued purpose of station visits and our continued efforts of completing our PSMR. PTT members, MSU/Carabinieri, and the British MPs were conducting IP station commander interviews at the Italian camp for the purpose of PSMR information gathering. The PTT team was able to conduct interviews with four IP Station Reps.

**Al Muthanna** **unassigned**

No station visits were conducted.
