CPATT IPLO DAILY SITREP

N13

July 20, 2006

Baghdad (MND-B) [redacted] (b)(3), (b)(6)

Baghdad [redacted] (b)(3), (b)(6)

(BC0010) Al Bayaa Local Police Station: PTT was unable to conduct training as the training officer was not present at the guard mount. It was found that the duty roster had not been posted on the duty board at the appropriate time. The shift commander, MAJ [redacted] (b)(6), (b)(6)c, was in the field checking his checkpoints and when contacted by radio later in the day he was able to provide the duty numbers. The duty officer was mentored that this should not happen as it is a breach of security.

(BC0011) Al Dorah Local Police Station: The Team is finding that there is a growing concern pertaining to the station chief as he appears to have little interest in the activities of the PTT. While it is unknown exactly what is causing this, there are indications that some IPs may be causing some type of internal problems with other IPs (e.g. possible death threats or threats of harm). The Team is attempting to ascertain what steps need to be taken to resolve this matter. Four IPs received training from the Team on how to properly do cell searches.

(BC0012) Al Dorah Patrol Police Station (West): PTT conducted training for thirty-three IPs on vehicle patrol techniques. The training was divided into two sessions; one for the guard mount preparing to go on patrol, and the other for IPs on force protection so they will be cross-trained in the event they are rotated to a patrol function or transferred to a different station.

(BC0013) Al Dorah Traffic Police Station: The Team noted perfect IP attendance at the station on this date with all fifty IPs scheduled for work in attendance. PTT intended to do vehicle search training but was unable to do so as the station commander indicated that all of the IPs were working in the field. The importance of the training was explained to the commander, and it was agreed that fourteen new IPs being assigned to the station in two weeks would receive one week of training from the Team. It appears there will be difficulties in getting training done for current IPs due to scheduling difficulties. Search wands were requested by the station commander.

(BC0015) Al Ghazalia Patrol Police Station (West): PTT met with the new training officer, LT [redacted] (b)(6), (b)(6)c, to go over lesson plans for future training, as well as to mentor him on leadership. Training in ethics was held with a total of twenty-three personnel being trained by the Team. Major [redacted] (b)(6), (b)(6)c told the Team that some of the local children were afraid to talk to the police. Along with IPs, the Team invited some of the children into the station in order to establish trust through communication and gift-giving.

(BC0028) Al Karkh Police Directorate HQ: Administrative supplies were delivered by PTT. In a meeting with Major General [redacted] (b)(6), (b)(6)c, the Team discussed issues relating to fifty-nine IPs at Tarmiyah that have pay issues, and the need for more AK-47 and PKC ammunition at Mahaoudiya. General [redacted] (b)(6), (b)(6)c recently sent 2000 rounds of AK-47 ammunition and 1500 rounds of PKC ammunition to that station and has requested more from the coalition. Additionally, General [redacted] (b)(6), (b)(6)c has taken delivery of three hundred IP badges for the entire directorate, but badge issues remain as there was a computer problem at the MOI which caused a loss of information. In a visit to Juvenile Services, COL [redacted] (b)(6), (b)(6)c noted that he is concerned about a lack of support from his chain of command and the coalition. The Team

advised him that they would support him and push reasonable requests though his chain of command. The office is in need of a digital camera as they do not have one, and COL [redacted] was advised that one will be provided on the next PTT visit. (b)(6), (b)(7)c

(BC0036) Karrada Traffic Police Station: The Team found that all of the station vehicles, which consist of nine cars, four pickups, one tow truck, two busses, one large truck, and two motorcycles, were all operational. The training officer was mentored by the Team concerning personnel record filing and training record keeping.

(BC0042) Al Meshadadah Local Police Station: The Team found the current shift to be at 50% manning. Construction of the detention facility is still underway so there are no inmates at the station. No new crimes or serious incidents were reported. As noted above, station manning has become a severe problem. After the recent attacks and assassinations, many of the personnel have either requested a transfer to Baghdad or have stopped reporting for duty. With the station renovation continuing, the Team learned that they are ready to begin filling, leveling, and then putting down gravel for the IPS drive and parking areas. Also planned is the installation of a gasoline tank on a permanent mount, as well as correcting minor electrical problems. Training by the Team included one Officer being instructed in handcuffing techniques, which in turn will be used by the Officer in the station's training program. PTT and IPs conducted joint patrols to several residential areas within Mishahidah.

(BC0052) Al Rashidia Local Police Station: LTC [redacted] reported to the Team that there had been an attack on an IP vehicle in the Sheik Saad area, with one injury and resulting in the vehicle being burned. (b)(6), (b)(7)c

PTT mentored LTC [redacted] on the importance of processing for evidence, vehicles that had recently been left by attackers following a recent assault on the station. Because it appears that the only time IPs were performing patrols was with the PTT on joint patrols. LTC [redacted] was counseled on the importance of patrols being done every day, and not only when the PTT was at the station. A joint patrol with two IP elements was conducted. During the patrol there were checkpoints set up and several vehicles were stopped and searched. (b)(6), (b)(7)c (b)(6), (b)(7)c

(BC0055) Rusafa (East) Directorate Traffic HQ: The station currently has sixteen patrol vehicles, with one down for repair. In addition, the station is assigned seventeen motorcycles, with one down for repair. The Team went over filing practices with the training officer, including such things as proper personnel record keeping and how to maintain training files.

(BC0057) Al Salaam Local Police Station (Baghdad): PTT was advised by LTC [redacted] that 100% of the patrol and force protection scheduled were on duty. When the Team arrived, it was noted that there was force protection present on the roof and at the front gates and personnel were attired properly. There are no issues with the nine detainees in the jail. LTC [redacted] did not have any new incidents of note to report. The team is still attempting to obtain an accurate accounting of the station's 9mm ammunition, which includes tracking ammunition issued to IPs. (b)(6), (b)(7)c (b)(6), (b)(7)c

(BC0060) Al Shulla Local Police Station: PTT attempted to learn the location of some confiscated weapons from a recent skirmish with insurgents, but was advised by the station commander that they did not have them, which appears to be a communication problem and an IA officer possibly has them. A joint patrol was conducted with IPs and no difficulties were encountered.

CPATT IPLO DAILY SITREP

The station commander turned over seven sticks of dynamite to PTT. The dynamite had been found by his IPs on a roadside. EOD was called to the station and took care of the dynamite, advising the station commander that in the future they should be called to pick up explosives where they are found. The Team was told by Colonel [redacted] that this information would be passed on to all IPs. The Team may use this as a future training topic. (b)(6), (b)(7)c

(BC0067) Al Tarmiya Local Police Station: PTT observed uniformed and armed IPs at the TCP on the west side of Al Tarmiya as they arrived in the town. Uniformed and armed IPs were also present at the temporary IP station when the Team arrived. In a conversation with two LTs about station staffing, PTT learned that some station personnel have not been able to report to work due to area and route closures by MNFI in Baghdad, but they have at least been checking in by telephone when they are unable to travel. PTT met with MAJ [redacted] and he reported receiving a letter from the IA ordering him to only do patrols with the IA. This would require him to have an officer report to the IA building every morning for one hour, and to provide the IA with the names and addresses of IPs working at the Tarmiya Station. PTT reported the letter to the military advisor for the IA in Tarmiya. A meeting was then arranged between MAJ [redacted] IA COL [redacted] regarding the letter. PTT attended the meeting, as did the U.S. military advisor for the IA in Tarmiya. At the meeting it was agreed that the IPs will conduct patrols independent of the IA, but notify the JCC before the start of any patrols. The station will provide the JCC only the first names of IPs going out on a particular patrol. (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c

(BC0074) Al Yarmouk Traffic Police Station: Upon arrival at the station, PTT noticed that force protection was unsatisfactory at the gate and also on the roof. PTT was unable to do any mentoring or training as the station was unmanned. Efforts by the Team to locate the station commander were unsuccessful.

(BC0085) Baghdad Provincial Patrol Police HQ: PTT met with LTC [redacted] regarding a Power Point presentation for training in police survival techniques. LTC [redacted] would like to see this training provided for all of his personnel. Further, he would also like proactive community-based policing training at the HQ in order to better serve and protect the public, develop a partnership with the community, gather intelligence, and prevent crime and terrorism before they occur. The Team also met with COL [redacted] in order to plan the next Community Affairs Division meeting which will be held on July 25th. All station executive officers will be in attendance at this meeting. (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c

PTT met with COL [redacted] in regards to using the station dining facility, which is under construction, as a classroom for training. According to COL [redacted], they are in the process of acquiring a laptop computer, as well as tables and chairs for that purpose. PTT received copies of pending ammunition requests in a meeting with COL [redacted]. The Team met with COL [redacted] regarding construction issues at the HQ, at which time additional construction requests were made. (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c

PTT met with IPLOs from the Karadah Police Patrol Station in order to coordinate planned mobile TCP training. The discussion included planning training guidelines and schedules for nineteen IPs from the Karadah Station, as well as two IP trainers. The goal is to have this mobile training team train as a model team for the mobile TCPs. Planning was done to coordinate schedules so the training can begin. COL [redacted] requested that PTT have a class on leadership issues, including muster briefings and roll call training, which would be presented to the regional training officers. Additional training requested includes officer responsibilities regarding the operation of a squad-size patrol unit. (b)(6), (b)(7)c

CPATT IPLO DAILY SITREP

(BC0086) Baghdad Main Provincial Police HQ: PTT previously facilitated (July 17th) programming 'fill' for the Motorola UHF handheld radios and programmed and tested two radios. Power problems interrupted the work being done and the work will need to continue to do more programming for the vehicle and base radios, as well as the repeater. The Team met with 1LT [redacted] (b)(6), (b)(7)c and expressed concern that the 1400 Motorola radios they have would not be programmed and distributed in a timely manner. This will be monitored by PTT.

PTT also did force protection assessments at Al Dorah Police Station and Al Rashed District Police HQ; these stations share a common compound. PTT made recommendations to improve security, which included barriers, scud bunkers, concertina wire, and security lighting. The Team also assessed the need for heavy weapons. An additional force protection assessment was done for the Hy Al Amil Police Station.

(BC0089) Belat al Shuhadaa Local Police Station: PTT met with the IP in charge of motor maintenance and learned that the station has a total of eight vehicles. Two IPs were mentored by the Team on vehicle checkout, as well as the importance of checking the fluid levels in the vehicles prior to patrol. PTT attended the guard mount and mentored the station and shift commanders on conducting the guard. Both commanders made sure the IPs were dressed in uniform and looked professional. Two IPs assigned to guarding inmates on a work detail were mentored by the Team. In a meeting with the station commander, PTT was told that at least six supervisors were needed to properly staff the station. According to the station commander, he is having problems with supervisors not properly enforcing the station policies.

(BC0096) Karada Miriam Local Police Station: Community police is ongoing with the 732nd Air Force. PTT conducted training for five IPs in the area of self-defense tactics. A general prosecutor came to the station to individually interview all of the prisoners. Inmates had the opportunity to discuss their cases, problems in the jail, treatment in the jail, medical issues, and meals. Medical issues continue to be a problem at the jail, as does overcrowding and safety concerns. The 732nd Air Force did get treatment for a sick prisoner. The container that is being given to the station by the British Police will be moved this week. This large portable kitchen will be refurbished by the British, providing a sanitary kitchen that can be used by IPs and the Traffic Officers. PTT is looking into overcrowding in the jail. Thirty-four prisoners are currently in the jail. There is currently no means by which to segregate prisoners. PTT is looking at redesigning the impound lot at the station.

(BC0104) Criminal Investigation Directorate Unit 1 (West): PTT met with COL [redacted] (b)(6), (b)(7)c and obtained names of IPs and Commissioners for the next assistant investigator class. COL [redacted] (b)(6), (b)(7)c was also notified of the training plans for current investigators. He agreed to send all of his investigators to these classes. The Team met with the supervisors of the anti-terrorism and kidnapping units regarding the investigative assistants that have been trained, and were told they are using them. PTT also received a request for assistance in releasing a detainee being held in their jail for another station.

(BC0120) Rusafa Directorate Police HQ (East): PTT found the station guard force and ECP guards in proper uniforms and functioning well. The third shift recently added, has eased the workload and improved morale, especially those on the front ECP. While informing MAJ [redacted] (b)(6), (b)(7)c of a death threat to a language assistant, he said he had received several as well including three text messages threatening both his life and that of his family. The Team met with MAJ [redacted] (b)(6), (b)(7)c of the criminal records section and he requested an internet line for his office. Requests for internet lines have also been received from the movement and complaints office. As is noted on a regular basis, logistical issues with such

things as uniforms/protective equipment and communications persist. Problems with computer and radio repair still exist, as do ammunition shortages. The Team, on a periodic basis, will conduct simulated attack drills.

(BC0121) Saba Al Boor Local Police Station: PTT noted that the IPs were manning the checkpoint at the entrance to the town, along with the IA. A joint patrol was organized by the Team. During the patrol a checkpoint was set up. The IPs did a good, effective job in every aspect of the checkpoint detail. COL [redacted], the station commander, told the Team that he feels strongly about his IPs receiving community policing training and training for policing in a democratic society. The station is currently on red alert status with two shifts on duty at the same time. The Team issued uniforms for the new IPs to the supply clerk, who in turn issued them to the new IPs.

(b)(6), (b)(6)c

An Najaf [redacted] (b)(3), (b)(6)

No station visits conducted.

Karbala [redacted] (b)(3), (b)(6)

No station visits conducted.

Babil [redacted] (b)(3), (b)(6)

(BB0500) Al Hillah Regional Police Academy: PTT went to the Academy to further prepare for the Riot/Serious Incident class to be held on July 20th. LTC [redacted] and CPT [redacted] were both briefed on the class outline. The Team requested a count from CPT [redacted] of IPs trained at the district level per the Training Officer Letter signed by GEN [redacted], but was told an accurate count was not available as this was a new requirement. However, CPT [redacted] thought that in the last two weeks approximately four hundred IPs have received training. A partial training calendar will be provided to the Team.

(b)(6), (b)(6)c

Tikrit (MND-N) [redacted] (b)(3), (b)(6)

Diyala [redacted] (b)(3), (b)(6)

(No FFID#) Khalis Local Police Station: PTT conducted a night time check point visit and observed three IPs sitting in a vehicle and one IP in the guard tower. None of the IPs were wearing body armor or carrying any weapons. PTT mentored and advised the IPs on the importance of wearing their issued vest and having weapons with them at all times while on duty.

(TD0026) Hib Hib Local Police Station: PTT met with the Station COL and completed a station assessment. The COL stated he has 63 IPs and they all have ID Cards. No IPs have quit and there are no transfers in or out. There have been no changes in the weapons or ammunition.

The COL was unable to provide any documentation regarding prisoners being held at the station. The Team advised the COL of the requirement to maintain prisoner records, and asked him to start the documentation process.

PTT observed the Hesco barriers at the rear of the station were only a ¼ of the way filled. The COL said that he has the dirt and will get them filled right away. The generators are not working and a repair request has been forwarded to HQ.

CPATT IPLO DAILY SITREP

Salah Ad Din [redacted] (b)(3), (b)(6)

(TA0080) Salah Ad Din Provincial Police Headquarters: PTT met with BG [redacted] (b)(6), (b)(7)c and asked him about the status of the Ad Dawr Police Chief. BG [redacted] (b)(6), (b)(7)c informed the Team that MG [redacted] (b)(6), (b)(7)c recently called a meeting with the Ad Dawr Mayor, Police Chief, and other notables. He informed the Police Chief at that time that he would be replaced. At that meeting MG [redacted] (b)(6), (b)(7)c offered the job to MG [redacted] (b)(6), (b)(7)c, who was the Chief of Police two years ago, but was fired for his brutal discipline policies. MG [redacted] (b)(6), (b)(7)c did not accept the job. PTT mentioned the possibility of CPT [redacted] (b)(6), (b)(7)c becoming the police chief, but they are looking for other possible replacements.

The DBE Commander, MG [redacted] (b)(6), (b)(7)c and the PTT team met with BG [redacted] (b)(6), (b)(7)c. The group discussed how to include the DBE in the overall security plan for Tikrit and Salah ad Din. MG [redacted] (b)(6), (b)(7)c assured everyone that he was ready and willing to help in any way once he received approval from MOI. According to MG [redacted] (b)(6), (b)(7)c and BG [redacted] (b)(6), (b)(7)c, the SaD Governor has become involved in gaining MOI approval for DBE employment into the security plan.

BG [redacted] (b)(6), (b)(7)c stated his concerns about the NPs coming to the city of Tikrit. He stated that the IP are capable of securing FOB Remagen if the property was signed over to them.

PTT requested that he provide more fuel to the River Patrol unit citing some recent pursuits on the river where the patrol had to stop due to the lack of fuel. BG [redacted] (b)(6), (b)(7)c stated the patrol only got about 100 liters of fuel per month which is not enough for them to do any routine patrolling of the river. After discussion, BG [redacted] (b)(6), (b)(7)c agreed to increase the amount of fuel provided to this unit.

PTT met with COL [redacted] (b)(6), (b)(7)c of the Provincial Logistics Office and delivered about 100 Hesco baskets and 20 rolls of C-wire to be used for force protection at various locations.

(TA0084) Samarra District Police HQ: PTT met with CPT [redacted] (b)(6), (b)(7)c, QRF Battalion commander and arraigned for approximately 20 men to come into work on their day off and work a plain clothes assignment. PTT provided them with several hours of instruction prior to departing on the mission. The mission was for the IP to look for suspicious activity in several target neighborhoods where we have been receiving complaints of AIF activity. These 20 IP were handpicked by CPT [redacted] (b)(6), (b)(7)c and PTT as being the cream of the crop. The mission lasted for approximately 3 hours. Upon completion of the mission, an extensive after action review was conducted in which the IP stated that they wanted to do more scout type missions. Plans are underway to utilize this type of surveillance more frequently in the future.

PTT met with MAJ [redacted] (b)(6), (b)(7)c and LTC [redacted] (b)(6), (b)(7)c, Officers of the Samarra Motor Pool. PTT reviewed their equipment purchases and immediately noted irregularities. PTT believes that MAJ [redacted] (b)(6), (b)(7)c has been misappropriating funds. In addition, the project to outfit the vehicles with safety cages that is being supervised by MAJ [redacted] (b)(6), (b)(7)c has resulted in substandard vehicle cages. LTC [redacted] (b)(6), (b)(7)c immediately denied involvement in anything and kept saying

that he didn't know about the equipment or any of the irregularities. PTT informed LTC [redacted] (b)(6), (b)(7)c that since he is the chief of the section, it is his sole responsibility to supervise the work and activities of his subordinates

PTT met with management personnel at Samarra headquarters to assure that the tracking of untrained personnel is being reported to Provincial HQ and Academies. PTT was advised that untrained personnel are being tracked and a list of names have been sent to Provincial HQ, Training Department, and Academies. Personnel Department further advised that the Training Department also maintains a list of names.

PTT participated in a live fire training exercise with the IP which was day four of a five day course in which 2 IP instructors were the primary instructors and PTT was assisting. SGT [redacted] (b)(6), (b)(7)c noted that four of the ten IP participating in the training had not yet been issued pistols.

(TA0087) Thar Thar Local Police Station: PTT arrived at the Thar Thar Police Station and observed all guard post manned and IP in proper uniform. PTT also noted construction work being done to the interior of the building. PTT talked with contractor and he stated the project will take approximately 60-90 days.

PTT asked MAJ [redacted] (b)(6), (b)(7)c if he had knowledge of the explosion that killed an IP and his family members in Samarra on July 17th. MAJ [redacted] (b)(6), (b)(7)c stated he had heard of the incident but had no information.

(TA0106) Mukayshifah Patrol Police Station: Upon arrival at the station the roof guard and front door guard were in place. When PTT entered the station the rest of the shift was asleep and there was no supervisor on duty. PTT will bring this up with LTC [redacted] (b)(6), (b)(7)c.

4 IPs were trained on response to UXO's. 11 IP were on duty and there were no prisoners.

(TA0076) North Ad Dululyia Patrol Police Station: PTT traveled to the North IP station and met with MAJ [redacted] (b)(6), (b)(7)c who maintained a full complement of IPs at the station and all were in uniform. MAJ [redacted] (b)(6), (b)(7)c requested two PKC machine guns; one for use on the roof top at the North IP station and one for use at a TCP. MAJ [redacted] (b)(6), (b)(7)c also requested a computer for record keeping and storage for the North IP station.

At Tamim [redacted] (b)(3), (b)(6)

(TT0004) Aruba Patrol Police Station: COL. [redacted] (b)(6), (b)(7)c advised that the station currently has five police vehicles that could be used for patrol, and has 123 IPs assigned to the station.

PTT conducted a Train the Trainer course on Public Relations.

(TT0023) Azadi Patrol Police Station: COL [redacted] (b)(6), (b)(7)c advised that 38 of his officers had not completed the Basic Academy training. COL [redacted] (b)(6), (b)(7)c further stated that he could send 10 officers to basic training at one time without hindering his present operations. The station currently has ten in basic training in Jordan.

CPATT IPLO DAILY SITREP

(TT0022) Meghdad Patrol Police Station: PTT observed the station Training Lieutenant as he presented a class in Community Relations to 6 IPs.

(TT0005) Tamin Provincial Police Headquarters: Colonel [redacted] stated that several police vehicles have broke down due to fuel pump problems and believes the fuel quality to be the problem. The IPs assigned to the Highway Patrol will not travel out of the city in fear of vehicle breakdowns. GEN [redacted] and COL [redacted] are both in agreement that the Police need a higher grade of fuel to perform there required duties.

COL [redacted] also indicated there are communication problems in the highway patrol with the patrolmen not being able to talk to patrol HQ outside of the city. COL [redacted] said the range of the Motorola radios is not sufficient for the province due to the radios being VHF and having only one tower in the area.

(TT0003) Arafa Patrol Police Station: COL [redacted] advised that he was still awaiting information from CFs regarding repairs to a broken sewer line. COL [redacted] was advised that the three bids he had received for the repairs had been turned in to the chain of command for final approval.

COL [redacted] advised that Arafa IP Station needed 7.62 ammunition and 9 mm ammunition.

COL [redacted] further advised that the station currently has 125 IPs assigned and only 3 operational vehicles.

Mosul (MND-N) [redacted]

Ninewah [redacted]

(MN0056) Ninewah Provincial Police Headquarters: PTT Logistic members met with Logistic personnel to inform them that the rest of the 275 vehicles will be delivered to FOB Diamondback. The team will start doing the serial number checks and final paper work to get these vehicles distributed out to police stations.

(MN0009) Al Hadba DHQ: The team spoke with BG [redacted], who explained that he is more closely monitoring his traffic control points; resultant of previous discussions. He explained that he has discovered some of IP personnel men sitting in their police vehicles shirking their TCP duties earlier today. He said that he had them relieved at their posts and had placed them in jail for 24 hours. He added that this action was to get the message across to the other IPs that he will not condone their shirking of assigned duties. He added that he remained supportive of any in-service training the Team could provide to his IPs.

PTT continued training IP investigators in the use of EXSPRAY. A basic first aid class was also given to 20 IPs.

(MN0076) Tall Afar DHQ: BG [redacted] complained that the New District HQ building was inadequate as there are only six offices in it. It is a refurbished building at the Castle and the contract did not include adding more rooms. It is the smallest station in the district and will not accommodate the staff. The PTT team explained to the General that this plan was put in place by the previous unit and that alternative arrangements would be considered.

CPATT IPLO DAILY SITREP

(MN0066) Sinjar DHQ: The Sinjar Team met with General [redacted] and outlined plans to begin training Sergeants and higher ranks in Supervision and other matters. General [redacted] supported the plan and would contact Col [redacted], Sinjar District Commander, providing him with details for planning and implementation.

(MN0381) Al Zuhoor LPS: PTT spoke to 1st Lt [redacted] who is very concerned about the amount of VBIED attacks that have taken place in the district. He relayed to PTT that he was gathering intelligence about the local insurgents in Abi Tamaam District.

1st Lt [redacted] advised PTT that he is in need of uniforms for his IPs. PTT is working on acquiring additional furniture for the station.

(MN0924) Al Jamouri LPS: PTT were advised by LTC [redacted] that there are plans to build a new IP station. A contractor from Tetra Tech EC, INC was hired to start the bidding for the new station. PTT are still in the process of getting the station a computer and digital camera.

(MN0953) Al Thakkafa LPS: PTT conducted a station visit at the Al Thakkafa Local Police Station. The IPs received good citizen reports on phase four of 'Operation Lion's Hunt'. There were no reported citizen complaints and the community was in support of the operation due to ongoing active insurgency in the area. The operation will continue over the next several days. The objective is to suppress insurgency, detain suspects and confiscate contraband.

(MN0928) Abi Tamaam DHQ: Team members met with staff members and discussed issues from yesterday's project. According to station personnel, it appears Lyon Hunt Phase 4 was successful and productive in or parts of the city.

Inspection of the jail faculties were conducted and found to be clean. Staff members were mentored and advised on the chain of command to obtain supplies.

(MN0036) Al Dawasa Local Police Station:
On July 17th an IP from this station was shot and killed by a sniper. NFI

The commander states that his men are tired from an increase in operations and it is degrading their ability to perform their duties.

PTT explained numerous times the necessity of using Form 101 to obtain supplies. The commander was unaware that the station had the forms. PTT explained that all of his previous requests had been turned down by NPHQ because he was not using the proper forms.

(MN0045) Al Khazra LPS: PTT brought several packs of c-wire to the IPs for the top of their station. PTT mentored and advised the Colonel of using precaution when finding IEDs on patrol, such as the one they found yesterday several blocks away.

(MN0220) Al Karama DHQ: Upon our arrival, PTT met with Major [redacted] and went over the number of authorized items and equipment.

PTT members were told that an IP patrol had received small arms fire while on a Traffic Control Point. IPs had detained four potential suspects while conducting a sweep of the area after the shooting. This is the third shooting at this intersection in less than eight days.

Operations personnel said that the radio system district wide was experiencing problems again today.

Arbil (b)(3), (b)(6)

(MI0905) Irbil Airport Security Police: IPLOs set up a QRF class for August 5th thru August 10th. The class will consist of a 12 man team along with a team commander.

(MI0936) Irbil Sec. Police Prov/HQ

On 19 July 06 IPLO Criscione conducted the Response to Active Shooter(s) portion of training for students attending the Special Weapons and Tactics Course. The students received instruction in the following areas; Response to Active Shooter Drills and Recovering Downed Officer Drills.

Sulaymaniyah (b)(3), (b)(6)

(TS0008) Sulaymaniyah Provincial Police Headquarters: PTT met with Colonel (b)(6), (b)(7)c (Logistics) and delivered another 104 Motorola handheld radios. PTT also met with LTC (b)(6), (b)(7)c (Communications) and advised that there were current efforts underway to distribute radios to the field prior to their being programmed.

PTT met with MG (b)(6), (b)(7)c and asked for his opinion regarding additional police stations to be included for rehabilitation. MG (b)(6), (b)(7)c stated that there were dozens of stations that required closing and new stations built. He advised that rehabilitation was deemed a waste of money and would not produce an adequate facility from which to work. He rendered a list of stations that he would immediately consider, but added that there were many more that should be added.

MG (b)(6), (b)(7)c advised that he had no budget to address a $200 fee for off-loading 60 incoming vehicles. MG (b)(6), (b)(7)c was advised that the benzene and the off-loading fee involved were small prices to pay for an initial vehicle package worth well in excess of $600K. Efforts continue to identify a suitable site for the safe unloading of vehicles without need of contract assistance.

MG (b)(6), (b)(7)c was provided additional training reports and the rosters of those recently trained by the various PTTs.

(No FFID#) Sulaymaniyah Crimes and Evidence Directorate: The Investigative PTT finished the series of instruction on elimination fingerprints by conducting hands-on instruction in the collection of rolled fingerprints.

Classes in the future will address each area of evidence collection, identification of evidence, and techniques used to collect each particular type of evidence.

The fingerprint comparison class is scheduled to be conducted during the time period from 7-23 to 7-28. The class will contain six individuals, four from Crimes and Evidence and two from the Legal Investigator class. The Asaish will also be invited to send two students. The comparison class for fingerprints will be administered for eight hours each day, covering all aspects of fingerprint collection, preservation, comparison, conformation, and court room presentation.

CPATT IPLO DAILY SITREP

(TS0084) Sardaw Police Station: The Operations PTT conducted training for Sardaw Police Station consisting of 14 KPS from Team A. Today's class was held with the hands-on practice for Vehicle Searches and Station Defense Drills.

The student's performance was excellent; reflecting their grasp of the subject matter. The eagerness exhibited by the students during the practicum was evidence of their willingness to learn.

Dahuk

(b)(3), (b)(6)

PTT provided the literacy test to the Ahmedi District Police HQ today and tested 88 Kopf's. 70 passed the literacy test which puts the total number of KPS that are eligible to attend JIPTC at 270.

Ramadi (MND-W)

(b)(3), (b)(6)

Anbar

(b)(3), (b)(6)

(RA0110) Rawah District Police HQ: The PTT team attended a command staff meeting held at the COP. The meeting included IA, IP and members of the 4/14 command staff. The main topic of the meeting was to discuss the improved relations and communications between the IP and IA, which led to the discovery and disarmament of a VBID. PTT also conducted a station visit where one new officer was identified. Screening for new hires will continue this week.

(RA0002) Al Anbar Provincial Police HQ: PTT traveled to Fallujah with representatives of the Governor's Emergency Battalion to cash the June payroll checks. This money was then transported back to the Government Center to pay the Tribal Affairs, Communications, and Governor's PSD personnel. Members of the Provincial Finance Section worked all day on preparing the July pay rosters for signing by the Governor. IHP Capt. [redacted] arrived with the IHP-6 rosters today. The PTT found another 59 IPs that had been added to the rosters since last months rosters were turned in. Many of these IPs were transferred from the Ramadi District HQ or stations within the Ramadi area.

(b)(3), (b)(6)

While rosters were being prepared some of the command staff personnel were being trained in the new training facility. Some of the classes given were Intelligence Records and Liaison with the Military.

Babylon (MND-CS)

(b)(3), (b)(6)

Qadisiyah

(b)(3), (b)(6)

(BQ0045) Hamza Checkpoint Local Police Station: PTT members and their military counterparts traveled to the Hamza Check Point to deliver a Check Point Training and Inspection Plan to Captain [redacted], who in turn would have the training plan translated into Arabic and distributed to other check points. Due to the heavy traffic volume, the PTT was limited in their on-sight training; however, IPs reportedly performed well.

(b)(3), (b)(6), (b)(2)

Compiled by [redacted] **6/16/2008**

Although the station overall seemed to be well organized, they are in need of better lighting and a functional generator. There is also a shortage of diesel fuel.

Wasit (b)(3), (b)(6)

No station visits were conducted.

Basrah (MND-SE) (b)(3), (b)(6)

Maysan (b)(3), (b)(6)

No station visits were conducted due to the HIGH risk levels in Al Amarah City and due to other taskings by the military.

Basrah (b)(3), (b)(6)

(BE0043) Basrah Provincial Police Headquarters: PTT Members met with Major (b)(6), (b)(7)c of the Scientific Support Unit and had a discussion about the missing equipment that the unit needs to get their robot operational. A list of the missing items was provided to the team.

There was also discussion concerning the new IED that is popping up in Basrah. This IED is put in a pothole and activated when the vehicle goes over it. It has a spring that sends it up and attaches to the vehicle in question, then explodes. This is the first that something like this has been found in Basrah City.

(BE0603) Schools and Colleges Police Police Station: Members of the PTT conducted a meeting with Capt (b)(6), (b)(7)c of the Schools and Colleges Police who stated that he is now undermanned and that the reason is that other police commanders have taken his police because the Schools and Colleges police are in the process of being disbanded. This is by order of the MOI.

The Captain stated that this was was not a good idea. Schools police have stopped some kidnapping attempts against the teachers and students at the schools they protect. When asked whether they were staying at the current station or not, he said that they would be moving to the Warren for now and moved to another station in the future. He stated that commanders from other stations are coming in and taking all the good IPs from his ranks. He stated that he and the Major in charge had to argue about taking them and after losing about 30 IPs, it stopped.

The Capt stated that he has about 50 IPs that can not read, and he is waiting for the reading and writing classes to start to get them the training they need.

Al Muthanna (b)(3), (b)(6)

PTT continues to assist Dhi Qar PTT with Op Blast 9.

Dhi Qar (b)(3), (b)(6)

No station visits were conducted.
