CPATT IPLO DAILY SITREP

N15

July 22, 2006

Baghdad (MND-B) [redacted] (b)(3), (b)(6)

Baghdad [redacted] (b)(3), (b)(6)

(BC0003) Airport Local Police Station: The Team conducted a class in 'vehicle stops and patrol techniques', training four IPs. The Team was scheduled to do a joint patrol with the U.S. military in the French Village, but was cancelled due to the military not arriving. IPs assigned office duties have again requested assistance from the Team in obtaining basic office supplies. Previous requests went through both the IPs chain of command and the 49th M.P. chain of command. The Team will contact 49th M.P. personnel for their assistance. The Team recently completed an inventory of ammunition on-hand, and the IP armory officer will do his own inventory; with the two then being compared.

(BC0045) Al Nasir Local Police Station (Baghdad): PTT heard from MAJ [redacted] (b)(6), (b)(7)c that the station has not received fuel for the generator for two months. He personally purchased fuel recently because of the heat. MAJ [redacted] (b)(6), (b)(7)c, in relaying some information about a recent homicide victim found, was unable to give the Team basic information, which was interesting to the Team since he claimed to be the lead investigator. PTT has seen this situation before regarding the frequent homicides. MAJ [redacted] (b)(6), (b)(7)c reported no pay issues at the station. The Team heard that the curfew in Sadr City is largely ignored by the citizens. When citizens are found in violation of the curfew they are talked to but apparently not arrested. PTT observed shops near the station open and some vehicle traffic even though it was after curfew.

(BC0046) Al Quanat Local Police Station: PTT is aware that this station has problems with no generator fuel, and only four of ten patrol vehicles are operational. Out of fifty-four people in the station jail, thirty-six are IPs.

(BC0052) Al Rashidia Local Police Station: PTT did a joint patrol with the station with numerous mortar attacks throughout the patrol. The station needs a generator as power is limited to approximately four hours per day.

(BC0053) Al Rusafa Highway Traffic Police Station: COL [redacted] (b)(6), (b)(7)c advised the PTT that the only issue with the station is that he would like to have the parking lot paved. There are no fuel or water issues at the present time.

(BC0064) Al Taji Local Police Station: The Team observed that the new fuel tank was leaking. Attempts by the Team to repair it were unsuccessful. COL [redacted] (b)(6), (b)(7)c advised PTT he has adequate personnel. PTT conducted training for 9 personnel on vehicle checkpoints and detention/arrest.

(BC0073) Al Yarmouk Traffic Police Station: PTT conducted training on vehicle searches for eight IPs.

(BC0087) River Patrol Police Station (East): The only problem observed at the station by PTT was the lack of continuous electricity.

(BC0089) Belat al Shuhadaa Local Police Station: PTT was unable to conduct training as the shift commander advised all IPs were needed for patrols and checkpoints. The Team did mentor two IPs concerning Glock familiarization, and one IP on prisoner searches.

CPATT IPLO DAILY SITREP

(BC0090) Boob Al Sham Local Police Station: PTT found everything in order at the station during an evening visit. The Team delivered ten Glocks, ten duty belts (with accessories), and 1000 rounds of ammunition to COL [redacted] (b)(6), (b)(7)c The Team received a request for first aid kits for the patrol vehicles. Six IPs were trained by the Team in situational awareness, requesting emergency medical response, vehicle and subject searches, preparation of incident reports, and preparation of sworn statements. A joint patrol was conducted with three IP vehicles.

(BC0101) Mahmoudya District Police HQ: PTT mentored the new station commander on several issues, including the problem with fuel for patrol vehicles. The Team advised him that he needs to make contact with the MOI to resolve this matter. The commander advised that BHQ has approved fifty IPs to be assigned to Lusafeya IPS. The commander was advised that the military will provide new trucks to be assigned to the new temporary station.

(BC0102) Mahmoudya Local Police Station: PTT did a night visit to the station. No training was conducted as the station was on alert due to a report that an assault by AIF may occur. Power, uniforms and handguns are still issues with the station.

(BC0118) Rusafa Motorcycle Traffic Police Station: PTT heard from the station commander that he is pleased with the overall construction of the station as well as the new generator. Construction is due to be completed in approximately one week. The station commander told the Team there were no issues that needed to be addressed at this time.

(BC0120) Rusafa Directorate Police HQ (East): PTT advised COL [redacted] (b)(6), (b)(7)c to keep his station guard and ECP personnel on alert because of the threat information reported the previous day. The Team requested a list of IPs scheduled for training with the EOD unit. Several IPs went to this EOD training in May and June. The training deals with procedures for searching vehicles and IED and VBIED detection protocol. PTT held three station drills, which went well. The station is still short on ammunition, especially BKC ammunition. Requests have been made through logistics with no results. The Team was told that the patrol vehicles used by ERF units are wearing out and in need of repair. Two large trucks assigned to the ERF for transporting personnel have had armor plating added to the sides of the beds. The Team continued discussions with MAJ [redacted] (b)(6), (b)(7)c (Internal Affairs) on improving the ECP and checkpoints entering the HQ. Uniforms and protective equipment are up from a level of 26% to 49%. The station is experiencing problems with logistical support. They need digital photography supplies, including cameras, so they can develop their photos in-house rather than on the economy.

(BC0121) Saba Al Boor Local Police Station: In an evening visit to the station, PTT learned from COL [redacted] (b)(6), (b)(7)c that the fuel tank recently installed and filled on the previous day was leaking and is a hazard. The Team was told there are 168 IPs assigned to station, which is significantly different than the number given on July 11th, which was 135 IPs. COL [redacted] (b)(6), (b)(7)c will look into this and get back with the Team.

There is a food delivery problem for the jail. The Team heard that COL [redacted] (b)(6), (b)(7)c has not seen or heard from the contractor who is supposed to do the station renovation work. An extended mounted patrol was done. At the conclusion of the patrol the forty Glocks issued to the station on July 14th were inspected and all were accounted for. The Team had a detailed discussion with COL [redacted] (b)(6), (b)(7)c concerning leadership and community-oriented policing principles. Training in community policing was requested.

CPATT IPLO DAILY SITREP

(BC0122) Sheikh Saad Local Police Station: PTT conducted an evening visit to the station. Upon arrival the Team found the station to be dark because of no electricity and no fuel for the generator. PTT delivered and inventoried equipment for the station, including ten Glocks, ten duty belts (with accessories), seventeen AK-47 rifles, and 1000 rounds of PKC ammunition. The weapons could not be placed in the armory due to the armory officer leaving for the day and taking the keys home with him. The Team saw this as a problem in the event weapons were needed, and directed COL [redacted] (b)(6), (b)(7)c to take corrective steps.

(BC0401) Baghdad Taji IHP Station: PTT conducted training for eight personnel in the areas of vehicle checkpoints and arrest and detention.

An Najaf [redacted] (b)(3), (b)(6)

(RN0017) Mishkhub Local Police Station: PTT conducted training for fifteen station personnel on radio procedures and handcuffing techniques.

(RN0802) Najaf Province Patrol HQ: PTT, while enroute to the station, encountered an EFP type IED at which point returned to FOB Duke. The last vehicle in the convoy was missed by approximately 50 meters.

Karbala [redacted] (b)(3), (b)(6)

No station visits conducted.

Babil [redacted] (b)(3), (b)(6)

(BB0500) Babylon Police Academy: PTT provided riot control/serious incident training for 110 IPs and officers from various stations within the province.

Tikrit (MND-N) [redacted] (b)(3), (b)(6)

Diyala [redacted] (b)(3), (b)(6)

(No FFID#) Khalis Local Police Station: PTT visited IP Station check point at Khalis Circle for a night time visit. The Team observed all IPs were carrying issued weapons; however, only one IP was wearing his issued body armor. PTT advised the IP of the safety importance of wearing their vests. IP were observed conducting vehicle searches that were done tactically.

Salah Ad Din [redacted] (b)(3), (b)(6)

TA0084) Samarra District Police HQ: Captain [redacted] (b)(6), (b)(7)c continues to do a very good job in quickly readying his IP for intelligence generated targets requiring action immediately as was demonstrated on two missions that were conducted. PTT however, still has to provide most of the intelligence since the IP have not yet developed a robust enough intelligence collection network.

Compiled by [redacted] (b)(3), (b)(6), (b)(2) **6/16/2008**

CPATT IPLO DAILY SITREP

At Tamim [redacted] (b)(3), (b)(6)

No station visits were conducted.

Mosul (MND-N) [redacted] (b)(3), (b)(6)

Ninewah [redacted] (b)(3), (b)(6)

(MN0928) Abi Tamaam District Police Headquarters: PTT went to the Abi Tamaam station to conduct an inspection of the police station. PTT met with Colonel [redacted], and discussed several issues. He needs at least twenty patrol vehicles, and has requested them from NPHQ. He has eight vehicles down at this time and they are not repairable. He stated since the completion of phase four of Operation Lion Hunt there has been no attacks on IPs and feels the mission was very successful.

(MN0229) Tal Kaef District Police Headquarters: PTT met with LTC [redacted] who advised that he, COL [redacted], and ten IPs have been transferred to FOB Courage effective July 22nd. The LTC stated that two IPs from every station in the Tal Kaef district have also been reassigned to FOB Courage. LTC [redacted] will be taking LTC [redacted] place at the station. (b)(6), (b)(7)c

The team informed the LTC that new vehicles are in and that NPHQ should be providing Tal Kaef District with some of those vehicles. LTC advised that NPHQ informed that Tal Kaef will be receiving three vehicles, six were requested which equals 1 per station.

PTT provided Tal Kaef with a supply of bottled water. Contracts with the station are still being processed and awaiting funds for construction issues.

Training was conducted with approximately ten IPs on Force Protection and Duties of a Guard.

(MN0008) Al Gizlani Local Police Station:

Upon arrival at the Al Gizlani Station, it was observed that the force protection of the station was in place. All sections were manned with guards, gates, towers, armed police blocking the entrance/exit.

PTT learned that earlier in the day they had one IP patrol that was attacked by a single sniper. The sniper missed and the IPs returned suppressive fire. The single sniper remains unknown and was not captured.

Due to an incident earlier today, it was necessary to train the IPs on suppressive fire and the need to understand what and who your target is, it's location and not to just waste ammunition firing indiscriminately.

Compiled by [redacted] (b)(3), (b)(6), (b)(2) **6/16/2008**

The IPs brought in two suspected insurgents with falsified identification cards who are being questioned separately and detained until their identities are confirmed.

(MN0044) Ninewah Iraqi Police Academy: Upon arrival at the Academy, it was observed that the force protection of the station was in place. All sections were manned with guards, gates, towers, armed police in stop vehicles blocking the entrance/exit.

PTT inspected the armory at the IPA and discovered deficiencies in the area of weapons maintenance/cleaning. A simple class on weapons cleaning was conducted with 4 students. Weapons oil was given to the armorer.

(MN0923) Al Yarmook Local Police Station: PTT arrived at Al Yarmook and spoke to Major [redacted] who had 40 IPs and seven Officers on duty.

(b)(6), (b)(7)c

NPHQ has not had an engineer come out and look at the generator which is currently broke down. The cost to fix the problem would be $2500. PTT are checking out options with NPHQ and will have an update in a few days.

PTT gathered seven IPs and worked on properly tagging their evidence and logging it to the computer.

(MN0924) Al Jamouri Hospital Local Police Station: PTT arrived at Al Jamouri and spoke with LTC [redacted] and LTC [redacted] who advised that there were nineteen IPs on Patrol, along with three officers at the station. PTT dropped off four mini Hesko barriers for the station to use for their serpentine to be placed outside of their station.

(b)(6), (b)(7)c

PTT generated on computer the layout of the station and pointed out to LTC [redacted] that it would be best to have IPs positioned as if they were preparing to be attacked. PTT later then conducted a mock drill to access their skills. The IPs performed very well and they all knew their assignments.

(b)(6), (b)(7)c

Thirty five IPs are without uniforms. PTT were advised my COL [redacted] that he wants all IPs to have the proper uniforms. PTT made arrangements with LTC [redacted] to have the IPs measured next week by a tailor the LTC has contact with, and to get an estimate of the cost.

(b)(6), (b)(7)c

(MN0022) Al Rabaein District Police Headquarters: The PTT teams talked with the Colonel at length and were able to set up a two hour training class on Interview techniques. The class will be held for the district investigators from their respective stations under the Colonel's command. The Colonel is interested in his investigators learning the skills to conduct interviews with suspects without the use of force or violence.

Heat is continuing to be a serious factor with a vehicle quitting or going down daily. It is difficult to get cooperation from the station IPs in the afternoon due to the high temperatures.

(MN0106) Al Somod Local Police Station: PTT met with Captain [redacted] who advised he has 85 IP working patrol. The Authorized number of IP for this station is 107. Currently the station personnel are 152 IP with 8 officers. There are 17 IPs attending the academy with 60 scheduled.

(b)(6), (b)(7)c

The station is a TRA level 2 station, with a radio, operations, arms room and jail as well as adequate rooms for storage of records.

(b)(3), (b)(6), (b)(2)

CPATT IPLO DAILY SITREP

The station needs an additional computer for the administrative office to track personnel data. The IPs at this station only have one uniform and there is not sufficient body armor for the IPs. PTT advised the station commander to contact the sales representative to obtain the computer and the team will pay for the computer for the station when available.

At present the station commander reports he has been conducting in service training for his IPs. Capt. [redacted] (b)(6), (b)(7)c advised the team he has been providing roll call drills and vehicle searches each day for one hour. The team requested to review the training records to verify the number of IPs trained and the dates. Capt. [redacted] (b)(6), (b)(7)c advised the team he did not maintain these records but would start a new file on our next visit.

There was one prisoner being held at the station who prisoner appeared in good condition with no sign of abuse. There are no deficiencies reported with finance or payroll.

Arbil [redacted] (b)(3), (b)(6)

IPLOs conducted a weekly meeting at the Arbil FOB. The meeting included an overview of interpreters, PSD movements, vehicle assignments and financial accounting. IPLOs are responsible for financial affairs of the FOB. This includes the record keeping, accounts payable and receivable. IPLOs will continue to do a weekly financial statement as long as the responsibility lies with the IPLO to pay bills. A total count was done and the balance of $9,898.00 out of a beginning balance of $40,356.00. If it becomes necessary, the funds will be available to pay interpreters at the end of the month.

Sulaymaniyah [redacted] (b)(3), (b)(6)

(No FFID#) Sulaymaniyah Asaish Investigation Directorate:

The Investigative PTT met with BG [redacted] (b)(6), (b)(7)c, OIC of the Asaish Investigative Directorate and discussed the potential continued training with the Asaish in computer classes. The Asaish ID is in the process of obtaining numerous laptop computers to provide the students in their perspective districts. Discussions are ongoing concerning the integration of local IPS to any future PTT training offerings.

BG [redacted] (b)(6), (b)(7)c along with the PTT team is interested in trying to improve the quality of work and efficiency of the Asaish when time permits and there is opportunity between training segments with the IPS 'local' police. Potential classes in the near future will include, but not be limited to, fingerprint comparison and other computerized programs for the department along with modern surveillance techniques and equipment.

Among a myriad of other activities, the Asaish has an on-going intelligence gathering operation involving Iran, Syria, and Turkey.

Dahuk [redacted] (b)(3), (b)(6)

Internet services have been switched to military control. All internet lines running into IPLO accommodations have been removed. Currently IPLOs assigned Dahuk have access only to one computer controlled by the military to complete DSR and daily tasks requiring Internet services.

Ramadi (MND-W) [redacted] (b)(3), (b)(6)

Compiled by [redacted] (b)(3), (b)(6), (b)(2) **6/16/2008**

CPATT IPLO DAILY SITREP

Anbar

(b)(3), (b)(6)

(RA0080) Al Qaim District Police Headquarters: The PTT conducted an OTIPS and TIPS (Officer Training) screening in support of the District. The screening was held at Hue City BP. Twenty-four OTIPS Officers were screened and five TIPS Officers.

(RA0110) Rawah District Police Headquarters: The PTT team conducted a station visit to the Government Building. Six IPs along with one officer conducted another successful patrol around the streets of new Rawah. The PTT team also observed and aided the IP officer with a mission brief and safety brief for the IPs conducting the patrol.

The PTT team recruited one new IP Officer Candidate today. The candidate successfully passed both the literacy and physical part of the application process. He should complete the rest of the application process in a few days.

The PTT team gave Captain [redacted] two confiscated sniper rifles for IP use. In addition, the PTT team worked with the IP Officers on patrol movements and conducting inspections of IPs prior to going out on patrols.

(b)(6), (b)(7)c

(RA0013) Fallujah District Police Headquarters: There were numerous IPs present providing force protection, patrols, investigations, prisoner housing and release at Fallujah HQ. The Fallujah patrol numbers indicate 398 officers. 35 Iraqi Police attended firearms training both in AK's and 9mm Glocks.

(RA0060) Saqlawiha Patrol Police Station: There are currently 68 IPs and Officers stationed at the Saqlawiyah IP station. Major [redacted] has requested 20 additional IPs from Fallujah HQ. IP's conducted two patrols consisting of ten men each. No incidents were reported on either patrol.

(b)(6), (b)(7)c

IPs have requested three new Glocks to replace ones that are lost or missing. IPs requested 1400 rounds of 7.62 ammunition and report that five AK-47 magazines are defective. IPs have completed appropriate paperwork and forwarded it to the PTT team.

(RA0048) Ramadi District Police Headquarters: The PTT Team arrived with another shipment of equipment in the afternoon. Items were inventoried and placed into storage and DA Forms 3161 were completed and signed by PTT and Col [redacted] A complete inventory of the Station was conducted and logged to show what was on hand and what equipment the station was in need of. In addition, two Chevrolet trucks also arrived at the Station ready for patrol.

(b)(6), (b)(7)c

IPLOs assisted IPs in the reconstruction of the main Holding cell complex which contains three large holding cells which are not in use. These have been converted into storage for supplies and equipment which have been arriving at the Station during the past week. The station is again without water. The contractor on station is unable to repair the problem and the IP's are becoming increasingly angry with this.

The PTT members have begun to move their belongings out of the station and will begin to travel to and from the Station on a daily basis with a guard force of 4 PTT remaining on duty. No keys have been turned over to IPs as of yet, with the last being to the Armory.

Babylon (MND-CS)

(b)(3), (b)(6)

(b)(3), (b)(6), (b)(2)
