CPATT IPLO DAILY SITREP

N20

August 1, 2006

Baghdad (MND-B) [redacted] (b)(3), (b)(6)

Baghdad

(BC0003) Airport Police Local Police Station: The Team conducted three training classes in various disciplines for twelve IPs. The Team is planning a baton class but needs a strike bag.

(BC0008) Al Adhamiya Traffic Police Station: When the Team arrived they found six guards on duty, with only two of them in uniform. Two of the guards were sleeping and two were washing clothes in the courtyard. The guard commander, a sergeant, was standing in the courtyard in his t-shirt and underwear. Once the sergeant dressed the Team discussed the station's force protection readiness at the current time. The Team points out that if the station is attached the guards do not have access to the armory if additional ammunition is needed, due to an unworkable plan. The guard commander shares the same concerns as the Team does, including staffing levels, and has addressed them with the station commander. The Team discussed the pending plan for beefing up force protection by building three or four new guard towers. The Team gave the guard commander 500 sandbags with more to be delivered on the next visit. In a conversation with the Deputy Station commander and a Shaab area traffic commander, they expressed concern that traffic police are paid 80% of what IPs are and not supplied the same (same with food and water). The Team heard that every morning an IED is planted in a section of street curbing not far from the station. The location was identified by the Team and the proper report written for action to be taken. The Team measured the perimeter of the station to determine the amount of C-wire is needed for the current force protection project.

(BC0010) Al Bayaa Local Police Station: The Team learned that a patrol unit was attacked in front of the station this date (30 July). The Team was advised that a new training officer has been appointed for the station. The Team briefed the new officer on his responsibilities, and created a schedule of the dates training would occur and the training topics. The officer was also given course packets and the topics were reviewed in order to make sure he had a complete understanding of the topics and material.

(BC0012) Al Dorah Patrol Police Station (West): PTT spoke with the station's training officer about needed courses, including station defense, control of entry/exit points, and searches of persons and vehicles. While the Team was at the station a patrol from a different station was attacked approximately 500 yards from the station. The Team notes the station IPs maintained station force protection and stayed calm.

(BC0028) Al Karkh Police Directorate HQ: The Team spoke with the commander, learning that the Karkh Traffic West station has unneeded PKCs and AK-47s that could be turned over to the HQ. The commander told the Team he was willing to accept the weapons but does not want it to be made public in any way. This then led to the commander telling the Team he will need more ammunition for both classes of weapons, raising both his minimum quantities and the level needed to push ammunition to substations. Medical supplies, including a CPR mannequin, were delivered by the Team, with a request to have the station's medical officer instruct the ERF and Karkh staff on usage. The Team is still gathering reports to track murders and kidnappings in the HQ AOR. The Team left badge applications and instructions at the personnel office.

CPATT IPLO DAILY SITREP

(BC0038) Al Khansa Local Police Station: The Team was apprised of recent events, including two bodies brought to the station. PTT inspected the arms room and found it to be well kept, with the weapons clean and evidence tagged and segregated. Regarding the recent death in the detention cell of a 26 year-old male, his cause of death is still unknown as reports have not been received from the hospital. It is known that prior to death he was unable to keep food down. The team will keep up on this matter.

(BC0044) Al Nahda Traffic Police Station: The Team met with BG [redacted] from the Baghdad National/Provincial Traffic HQ to discuss contract discrepancies. The contractor is refusing to fix certain things. This station is now on the newly-constructed second floor of the building the Middle Baghdad Traffic Police occupy.

(b)(6), (b)(7)c

(BC0049) Al Rashad Local Police Station: A joint patrol was not done due to all patrols being assigned other duties. The Team briefly left the station to investigate some Hezzbollah and anti-U.S. graffiti east of Checkpoints #5 and #17. Jump kit enrollment was done in the jail.

(BC0062) Al Suleikh Local Police Station: The Team presented guard post/guard duties SOPs to the station. PTT heard of two separate incidents affecting the station yesterday which killed and wounded IPs, as well as about other crimes in the station's AOR. The maps brought by the team have been used extensively by the station to plot where significant events are transpiring. The Team further discussed with the commissioner doing crime analysis how the data can be utilized. PTT showed him and an assistant how to plot trends and utilize the information collected to plan patrol coverage. To help resolve the gasoline issue the Team is going to explore getting a large fuel container to place in the back of an SUV, with the SUV making one trip to the fuel point instead of the patrol vehicles making separate trips. The Team learned the station is working on getting things cleaned up.

(BC0081) Bab Al Sheikh Local Police Station: The Team did "jumps" at the station. A joint patrol was conducted.

(BC0086) Baghdad Main Provincial Police HQ: PTT heard that the after-action report alluded to in earlier reports will be ready for presentation on July 31, 2006. The Team learned from a training officer that the 800 recruiting packets under consideration are at the Provincial Security Council, needing to be stamped and sent back to MOI, which should happen 31 July. The Team is working on a training course for high-risk traffic stops.

(BC0092) Baghdad IHP HQ: The purpose of the Team's visit was to look at the feasibility of trading the one megawatt diesel generator to the traffic HQ for two 250 KW generators. The IHP HQ is unable to run the bigger generator as it consumes fifty-five gallons of diesel fuel per hour. The plan will be considered by the 4th ID.

(BC0096) Karada Miriam Local Police Station: Team members will take ten IPs to the RSO range this date for qualification with the Glock and AK-47. The Team reports IP numbers in the IZ going up due to additional duties, with current manpower at 111 personnel. The Team again had to assist IZ IPs attempting access to the IZ due to the military questioning if they should have light machine guns, which they did have with them.

(BC0099) Al Mada'in Local Police Station: A class in first aid was given to six IPs at the FOB. The Team reported the IPs to be attentive and hard-working. The Team members involved felt the FOB was a better venue for training than the station is. A station visit was not done due to the military being tasked with other duties.

(b)(3), (b)(6), (b)(2)

CPATT IPLO DAILY SITREP

(BC0101) Mahoudya District Police HQ: The Team observed the station personnel office has a system in place for filing and also utilizes personnel logs. The Team mentored the staff on filing procedures. The Team checked with detainees to determine if there were any medical needs, with none being reported from the thirty-eight detainees. While doing this the Team found that the jail kept an accurate log of inmates and activities.

(BC0102) Mahmoudya Local Police Station: The Team learned of recent attacks on IPs as well as a recent mortar attack. PLT worked on habitability issues due to new IPs at the station. The Team was told of water problems at the station.

(BC0103) Criminal Investigation Directorate: The new investigative assistant class slated to begin today was postponed due to numerous students not showing up.

(BC0108) Middle Baghdad Traffic Police Station: The Team met with BG [redacted] (b)(6), (b)(7)c from the Baghdad National/Provincial Traffic HQ to discuss contract discrepancies. The contractor is refusing to fix certain things. This station is on the bottom floor of a building a second floor was built on to house the Al Nahda station.

(BC0120) Rusafa Directorate Police HQ (East): ECP IPs were observed by the Team to be performing their duties properly, including the searching of persons and vehicles into this major entry point for traffic entering the BPC, Rusafa EOD, Rusafa HQ, and MOI area. Much of the force protection barriers and other measures have been destroyed in recent months, and the Team previously reported on this. Improvements are being made, however. The Team attended the Rusfa station commander's meeting, with many commanders not in attendance. Discussed was the need for prompt and accurate reporting of incidents, and their locations, to the Rusafa Operations Section. It was noted that many IPs at the scenes of incidents are excited and very vague with details making it difficult to send help to their location. BG [redacted] (b)(6), (b)(7)c expressed his disappointment in some station commanders for not submitting requested maps of their respective patrol areas. Lastly, BG [redacted] (b)(6), (b)(7)c stressed that street patrols need to be more diligent and alert, citing that in some places VBIEDs and IEDs are being placed in the same locations day after day. The Team reports that a sergeant stationed at Rusafa is a combat medic, and over the course of the last five weeks he has trained twenty-five IPs in four of the District HQs, and twenty of the Rusafa HQ ERF personnel. He travels to the different stations to accomplish this training. A new class for six IPs will begin 31 July. Efforts are being made to obtain basic supplies for this training. BG [redacted] (b)(6), (b)(7)c has asked that military funds be used to purchase and repair computers. Ammunition paucity continues to be a problem. Defense drills for ERf were held. The Team has plans to construct a classroom at the HQ if funding can be secured. The Team had planned to request that six EOD robots be placed at the HQ, with HQ personnel being trained to use them, but that plan is on hold for now.

(BC0123) South Karkh Traffic Police Station: BG [redacted] (b)(6), (b)(7)c delivered new uniforms for the station officers to supplement the one issued uniform they currently have.

(BC0625) Mahmoudiyah Patrol Police Station: The Team worked on habitability issues due to new IPs at the station.

An Najaf

No FFID assigned) Crucible Training Center: Forty-eight Najaf Police Academy cadets were put through a Glock qualification course. Thirty-one passed, fourteen failed, and three were disqualified. The cadets were also given an AK-47 familiarization course.

(b)(3), (b)(6)

Compiled by [redacted] (b)(3), (b)(6), (b)(2) 6/16/2008

CPATT IPLO DAILY SITREP

(RN0626) Waffa Local Police Station: Upon arrival at the station the Team learned that none of the IP trainers or command staff were present, so the Team medic did an evaluation of the twenty-eight detainees. Some of them had minor injuries but none had serious injuries. The Team spent time talking with each detainee.

(RN0647) Al Ansar Local Police Station: The Team heard the station commander request new weapons for his station, as twenty of the station's forty-six AK-47s are inoperable. Further, the commander requested to be issued a Glock as he has never received one. Training was not done by the Team due to a translator not being available

Karbala [redacted] (b)(3), (b)(6)

(RK0028) Karbala Provincial Police HQ: PTT was advised by BG [redacted] (b)(6), (b)(7)c that he was not satisfied with the plans to improve the barriers around the HQ. In fact, BG [redacted] (b)(6), (b)(7)c stopped the work when the contractor reported to the HQ to do it. The Team listened to his concerns and the changes he wanted, telling him his input would be forwarded, but it was doubtful if changes could be made to the contract. The Team was told the Minister of Finance had visited Karbala last week and the fuel purchase issue has been resolved as a result of the trip. The Team brought up the idea of sending twenty-eight instructors to the Najaf Academy to be certified, and BG [redacted] (b)(6), (b)(7)c thought this might be the time to do so as he has not yet received approval for hiring the additional 1,000 IPs. PTT will make the arrangements for this training. The Team queried him about how he planned to use the instructors, and inquired if he would be willing to send more personnel for trainer certification in the future so they could be placed in stations without a trainer. The Team received positive feedback concerning this. The Team received a briefing on recent major criminal incidents in Karbala.

Babil [redacted] (b)(3), (b)(6)

(BB0032) Babil Provincial Police HQ: The Team attended the weekly District Chief's meeting at the HQ. PTT coordinated the distribution of equipment that will occur on 2 August at the Al Hillah Police Academy. The Team met with a group of Iraqi training officers regarding issues and the training schedule.

Tikrit (MND-N) [redacted] (b)(3), (b)(6)

Diyala [redacted] (b)(3), (b)(6)

PTT Training Advisor met with the COL to obtain the number of IPs that have not been through training at an academy or TIPS. He was unable to provide the number of untrained IPs. The COL ensured the Training Advisor he would fill the next JIPTC

academy with untrained IPs. The COL enquired about qualification issues with former IA Officers employed as IP Officers, attending the academy. PTT Training Advisor will research the issue, and propose an answer at a later date.

PTT Team instructed 7 IPs on Instructor Development.

Salah Al Din [redacted] (b)(3), (b)(6)

(TA0080) Salah Al Din Provincial HQ: PTT went to the logistics section and Provincial Jail. The team delivered two trailers to the logistics department. PTT met with the Chief of the Provincial Jail. He stated that the quality of the food has improved somewhat. Detainees still complain, but the food quality is acceptable. PTT informed him that batons and riot shields have been delivered to Provincial Logistics and he needed to submit a request for them. He agreed to do so and stated that he had recently requested and received 9mm ammo from Provincial Logistics. He stated that he was concerned about family members

smuggling cell phones during visitation and has asked PHQ about getting a net to physically separate visitors from detainees. The PTT showed him that if he painted a line on the floor 3 feet from the cage and forbade visitors from crossing the line, he would accomplish the same thing for far less money.

PTT also visited the TIPS Academy. The training department was interviewing for an upcoming TIPS class. PTT also obtained a copy of the last JIPTC manifest. This manifest will help identify any Samarrans left off the manifest.

PTT spoke with COL [redacted] about getting the current curriculum being instructed at the TIPS Academy and Copies of previous student rosters for the PTT, so the Academy can become accredited. COL [redacted] said he would give the PTT the information requested. PTT took photos of the TIPS Academy buildings that will be passed on when the information is complete concerning the list of questions needed for accreditation.

(TA0084) Samarra District Police HQ: PTT met with MAJ [redacted], Chief of the Major Crimes Unit. MAJ [redacted] two brothers were murdered in Samarra over the last two months. He stated that he is frightened for his safety and the safety of his family. MAJ [redacted] requested support in getting two of his cousins hired to be IP so that they can guard his family while he is at work. PTT informed MAJ [redacted] that we would pass this request up to GEN [redacted] in an effort to get them hired.

CPT [redacted] from the Major Crimes Unit stated that the biggest problem they have right now is that the Judges have not yet returned to Samarra. The Judges were ordered to return to Samarra by July 15th. It is now July 31st and they have not yet come. CPT [redacted] stated that they do not have the manpower to transport all their detainees to Tikrit for all of their court appearances.

PTT met with CPT [redacted], Chief of the Al Mutawakil Station. PTT explained to CPT [redacted] that he is solely responsible for the M2 checkpoint since his men are working at the checkpoint. CPT [redacted] stated that he will work to make sure all the vehicles are getting searched. CPT [redacted] stated that he did punish two IP today that did not follow his orders to remain at the checkpoint.

PTT met with LTC [redacted] motor pool Chief, in reference to 9 patrol vehicles that they received yesterday from the Provincial Police. All vehicles are old, and not in very good condition. They do not have the light bars for all the vehicles at this time, but will put in a request for them by the end of today. PTT suggested to LTC [redacted] that they use the light bars that are on the broken down vehicles but even doing this they will still need light bars. There are radios and antennas at HQ for the vehicles.

PTT met with CAPT [redacted], and asked him if he had received the diesel fuel to clean his weapons. He stated that he did receive it and had already begun cleaning weapons, fifteen in all at this time.

PTT met with LTC [redacted], Chief of Police, who advised a fuel issue has come up with the fuel station owner refusing to provide fuel due to lack of payment. LTC [redacted] advised he doesn't have the funding needed to pay for the fuel, he further advised the fuel station owner wants 2 million Dinar before anymore fuel is provided. LTC [redacted] advised that he already contacted the JCC so they could contact Provincial Police HQ to advise of the funds required.

PTT made coordination with the Iraqi Army Scouts for an upcoming missions involving IP from the QRF Battalion. The Iraqi Army Scouts had requested the assistance of the IP.

CPATT IPLO DAILY SITREP

PTT began a weapons familiarization course with SGT [redacted], IP Trainer, and 11 IP. SGT [redacted] is teaching the course while PTT assists.

PTT discussed with SGT [redacted] the value of keeping the training course 5 or more days versus the 4 days that he wants the class to run. It was agreed that PTT would meet with SGT [redacted] and LT [redacted] on Tuesday to go over what the trainers want from this particular course of instruction.

Today at approximately 1300hrs, LTC [redacted] was shot and killed in As Senai. LTC [redacted] quit from his job in the Samarra Police Department approximately 1 month ago for unexplained reasons. He was in civilian clothes walking on the side of the road when he was shot and killed by the AIF. The IP responded to the scene and evacuated LTC [redacted] out to the Samarra Hospital. LTC [redacted] died at the scene.

At Tamim [redacted]

(TT0910) Aydallah Police Station: COL [redacted] advised IPLO that the station has a problem with a raw sewage backup. We also learned that Aydallah needs an increase of fuel for the generator to power the building and repair on handheld radios. IPLO advised [redacted] to submit written requests to HQ for the needed repairs and equipment.

COL [redacted] advised that he presently has 9 officers in the Basic Police Academy, leaving 23 to be trained.

Mosul (MND-N) [redacted]

Ninewah [redacted]

(MN0056) Ninewah PHQ: PTT worked mainly on solving the vehicle issues, which were all resolved by the end of the day.

The PTT received the fuel for the IP vehicles on today's date; so much of the day was spent getting them fueled and ready for distribution. The majority if not all of the vehicles, will be issued out tomorrow to the perspective districts, for distribution.

A one and a half hour block of instruction was again provided for the new Chevy trucks today. The train the trainer method is being used for this particular block of instruction.

(MN0106) Al Somod LPS: PTT met with CPT [redacted] today who advised he has a total 145 IP(s) and eight officers. His patrols consist of six IP(s) and six officers and are sent out twice per day. CPT [redacted] advised there were no deficiencies reported with finance or payroll. The station needs an additional computer for the administrative office to track personnel data. The commander was advised to take the measurements of each IP for uniforms, vests, and Kevlar.

PTT spoke with training officer CPT [redacted] who advised the PTT, he has been providing training in house clearance drills and vehicle searches each day for one hour. PTT requested to review the training records to verify the number of IP(s) trained and the dates.

(MN0116) [redacted] LPS: PTT met with the station commander, who advised, he continues to conduct patrols during the day light hours. However, is restricted to one patrol each day, due to vehicle and fuel shortage. The station commander further advised PTT that he also conducts a walking patrol which consist of seven IP's and seven officers.

The station commander was advised to get the measurement of the IP's size for uniform fitting, for pants, shirts, boots, vests, and Kevlar. No deficiencies reported with finance or payroll.

PTT advised the station commander, the PTT would be visiting the station more in the next week to assist in training on joint patrols and setting up better check points. At present the station commander reports he has been conducting in service training for his IP(s) but could not produce any verification for this training. The team will be monitoring the training records for compliance.

(No FFID#) Major Crimes Unit: IPLOs met with Colonel [redacted] (b)(6), (b)(7)c. The Colonel stated that one of his sources had been killed by terrorists at his home in the Al Kaira neighborhood. While visiting with the Colonel he received a phone call from the son of the source that had been killed, requesting an escort with IP protection for his father's funeral.

Colonel [redacted] (b)(6), (b)(7)c advised IPLOs of a SIMs card he had collected from the body of a dead terrorist at a recent crime scene. The Colonel has since received phone calls after placing the card in one of his phones. The subject calling has stated that his group is the Leader for the East side of Mosul who are responsible for both VBIED and Sniper attacks. The caller also advised that they have numerous grenades and lots of rounds of AK-47 ammunition to attack IP and Coalition convoys. Colonel [redacted] (b)(6), (b)(7)c was then mentored on various ways to investigate this case. This information was also passed on to Coalition Forces.

Sources have revealed Syrian money is being paid to four Tribal Sheiks in Mosul, to support terrorist's activity. The four Sheiks are [redacted] (b)(6), (b)(7)c and [redacted] (b)(6), (b)(7)c both from Quyyarrah village. The other two are [redacted] (b)(6), (b)(7)c and [redacted] (b)(6), (b)(7)c (villages unknown at this time).

(MN 0924) Al Jamouri LPS: PTT arrived at Al Jamouri and spoke with LTC [redacted] (b)(6), (b)(7)c. He advised there were 22 IP's on Patrol, with seven IPs at the TCP Quassim Alkiyad hospital circle. PTT assisted five IPs including LTC [redacted] (b)(6), (b)(7)c in disciplinary procedures for IPs. LTC [redacted] (b)(6), (b)(7)c was dealing with an IP who was refusing to follow a lawful order. PTT assisted in establishing a progressive discipline procedure to document when and how an IP is disciplined. LTC [redacted] (b)(6), (b)(7)c recorded notes of the instruction period and advised he would utilize it in the future.

(MN0923) Al Yarmook LPS: PTT arrived at Al Yarmook and spoke to LTC [redacted] (b)(6), (b)(7)c, who advised that there were no deficiencies reported today. PTT dropped off five packs of D-cell batteries for the IP's flashlights.

PTT conducted a welfare check of the inmates which revealed all were provided food and water. The station is still operating without constant power and does not have a functional generator.

(MN0022) Al Rabaein DHQ: PTT met with the armory officer and was given a file holder and files to help organize the armory paper work. PTT was dispatched to Al Sanai cemetery to meet with the local IP's who had discovered numerous tail sections (only) of mortar rounds. All of the tail sections were collected by the IP's and were taken to the local station.

(MN0214) Al Waqaas LPS: Upon PTT arrival, it was observed that the force protection of the station was in place. All sections were manned with guards, gates, towers, armed police blocking the entrance/exit, etc. PTT worked on a down generator that services the facility.

CPATT IPLO DAILY SITREP

Before completing the repairs, PTT received a call to assist another unit that was under attack in the area near PTT.

(MN0201) Ninewah SWAT: IPLOs began process of coordinating repair and replacement at SWAT compound with LNOs. IPLOs will compile a list to be presented to PJCC LNOs for review and action.

IPLOs were at FOB Resolve with CF. There IPLOs met with and discussed future activities/missions coordination with CF commander of FOB Resolve.

(MN0076) Tall Afar DHQ: PTT met with BG [redacted] (b)(6), (b)(7)c and BG [redacted] (b)(6), (b)(7)c. Members toured the new DHQ which has much less space than the previous DHQ. BG inquired about adding more rooms to the building. IP's at DHQ approached PTT stating they were told they were being rehired. They were told that MOI and the lower chain-of-command are responsible for this matter. PTT also reviewed a proposed relocation of the Operations Room to a tower at the new DHQ. There are numerous factors at the proposed location which make the contemplated move detrimental to efficient operations. PTT will discuss this issue with IP Command.

(MN0020) Hassenqoi LPS: PTT traveled to Station Avgani where a block of instruction on Investigations/Crime Scene Preservation and Diagramming was conducted. An inspection of the IP living areas revealed IP personnel do not have water for drinking/showering. The large open-sided tent that they live in is cramped with the majority of beds broken. They are in need of all types of supplies/equipment to include computers and a printer. Despite their living environment, IP personnel are spirited with high morale. Needs of the station were noted and will be transmitted to DHQ for action.

(No FFID#) 2nd ERB Station: PTT moved to Al Kindi Training facility and met with twenty five IP's to be evaluated for selection of a train the trainer program. Weapons qualifications and PT tests were conducted. This evaluation process will continue until the entire second ERB has been processed and an instructor core has been selected. Additional fuel, ammo, and water were supplied to the IP's that attended training.

(MN0070) Al Suweis LPS: PTT met with SGM [redacted] (b)(6), (b)(7)c to discuss the incident with the VBIED at Sumer LPS yesterday and talked about ways to handle similar incidents in the future. SGM [redacted] (b)(6), (b)(7)c reported that two of his IP's had gotten into a fight with each other while on leave and one of the IP's involved had resigned but he did not know the fate of the other IP. SGM [redacted] (b)(6), (b)(7)c is still requesting sandbags for the guard tower in the front of the station. Bags are available and should be delivered to the station by the PTT tomorrow.

(NO FFID#) Al Ahrar LPS: PTT met with LT [redacted] (b)(6), (b)(7)c, who was left in charge of the station. COL [redacted] (b)(6), (b)(7)c and all available IP's from the station had responded to a possible IED call at a bridge in their patrol area. PTT talked with COL [redacted] (b)(6), (b)(7)c when he returned from the call, which was a false report. The PTT discussed with COL [redacted] (b)(6), (b)(7)c the procedure for handling a similar incident in his station's patrol area.

COL [redacted] (b)(6), (b)(7)c is requesting that the PTT assist him in getting additional IP's at his station, to replace the IP's that had resigned recently because of the increased danger and the lack of food at the station. Food that is readily available to the IP's at the station continues to be an issue.

(MN0042) Al Guer LPS: PTT spoke with CPT [redacted] (b)(6), (b)(7)c and CPT [redacted] (b)(6), (b)(7)c about their personal history and their prior career training. They were also asked to give their home addresses

and their phone numbers. Their photos were also taken. The armory is in good condition and well organized. However, the station is using it for evidence storage as well.

(MN0037) Debaga LPS: Team members were introduced to the Debaga Police Command staff. The Command staff was asked to give personal history and training in their fields of expertise. They were also asked to give their home addresses and their phone numbers. Their photos were also taken.

(MN0220) Al Karama DHQ: PTT met with the station commander COL [redacted] (b)(6), (b)(7)c. Colonel [redacted] (b)(6), (b)(7)c stated that after the PTT team left yesterday, NPHQ called back. Colonel [redacted] (b)(6), (b)(7)c was advised that the PKU Compound was notified and the situation was handled. Both sides are no longer squabbling back and forth.

Colonel [redacted] (b)(6), (b)(7)c has once again stressed the lack of fuel for his patrol vehicles. Colonel [redacted] (b)(6), (b)(7)c has stated that the people of Al Karama deserve to have there neighborhoods and property protected. PTT advised the Colonel that PTT welcome his eagerness to serve the people, but the PTT has no idea how long the fuel shortage will continue.

Irbil

(MI0001) Irbil Prov Police HQ: We met with the Provincial Training Officer (PTO) to discuss the TIPS program. The PTO was asked to describe the process of selecting personnel to attend TIPS training. The process begins by selecting people from a master list of IPs. The list is completed by Thursday afternoon, and the selected IP's are notified by Friday morning. On Saturday, the IP's proceeded to Sulaymaniyah and begin the check in process upon arriving. Training commences on Sunday. The PTO was advised by the PTT that the number of IPs reporting for the training is not the same number that is scheduled to attend the training. The latest count has only one-hundred- thirty-one (131) IPs reporting for training in Sulaymaniayah. It was stressed to the PTO the sense of urgency of having the agreed upon number of one-hundred-fifty (150) IP's report for TIPS training every week in Sulaymaniyah and of having all IP's complete the training.

The PTT believes, based on direct observation, that the PTO is giving a good faith effort to ensure that the correct number of IP's are scheduled and notified of the upcoming training. The problem appears to be at the station level. Station commanders are not being held accountable for their IPs not attending training. The IPs appear to have an apathetic attitude toward this training. The prospect of five (5) days in jail is not serving as an effective deterrent.

This issue must be addressed by command level personnel at the Provisional Level in order to be resolved. If the short fall continues in IPs failing to attend and complete the training, the year end goal will not be met. The PTT has no leverage to use to encourage compliance by the Provisional Director of Police (PDOP). The Minister of the Interior (MOI) and PDOP has voiced their support for the TIPS program, but has not taken steps to ensure that compliance is met by their subordinate units. The PTT will continue to monitor the selection and scheduling portion of the TIPS Program. The CPATT Liaison must stress the sense of urgency to the MOI.

(M10001) Irbil Provincial Police Headquarters: Training was conducted at the Irbil Court, with the class combined of Investigators from MOJ, Investigative Judge Investigators, and MOI, Provincial Police Investigators. Eighteen Investigators were in attendance and there were six unexcused absences.

CPATT IPLO DAILY SITREP

Justice General Director Judge [redacted] conducted training for the class of investigators. His topics included evidence collection, report writing, rule of law, and Human Rights. The students were attentive and engaged in pertinent questions and discussions.

(MI0010) Choman District Police HQ: PTT met with Col [redacted] at the Choman District HQ and collected data for the PSMR. PTT gathered updated background information for the station comander's BIO. PTT checked the stations log book and it appeared to be in order. All entries were cataloged correctly and a detailed disposition was explained for each entry.

The station is in need of winter clothing. The area this district covers is at an elevation range of two thousand feet up to eight thousand feet above sea level. Most of this area is covered in snow for a period of four to six months of each year. This date, the outside air temperature was 78F at 1300hrs. The temperature in Baghdad was 116 at the same time. The IP's wear blankets over their uniforms in the winter to stay warm. The district oversees five other stations. All six stations have one PKM machine gun each for station defense. None of the six stations have ammunition for the PKM. PTT will address this issue with Col [redacted], the Soran Directorate Chief.

Eight IPs are currently attending TIPS training in Irbil. Eight IPs completed the previous TIPS cycle held in Irbil. Thirty Two IP's are currently attending TIPS training in Sulamaniyah, and thirty-four completed the TIPS program in Sulamaniyah in the previous cycle. Twenty five sergeants and commissioners are currently attending leadership training being provided by IP trainers in Soran.

Sulaymaniyah

(TS0008) Sulaymaniyah Provincial Police Headquarters: PTT member delivered an additional 104 handheld radios and 84 Motorola Manuals to Colonel [redacted] (Logistics). The appropriate hand receipts were completed and secured.

(No FFID#) Camp Tow: PTT member met with Civil Affairs BN personnel staged at PB Andrea, and discussed matters of mutual interest and concern. Both sides briefed on what their scope of effort and responsibility was, and areas were identified for possible overlap. The CA is seeking some common missions and it was decided to pilot an effort combining the Community Policing PTT with the CA in the Arbat area. This matter is to be furthered. A pending request concerning the identification of a CF entity to facilitate a digital radio communications network was aired, and it was ascertained that the CA has no substantial funding pool.

(No FFID#) Sulaymaniyah Security Center: The Tactical PTT initiated phase three of the Active Countermeasures Program. Safety is the primary consideration by the PTT. A review of all of the safety measures to be taken during this training was reviewed with the fifteen students present.

The subjects of discussion were again first aid, pressure sensitive areas, batons, and force continuum. All students could show some capability in these areas and it is expected that they be even more proficient by the culmination of this segment of the course.

Following the lecture, an overview of the last two weeks material and hands-on instruction was reviewed with the students. This week's proposed instruction was also discussed so the students would know what to expect. The necessary training equipment will be provided by the PTT.

CPATT IPLO DAILY SITREP

(TS0052) Koya District HQ: The Investigative PTT commenced a class in Fingerprint Comparison with four students made up of two IP policeman and 2 legal investigators.

Today the class was instructed on collecting ink impressions from known individuals, identifying the fingerprint pattern, then identifying the characteristic of the fingerprint patterns.

Each student successfully demonstrated to the PTT instructor the proper techniques in collecting inked fingerprints. The students learned the proper height, proper roll technique, and tension on the finger. Each student learned to identify the three basic patterns within a fingerprint and the four basic characteristics of the fingerprint patterns. The students were shown new fingerprint equipment and how to use the equipment in fingerprint identification.

The students were told to continue their studying of the basic fingerprint patterns while at home and before tomorrows' class.

An investigative judge will attend the class tomorrow to observe the techniques used in comparing fingerprints.

The Investigative PTT visited with an investigative judge who explained the investigative section of Iraq law in Kurdistan and complained that the law is very weak to non-existent. He went on to explain that the system lacks any concern for physical evidence and relies on verbal testimony or verbal confession from a suspect. The investigative judge also said that the few judges they do have are over burdened with cases and can only concentrate on about ten percent of their case load. At present, this one judge handles over 60 cases a day. The judge provided PTT a newspaper article explaining the problems of the judicial system and suggested that the PTT have a meeting with the MOJ to solve the ever growing problem with the judicial system.

The Investigative PTT will be addressing this issue with the MOJ in the very near future.

Dahuk (b)(3), (b)(6)

No station visits were conducted on this date.

Ramadi (MND-W) (b)(3), (b)(6)

Anbar (b)(3), (b)(6)

(RA0080) Husaybah District HQ: The PTT Headquarters element visited the District Station, and delivered 198 AK47's to the District Headquarters for distribution. PTT conducted a class at the District Station on Arresting a Subject. The Headquarters PTT element also reconnoitered the Beirut BP (check point), operated by the Iraqi Police. The PTT received seven F-350 Turbo Diesel trucks for distribution to District, at a time to be announced. The PTT observed that the District Station contained four arrestees. The log books indicate that two arrestees were arrested for theft, one for smuggling and a fourth for theft from a vehicle.

The PTT delivered AK 47's (198) to the District Station. The PTT received seven Ford F-350 Turbo's for distribution to the District once they are logistically processed.

The PTT trained the Iraqi Police in Arresting a Subject. There were 27 Police and 2 officers present for the class. The PTT also mentored the police on Arrest Logs and, Detainee supervision.

CPATT IPLO DAILY SITREP

(RA0093) Rumana Local Police Station: The PTTs capability to communicate with the PTT Headquarters element was reported as none existent, but is expected to resume, once repaired (Hand squad radio). The radio facilitates the PTTs daily situation reports to the PTT Headquarters element. There is no change otherwise to the information previously reported.

Beirut BP (sub-station): The PTT visited Beirut BP (sub-station), and observed that the Iraqi Police are housed within the BP occupied by the Marines.

The PTT observed that Beirut Sub- Station has twenty Police and one Officer assigned.

This location is a BP manned by the Marines and Iraqi Police, and has adequate force protection.

Babylon (MND-CS) [redacted] (b)(3), (b)(6)

Qadisiyah [redacted] (b)(3), (b)(6)

FFID# BQ 0029 Qadisiyah PHQ: On today's date the PTT travelled to Qadisiyah Provincial HQ. The Deputy Team Leader and SFC [redacted] (b)(3), (b)(6), the NCOIC of the MP platoon taught a 2 hr class encompassing the following: the responsibility of the first officer at a crime scene, crime scene protection, evidence collection, documentation of facts, interviewing witnesses and report writing.

The operations team met with Brig. Gen. [redacted] (b)(6), (b)(7)c, the commander of operations. The team learned that on today's date at approx. 0100 hours, Gen [redacted] (b)(6), (b)(7)c received a phone call from a

civilian, stating that he witnessed a white Toyota Saloon, discard two tank rockets on the side of the road in the Al Askery area. Gen [redacted] (b)(6), (b)(7)c stated that the witness could not give any further details. It was learned that the Iraqi EOD responded and took possession of the two rockets and brought them back to PHQ.
Gen [redacted] (b)(6), (b)(7)c stated that he was not aware of any investigations being conducted on the IED that was detonated near the tire factory that hit the El Salvadorians.
Gen [redacted] (b)(6), (b)(7)c stated that he was in the process of finding two IP's to attend the communications operator class in Taji, on September 2nd, but stated that his IP's were scared to go to that area because of the level of danger.

The training section met with General [redacted] (b)(6), (b)(7)c and Captain [redacted] (b)(6), (b)(7)c. I asked them to get the screening process started so that 450 IP's could be sent to the Hilla Academy in October. General [redacted] (b)(6), (b)(7)c stated he wanted me to have General [redacted] (b)(6), (b)(7)c issue him a written order to begin the process. General [redacted] (b)(6), (b)(7)c advised he had a list of names ready after talking to [redacted] (b)(6), (b)(7)c last date. I will ask General [redacted] (b)(6), (b)(7)c on the next visit to PHQ to issue the order. General [redacted] (b)(6), (b)(7)c is reluctant to begin the process without an order from him.

PTT inquired about the training classes made available in Baghdad. General [redacted] (b)(6), (b)(7)c stated that Col [redacted] (b)(6), (b)(7)c was working on that task. I suspect we will need a written order from General [redacted] (b)(6), (b)(7)c on that matter as well.

Wasit [redacted] (b)(3), (b)(6)

This date the PTT team spent time showing visiting director of CPATT the Wasit Police Academy, introducing him to various members of the team and showing him the base and points of interest on Camp Delta.

Compiled by [redacted] (b)(3), (b)(6), (b)(2) 6/16/2008

CPATT IPLO DAILY SITREP

PTT Deputy Chief also reviewed several lesson plans that were given to him by PTT Chief. Internet was down for brief period of time but the problem was with the server and not the system in the camp.

Basrah (MND-SE) (b)(3), (b)(6)

Maysan (b)(3), (b)(6)

PTT met with Major (b)(6), (b)(7)c at Camp Balaclava. The IPA assisted the PTT by making the introduction. PTT advised the Major to identify 250 literate policemen for the next BRT. He was advised the list needed to be completed by Aug 4 and given to the PTT. The Major stated we may have to give literacy tests prior to that date. He also stated he sent 80 men to Al Kut, but they were refused entry to the class. PTT and the Major exchanged telephone numbers. The PTT will remain engaged with the Major to mentor him through the process. PTT following up with Al Kut PTT to confirm that 80 Maysan IP were turned away.

Basrah (b)(3), (b)(6)

Sixteen contractors where detained by the IPs in the Safwan area south of Basrah. QU6287941380 When told of this incident (assistance requested from Div HQ) PTT started to contact the PCoP. When they talked to the PCoP they were able to get the name and a number of the station commander in that area. They called the Commander (Col. (b)(6), (b)(7)c) and was able to secure the release of the contractors. The contractors where made up of 2 American, 2 New Zealanders, and 12 locals. It is believed that the contractors work for KBR. The individuals where released with there vehicles but not the weapons. Weapons were transported prior to dispatching a 24 man Iraqi SWAT QRF team. Upon their arrival it was noted the weapons were transported to Az Zubayr Station, weapons are trying to be recovered diplomatically. Incident began when the contractor's convoy was stopped at a PVCP and the PVCP Commander (b)(6), (b)(7)c. (b)(6), (b)(7)c refused to accept the contractor's paperwork as authentic. It has been reported for sometime that contractors will be stopped at check points and arrested then transported to Iran for a bargaining chip to secure the release of several High Profile Arrestees being detained by MNF in MND-SE.

Dhi Qar (b)(3), (b)(6)

PTT met with Alex the new liaison officer for PJOC and the Provincial Chief. PTT was informed that after the 2nd of August there will be no problem getting out to meet with PJOC and the Provincial Chief.

Al Muthanna (b)(3), (b)(6)

PTT was part of a round table to discuss aspects of the movement back into Muthanna, for Op "Over Watch".

Embassy (b)(3), (b)(6)

No station visits were conducted on this date.
