LTC [redacted] (b)(6), (b)(7)c said he never had any contact with a building contractor and did not know what the problem was.

(BC0008) Al Adhamiya Traffic Police Station: The Team met with Captain [redacted] (b)(6), (b)(7)c and once again focused on what the station perceives as a continued lack of support regarding supplies and equipment needed to maintain its ability to function. The Team requested to see what specific requests have been sent to HQ in an effort to get them to problem solve this issued in part, on their own. An example of a request dated March 19, 2006, for ammunition was presented to show that no response from HQ was received. The attack injured Commissioner [redacted] (b)(6), (b)(7)c of Al Quds LPS, along with other IPs and civilians. It was reported seven people were killed and two wounded. Colonel [redacted] (b)(6), (b)(7)c used this example as well as other attacks to address issues he has with the lack of training the new IPs are receiving at the Baghdad Academy. Colonel [redacted] (b)(6), (b)(7)c said he is required by his HQ to lead patrols in Adhamiya area in conjunction with other IP stations. He takes only his most experienced IPs with him as he has no faith in the ability of the new ones to respond to an attack. As a result of his efforts, he is now losing five of his most experienced IPs to the Suleikh LPS per MG [redacted] (b)(6), (b)(7)c. The commander of Suleikh LPS made this request because he had previously witnessed Colonel [redacted] (b)(6), (b)(7)c and his IPs in action; spurring him to name the specific IPs he wanted from Medical City.
