(BC0011) Al Dorah Local Police Station: PTT Team conducted two joint patrols with IPs. On the first patrol (mounted), IPs were observed by Military counterparts stealing two cans of gas. Prior to the second patrol (foot), a brief training session (by IPLOs) on ethics was conducted with the IPs assigned to the patrol. At the end of the patrol, IPLO and Military counterparts met and discussed training options and deficiencies that were observed. The Team mutually agreed on future training/mentoring sessions for and with the IPs.

Another PTT was assigned joint patrols in the Al Dorah district with Al Dorah IPs. While on patrol, Coalition Forces were requested to assist other CFs in the Aliskon district reference an IED. Upon arrival, units in the inner perimeter received small arms fire from the roof tops. IPs returned fire; however, two IPs were wounded, treated by medics and transported to the hospital. Suspects fled the area.

(BC0016) Habibya Local Police Station: The Team met with the station commander, Major [redacted] (b)(6), (b)(7)c on station and learned that five more bodies were found near the cigarette factory. Major [redacted] (b)(6), (b)(7)c stated that the task force is still active. The fuel issue was then discussed. The Major feels a fuel point should be established in Sadr City for three reasons: 1) Adamiyah is Sunni and IPs from Sadr City have been attacked when traveling for fuel; 2) IPs are allotted 30 liters a day per vehicle, the distance traveled uses a good portion of the fuel; 3) time it takes for IPs to get fuel takes away from patrol time. He was advised by the team to pursue the problem with HQ. No joint patrol was completed as IPs were out fueling vehicles; IPs refused to ride in Humvees' for a patrol.

(BC0037) Al Kahdra Local Police Station: The Team conducted a joint patrol in the Ameriyah area to check on a location for a new IP station. CFs surveyed the site for suitability.

(BC0045) Al Nasir Local Police Station: The Team met with Colonel [redacted] (b)(6), (b)(7)c and LTC [redacted] (b)(6), (b)(7)c and went over a questionnaire required by PTT command. Police performance showed IPs unwilling to assist MPs in establishing and maintaining a secure zone around the Humvees while parked in front of the station. The lead Humvee was pelted with rocks while the Team was inside the station. A joint patrol was then conducted. The Team noticed work being done to install new street light posts, long ditches were being dug and large electric cables were being installed.

(BC0050) Al Rasheed District Police HQ: The Team met with the station commander and addressed the power issue. IPs are trying to get the electrical power repaired to the station from the power plant next door. Sixteen Glocks weapons have been issued out of forty-four. They are still gathering a list of equipment needed in the district.
