LTC [redacted] (b)(7)(a), (b)(6) produced five months of records for requested gasoline and diesel fuel that were hand carried to HQ with no resolve. AWOLs are an on-going problem with LPS and HQ. General [redacted] (b)(7)(a), (b)(6) and Colonel [redacted] (b)(7)(a), (b)(6) advised the newer IPs are afraid to work in Adhamiya. Many who were recruited from one area of Iraq, do not want to travel to Adhamiya to work. The station has eight vehicles assigned to them; four are operational, 3 are disabled, 1 is beyond repair.

The station is in need of more hand-held radios and batteries. HQ is short on AK-47, BKC, and 9 mm ammunition. Requests have been submitted to Rusafa HQ. Patrol returned to the station when the accidental discharge took place involving another Team. The forth Team escorted 4 IP rigs to the National Police in Dorah from the Al Bayaa station. Upon arrival at NP HQ, there was some controversy over how many IP units were going on patrol, and the NP had different areas they wanted to patrol. The number of IPs showing up for work has remained consistent over the last three weeks. PTT and IP Commanders have identified a list of IPs who has been continually absent. (RA0032) Karmah Patrol Police Station: The station is currently having a manpower issue; the number of IP's at the station is very low. One IP was wounded by a sniper and is recovering. The IP were each issued one (1) arm band and one (1) patch for their uniforms.

The Team continues to work on internal and external communications issues which at present are limited at best. Glass was replaced in three of the vehicles and several tires were repaired. The generator has a fuel leak and we are waiting for repair, in the meantime, it continues to be used. Training records continued to be kept by the IP and they have been reasonably diligent in keeping them up to date.

Training was provided to the IPs in three (3) areas; Sectors of Fire, Avenues of Approach and Basic Interview Techniques. We continue to encourage their level of appearance and uniform care. The station suffered a fire in the departmental kitchen this week which did minor damage. There has been a fuel situation the last several days as the EFIC has stopped issuing fuel to the department. The problem is intermittent at present and Col.
