N60

CPATT IPLO DAILY SITREP

September 14, 2006

Baghdad (MND-B) [redacted] (b)(3), (b)(6)

Baghdad [redacted] (b)(3), (b)(6)

(BC0003) Airport Police Local Police Station: The Team trained 16 IPs in various courses including Live Fire exercises at BPC, Patrol Procedures, and Basic Baton. The Team was advised of the kidnapping of a 15 year old girl. Her father, who works at the BIAP fire department, reported the incident that occurred in the French Village. The father received a phone call from an unidentified male asking for $100.000. US dollars for her release. IPs with Military MPs in support did a house to house search in the French Village with no success. Complaint made by Global Security regarding Airport tarmac IPs has been corrected. IPs are staying on their assignment until relieved, and providing security for the luggage that is off loaded from the planes.

(BC0005) Al Adhamiya District Police HQ: Station had three officers and 60 IPs on the current shift; 0 AWOLs. Joint mounted patrols were conducted with 10 ERU personnel for HQ. No significant activities were reported.

(BC0007) Al Adhamiya Patrol Police Station: The Team arrived on station to pick up 20 IPs in 4 patrol vehicles. The joint patrols were done in the Sha' ab district. The IPs performed well given their limited responsibility. They did take charge of situations that needed police response, rather than military, without direction.

(BC0012) Al Dorah Patrol Police Station: PTT's continue to participate in Operation Together Forward. One PTT did a brief on Ethics and handling procedures for their firearms before the patrol. A second Team was delayed for three hours while a fuel issue was resolved. Once the joint patrol started, a checkpoint came under small arms fire. The IPs did not respond in any way. They looked for direction from CF. There did not appear to be any leadership within the IP ranks. Contact with residents in the market was disorganized and they lacked proper security for the activity in the area.

(BC0018) Al Jazaaer Local Police Station: Station had 6 officers and 50 IPs assigned to the current shift; 0 AWOLs. Joint patrols were conducted with General [redacted] of District HQ joining in the patrol. The Team dropped off soap and deodorant for the detainees (six are presently housed). They were all seen by a physician earlier in the day. Station events included IPs responded to 3 bodies found in their jurisdiction. (b)(6), (b)(7)

(BC0028) Al Karkh Police Directorate HQ: The Team delivered office supplies (ink cartridges, pens, paper, etc.) to the station. ERF commander is requesting financial support for 10 bags of concrete for the repair of toilets in his section of the compound; and a water cooler.

(BC0035) Al Karkh (West) Directorate Traffic Police HQ: The Team was to provide financial support to HQ for parts needed to fix the building generator. City power is received only one to two hours a day. The vendor did not show.

(BC0039) Al Mamum Local Police Station: The Team trained five IPs on weapons retention, disarming techniques, and tactical reloading drills. Joint patrols were attempted but MP vehicle experienced mechanical problems. MPs brought fuel for the generator and patrol vehicles. There are 47 prisoners housed in the jail. Station events reported was an air conditioning unit in the southwest guard tower caught on fire. The cause was believed to be electrical.

Compiled by [redacted] (b)(3), (b)(6), (b)(2) **6/16/2008**

CPATT IPLO DAILY SITREP

(BC0040) Al Mansour District Police HQ: There were 18 officers and 12 IPs assigned to the current shift; 0 AWOLs. Joint foot patrols were done and a few hasty checkpoints were established. Station has one vehicle assigned to it, and is operational. Force Protection is provided by Al Mamum LPS.

(BC0062) Al Suleikh Local Police Station: The Team conducted joint patrols with 2 squads with 9 IPs. Once the patrol was gathered the IPs said they did not have any fuel. The Team inspected the IPs weapons and found them to be dirty and many had their safety off. The patrol traveled to Adhamiya for fuel but there was no power to the pumps. The Team traveled back to the station to get another shift for patrol. The patrol traveled to the scene of an explosion and small arms fire. While stuck in traffic, two IPs were observed walking over to a small food/beverage stand. The Team yelled at them and they returned to the squad. Once at the scene, IPs had to be ordered to investigate and pull security. Once the scene was cleared, the patrol returned to Adhamiya and again could not get fuel, because of no power.

(BC0070) Al Thawra District Police HQ: The station had 7 officers and 35 IPs assigned to the current shift. For the last three days the power company cut the station off 24/7. The station now has the same power grid as the general public – 7 hours off, 1 hour on. General [redacted] (b)(6), (b)(7)c was convinced to ride with the Team to Al Kutas Power Company to discuss having the power restored. The problem with the detainees was discussed with the manager, [redacted] (b)(6), (b)(7)c. After a few phone calls to [redacted] (b)(6), (b)(7)c superiors, the power was restored. Joint patrols were conducted concentrating on curfew violators. Patrolling in blackout conditions were explained and demonstrated to the IPs. The station has 6 vehicles assigned to them, five are fully operational, one needs repair, one is beyond repair.

(BC0073) Al Yarmouk Patrol Police Station: Joint patrols were conducted for two hours in the Monsour and Yarmouk districts.

(BC0085) Baghdad Provincial Patrol Police HQ: The Team commenced with training 28 IPs and members of the "Tiger Team" in firearms instruction. The Team met with various commanders during office visits. Many were inquiring about equipment (laptop computer, LED projector for Training) and questioning why the Force Protection upgrade project has not started yet. Motorola representative provided additional headsets to communications section, however, they still need the connector cord that goes between the headset and unit (approx. 20). Colonel [redacted] (b)(6), (b)(7)c would like to see two additional routing sites.

(BC0086) Baghdad Main Provincial Police HQ: The Team delivered a map to the Operations Center. Personnel section provided a list of 43 IPs that were transferred from Tarmiya district to Rasheed district. MG [redacted] (b)(6), (b)(7)c had agreed earlier that this list would be rescinded and they would be transferred back to Tarmiya. The Team checked on the status of 15 IPs from Tarmiya that have not been paid since June 2006. These IPs graduated from Jordan Academy, were assigned and put to work by the Military, pending assignment orders from MOI. The IPs were never hired by MOI. Until they are, they will not be paid. There are a total of 4,485 signed IP packets in the Training Officers office waiting for assignment to Academies.

(BC0088) Baghdad Provincial Traffic Police HQ: The Team met with BG [redacted] (b)(6), (b)(7)c in connection with the 2007 budget for the National Traffic Police. The budget submitted to MOI totals $250 billion IDs. It still has not been approved.

(BC0092) Baghdad IHP HQ: General [redacted] (b)(6), (b)(7)c received approval to increase the size of his training cadre to 8. The new instructors are from the former IHP Academy that closed a few

months ago. The Team delivered Hescos that will be used in the construction of the new firing range. IHP HQ has agreed to provide the fill material, heavy equipment and labor to complete the project.

(BC0105) Criminal Investigation Directorate Unit 2: The jail facility is hold 153 prisoners. Concerns were expressed about clean water, bathrooms, and medication to service that population. Transportation concerns to the central jail for 16 prisoners, (9 on death row, and 7 with terms greater that 25 years) was addressed. The central jail is refusing to take them as there is no room. Station has a problem with broken weapons. They recently took the weapons to CMF to be repaired but were told the technician was not available, so they took their weapons back. Supplies needed included ink cartridges for their printers and handcuffs.

(BC0114) New Baghdad Trafffic Police Station: Station had 28 officers, and 199 working the current shift. They have not received any ammunition supplies during the last month. The station is currently receiving an adequate supply of vehicle fuel from the government. The leadership and staffing at this station shows evidence of growing into an effective force. The officers and IPs are neatly groomed, respectful toward each other, the Team and visitors.

(BC0117) Risalah Local Police Station: Training was conducted for 10 IPs on Pressure Point Control Tactical System. The station IP Trainer was off duty on this station visit. A copy of the PPCTS schematic will be provided to the station trainer.

(BC0119) New Baghdad Patrol Police Station: The station had 28 officers and 84 IPs assigned to the current shift; 0 AWOLs. They had (1) IP WIA since last visit. Two IEDs explosions occurred in the area, an IP was slightly injured. Joint patrols were conducted in response from other military units to aid in blocking streets for a search of neighborhoods for weapons and insurgents. IPs were alert and cooperative during this effort. The station is currently receiving an adequate supply of vehicle fuel from the government.

(BC0120) Rusafa Directorate Police HQ: Communications section advises the Radio Base Station for all Rusafa Communications was being moved from the Operations Room to the Baghdad Main HQ. The Major is concerned by the decision as the quality of the transmission and reception has been greatly reduced and this will reduce the effectiveness of the communications between Rusafa patrol the Main HQ, and the Operations office. ERF commander provided an estimate on the cost of materials and labor for installing armor on the new 3500 trucks. PTT was advised a $45,000. contract has been approved to up armor all the newly issued trucks. Forty new trucks issued to the Rusafa Directorate will be outfitted. The issue of EFR uniforms and winter coats was addressed. Baghdad Main needs to get engaged in this issue as there is a serious problem in the supply chain. A year has passed and none have been issued. The Team has been told they are sitting somewhere in a warehouse, but no one seems to know how to get them issued. ERF has thirty new men assigned with no uniforms. ERF commander has purchased his own replacement uniform on the market for about $30. Logistics received 125,000 rounds of BKC and 68,000 rounds of AK ammunition for reissue to the IP stations.

(BC0147) Baghdad River Police Training Center: Truckload of supplies for the Center were delivered and the Team is in the process of inventory. Refrigerators, desks, bunk beds, bedding, blankets, folding chairs, in addition to motor parts and supplies for the six Safety boats were received in the shipment.

CPATT IPLO DAILY SITREP

An Najaf [redacted]

No Station visits were conducted on todays date.

Karbala [redacted]

No Station visits were conducted on todays date.

Babil [redacted]

(BB0002) Al Baldah District Police HQ: The Team met with Training supervisor Captain [redacted] regarding training issues. Three issues were discussed: (1) an order or letter from General [redacted] directing the Trainers chain of command to accommodate training needs and modify work schedules so local IPs can be trained; (2) the transfer of Trainers to other stations, which results in excess trainers in some areas, and too few or none, in other areas; (3) upcoming Criminal Investigation trained at the Police Academy in Al Hillah.

(BB0021) Al Mushra Local Police Station: The Team spoke with lead investigator Major [redacted] who expressed the need for a larger work area for his investigators. The Team will begin training a Lieutenant and IPs in basic courses on patrol and community policing.

Tikrit (MND-CW) [redacted]

Diyala [redacted]

CAMP DAWES-FOB WARHORSE: Governate Center PTT-P-(TD0024) Diyala Provincial Police HQ: PTT Administration Advisor met with the Finance Department's Chief, Major [redacted]. During the meeting, the budget for 2006 was discussed. It was noted that there was only 12,000,000,000 ID left in the Chapter 1 part one budget (salaries). In the past three months, due to increased hiring, the province had been paying its employees approx. 6,000,000,000 ID per month/pay period. It was clear that there was only 2-months worth of funds in this portion of the budget, with no other excesses within the 2006 budget to compensate. Much was the same for the hazardous duty portion of the budget. Major [redacted] stated that since this short fall would not last them through the fiscal year he would receive more funds from Baghdad to ensure that the all IP employees would be paid on time until the new budget takes affect in January, 2007. He claimed that MOI would authorize him the amount of 50,000,000,000 ID for salaries and another 70,000,000,000 ID for hazardous duty pay (total 120,000,000,000 ID). He did not have a memorandum stating this authorization.

A meeting was held with BG [redacted], Chief of the Major Crimes Unit (MCU) of Diyala Province. The BG said that, MG [redacted], the Chief of the Iraqi Police (IP) for Diyala Province had asked that a meeting be arranged between himself and members of the PTT responsible for the MCU to discuss the proposed reorganization of that Unit. The Chief of the MCU advised that, although the IP Chief had initially approved the suggested restructuring, questions have since been raised by other concerned parties, including the Ministry of Interior (MOI) of Iraq, and he wished to obtain clarification on several points before proceeding. The IP Chief was not available this date, another meeting was tentatively scheduled.

The BG was advised that confirmation had been received regarding the enrollment of four MCU Officers in the Basic Operations Course, and he said that they were prepared to travel to Baghdad to attend. He also agreed to provide more candidates for this training at the next meeting.

CPATT IPLO DAILY SITREP

BG [redacted] (b)(6), (b)(7)c stated that the Investigative Judge for MCU, [redacted] (b)(6), (b)(7)c, had come to the MCU HQ on 12 Sep and spent an entire day reviewing the pending cases. As a result, two prisoners were released and the proper orders were prepared and signed for the continued detention of approximately thirteen others suspects. Since Judge [redacted] (b)(6), (b)(7)c appointment as the judge responsible for MCU cases about one month ago, this is the first time that he has made an appearance. The BG had complained previously about this situation, but was able to eventually solve the problem on his own by making the proper contacts.

PTTP met with the Diyala Provincial Training Director (COL [redacted] (b)(6), (b)(7)c). Diyala sent 150 students to the BIAP staging area pending travel to JTPC this morning.

Currently, Diyala has 1790 IP that have been through TIPs and an additional 3018 IP in need of TIPS. Diyala also needs to send 2137 IP to a Basic Academy. The grand total still in need of training is 5155 IP.

Diyala PTT conducted Firearms Instructor Training at the IP Headquarters to 3 IP from Baqubah. The IP involved in the training will be taking over the Street Survivability Course and this training consisted of teaching fellow IP the current lesson plan, to include; weapon familiarization (AK-47), proper weapon manipulation, and general survival information. The main focus of this training was to stress proper mindset to each IP they train and how that relates to survival.

(TD0026) Hib Hib Local Police Station: PTT met with the station commander, COL [redacted] (b)(6), (b)(7)c, who stated he still has a broken generator and three disabled vehicles. Numerous requests have been sent to his chain of command and he has provided copies of the request to PTT. The vehicles have been taken to Khalis District Headquarters for repairs. The mechanics say the parts are not available and try to get the COL to pay for the repairs. PTT advised they would try to contact the Provincial Team and have the problems addressed. The COL was advised to get a written estimate for the repairs to the generator and a list of parts needed for the vehicles.

The assistant commander, LTC [redacted] (b)(6), (b)(7)c, brought up a pay issue. The Provincial Chief, GEN [redacted] (b)(6), (b)(7)c, is taking 25,000 dinar from each IP pay at this station.

When asked what the money was being taken for, COL [redacted] (b)(6), (b)(7)c said he had heard the GEN was sending it to Lebanon. PTT asked several times the name and position of the person taking the money and were repeatedly told it was GEN [redacted] (b)(6), (b)(7)c, Provincial Chief in Baqubah.

COL [redacted] (b)(6), (b)(7)c stated he received 20 additional IP and needed weapons, uniforms, and vests for them. Again, he has sent the written request through his chain of command and provided PTT with copies of the requests. PTT advised they would forward a report to the Provincial team and try to get the problem solved.

Salah Al Din [redacted] (b)(3), (b)(6)

Camp Speicher PTTP Salah Ad Din-(TA0080) Salah Al Din Provincial HQ: PTT met with COL [redacted] (b)(6), (b)(7)c of the Provincial Logistics Department at the TIPS Academy. The Logistics Department has recently started moving into the old warehouse located on the Academy grounds. The COL showed us the supplies that have been moved there and for now are only the quantities required for them to keep on hand for emergencies which had been at the previous storage area. COL [redacted] (b)(6), (b)(7)c showed work that had been done to make the building

more secure. It appears one of the MAJs will have an office in the warehouse and will be the one who will maintain the inventories or issue items.

Camp Kaufman-(TA0084) Samarra District Police HQ: PTT met with CPT [redacted] and a CF unit and assisted in planning a large mission utilizing over 20 IP vehicles and a dismounted squad of IP. CPT [redacted] suspended days off for all the QRF Battalion personnel so that they could take part in this two day mission. This mission is being completely driven by the IP and is in response to the violence that has plagued Samarra over the last few days. CPT [redacted] has asked the CF to partner with his units as they participate in this mission today and tomorrow.

PTT met with LTC [redacted], Chief of Police. LTC [redacted] suspended days off for the other stations so that they could be there to assist the QRF Battalion if needed during this two day mission.

PTT assisted the QRF Battalion and the CF unit with the coordination and execution of the mission planned by CPT [redacted]. The accompanying CF unit commented how they were impressed with the professionalism of the men from the QRF Battalion

At Tamim [redacted]

Camp Warrior-(TT0025) Qoria Police Station: PTT observed the Mandatory Accountability of Personnel process and assisted when requested. Of the 141 IP's listed, as assigned to the station all but one was present or accounted for. All information gathered was shared between COL [redacted], IP Internal Affairs, PTT and the other CF present.

(TT0034) Kirkuk Training Center: PTT convoyed to the Kirkuk Training Center and met with COL [redacted] who was overseeing the Mandatory Accountability of Personnel. COL [redacted] advised the process went well and found a couple of minor mistakes, mainly misspelled names that will be corrected.

PTT observed that the Training Center has received the 45 passenger bus that was requested. COL [redacted] advised that he had received a call in reference to the water truck and stated that it will be here in the next day or two.

PTT has been informed that the IED Recognition & Reaction course has personnel from 22 of the 34 stations in the province, with 24 officers and 33 sergeants in the course.

PTT was shown a building on the Training Center grounds that COL [redacted] wants to repair to turn into 7 offices for his staff. By doing this it will free up a classroom that has been used as an office. PTT advised that they would see if funds are available for the construction and will pass this information on to the PTT Chief.

(TT0005) Kirkuk Provincial HQ: PTT convoyed to Kirkuk Provincial HQ and met with GEN [redacted]. PTT initially observed LTC [redacted], MAJ [redacted] and CPT [redacted] conduct the Personnel Asset Inventory (PAI). Each IP was required to present their ID card to verify their identity and rank and then this was compared to the MOI payroll roster. PTT then met with GEN [redacted] and discussed the PAI and were pleased with the process at HQ and after feedback from GEN [redacted] and CF. All of the IP Stations within the Province appear to have been successful with the PAI process. Some discrepancies that were discovered today were immediately addressed by GEN [redacted]. GEN [redacted] was advised that five IP's were discovered to be working for a civilian contractor while accepting police pay. GEN [redacted] gave the order for the IP's to be terminated and disciplinary action taken against the officer who authorized the activity. Once all of the IP Station PAI's are completed and submitted for

review, the findings will be presented to GEN [redacted] for resolution. This will be continually monitored by the PTT teams.

(b)(6), (b)(7)c

GEN [redacted] stated that the bus that was requested by the Kirkuk Training Center was transported from the Meghdad Maintenance to the Training Center. PTT was further advised that the water tanker truck will be delivered to the Training Center in the next day or two after repairs have been completed. GEN [redacted] is meeting with the Provincial Governor on this date and will attempt to resolve the water situation at the Training Center by requesting that the Governor direct Kirkuk Water and Plumbing Management to complete the installation.

(b)(6), (b)(7)c

PTT was advised that there are 11 suspected VBIED's traveling within the City of Kirkuk unknown description or location at this time.

Mosul (MND-N) [redacted]

(b)(3), (b)(6)

Ninewah [redacted]

(b)(3), (b)(6)

(MN0056) Ninewah PHQ: PTT and Major Crimes Unit members were in a defensive mode today shortly after arriving at PHQ due to various complex attacks occurring in the city of Mosul. PTT was unable to conduct any daily meeting with IP counterparts, or conduct station assessments. In addition, the PDOP was not in town and further complicated the PTT mission.

PTT met with COL [redacted] in operations but PTT was unable to speak with him about routine issues due to various complex insurgent attacks occurring throughout the city of Mosul at multiple locations that required his attention. COL [redacted] and members of the operations staff were able to plot locations and direct supporting IP units in the field to areas in order to repel an attack(s). COL [redacted] was also coordinating well with coalition units and the Iraqi Army.

(b)(6), (b)(7)c

(b)(6), (b)(7)c

(b)(6), (b)(7)c

All locations of Improvised Explosive Devices and possible Improvised Explosive Devices, and small arms fire incidents were logged and properly marked on wall maps as soon as was feasible in such a busy environment.

(MN0115) Hamam Alil DHQ: PTT met with the station commander. The station had a total of 196 IP and fourteen officers at Hamam Alil HQ. This station has one check point which is manned today by six IP. The station commander advised that he has three IP in plain clothes patrolling the market area during the day light hours. Vehicle patrols are being conducted in the evening only between 2000 and 0600 hrs.

(MN0116) Al Hamam Alil LPS: The PTT met with the station commander, who advised checkpoints were being manned and regular foot and vehicle patrols were being conducted. He also stated there were a total of 178 IP at the Hamam Alil LPS (170 IP and eight executive officers). A total of 136 officers were presently on duty at this time (130 IP and six executive officers). The PTT conducted an emergency response run for a local TCP for an attack on the checkpoint. The response time and manpower rated very high for the Hamam Alil District.

(MN0010) Al-Hadr DHQ: PPT arrived at District HQ and conduct a meeting with COL [redacted] who advised the only issue he had was not having enough vehicles to provide adequate vehicle patrols. PTT advised him of the situation with the vehicles and the contractor issues.

(b)(6), (b)(7)c

(b)(3), (b)(6), (b)(2)

CPATT IPLO DAILY SITREP

There were four inmates in the jail today. One of the inmates was incarcerated for stabbing two females. One of the females is still in the Hospital. The others are in for minor offenses. They had a fifth person in jail but he had not been charged yet. His name matches a name on the wanted list provided by NPHQ. The COL advised that he contacted NPHQ and they advised him to hold the suspect until they could check out his story. They said his name was [redacted]. (b)(6), (b)(7)c

Training with the IA, and U.S. Military unit from FOB Endurance was discussed. The COL is sending ten IP to training at the IA compound. Training was discussed in the area of the investigator. Material is still being collected.

(MN0020) Hassengoi LPS: PTT was informed that patrols and checkpoints are being conducted regularly and that no significant acts of violence or criminal activity have been reported.

The station appears to be logistically sound; however, the Logistics OIC was not available today.

Training has been scheduled for the next station visit and is to be on establishing and maintaining accurate records.

(MN0036) Al Dawasa LPS: During the PTT visit today at Dawasa station PTT showed the acting station commander, LT [redacted], what their PSMR grades were and showed them how to improve them. The acting commander and the leading investigator seemed very interested in getting those numbers up to a respectable level. They took notes and explained were they think they are on their training and station readiness. PTT was impressed to see them thinking ahead of the game and setting goals for themselves. PTT will be working on station QRF and Station readiness over the next seven days. PTT is looking into what it will take to get a couple of computers for their station. PTT believes the stations are ready to start utilizing more technology and it will help them with their records keeping. (b)(6), (b)(7)c

(MN0045) Al Khazraq LPS: PTT and IP commanders discussed their PSMR scores and ratings. PTT then was tasked to QRF for AL Rabeian DHQ which was under small arms and IED attack just three miles away. As PTT was leaving the station we observed the quick response of IP from the Khazraq station closing down their traffic areas and getting people off the streets in preparation of a possible attack. The operation took minutes to set up and was very organized. Once on scene at the Al Rabeian incident the IP had every area cordoned off and were clearing the area of other mortars and IEDs that were thrown from the initial blast. A vehicle had been stopped by the IP and was found to have various weapons RPGs, Mortars etc inside of it. During this traffic stop a Motorcycle IED struck the car exploding and spreading everything over the area. IP personnel were injured but no information in reference to how bad.

(MN0009) Al Hadba DHQ: The Team spoke with BG [redacted] and he provided information (described supra) concerning the IED strike on his vehicle. BG [redacted] added that this was the second time within the past several weeks that he has been the victim of an IED attack. The Team discussed the need for the IP Leadership and the IA Leadership to work more closely in their efforts to thwart AIF activity in Mosul. BG [redacted] relayed that the IP and [redacted] do operate off a common radio frequency and are able to respond as QRFs for each other. BG [redacted] admitted that there are only casual contacts between the agencies. (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c

Compiled by [redacted] (b)(3), (b)(6), (b)(2) 6/16/2008

CPATT IPLO DAILY SITREP

On 09-13-06 at about 1100, BGen [redacted] was riding in a five vehicle convoy near the Al Jamouri Hospital. His Iraqi Police SUV struck an IED. His driver and one additional security policeman were injured. BG [redacted] was not injured.

(MN0068) Al Somer LPS: PTT met with CPT [redacted]. CPT [redacted] is the XO for the station, he is currently attending a two month officers training course at MPSA. However, due to the critical staffing level at the Al Somer station he is covering for MAJ [redacted] while on a three day break from the academy course to allow MAJ [redacted] a couple days off.

PTT discussed the current activities within his AO and patrol operations. The station again assisted NPHQ Major Crimes Unit with a search operation during the night. This operation resulted in the detention of two AIF subjects that were taken to NPHQ, by MCU IP. There were no weapons confiscated during this operation.

CPT [redacted] informed PTT, the station will be conducting an evening patrol with CF this date. There are no other operations planned for this date, as of this reporting. CPT [redacted] informed PTT, there could be other patrols or operations depending on direction from [redacted] DHQ or NPHQ. As the AIF activity today is extremely high throughout Mosul. This statement was reference to numerous attacks on CF which were on-going at the time of this station visit.

CPT [redacted] reported there were twenty IP including himself on duty for the station today, which after assigning IP to station defense positions only leaves a limited number for patrols and operations. MAJ [redacted] informed the team that his IP are conducting regular patrols now with the IA, and are cooperating.

Staffing levels for this station remain critically low to support effective operations. This is compounded by the number of IP attending training at the academy. Additionally, the station has a total of five officers including MAJ [redacted] (Station Commander) assigned, of which one is in training for the next two months. One is off-duty recovering from an IED attack. Therefore, only three officers are currently working at the station, which does not allow for any time off. This situation needs to be addressed immediately by district and NPHQ. PTT will discuss this with Al-Nasir DHQ.

CPT [redacted] informed PTT he would like computer training for the station. PTT informed CPT [redacted] the team is currently planning additional training for IP assigned to this station and would include computer classes. PTT requested that CPT [redacted] discuss this issue with MAJ [redacted] and identify specific IP to attend the computer classes, as this will require a number of classes over a period of time to train the identified IP in the various computer programs.

Irbil

(MI0275) Irbil Provincial JCC: PTT met with station the commander at JCC and discussed training ideas involving assigned personnel. PTT attemptedt to gain knowledge of assigned JCC personnel roles and assignemnts. PTT will be required to spend a substantial amount of time with each representative of each agency to gaina complete understanding of

JCC job knowledge and to porject training needs. PTT will be spending several days each week concentrating on JCC to begin a training cirriculum for these personnel.

(M10606) Irbil Criminal Identification Directorate: PTT met with Gen. [redacted] primarily to discuss the transfer of a connex trailer(s). The General informed PTT that he could utilize one (1) connex trailer and he would move the trailer to the new Crime Lab building when the

construction is finally complete. PTT advised the General we will coordinate obtaining the trailer and that as far as we know this is an unused trailer that will be transported from Baghdad by CPATT.

Sulaymaniyah

(TS0275) Sulaymaniyah PJCC: PTT members met with BG [redacted] Commander Sulaymaniyah PJCC to discussed insertion of an IPLO team into PJCC. In addition, a recommendation was made to integrate and develop JCCs across the province. BG [redacted] made it clear that he was independent of the KPS and had no association with same, JCC is a stand-alone entity on par with the Asaish, and that his operation was extremely proficient and required no guidance or alteration. BG [redacted] consented to the IPLO request to assign an IPLO as a means of conveying a clear understanding of the resourcing needs of the PJCC. An IPLO will be assigned commencing on 09-17-06. BG [redacted] insisted upon a low profile presence, to specifically exclude visibly parked HumVees, stating such a presence increased the threat to PJCC and its staff.

PTT members inspected Motorola radios delivered the previous day per special contract, and found that 41 Motorola model 360s and four model Motorola 340s had been delivered of the required 50 and 12. PTT members were advised that initial inspection upon delivery determined that the remaining radios were obviously well used. PTT members noted discrepancies in the packaging and the contents, and summoned the vendor to the PJCC to assess all items. It was determined that the radios appeared to be new but curiously packaged in worn and incorrect boxes with model and serial numbers which did not match the contents. Some accessories were also missing. PTT members, vendor, and BG [redacted] negotiated the matter further and came to a local resolution favorable to BG [redacted]. The matter of antenna installation also became an issue, as the contract called for five base radios and five antennas, with no provision for mounting hardware, mounting staffs or installation. BG [redacted] insisted that the Coalition pay for the required materials and installation, and was advised this was not the agreed-upon contract. This became contentious and BG [redacted] refused to meet with the MOI to properly fund the remaining materials and work. PTT members advised that they would meet with the MOI on this issue. The vendor then stated that he would attempt to make some accommodation. PTT members are scheduled to return to the PJCC on 091406 to inspect the promised replacement radios and to discuss the disputed issues further.

During this meeting, BG [redacted] renewed his demands for resourcing, to include Glock pistols and vehicles. BG [redacted] was again advised that CPATT did not resource the PJCC and that BG [redacted] needed to make such requests directly to the MOI for resolution.

(TS0010) Sulaymaniyah Provincial Traffic Police HQ: PTT members met with MG [redacted] Commander of the Traffic Police and discussed lack of apparent traffic control at major intersections and the apparent inability to maintain smooth traffic flow through the most congested areas of the city of Sulaymaniyah. MG [redacted] was apprised of the many Traffic Police who seemingly stood idle as traffic snarled around them. MG [redacted] was apprised of the exceptional few at specific intersections who obviously worked diligently to maintain traffic flow, and advised that every intersection should be managed as those specifically cited. MG [redacted] stated that the cause for this dilemma was the lack of resourcing on the part of the Coalition, thereafter citing a lack of Glock pistols, vehicles, and radios. MG [redacted] declined the invitation for training at this time, and stated that he was soon to retire and vacation in Sweden. PTT will identify a replacement Traffic Commander (unknown to MG [redacted]) and rework this issue.

CPATT IPLO DAILY SITREP

(No FFID#) Sulaymaniyah Traffic Licensing Directorate: PTT members met with Major [redacted], Commander of the Sulaymaniyah Traffic Licensing Directorate, and discussed licensing requirements and enforcement of traffic laws in Sulaymaniyah. Major [redacted] provided information pertaining to the process of acquiring a license as well as the regimen for testing. He advised that the current procedures should in theory limit licensing only to those qualified, but furthered that the current regimen is new and therefore the majority of drivers licensed under the previous regimen were likely poor drivers to begin with, and they are the ones driving so carelessly and erratically.

(No FFID#) Sulaymaniyah Asaish Main HQ: The Asaish PTT held today pistol and rifle training at the Sulaymaniyah Police Academy. The PTT instructed and assisted the thirty Asaish agents with firearms safety and firing the firearms course. All agents did very well with the PTT Instructor seeing an overall improvement in the student's performance.

(TS0085) Azmar Police Station: The Community Policing PTT met with Col. [redacted] and twenty-three IP from the Azmar station. The purpose of this meeting was the instruction of the community policing concept to the IP and Colonel [redacted]

Classes on human rights and general principles of recognized International Law were presented. The PTT presented to the students some of the Iraqi law that the IP have to deal with from time to time. The students were encouraged to research their own law and learn just what is expected of them as Iraqi Police.

(No FFID#) Sulaymaniyah Provincial HQ: The Investigations PTT went over the crime scene security test administered on 9-10-06 to the class. General [redacted] spoke with the class, concerning his experience in fingerprints, thoughts on the class, and his expectation for his officers in the class.

The PTT covered the test questions and expressed the need of crime scene security, proper equipment, and proper paperwork to perform the maneuvers. IP exhibited in the test they have learned how to prepare the equipment and complete the paperwork for crime scene security.

General [redacted] spoke to the class about his experience with fingerprints in 1966. General [redacted] said that fingerprints couldn't be found on walls, couldn't be found on wood, nor could be found on clothing. General [redacted] continued to related how fingerprint and crime scene processing was too complicated for the class and they needed years and years of study to become experts in the subject of fingerprint collection, processing, comparison and collecting other items of evidence at the crime scene. General [redacted] advised since he didn't pick the students for the class he could not let them investigate a crime scene.

The students challenged General [redacted] on points of fingerprint, since most students have attended prior fingerprint classes from the PTT Investigation personnel.

PTT Investigation personnel will be instructing students how to process fingerprints from a wall in the next class session on 9-17-06. PTT Investigation personnel will also work with the IP in developing an evidence tag and an evidence log sheet.

(TS0009) Sulaymaniyah Internal Defense Battalion: The Tactical PTT met with the Internal Defense Battalion of the Sulaymaniyah Police.

The PTT conducted roll call and then reviewed the previous days training. The PTT noted that the students had a good handle on what they have learned to this date.

After the review and for the rest of the training day the PTT presented training on the diamond formation and reaction drills. In addition, the movement of the principal from vehicle to building and reverse was practiced. The IP students performed these exercises of VIP movement without incident.

In regards to the Glock training, five IP students had on hands training with cleaning and maintenance of this pistol.

(TS0015) Bakrajo Police Station: The Force Protection PTT conducted training for Bakrajo Police Station consisting of fifteen IP from Team B.

Today's Class was conducted with the hands on practical on the subject of Vehicle Searches and Station Defense Drills. Students were given a demonstration of a Vehicle Search and then required to complete the practical. Station Defense Drills were then practiced. Students were given a scenario of a station attack and were required to react accordingly.

Dahuk [redacted] (b)(3), (b)(6)

(MD0002) Dahuk PHQ: PTT was not able to respond to Dahuk PHQ due to the roadways being blocked to the downtown area. PHQ advised that all major arteries were blocked to vehicular traffic. They claim that this was due to road construction.

PTT conducted advanced shooting training and tactics to another one of the Dahuk SWAT teams. The training included range safety, weapons familiarization, quick target acquisition, tactical reloading, and malfunction drills. There were eight members that were trained.

PTT continued the firearms instructor course which included marksmanship with the AK 47 and weapons maintenance. The course is a minimum of six hours per day for five consecutive days. Six members, one from each district, are participating in the training.

PTT received word that approximately six hundred protective vests are due to arrive 14 September to be distributed to Dahuk PHQ.

Ramadi (MND-W) [redacted] (b)(3), (b)(6)

Al Anbar **unassigned**

(RA0084) Baghdadi Local Police Station: The PTT completed shipping manifest and assisted with the transport of Baghdadi IP candidates to JITPC. IP candidates were transported to JIPTC. IP, JIPTC graduates shipped from Baghdad to Al Asad and awaiting transport to the Baghdadi District Headquarters.

(RA0080) Al Qa'im District HQ: (RA0080)Beirut (Substation) District HQ: There was no station visit today. The Headquarters element of the PTT transported and created identification cards for IP's returning from the Police academy. The PTT has limited resources, and received additional IP's from the academy today.

(RA0081)Hit Dist HQ: No station visits due to PTT logistics Ops at Camp Hit. An undetermined amount and different types of equipment arrived for the PTT for future issue to IP's. Equipment will be sorted and listed.

(RA0102) Husaybah Local Police Station (JCC): This station now maintains PTTs, who will rotate with some overlap. They will work at the JCC and be housed on a rotating basis out of Camp Gannon.

CPATT IPLO DAILY SITREP

(RA0101)Tripoli Local Police Station: There was no station visit made today. The PTT has limited resources. The PTT received and facilitated, to include the badgeing of returning IP's. There were several IP's that returned from the academy.

(RA0093) Rumana Local Police Station: The PTT did not make a station visit today. There is no change to the information previously reported. The PTT has limited resources. The PTT Headquarters element transported and created identification cards for Iraqi Police returning from the academy.

(RA0106) Tal Aswad Local Police Station: No station visits due to PTT logistics Ops at Camp Hit

(RA0104) Al Furat (Zawaya) Local Police Station: No station visits due to PTT logistics Ops at Camp Hit.

(RA0092) Karabilah Station: The PTT did not make a station visit today. The PTT transported and created identification cards (badged) Iraqi Police returning from the academy.

(RA0072) Korean Village Rutbah: A key leader from Akashat made a visit today but, was unable to bring the possible Rutbah police chief candidate. It is not known when the candidate will be able to come but we are advised the meeting is still in the works. Planning is continuing for the Waleed mission.

(RA0013) Fallujah District Police HQ: PTT did not attended IP Roll Call or have contact with Major Crimes Unit. There were sufficient IP's in both units for functional operations. Some IP Patrol was held over from the previous shifts for a combined operation with CF and IA. PTT and CF monitored IP Patrol/ IA's execution in a cordon and search operation. IP's were lenient on the operation goal of sustaining citizen within the area. Although there are still areas for improvement with IP/IA relations, the overall the mission was successful. ISF, LTC and staff participated in this operation. There are prisoners incarcerated and being properly attended within the jail. Prisoners were transfer from Fallujah HQ to another detention facility. Files for these prisoners continue to be translated into English. The OP at the entrance of the CMOC sustained an RPG attack. Minimal damage was sustained with no injuries reported.

(RA0060) Saqlawiha Patrol Police Station: Force protection upgrades continue to be made to the IP station. All station equipment appears to be accounted for at this time. The number IP's and Officers showing up for their scheduled watches has decreased dramatically over the past few weeks. PTT is currently working with IP command to rectify the situation. No training was conducted due to the manpower shortage

(RA0020) East Station: This was the initial visit to do an overall Force Protection and evaluation of the soon to open station. Although the station is small it has some obvious areas of vulnerability. These areas of concern will be addressed. There is not enough space to house the necessary amount of IPs to perform force protection and conduct daily patrols.

Camp Junction City: Training continues at the Phoenix Training Academy. There are several IP's along with IA training together. The range will be the focal point for the next several days.

CPATT IPLO DAILY SITREP

Al Qadisiyah [redacted] (b)(3), (b)(6)

(BQ0600) SWAT: During the meeting at SWAT, the SWAT commander stated that he had sixty-four (64) officers in need of SWAT Training and asked our assistance in finding a SWAT academy to send these officers. He also complained that the SWAT unit was being used to augment security at the Provincial Headquarters and was being assigned to vehicle check points. He thought that this was a misallocation of their resources.

(BQ0103) Attica Prison: During the meeting at Attica Prison the only notable problem at the facility was the over crowding of the Prison. The prison has four hundred and thirty-one (431) prisoners housed with a capacity of one hundred and fifty (150) prisoners. The commander stated that a larger facility was needed.

(BQ0966) Shinafiyah Local Police Station: The PTT team traveled to two police stations today. At Shinafiyah Local Police Station the team learned that the commander of the station, Maj [redacted] had been arrested for being careless during an investigation and the deputy commander was attending a meeting at another location.
The team met with Capt. [redacted], who was the duty officer at the station and discussed the stations manning, equipment, training, and facilities issues.
The team learned that 97 IP's were assigned to the station, all of who have attended basic training. 42 IP's have attended phase 2 training. The Capt. advised the team that no daily training is conducted. The team stressed the importance of having training on a regular basis.

(BQ0020) Ghammas Local Police Station: The team met with the commander, LTC. [redacted], and learned that the station has 124 IPS. All of 124 IPS have attended basic training, and 51 have completed phase 2 training.

(BQ0600) SWAT: While at SWAT one of the PTT members noticed A SWAT IP had left a loaded PKC unattended. A day worker came over at two separate times and picked the weapon up and held it, and looked at it. This situation was addressed by the PTT member when it first happened. On the second occasion a LA was utilized to explain the negative sanctions that would be imposed if he persisted with the unacceptable behavior. Upon hearing this he made a motion simulating the throwing of a grenade. It should be noted he didn't actually have one. At this point he was dealt with by the IPS and fired from his job. Also the SWAT officer who had left an unsecured weapon was thrown in jail for the infraction. It was apparently not the first time he left a weapon unsecured.

Wasit Province [redacted] (b)(3), (b)(6)

The PTT team completed an inventory of equipment stored at CPATT compound. These items will be delivered and/or picked up by the IPS from Diwaniyah in the near future. The supplies include ammo and radios.
A meeting was conducted between the PTT team members. The team spent the meeting time formulating a plan for scheduled meetings that we will be having with the commanding officers of the Iraqi District Headquarters that will be conducted on Camp Delta.

Basrah (MND-S) [redacted] (b)(3), (b)(6)

Al Quibla FFID # BE0028: It was reported that while inside AL QIBLA IPS Station, [redacted] (IP) accidentally shot Captain [redacted] (IP Officer) before accidentally shooting himself in the leg. The weapon involved was believed to be an AK47 variant. Both men were taken to AL JAMHOURY hospital for treatment. PTT team notified to conduct weapons safety training.

CPATT IPLO DAILY SITREP

Basrah Training College: A visit was conducted at BTC, during the visit various buildings were looked at to get a feel for the construction quality several structural cracks were noted by MNSTC-I LNO. CPATT LNO met with the Deputy Director of the Academy who stated he was in need of additional training staff to assist in the completion of the overwhelming administrative work.

CPATT LNO provided IPA Sandy Elliot an "Alternative Light Source Unit" in-order to train the investigators attending the Advanced Investigations Course.

Al Muthanna (b)(3), (b)(6)

The JAM actions in Al Khidr have escalated concerning the recent arrests of three of their members. CIU has taken the responsibility for the arrests dispelling the rumors that the Australians were secretly involved. Protests are expected to continue on a larger scale but dissipate in the next few days.

CPATT members are planning to address this issue as well as other JAM influences with the Mayor of Al Khidr in the upcoming meeting taking place today.
As reported earlier CPATT team members John Mott and Rafael Taft are currently involved with Australian Bravo Company in OP Don #6. The focus and emphasis of their planned meetings will be a continuing assessment of the threat level specific militias such as JAM is posing to specific communities. CPATT team members will serve as consultants and advisers to key law enforcement personnel in order to advance specific strategies designed to impede and deter JAM affiliates.
