CPATT IPLO DAILY SITREP

October 10, 2006

Baghdad (MND-B) [redacted] (b)(3), (b)(6)

Baghdad [redacted] (b)(3), (b)(6)

(BC0003) Airport Police Local Police Station: The total personnel assigned to the current shift included 10 officers and 45 IPs. No AWOL/KIA/WIA. Station training was conducted with 4 IPs on Basic Baton and the use of the metal detection wand.

(BC0007) Al Adhamiya Patrol Police Station: No operations were conducted during the station visit due to the possibility of a threat of attack on one of the other Adhamiya district stations by insurgents. PTT was on standby.

(BC0011) Al Dorah Local Police Station: Two separate PTTs conducted a station visit at Al Dorah LPS. One PTT reports a joint patrol was conducted in Mulhalla 822. The patrol was hit with an IED which was planted alongside the road near a body of a male who was shot in the head. EOD was called. No injuries or damage resulted from this attack. The second PTT reports a joint patrol was attempted but IPs refused to go with Coalition Forces. IPs said the CF is doing nothing for them. The Station Commander agreed with his IPs and told them they did not have to go out on the patrol.

(BC0012) Al Dorah Patrol Police Station: PTT conducted a driving patrol Mulholla 822 and the Al Dorah market. The patrol was uneventful and no serious incidents reported.

(BC0018) Al Jazaaer Local Police Station: The total personnel assigned to the current shift included 3 officers and 50 IPs. No AWOL/KIA/WIA. Joint patrol was conducted with 1 IP vehicle and 5 IPs for approx. 3 hrs. No major incidents occurred. CF is working with a contractor to increase the outer wall height and improve the lighting on force protection. There are 5 inmates housed in the detention cell. No problems reported.

(BC0045) Al Nasir Local Police Station: The total personnel assigned to the current shift included 1 officer and 45 IPs with 3 AWOL. No KIA/WIA. Major [redacted] said they received an additional officer at the station. The Colonel has been approved for additional personnel from the Academy graduating class. 5 of the 8 station vehicles are operational. The station began using the new Chevrolet 3500 truck. The station is now receiving fuel for their vehicles at the fuel point. Generator fuel was provided for the station generator by PTT. The fuel received from MOI has been consumed. There are 8 prisoners housed in the detention cell. All claim to be receiving food and water. They complained about the lack of electricity for ventilation and light. PTT reports having one language assistant that limits what can be accomplished on any given visit. (b)(6), (b)(3)

(BC0049) Al Rashad Local Police Station: The total personnel assigned to the current shift included 5 officers and 56 IPs. No AWOL/KIA/WIA. Joint patrol was conducted for 2 hrs. No arrests or seizures were made during this patrol. Vehicle gas is being supplied by the Ministry of Oil. They receive 30 liters per day.

(BC0050) Al Rasheed District Police Station: PTT was stationary at the Al Dorah market while IPs conducted foot patrols and checkpoints for 4 hrs. IPs did not provide security for each other when they would search cars or persons. No mentoring was done as the only interpreter was with military counterparts at other end of the market.

(BC0062) Al Suleikh Local Police Station: The total personnel assigned to the current shift included 6 officers and 21 IPs. No AWOL/KIA/WIA. Station training was conducted

with 5 IPs on safe removal of dead bodies. PTT arrived at the station and were met by two Iraqi officers from MOI. The Team learned that the current station commander was being fired; his replacement is Colonel [redacted] (b)(6), (b During the meeting, radio transmissions were taking place with IPs calling for assistance and reporting one IP wounded. IPs were recovering a body when they encountered small arms fire. PTT responded to the scene and were also met with small arms fire. Some back-up forces arrived and a firefight directed toward CF vehicles lasted for approx. an 1½ hrs., until additional units and air support arrived to assist. There were no injuries to the Team or CF. The wounded IP was never confirmed. No body count on enemy forces.

(BC0064) Al Taji Local Police Station: Two PTTs conducted station visits during two separate 12 hrs. shifts. The morning shift had 2 officers and 17 IPs assigned on duty. Station training was conducted with 8 IPs on Map Reading and Operational Readiness. The station generator is still not operational. The second Team arrived on station with 2 officers and 21 IPs with 2 AWOL on duty. An inspection of the jail was done and it was found that IPs were allowing items into the cell that could be used as tools or weapons. Eight IPs were trained on Detention Cell Operations. IPs were shown the proper ways of removing inmates from the cell, searching inmates, items than should not be allowed into the cell and ways these item could be used as weapons or tools. JCC was in operation.

(BC0072) Al Thawra Traffic Police Station: The total personnel assigned to the current shift included 4 officers and 78 IPs, with 5 AWOL. The Colonel reports that the 5 absent are sick. He reported that he should be getting 60 IPs from the graduating academy class. All station vehicles are operational including the 10 motorcycles. Stationary supplies were delivered by the Team. Communications section has no base station; they have 10 mobile radios, and 29 portable radios, 4 that do not work. This station has 205 Glocks, 199 have been issued. They received over 21,000 rounds of 9mm ammunition. There are 57 AK-47 rifles with 16,146 rounds of 7.62 ammunition. Station has one RPK machine gun. This Police Station does not have any problems obtaining vehicle fuel. The Team provided fuel and oil for the generator.

(BC0075) Al Zaafaranyah Local Police Station: The total personnel assigned to the current shift included 4 officers and 76 IPs with 2 AWOL. No KIA/WIA. The station commander assigned a new training officer, 1LT [redacted] (b)(6), (b)(7)c Colonel [redacted] (b)(6), (b)(7)c and LTC [redacted] (b)(6), (b)(7)c asked that IP training wait until he is available for duty. District events reported was the assassination of a councilman and his nephew about 2 kilometers west of Zaafaranyah square. Suspects were 3-4 gunmen in an off-white Toyota car. They are believed to be the same suspects involved in the killing of 6 civilians in a coffee shop several days ago. National Police are believed to be covering for them, according to LTC [redacted] (b)(6), (b)(7)c

(BC0095) Jisr Diyala Local Police Station: The total personnel assigned to the current shift included 4 officers and 38 IPs, with 6 AWOL. No IPs were available for training as a separate MP unit took 14 IPs out on patrol prior to this PTT arrival. 4 of the 7 station vehicles were burned during the recent mob riot. A memo was sent to MOI by 1LT [redacted] (b)(6), (b)(7)c for the vehicles to be removed and replaced. The remaining 3 vehicles are operational. One of the forward guard towers was badly burned and the windows were broken during the riot. The tower needs new windows, plaster, and painting to bring it back to a usable status. Concertina wire needs to be replaced at the front wall separating the police courtyard from the city street. This was obviously a weak point in the stations security during the riot. Major [redacted] (b)(6), (b)(7)c was recently transferred and is the new Station Commander.

(BC0096) Karada Miriam Local Police Station: The total personnel assigned to the current shift included 2 officers and 21 IPs. No AWOL/KIA/WIA. The station training

consisted of mentoring 1 officer and 3 IPs on assessing the situation on a scene of an incident. IPs apprehended 3 local nationals for an escort violation in the IZ, one possibly having an altered jensea ID card.

(BC0101) Mahmoudiya District Police HQ: The General assigned Colonel [redacted] to the office, pending an investigation relating to him missing 12 days of work. General and staff was ordered by MOI to make contact at schools to ease tensions and build communication between youth and police. (b)(6), (b)(7)c

(BC0102) Mahmoudiya Local Police Station: The total personnel assigned to the current shift included 3 officers and 66 IPs with 2 AWOL. Station training was scheduled, however, the General received orders from MOI for his staff and IPs to make physical appearances at several schools. The air conditioner was finally repaired and is operating. 14 of the 19 station vehicles are operational. This station is awaiting parts for the 5 disabled vehicles.

(BC0112) New Baghdad Local Police Station: The total personnel assigned to the current shift included 5 officers and 75 IPs. No AWOL/KIA/WIA. Colonel [redacted] said he received orders from MOI to have his IPs check with each residence in the area and obtain names of people living in each house and the owners. This is being done to track who is coming and going in the area for security reasons. (b)(6), (b)(7)c

(BC0120) Rusafa Directorate Police HQ: The total personnel assigned to the shift included 78 officers and 658 IPs. No AWOL/KIA/WIA reported. A contractor that was hired to repair a broken sewer line in front of the station fired the work crew he started with. The Logistics office LTC requested help with a militia problem near his residence. Hezballa Militia set up a roadblock on the way into his village and they are not allowing anyone to enter or leave. Iraqi Army will do nothing about it. The children were not able to attend school. The information was given to the 519th MP BN about the situation. BG [redacted] was taken to BCP to visit his son who is enrolled in the officers class. Station interpreters are still being processed with Titan. (b)(6), (b)(7)c

(BC0123) South Karkh Traffic Police Station: The total personnel assigned to the current shift included 1 officer and 14 IPs. No AWOL/KIA/WIA. Station training consisted of mentoring 1 officer and 12 IPs on taking responsibility and initiative in ensuring the water tanks are filled. The Traffic Police were again without water for most of the day. The station is not taking the initiative to resolve this conflict with Karada Miram LPS.

An Najaf [redacted] (b)(3), (b)(6)

No Station visits were conducted on today's date.

Babil [redacted] (b)(3), (b)(6)

(BB0500) Al Hillah Regional Police Academy: The Team met with Colonel [redacted] and Captain [redacted] regarding training of the Provincial trainers on the subject of Criminal Investigations. Training will begin next week for eight weeks. Colonel [redacted] declined to accept IP Officers from Karbala to attend the initial session of the "train the trainers" program with Captain [redacted] because the Najaf Academy is responsible for their training. Training will also begin on computer operations and the use of Microsoft Office for each station. (b)(6), (b)(7)c

Karbala [redacted] (b)(3), (b)(6)

No Station visits were conducted on today's date.

Tikrit (MND-CW) [redacted] (b)(3), (b)(6)

Compiled by [redacted] (b)(3), (b)(6), (b)(2) **6/16/2008**

CPATT IPLO DAILY SITREP

Diyala

(TD0024) Diyala Provincial Police HQ: The PTT MCU Advisor met with BG [redacted], Chief of the Diyala Bureau of Investigations (DBI) (formerly MCU) of Diyala Province. BG [redacted] advised that he had determined that the Chief of the Baqubah DBI Office, CPT [redacted] was extorting payments from relatives of detainees and, as a result, brought charges against him and placed him under arrest. The CPT is currently in jail, and has been replaced by 1st LT [redacted] who was transferred to Baqubah from Muqdadiya. BG [redacted] has been systematically reviewing all the Officers of the former MCU in an attempt to weed out those who are, or who have been, involved in various illegal activities. This process has greatly improved the public impression of the IP investigations office and demonstrated to the current Officers that this type of behavior will not be tolerated under the new administration.

BG [redacted] said that his office had recently been the target of a good deal of criticism regarding the processing of detainees. Other Iraqi security agencies, including the IA and the NIIA, had indicated that the DBI was unable to handle large number of detainees captured in various operations and this inability had limited the number and scope of such operations. BG [redacted] has since implemented a system whereby those detainees without any evidence against them are quickly screened and released, leaving his resources to deal with those prisoners deserving of more intense investigation.

BG [redacted] also said that he would like to have his officers participate in the ongoing PTT Street Survival shooting courses being offered at IP headquarters. He will be instructed to submit the names of ten designees to the Chief of Training in order to schedule this instruction. He also said that he had been unable to procure AK47 ammunition through the IP logistics channels and asked for assistance in obtaining this, as well as any other equipment that might be available for use by the DBI.

The PTT Administration Advisor met with the Administration and Finance Department Chiefs for the Diyala Provincial HQ. During the meeting with Administration, GEN [redacted] discussed corruption within the Provincial Police. The topics discussed involved the alleged, taking money from applicants to become IP or for promotions. GEN [redacted] stated that he was very careful to document the personnel records to prevent his subordinates from taking the liberty of arranging such methods of corruption. The team advised him that it was probable that, despite his precautions, these methods were used and were being reported as being used to extort money from IP. GEN [redacted] stated that he would look into these acts of malfeasance.

MAJ [redacted] the finance chief, discussed with the team the errors reported in the expenditure report. He advised the team that transfers, as a practice, have been eliminated. If money is not allocated for a type of expense they will simply ask MOI for more.

PTT Training Advisor met with COL [redacted]. He advised there are 167 IP vetted for the upcoming JIPTC class.

The IPS HQ training department gave the following breakdown of numbers for IP in the province that has received training. 2980 have been trained through the JIPTC, 1744 have been trained through the TIP program. IP still requiring training include, 2735 require TIP training and 2369 require JIPTC training.

Scorpion Academy: PTT instructed 15 IP, in the three week trainer's course, at the Scorpion Academy. PTT instructed IP on both mounted and dismounted patrolling techniques, with practical hands-on exercises at the completion of each class.

CPATT IPLO DAILY SITREP

PTT also instructed IP on emergency vehicle operations and vehicle search techniques, again, with hands-on practical exercises being conducted throughout the class.

IP were provided meals from the CF DEFAC, as the issue with food contractor for the Iraqi chow hall is still being resolved.

Salah Al Din

Camp Speicher (TA0080) Salah Al Din Provincial HQ: PTT met with COL [redacted], Provincial Chief of NIIA. COL [redacted] provided the team with a report. The report was generated by information from a source living in an area between Samarra and Fallujah. The source identified several locations in the area where terrorist operate freely. The report provided names and descriptions of suspected stolen vehicles.

COL [redacted] became frustrated when asked several follow-up questions about his report. He agreed to provide CF with the most accurate information he had, but would not ask his sources to expose themselves to greater danger to get more information for CF.

PTT also traveled to Community Crimes detention facility to obtain photographs of [redacted] and [redacted]. These two individuals were both caught in separate IP operations. Ali Jamil was captured with four others. SSG [redacted] interviewed [redacted]. There was clear bruising on [redacted]s back. Ali Jamil had scrapes across his face. [redacted] claimed the IPs beat him everyday. [redacted] claimed he fell down while trying to evade the police. The Chief of the detention facility claimed that no inmate was beaten by his guards. He stated that this practice is wrong, and that he would punish anyone who involved with prisoner abuse. This is the third time the PTT team has been to this facility in the last 6 months. Previous visits have also revealed bruising to prisoners and claims of abuse.

(TA0084) Samarra District Police HQ: At or about 2100 hours last night, PTT participated in a night patrol with Collation Forces which included 10 IP, 1 IP Officer and an IPLO. The patrol consisted of mounted and dismounted personnel. The IP performed well when working with CF.

PTT met with LTC [redacted], Samarra Chief of Police and CPT [redacted] of the MOI Commandos. We discussed a joint mission to include CF, both officers stated that continued missions together would greatly decrease the overall violence in Samarra.

PTT spoke with LTC [redacted] and asked about the 20 IP who previously worked at the Mike-2 checkpoint. LTC [redacted] stated that those IP had been transferred to the QRF because the MOI Commandos now occupy the Mike-2 checkpoint.

LTC [redacted] advised PTT that he would allow the IP, who have worked the past nine days straight, to have four days off and when they return, shifts will go back to their original schedule.

PTT discussed with LTC [redacted] about the release of the 6 IP arrested at the Samarra hospital. These 6 IP are reported to have assisted in the release of 2 AIF, one of which shot and killed an IP that same night. CPT [redacted] is reported to have been directly involved in allowing the shooter to get away. It was brought up that CPT [redacted] son was recently arrested for associating with known AIF. LTC [redacted] stated that he will continue to investigate the incident and that he will remove CPT [redacted] from the hospital.

Compiled by [redacted] 6/16/2008

CPATT IPLO DAILY SITREP

PTT discussed with LTC [redacted], the incident at BP-3 where the IP abandoned the checkpoint to eat a Ramadan meal after the day's fasting. The commander at BP-3, LT [redacted] left his post and an IED was placed at the checkpoint causing minor injuries to 2 IP and 1 civilian. PTT stressed that this type of behavior is unacceptable and cannot continue. LTC [redacted] stated that LT [redacted] was arrested and an investigation will be conducted to find out all the facts and to ensure that this type of incident is not repeated. [redacted] also stated that he will have a meeting with all his Officers to ensure that they have their IP doing their jobs correctly and future failures will be dealt with.

PTT spoke with LTC [redacted] about the increasing numbers of civilians who are injured and killed by AIF attacks. PTT requested that [redacted] have the Samarra hospital IP document all incidents and make weekly reports to the JCC and QRF. This is to allow documentation of future incidents against civilians which can then be investigated and patrols can be assigned to assist in catching the AIF and/or others involved in those crimes. [redacted] stated that this would greatly improve relations will the civilian population and would improve intelligence gathering.

PTT attempted to obtain information on how much ammo was in the Samarra armory and an account of all that has been issued. This information was gathered but PTT was advised that the information may not have been accurate. PTT then began a recount to ensure an accurate number.

PTT recorded 85693 AK-47, 25990 BKC and 41000 9mm ammunition had been issued to IP. PTT found the armory to contain 398561 of AK-47, 24373 BKC and 219600 9mm rounds of ammunition.

(TA0059) Balad: The PTT met the Scorpion Team for continued training. During the training live fire drills were conducted on the range.

At Tamim [redacted]

(TT0005) Kirkuk Provincial HQ: Although the recent Kirkuk City wide IP and IA joint operation was a success, GEN [redacted] stated that it fell short because there should have been more arrests and more weapons' caches recovered. There were negative reports against IP's such as recovering better quality weapons from residences and exchanging them with their own.

GEN [redacted] stated that there will be additional operations in the future; however, they will be conducted with short notice and with specific target areas identified.

The political parties brought press members to the search sites for there own political gain and this interfered with the ongoing operation. There were several leaks to the press and GEN [redacted] had instructed all IP's to make no statements to the media prior to the official press release.

GEN [redacted] stated that the Chiefs must ensure that IP reports be completed with more details and not just one line that does not fully explain the incident.

Mosul (MND-N) [redacted]

CPATT IPLO DAILY SITREP

Ninewah

(MN0056) Ninewah PHQ: PTT traveled to and from NPHQ without incident. PTT spoke with PDOP [redacted] and were informed that the Special Police Unit from Baghdad has moved out of Blickinstaff, and NPHQ, would try to have the property released to them from the DOJ. [redacted] stated that he will be traveling to Baghdad to discuss the issue with the MOI and would be requesting a letter from the Governor, in support of the transfer of property. This is the area that would support the Trans-Jail if it is approved by the MOI and DOJ.

PTT was also informed that joint operations and support would be increasing in the near future between the IP and IA and [redacted] stated that both are in full allegiance with CF. PTT encouraged the continued cooperation between all entities involved and the added aggressiveness towards making Mosul safe once again.

PTT spoke with Colonel [redacted] and a complete rundown of the day's events was provided by [redacted]. An IED or suicide vest was located in a tree by Al Noor, two snipers were apprehended by IP in the Al Zahour District and the 1st ERB received mortar fire according to Colonel [redacted]. Arrests or seizures were made in each incident and it appears that the IP are working hard at catching those responsible for these hennas crimes.

PTT asked Colonel [redacted] to detail the procedures for patrols and the following information was obtained. Colonel [redacted] stated that stations and districts can go out on patrols at any time and the only requirement is that they call it in to NPHQ, before they go out on the patrol. This issue has been brought up by other PTTs and there are some misconceptions that they can only go on patrol, when directed to do so by NPHQ.

PTT was also informed that extra patrols and EOD are being sent out every day, to clear hot areas in the city on a daily basis. PTT mentored Colonel [redacted] on different methods that could be used to achieve positive results and it was agreed on that trouble areas within the city would be focused on and saturated with attention, in an attempt to secure those areas of the city that are deemed as unsafe.

PTT conducted an inspection of the jail and were informed that 386 prisoners were in custody on today's date. The breakdown is as follows, ten IP, nineteen juveniles and the rest were incarcerated for various offenses.

PTT found the jail to be clean and well maintained and the prisoners were questioned on the quality of the food they were being served. The prisoners all agreed that the food has improved, since PTT made a visit to the kitchen and it appears that this issue has been resolved.

Team members went to the finance department today to found out some answers for some questions that one of the district stations had in reference to pay deductions. After team members got the answers they were forwarded to the district team members.

In the personnel department team members discussed the new program that should be here next week. The personnel department is close to being set up and ready for the new system.

The Police Transition Team today met with General [redacted] the Senior Logistics Officer for Provincial Headquarters on several issues and they are as follows: Blinkenstaff Complex:

CPATT IPLO DAILY SITREP

The Police Transition Team requested an Official copy of the Property Deed to the Blinkenstaff Complex. By obtaining this document, the construction on the Complex can begin. General [redacted] stated he would contact the Contracting Officer for the Province and request these documents. (b)(6), (b)(7)c

Ammunition: The Police Transition Team requested from the Provincial Headquarters Logistics Office, 18,000 rounds of AK-47 ammunition for a Special Firearms Training Class that the Coalition Forces will be conducting. Iraqi Police Officers will be in attendance along with other Specialized Units.

Equipment and Supplies: The Provincial Headquarters Training Section today requested several items from the Provincial Logistics Office. These items are as follows: Paint, Air condition units and a Computer Video Projector. Proper written request have been submitted and waiting for approval from the Logistics Office.

No further Logistical issues.

The Woman's TIPP's course is in the second week. Training is going well. There are ten women IP in this TIPP's class.

The First Line Supervisor Course is in the first week. Training is going well.

Future courses being planned are a Field Training Officer (FTO) course and a PKC Maintenance geared to the District armorers.

Currently, the stand by list for the next JIPTC class is at 500 PAX.
The next Quarrary class list is at 79.

(MN0099) Major Crimes Unit: MCU PTT was unable to meet with Colonel [redacted] due to the fact he was out on missions all day. The team will follow up on information on the mission tomorrow. PTT and CF mentored Colonel [redacted], NPHQ- MCU in reference to the snipers that were captured yesterday. Colonel [redacted] advised PTT that the snipers had confessed to several incidents in the Mosul area. They are part of two different terrorist sniper groups working as two men teams. The investigators were still collecting information and the team will follow up on this case as it goes through the court system. (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c

(MN0018) Al Nasir DHQ: PTT met with COL [redacted]. PTT was informed that IP from Nasir DHQ, Al Faisalia LPS, Al Suweis LPS, and Al Ahar LPS had conducted a search operation during the night, detaining one person suspected of association with AIF sniper activities. This subject was taken to Al Nasir DHQ where he was questioned, then released after determining he was related to an AIF suspect, but not involved. This operation occurred at approximated 2400 hours 08-10-06 in the Baladat Neighborhood. The suspected AIF subject detained the previous night was also released today after thorough questioning regarding AIF sniper activities, and learning he was not involved. COL [redacted] advised he is continuing to develop information and intelligence regarding AIF sniper activities within Mosul. As target locations and potential suspects are identified additional operations will be initiated by IP from Al Nasir district. COL [redacted] stated Al Nasir DHQ continues to conducted several patrols daily within the AO and staff three TCPs, in addition to any operations directed by NPHQ. (b)(6), (b)(7)c (b)(6), (b)(7)c (b)(6), (b)(7)c

At this time contractors are painting the entire Nasir DHQ, PTT was informed that besides the painting there is not any major renovation to be conducted at this time. The district still needs additional fuel for both vehicles and generators at the stations.

CPATT IPLO DAILY SITREP

(MN0049) Al Makook LPS: The PTT traveled to the Al Makook LPS in order to transport various office supplies. Supplies that were given to the LPS include: 20 liters of benzene, dry erase board w/ markers, stapler w/ staples, carbon paper, legal pads, pens, computer paper, and tape w/ dispenser, file folders, and desk organizers.

(MN0001) Awasijah LPS: The PTT traveled to the LPS to transport 40 liters of benzene that had been promised to the station. Only benzene was given to the station

(MN0072) Tal Al Shaier LPS: The PTT traveled to the Tal Al Shaier LPS to transport various office supplies. The PTT did get the opportunity to meet the new station commander COL [redacted] The commander had only been at the station for six days. He had been the chief of the Al Karama District station in Mosul prior to moving to Tal Al Shaier. Items that were issued to the station include: Mattresses, dry erase board w/ markers, carbon paper, desk organizer, stapler w/ staples, copy paper, legal pads, tape w/ dispenser, and file folders

(b)(3), (b)(6), (b)(2)

(MN0027) Al Nour LPS: The PTT traveled to the Al Nour LPS to transport and issue office supplies. Supplies that were issued to the LPS include: 40 liters of benzene, copy paper, dry erase board w/ markers, carbon paper, legal pads, desk organizer, tape w/ disperser, and file folders.

(MN0013) Haj Ali LPS: PTT traveled to the Haj Ali LPS to transport and issue office supplies. Supplies that were issued to the LPS include: File folders, dry erase board w/ markers, copy paper, carbon paper, and tape w/ dispenser, legal pads, and desk organizer

(MN0022) Al Rabaein DHQ: PTT arrived at the Al Rabeain police station and met with LTC [redacted] and he advised that there were no problems at the station and everything has been quite in the district tonight. PTT conducted inventory of the stations armory.

(b)(3), (b)(6), (b)(2)

(MN0381) Al Zuhoor LPS: PTT went to the Al Zuhoor LPS to conduct a station visit. PTT conducted a jail search with IP from the station. The PTT observed the IP remove all the inmates from the jail and search the cell and all of the inmate's property. The station advised that yesterday they had arrested two possible insurgents. While conducting a raid in the Al Tahrir neighborhood they found two male subjects with weapons. The first one had in his possession two AK47s and one PKC in a vehicle. The keys to the vehicle were found on the subject after a search was conducted of his person. The second subject had a sniper rifle in his vehicle. The captain advised that he received information from an informant the two subjects were involved with insurgency acts around the city to include sniper attacks on CF and IP.

(MN0008) Al Gizlani LPS: While at the station, PTT heard gunshots from nearby. It was learned that an IP was in a taxi in plain clothes when he was struck in the hip. He is assigned to Al Dawasa LPS. He was escorted to the Mosul General Hospital by the IP from Al Gizlani. An Investigation will be conducted by the Al Dawasa Station. COL [redacted] has received orders that he is to be transferred from this station to PHQ. He states his replacement is a Major [redacted] who was relieved of duty at the central prison for taking bribes. The station has nine radios that are inoperable. He has notified PHQ that they need to be repaired or replaced. PHQ has advised him that they cannot fix them. The commander advised that he has been sending one officer or warrant officer every month for training with the Investigative Magistrate.

(b)(3), (b)(6), (b)(2)

(MN0214) Al Waqaas LPS: The station had two hand grenades in the armory. They we found by children in a trash pile. They will be turned over to EOD personnel at FOB Marez.

(b)(3), (b)(6), (b)(2)

PSMR statistics were gathered. Office supplies were delivered which were purchased with TTIF money.

(MN0923) Al Yarmook LPS: PTT arrived at Al Yarmook and spoke with LTC [redacted] (b)(6), (b)(7)c. CPT [redacted] (b)(6), (b)(7)c is at training on Sundays and Mondays in Mosul. PTT gathered the updated information for the PSMR that is due on Friday. PTT brought the station file folders and hangers to assist the training files for the IP. PTT was informed that today there were two IEDs that detonated in the Mosh market on RTE Barracuda. No injuries were reported. PTT assisted LTC [redacted] (b)(6), (b)(7)c in implementing the new file folders to be able to have a training folder for each IP.

(MN0924) Al Jamouri LPS: PTT arrived at Al Jamouri station and spoke with LTC [redacted] (b)(6), (b)(7)c. PTT gathered information for the PSMR that is due on Friday. PTT brought to the station more file folders and hangers to assist in gathering all of the information needed for each IP to have a training folder.

(MN0222) Rabiyah DHQ: Rabiyah PTT did not visit any stations today. PTT attended the weekly security meeting which was held at FOB Heider. PTT also paid it respects to the brother of deceased Col [redacted] (b)(6), (b)(7)c.

(MN0379) Zumar DHQ: PTT conducted training today in the Tall Afar Jail with thirty-eight IP. PTT conducted practical application of all instructed material regarding detention facility procedures. The IP have done an outstanding job and need very little guidance while conducting detention facility operations.

Training is complete and there is still no equipment in the station. PTT has spoken with Gen. [redacted] (b)(6), (b)(7)c concerning this matter but to date there has been no progress or reports of property coming to the detention facility.

Six new IP arrived today and stated that they were informed to report to the Tall Afar Jail for a new work assignment. PTT concluded all instruction the day prior; therefore, the six IP were instructed to return to their police station as today would be a practical application day for IP that have been present and learned from previous training days.

The IP that are currently assigned to work the Tall Afar Jail have received no guidance as to what they are supposed to do until the jail is operational and open for business. The IP Squad Sergeants informed PTT that they will continue practicing the policy and procedures that they have been taught until such time that they receive further guidance.

Irbil

(MI0058) RAPAREN, P.S: PTT met with station commander MAJ. [redacted] (b)(6), (b)(7)c (b)(3), (b)(6) and discused several issues concerning the station. MAJ. said that he has very little problems in his district. He has lost several IP because of pay issues and will probably lose more in the furture if the pay does not increase. The station was very well organized, and all of the IP uniforms were neat in appearance. MAJ. [redacted] (b)(6), (b)(7)c only concern was that the vehicle they had was old and they needed one more vehicle and more Policemen.

(M10936) Irbil Security Police: Twenty eight Asaeysh attended class today. Today is the second day of the crime scene practical. Teams one and two met in the class room to review, while the homicide crime scene was set up by PTT, & Lt. [redacted] (b)(6), (b)(7)c Todays homicide crime scene was different than yesterdays. Team leader two received a call of a double homicide and missing child. He sent two investigators as first responders, then the remainder of the team responded to the crime scene. During team twos investigation of the

crime scene photographs were taken, evidence was collected, interview of the suspect / witness was conducted, and a crime scene sketch was drawn.

Team one remained in the class room and continued with a review of evidence collection, crime scene sketches, photographs, and report writing.

Tomorrow the two teams will be required to provide a written and oral report on the investigation conducted by their team.

(No FFID#) Irbil Juvenile Police Station: PTT met with the second in command, 1stLt. [redacted] (b)(6), (b)(7)c He has been assigned to this station for approximately one year after having spent four years at the Men's Prison. There are a total of five (5) Officers (one a female) and twenty-three (23) IP assigned to this station. The Officers normally work six (6) days a week from 0800 to 1500 and rotate the Friday assignment so that one Officer is on duty. The Station is responsible for processing any juvenile arrest in Irbil and the surrounding area. They report directly to Gen. [redacted] (b)(6), (b)(7)c office.

There is a Juvenile Court Judge, currently Judge Forad, whose office is in the Irbil Court area. This station is not authorized to detain juveniles, once the Judge confines a juvenile he is then sent to the Reformatory located at the Women's Prison. There are special laws regarding the arrest and detention of juveniles. No child ten and under is detained in the Reformatory. Eleven to eighteen are sent to the Reformatory at the order of the Judge

1stLt. [redacted] (b)(6), (b)(7)c responded that the station does not have any programs where the officer's visit schools and speak with the students. There is a program similar to Probation where the Juvenile is required to report to a Social Researcher and the Researcher will conduct home visits to insure the child is complying with the Court's orders. There is a new program in effect for about a year where after the juvenile completes his sentence and has learned a vocation the KRG will provide money for the youth to open a shop and purchase necessary equipment.

Lt. [redacted] (b)(6), (b)(7)c is not aware of any "gang" type activity in Irbil and there is no drug abuse occurring that he is aware of.

(MI0936) Irbil Security Police Provincial HQ: PTT met with Major [redacted] (b)(6), (b)(7)c Major [redacted] (b)(6), (b)(7)c heads the Iranian Department of the aforementioned station. Major [redacted] (b)(6), (b)(7)c stated the Department has received a large budget increase in order to deal with the increased threat from Iran. He stated that Iranian Intelligence activity has been extremely active on the Kurdish Borders. The increased budget will allow his department to utilize additional resources to counteract this increased threat.

Major [redacted] (b)(6), (b)(7)c also stated that the Special Weapons and Tactics (SWAT) courses provided by the PTT has enhanced SWATs' operational effectiveness and that SWAT is an important asset that is utilized by his department on a very frequent basis.

Sulaymaniyah

(TS0005) Sulaymaniyah Emergency Police HQ: PTT members met with Colonel [redacted] (b)(6), (b)(7)c and made inquiry regarding a report of one of his officers having been involved in a firefight and wounding a civilian who was firing upon him. This report proved to be false.

Colonel [redacted] (b)(6), (b)(7)c was prompted to submit a written request for SWAT equipment, which the PTT will facilitate through channels. A request was also made to convert two of their vehicles for SWAT use and to integrate with the Internal Defense battalion operations.

CPATT IPLO DAILY SITREP

(No FFID#) Police Directorate for Civil Protection Activities: The Tactical PTT conducted training on body guard duties and Glock maintenance. Body guard classes began with a short review from the previous class. The next two hours were for officer awareness, defending a 360 perimeter and individual bodyguard jobs. The remainder of the day was dedicated to first aid.

Glock training consisted of proper care and maintenance of the weapon.

(TS0069) Qaradagh Police Station: The Operations PTT conducted training for the second group of students from the Qaradagh station. Training consisted of a search of persons and handcuffing. The importance of searches was emphasized verbally and with visual aids. Once the formal instruction was complete, students were required to complete a hands on approach demonstrating a working knowledge. IP "train the trainer" instructors assisted the operations PTT with the formal instruction and hands on demonstrations.

(No FFID#) Sulaymaniyah Asaish HQ: The Asaish PTT conducted day five of the tactical assault course this date for sixteen Asaish personnel from outlying districts. Today's training consisted of team assisted window and wall entries, field training exercises and range safety for tomorrows live fire exercises.

(TS0008) Sulaymaniyah Provincial Police HQ: The PTT and the Investigation PTT met with Major [redacted] (b)(6), (b)(7)c to discuss and clear up misconceptions that he expressed over the Crime Scene "team" concept; how it works and under whose direction does it function. Major Ibraheem stated that he felt "left out" during the dead body investigation earlier when PTT directed the MOJ Legal Investigator to lead the team as per Iraqi law. An in depth explanation on how/why the team was selected and his role as the Crimes and Evidence supervisor was discussed, after which the Major wholeheartedly supported the decision.

Major [redacted] (b)(6), (b)(7)c further expressed great concern over a perceived discrepancy having to do with budget allocation. He compared Irbil with Sulaymaniyah, citing huge differences over what his department receives to run crimes and evidence and what his counterpart in Irbil receives.

(TS0275) Sulaymaniyah PJCC: The PJCC PTT met with General [redacted] (b)(6), (b)(7)c and representatives of Zanyar Electric and discussed repeater installation. PJCC PTT then accompanied JCC staff and Zanyar Electric to the proposed repeater site and assisted in the installation.

Upon installation of the repeater, a test was conducted on site which showed everything was functional. However, another test conducted 3 miles away showed various interferences within the system.

JCC staff is going to contact Zanyar Electric for further testing.

Dahuk [redacted] (b)(3), (b)(6)

(MD0002) Dahuk PHQ: The Colonel in charge of the SWAT Team and the Emergency Response Battalion was the only senior commander available to meet with the team this date. The problem with getting their communications system on line was briefly discussed. As noted in the previous DSR, the team is trying to follow up on this situation.

It was noted that it was family visitation day at the jail. PHQ personnel were doing a good job of screening visitors and maintaining control throughout the visit. Police were very polite and professional in their dealings with family members and no problems were observed.

Compiled by [redacted] (b)(3), (b)(6), (b)(2) **6/16/2008**

CPATT IPLO DAILY SITREP

(MD 0633) Sarsing LPS: Team members visited the station to discuss future training plans and monitor equipment flow from PHQ. This station has been receiving a share of recently delivered equipment as have most other stations visited within the province. Station commander requests training with emphasis on firearms training as he has personnel assigned to his station that have never had any firearms instruction or training.

(MD 0009) Sarhildan LPS: Team members visiting this station were advised that although this station had not received as much of the recently received equipment from PHQ, they already had more on hand than other stations, confirming that a logical distribution plan is being followed by PHQ. The station commander is requesting additional training for his men of any sort that would help them be more effective. The station commander is requesting more manpower as he has men attending the Jordan and Sulaymaniyah Academies while trying to police one of the most population dense districts within the City.

Ramadi (MND-W) [redacted] (b)(3), (b)(6)

Al Anbar **unassigned**

(RA0083) Haditha District Police HQ: There was no station visit today. The PTT are traveling by air to an out-of-area screening site. IPLO OIC learned that one IP Lieutenant in Haditha resigned due to late payroll. The screening will last 5 days and the goal is to transport 200 IP candidates to JPTIC.

(RA0080) Al Qa'im District HQ: The PTT did not make a station visit this date. The PTT remained at the FOB with the military and iPLOs attending to short and long range planning. The new military element of the PTT is organizing and developing its operations with the assistance of the IPLO's.

(RA0104) Al Furat (Zawaya) Local Police Station: Station visit made to conduct pay ops. During PTT visit District Chief [redacted] (b)(6), (b)(3) reported a "bar fight" in progress west of the Al Furat station. Numerous IP's responded with members of the Army PTT in support. Exact location of this incident is unknown. One IP was reported shot, and was med-a-vac'd. Three suspects were detained. At 1900 PTT departed the station and the suspects were still being questioned. The last information reported by the Army PTT would transport the suspects to FB4. No other information is available since the Marine PTT was conducting the pay operation.

(RA0013) Fallujah District Police HQ: PTT team made visit to District Headquarters. Due to the limited number interpreters, PTT members were unable to interact with IP's regarding Patrol, Major Crimes, training and other operations. According to reports there were sufficient number of IPs reporting for duty to effectively patrol areas in Fallujah, conduct investigations and other operations within the district. These numbers were also sufficient for Fallujah, Shuhada and Towheed stations. EOD detonated an unexploded IED in front of the CMOC. There were no known injuries or damage as a result of this effort. CF were notified of an attack in Amariyah during the evening hours of 8 October 2006. At date and time of this report, facts, circumstances, injuries and damage are unknown.

(RA0029) Jazerra: The chief asked about funds for more equipment in the office. PTT told him to write a list of items he needed so that we could make that proposal. The PTT-Commander suggested that he should find a mechanic in the nearby village to contract for minor vehicle repairs. Sandbags are still needed to help with force protection issue. The PTT-Commander stated that he would attempt to retrieve some by the end of the week. Four new PKC's were issued to the station. IP's were trained with the PKC and the AK-47. We

formed five separate groups and placed three experienced IP's in each. Those IP's trained the inexperienced IP's in the assembling and disassembling of the PKC and the AK-47. All the IP's became more involved when we began to have them compete with one another in assembling and disassembling for with a blind fold and without a blind fold.

IP patrols were sent out to a nearby town just north of the station for a peaceful demonstration the local population held there in support of the IP's. One of the patrols returned to the station with three detainees. They were informed by a local citizen that these detainees were insurgent informants.

(No FFID#) Tuway Station: Today was the initial visit by the permanently assigned PTT team. After a general inspection, a meeting with the Iraqi Officer (Major [redacted] (b)(6), (b)(6)c) who is the Officer in charge of the station was conducted. A general outline of our expectations and contributions to his station was given. Necessary equipment is still in the process of being delivered and items needed will be listed in up-coming reports.

Force protection is and will be an ongoing concern. IP's sleeping on duty and or leaving their assigned posts is of a great concern. The need for more IP's is also very important for the success of the station.

Babylon (MND-CS) [redacted] (b)(3), (b)(6)

Al Qadisiyah [redacted] (b)(3), (b)(6)

(BQ0029) Qadisiyah Provincial Police HQ: Total personnel assigned to the current shift included 92 officers and 693 IPs. The Province has 33 IPs in the SWAT Division that were transferred from Baghdad to Diwaniyah approx. four months ago. They have not received any pay during their time in Diwaniyah. Other pay issues involve 76 other IPs that have not received pay. A meeting is planned with the Provincial General and several other section heads to resolve these issues and work through the channels to MOI. PTT met with Colonel [redacted] (b)(6), (b)(6)c, and the training officer, Captain [redacted] (b)(6), (b)(6)c regarding incorporating the Regional Academy's training program at Provincial HQ. Captain [redacted] (b)(6), (b)(6)c said he would have 2-3 IPs for the train the trainers program. General [redacted] (b)(6), (b)(6)c reported 512 recruits have been screened and 375 are currently attending the Al Hillah Academy for police basic training.

Wasit [redacted] (b)(3), (b)(6)

(BW0047) Al Kut Training Academy: PTT met with Wasit Province leadership where 48 officers were in attendance. A discussion took place concerning the security plan for the 17 stations that are scheduled for reconstruction. The Team met the new training commander, LTC [redacted] (b)(6), (b)(6)c. He will work with LTC [redacted] (b)(6), (b)(6)c and oversee the training department. Chief [redacted] (b)(6), (b)(6)c made it clear that training is a priority and documentation in training records and files will be accomplished. A critique on the leadership during operation over watch, which was a joint operation with the IA and IP, was discussed. The main topic centered on commanders getting out and checking their people. General [redacted] (b)(6), (b)(6)c, Academy Director, affirmed to all commanders, that any problem with a newly trained IP, he was to be notified. If an IP did not conform to standards taught in the Basic Academy, he should be disciplined or fired,

Basrah (MND-S) [redacted] (b)(3), (b)(6)

Al Muthanna [redacted] (b)(3), (b)(6)

Muthanna PTT members, Australian Military Transition Team members, Italian Carbinieri, and the Italian Army met at Camp Mittica to discuss the overall assessment of the Dhi Qar

Province. The meeting was held in preparation for the hand over of the province from the Italians to the Australians at the end of this month.

Muthanna Team members along with the Australian military took active roles in these discussions with Italians. The meeting centered on the organizational structure of the IPS in the Dhi Qar Province, to include a thorough break down of the IPS organization. Discussions included the Police Directorate of Police, Local IPS Commanders, and functions and responsibilities of the various departments located at the PJOC / HQ in Nasyriah.

The Italian Military requested information in this meeting from the Muthanna PTT in regards to the progress of QRF Projects that the former Dhi Qar PTT submitted to the 1/34 Combat Group concerning ten Iraqi Police Station projects in the Dhi Qar Province. The Italian Military stated that the IPS commanders were becoming agitated and concerned that the QRF projects were not going to develop and take place at their respective stations.

The Italian Military was informed by the PTT members that they would contact the 1/34 Combat Group in order to provide some additional information in the progress of these ten QRF projects. The Italians emphasized to CPATT and the Australian Military that the red areas in the Dhi Qar PSMRs indicate the failing infrastructure of the police stations in Dhi Qar Province. The Italians added that the infrastructure of the police stations particularly in the Al Baldha District were unsanitary and needed repair desperately for health reasons for the IPS. The Italians added that the QRF funding needed to get processed quickly in order for MNF to appear credible to the Iraqi Police after the handover. The Italians stated that the QRF repairs to the Iraqi Police station would help install a feeling of pride and trust from the police towards MNF.

CPATT members questioned the Italians about the police training academy in the Dhi Qar region and its current function. It was discovered that the former police academy facility known as (White Horse) is now an Iraqi Police recruiting center. The facility was returned into the hands of the Minister of Defense. There are plans of possibly expanding the police academy in the Muthanna Province or constructing a new police academy in the Dhi Qar Province in the future for the training of the Dhi Qar IPS. The meeting ended shortly after this with the Colonel of the Italian Caribineri providing an overall assessment of the Dhi Qar Region.

After the above meetings, Muthanna PTT members spent the afternoon following up on the Italians request by speaking to Major [redacted] of the 1/34 Combat Civil Engineers. PTT members questioned the progress of the ten QRF Stations. It was learned that the QRF funding packets have been completed and will be submitted to Baghdad in the next few days. CPATT members will follow up on this in the next few days.

At 2040 hours on 8 October 2006, a group of 6 armed men wearing military uniforms and driving a white modern Toyota pick up made an illegal VCP near the Mufaqiya Fuel Station at GR QU 675788. The TSU attacked the IVCP and arrested 4 of the group. One member of the group, Ali Saleh Mutair had an ID of MOI commandos national consulting office and 3 more had 10Div. IA ID cards. The other 2 members of the group escaped in the vehicle.

Meetings with Al Khidr's new Police Chief, Lieutenant [redacted] and Al Khidr's Mayor are now being attempted. Attempts to now contact C.I.U. Commander, Colonel [redacted] to arrange a meeting is underway.
