The COL also stated he has increased the number of IP at the checkpoints coming into the Green Zone, since there is information of a possible suicide bomber.

PTT learned that LT [redacted] of the training department was killed near his home in the Qadassia Area of Samarra. A witness said that 4 masked gunman stopped Ishmael and shot him while he was leaving his home. The IP are investigating this matter. COL [redacted] stated, at this time, he does not know who is going to replace the LT.

A common problem among all stations in Sinjar DHQ's area is that supplies are being ordered, but are not being received by the stations in a timely manner. The way this district obtains fuel is also not working well. The fuel is obtained from Mosul and Sinjar DHQ is expected to pick up the fuel. Sinjar DHQ does not have the means to get its fuel from Mosul to Sinjar DHQ, and then to the LPS.
