L27,

CPATT IPLO DAILY SITREP

04 July 2007

Baghdad (MND-B) [redacted]

Baghdad [redacted]

(BC0003) Airport Police Local Police Station: The Team delivered a request for a temporary security pass for a new Language Assistant. The Team conducted training for General [redacted] IPs. These classes were conducted at the BIAP in a classroom provided by the general. The Team conducted the daily inspection of both detention facilities with no irregularities found.

(BC0007) Al Adhamiya Patrol Police Station: The Team conducted training for the new probationary officers on Handcuffing Procedures.

(BC0009) Al Alawiyah Local Police Station: The Team conducted training covering Patrol Procedures with 7 IPs in attendance. The station Commander, Col. [redacted], advised an IP assigned to this station was shot and wounded by a sniper while standing by the building next to the police station yesterday. He also stated fireworks were used to cause complacency and disguise the firing of the weapon. There are no suspects or leads in this incident.

(BC0021) Al Kadhimaya Local Police Station: The Team conducted training for 1 IP covering Strategizing the Effectiveness of Check Points Placed in Specific Areas.

(BC0023) Al Kadhimaya Traffic Police Station: The Team met with the station commander, who talked about the circumstances surrounding the arrest of a local IP recently. Lt. Col. [redacted] apologized for the incident and said he was unaware of any illegal activities the IP may have been involved in. He offered his complete cooperation in providing any assistance that may be required of him by CF regarding the situation. He informed the Team the IP was also suspected of being involved in the kidnapping of two LNs, as well as the placing of IEDs at various locations throughout the Baghdad Region.

(BC0039) Al Mamum Local Police Station: The station has 125 AWOL personnel of which termination letters and arrest warrants have been initiated. 2 AWOLS have been arrested and 2 AWOLS have been cleared from payroll /personnel records.

(BC0045) Al Nasir Local Police Station: The team conducted training covering the basic Carrying, Deployment and Firing Positions for the AK-47 The Team also completed a 3 hour joint patrol with the IP's. No incidents occurred during the joint patrol.

(BC0046) Al Quanat Local Police Station: The Team conducted one joint patrol with one IP vehicle and 3 IPs with no incidents.

(BC0071) Al Thawra Patrol Police Station: The team, after the station visit, was asked to make contact with two IPs suspected of firing on a CF convoy last week. The two IP's were working and were called into the armory. While awaiting the arrival of the IPs, the team inspected the armory weapons and log book. Once the IPs arrived they were escorted to Thawra HQ and dropped off.

(BC0079) Bab Al Muadam Patrol Station: The team met with Lt.Col. [redacted]. The Team then visited the detention cells and spoke with the detainees. The Team spoke with some of the force protection IPs who were unarmed and without body armor. They said unless a

significant event arose, they did not draw their weapons. The IPs were given instructions regarding this issue. When this was brought to the station commander's attention it was corrected immediately.

The station commander reported a possible kidnapping that occurred this morning at the intersection of Yengling and Kansas. There were several insurgents shooting towards Yengling and New York, but IPs and IAs were unable to return fire due to many innocent bystanders being at risk.

(BC0086) Baghdad Main Provincial Police HQ: The Team was informed 50 new base radios have been approved by the MOI to be placed at outlying IP stations. The Badge Team was present and processed 96 IP personnel. The station commander also informed the team the wiring of new phone lines for BHQ began today. A new battery backup system will be emplaced.

(BC0092) Baghdad IHP HQ: The team met with Maj. [redacted] and learned he is now in charge of training, which is a result of the staffing situation at IHP. Due to the lack of officers he is in charge of 5 sections. Maj. [redacted] was informed by the Team the PTT Mission to IHP will soon cease. IHP is not happy with the change.

(BC0095) Jisr Diyala Local Police Station: The Team conducted training covering the Search of Persons with 10 IPs in attendance. Major [redacted] said his station has not received fuel since the 30th. He is becoming disgruntled by the current fuel situation and believes the fuel is being misappropriated, but he has no idea what to do about it.

(BC0100) Mada'in Patrol Police Station: The Team assisted in the training of 194 new recruits at the district training center.

(BC0101) Mahmoudiya District Police HQ: The Team was told men dressed like I.A. came to a home in the area and kidnapped a man's two sons. After the man reported the incident at the station, he returned home and found his sons dead.

(BC0102) Mahmoudiya Local Police Station: The Team conducted training covering the Glock pistol and Room Clearing.

(BC0105) Criminal Investigation Directorate Unit 2: The Team conducted training for the training officer covering Unarmed Combatives Against a Bladed Weapon.

(BC0117) Risalah Local Police Station: (BC0119 Al Rusafa Patrol Station: The station received 62 new recruits with no academy experience. The Team conducted training for the new recruits.

(BC0120) Rusafa Directorate Police HQ: Information was gathered by the Team from several departments in the station in order to complete a questionnaire form the Team received from the military counterpart. The Logistics Department received some new wall lockers today. The Legal Affairs Department is in need of some additional shelf lockers to store additional files in.

(BC0628) Rusafa Checkpoint Directorate: The team met with Captain [redacted] The Team's military counterpart questioned the Captain in reference to an additional room that was supposed to be added for their use. The Captain advised CF arrived to do the construction and was denied permission to do so by their command since it had not been approved.

CPATT IPLO DAILY SITREP

Al Qadisiyah

(b)(3), (b)(6)

There were no missions scheduled on this date due to a CC mandated stand down as a result of threat level.

FOB Echo: Although 11 IP's were at the North Gate ready for training. The vista program was temporally cancelled today due to force protection issues with the Polish.

Babil

(b)(3), (b)(6)

(BB0032) Babil Provincial Police HQ: PTT Team from FOB Reo met with several departments. The first was Criminal Records where a copy of an equipment request was obtained. This copy was requested in order to assure the Criminal Records Dept was actually submitting request vouchers through their chain of command rather than simply asking for equipment to be given to them by the CF. The second was to the Engineering Dept in an attempt to ascertain whether or not the promised repairs to the water and electrical systems for the Hey Babil LPS had been completed. They have not. The story on the water system has changed back to the problem being the supply line is not large enough to accommodate the LPS and the surrounding residential area. According to the Engineering Dept, a request to install a separate line to the LPS has been sent to the Provincial Water Dept. The electrical problem does, however, continue to be one of too many residents illegally connecting to the electrical system surpassing its limitations. The projected solution is Hey Babil LPS must request the Provincial Electrical Dept to send a crew out to disconnect the illegal taps with the Hey Babil IP's providing security. Hey Babil LPS still has not been provided with a temporary emergency generator. It was suggested the Mechanical Dept might look into building a mobile generator in order to facilitate movement to where ever it might be needed; in this case, Hey Babil LPS. The Engineering Dept thought this a good idea and would look into it. At this point, the team joined the meeting in progress between the military MP team and General [redacted]. The topic of discussion was the forthcoming training of the Emergency Response Unit at FOB's Charlie and Kalsu, scheduled to begin (withheld). There were several logistical issues discussed with a number of solutions tabled for consideration. Among those issues were: uniforms, beds, meals, security, unit training rotation, etc. After lengthy discussion, both teams departed back to FOB REO.

(b)(6), (b)(7)(c)

(BB0043) Babil Iskandariyah IHP Station: The PTT Team from FOB Kalsu met with LTC [redacted] commander, and discussed the new IP station at Diyarah. Both CPT [redacted] and CPT [redacted] from the Babil-Iskandariya IHP station are being considered as the new commander at Diyarah, but no decision has been made at this time. Three IP's were jailed by the LTC for not wearing their Kevlar and IBA while on duty

FOB Kalsu: The team worked to prepare the training compound for the arrival of 150 IP's that will take part in the ERU training.

Wasit

(b)(3), (b)(6)

(BW0054) Wasit Provincial Police HQ: There was no mission conducted at this station due to a shortage of military personnel.

(BW0621) Al Aghdiyah District Police HQ: There was no mission conducted at this station due to a shortage of military personnel.

(BW0003) Al Azizyah District Police HQ: There was no mission conducted at this station stations due to a shortage of military personnel.

(BW0624) Al Balda District Police HQ: There was no mission conducted at this station due to a shortage of military personnel.

(BW0010) Al Hayy District Police HQ: There was no mission conducted at this station due to a shortage of military personnel.

(BW0030) An Numaniyah District Police HQ: There was no mission conducted at this station due to a shortage of military personnel.

(BW0020) As Suwayrah District Police HQ: There was no mission conducted at this station due to a shortage of military personnel.

(BW0023) Badrah District Police HQ: There was no mission conducted at this station due to a shortage of military personnel.

(BW0047) Wasit Police Academy: The PTT Team from FOB Delta started day three of The Crucible Training Program, session #5. 28 IP's arrived for the third day of training, which consisted of Weapons Familiarity and EOD classes presented by the Kazakhstan Army. The team conducted courses on Crime Scene Search and Management, and Tactical Handcuffing. Meals were provided for the students.

(BW0012) Al Izza Local Police Station: The team met with Colonel [redacted], commander, and learned someone sent him a threatening letter and tried to poison him. He also stated he is having problems with some of his IP's, due to the fact he runs a strict department and he will not tolerate corruption amongst his IP's. The team was unable to speak with the training officer, but was told, training is scheduled for an hour everyday.

(BW0624) Al Kilode Local Police Station: The team met with Major [redacted], commander, and delivered school supplies for the eighteen schools in the area. The team was unable to speak with the training officer, due to him attending training at Camp Delta.

Dhi Qar / Al Muthanna (PIC) [redacted]

PIC members attended a SSR meeting with Coalition Forces Kerr who passed on intelligence information to team members and discussed daily operations to the team. PIC members are conducting desert operations. PIC members will be making an assessment of the IPS training academy. Team members will be gone for several days. Reports will follow upon their return to Camp Terendak. A meeting with the Australian Mitt took place to coordinate operations. PIC members will be assisting the Australian Mitt with logistical items (IPS equipment) tomorrow morning in Camp Terendak. The process will involve recording serial numbers from weapons that are to be issued to the IPS in the near future and the movement of gear into conex boxes

PIC members continued to work on MOI Badging for the Dhi Qar and Al Muthanna Province. Requests for information revolved around points of contacts, and determining a time frame for the implementation of the badging process. Information for the weapon card process was sent with the badging requests. PIC members made phone calls to get additional information on the process. Team members were informed the calls made will be returned with information that was requested. Team members are waiting for a response on the issue.

Financial requests for information were answered from MOI contacts. PIC members will follow up with budgetary issues upon returning from desert operations. PIC members received the Al Muthanna and Dhi Qar Budgets along with a point of contact. Also, PIC members continued to follow up with the request for gathering information on the NIIA (National Investigations and Information Agency). PIC members located Brigadier [redacted] in Basrah who is in charge of all four provinces within the Basrah Region. The NIIA representative from Al Muthanna will be attending Camp Terendak in the upcoming week. The Dhi Qar NIIA representative is unknown at this time. PIC members located additional individuals in Basrah to get more information to forward to command staff.

Tikrit (MND-CW)

Diyala

(TD0024) Diyala Provincial Police HQ: PTT-P spoke with COL [redacted], Chief of Training. PTT-P requested a list of all IP, currently working in Diyala Province that have been through TIPs Training. The current issues at BG [redacted] Academy were then discussed at length. COL [redacted] provided PTT-P with a copy of a memo showing GEN [redacted] refused COL [redacted] latest request to fix the DFAC issue at BG [redacted] Academy. PTT-P will continue to work on the issue.

PTT-P then met with CPT [redacted] of the logistics department and assisted with the identification of various items recently received from CF. One issue that quickly surfaced was that all the user manuals for the various radios utilized by IP were written in English. Seven brand new camera boxes were also found not to actually have cameras in them. Logistics then provided PTT-P with a copy of the June Logistics Report for miscellaneous items.

(NO FFID) Tahrir Local Police Station: PTT-D traveled to the Tahrir IP station to arrange a meeting with the Baqubah District IP Chief, COL [redacted], the Tahrir IP Chief, LTC [redacted], and one of the local Tahrir Sheiks. COL [redacted] was unavailable and LTC [redacted] transfer to Buhriz had taken effect, so the meeting was conducted with the Sheik and the new Tahrir Chief, MAJ [redacted]. The main focus of the meeting was everyone's wish that the station be moved from its current temporary location to a permanent centralized location, and the steps needed to facilitate this. According to MAJ [redacted], there were 50 IP on duty at the time of the visit with another 28 off duty. The team also observed newly hired IP being issued their uniforms by the station supply staff.

(TD0020) Buhriz Local Police Station: Today PTT-D conducted a station visit at Buhriz. The PTT-D met with MAJ [redacted] and LTC [redacted]. Today was LTC [redacted] first day as commander of the Buhriz station and he said that he has a good working relationship with the IP's. There were 43 IP on duty and 10 were present for training on Suicide Bombers. MAJ [redacted] stated that he still needs more AK ammo and sand bags for force protection.

(TD0035) Khalis District Police HQ: PTT-D traveled to Khalis LPS and met with COL [redacted]. He related that there is starting to be more Shia against Sunni incidents taking place such as kidnappings. He also related that he received written warning from the Mahdi Army to quit his job.

(TD0026) Hib Hib Local Police Station: PTT-D traveled to Hib Hib LPS and met with LT [redacted]. LT [redacted] related that persons from the Hib Hib area were now again having trouble traveling into Khalis. He also related incidents of IA shooting at them as they pass on the highway. LT [redacted] related there were only five AK 47 rifles for the entire station and that IP's are using their own rifles.

(TD0009) Al Udaim Local Police Station: PTT-D traveled to Al Udaim LPS and met with COL [redacted]. He related that he needed more Hescos for his security. It was also discovered that he does not spend much time at the station, thus the IP's do not man their posts as far as force protection is concerned.

Brigadier Gen Subhi Academy: PTT-D conducted training today to 34 IP. Topics covered were duties and responsibilities of IP, how to wear a uniform correctly, responsibility at a checkpoint and weapon handling.

Scorpion Academy: The PTT trained 25 IP today on kinds of I.E.D. and detection of devices both roadside and vehicle based. There was also practical work with AK's improving on safe handling when working, searching and moving.

Salah Al Din [redacted]

(TA0099) Tikrit District HQ: PTT requested that BG [redacted] have his staff begin working on a annual budget for the next Fiscal Year. BG [redacted] agreed to have his staff start working on this project. BG [redacted] had his finance officer report to PTT that during the last payroll the District received 551 million Iraqi Dinar. There were 4 or 5 IP that did not come to get their pay and that money was returned to PHQ.

PTT was informed that there were no civilian casualties from the IED attack on PTT that occurred 6-23-07 on Bridge Street; Tikrit Patrol station is responsible for this area. PTT was advised by BG [redacted] that the Tikrit Patrol station conducts one foot patrol through that area as well as the Market Area every day in the morning hours. PTT stressed that the patrols in this area needed to be increased. PTT learned that the IP that PTT has observed on Bridge Street on several different occasions are actually IP that are assigned to the Governor's Protection Detail and are only present when the Governor is passing through the area. BG [redacted] advised PTT that one of the main problems in the Market Area is the Day Workers looking for work. PTT once again stressed that if nothing is done, the situation in the area will only become worse and the problems will spread out to other areas.

PTT- PJCC: PTT met with BG [redacted] and discussed the need for another Media Day in efforts to continue to spread a working knowledge of the PJCC and its role in the Province. Additional intelligence was provided regarding the continued threats to destroy the dam and water supply in Samarra. The issues arose again regarding budgetary needs not being met.

Camp Bernstein (Tuz): IPT's gave block of instruction to 20 IP students in Cover and Concealment as well as Building Search and Clearing. The instructors gave a power point presentation and then conducted hands on instruction. All students participated in all exercises and offered feed back to PTT.

Mosul (MND-N) [redacted]

Ninewah [redacted]

(MN0056) Ninewah Provincial Headquarters: PTT conducted an assessment tour at FOB Endurance (Q West) of the CPATT training facility. PTT met with members of the training staff. PTT surveyed the grounds and obtained information concerning the need for expansion to increase sleeping facilities and classroom space to allow an increase in the number of IP students. PTT is in the process of completing a report on the needs identified

during the assessment. PTT met with Coalition Forces commanders and was briefed on their desires to increase both the quality and quantity of education provided for the IP at the CPATT Training Center. That information will also be included in the assessment report.

(MN0009) Al Hadba DHQ: PTT met with BG [redacted] and discussed several issues concerning the IP's food allowance and joint foot patrols. BG [redacted] explained that foot patrols are done on a regular basis and that doing joint patrols with the PTT would be no problem. PTT did a foot patrol of the market area surrounding the station to familiarize themselves with the surroundings before actually doing one with the IP.

PTT also discussed with BG [redacted] some of the food issues, and the food allowance that is supposed to be distributed to each IP. There still seems to be issues concerning the correct amount of money being paid to each IP, and the subject of the food contractor being the biggest part of the problem is still coming up. Apparently Gazwan, the food contractor, was given the contract after coalition forces left at MPSA. At this time BG [redacted] was in charge of MPSA. BG [redacted] claims that Gazwan was cheating the system back then by claiming there were more people eating there then actually were. BG claims that this problem has continued and that he has made bribes at the NPHQ level to keep his contract in place. One subject suspected of AIF activity in custody. Subject was in the process of being transported to NPHQ, along with some evidence that was found at his location.
Training continued with new recruits. The team will be doing some joint foot patrols within the next few days.

(MN0045) Al Kazraq LPS: The Station Commander informed PTT that he currently has three IP on foot patrol in the local area and does so on a daily basis. He further informed PTT that he has two TCP and a rotating 24 hour TCP. PTT was advised that no joint patrols have been conducted recently. While at the station, PTT gathered more PSMR data for the month of June.

PTT advised the Station Commander that according to the new SOP, the IP should receive 105,000 dinar in cash and the other 105,000 dinar should come in the form of food while on duty at the station. The Station Commander told PTT he understood this, but that they are not receiving that much food. PTT advised him that we would follow up on the issue.

PTT mentored the Station Commander on taking the two broken PKC's to NPHQ and not Al Hadba for replacement. The Station Commander advised he was concerned about getting in trouble by contacting NPHQ directly and PTT informed him that this was part of their SOP. PTT further advised the station commander that there is still a fuel shortage and to keep up the foot patrols and TCP's. PTT instructed the station commander and the training officer on the New Iraqi Police Service, Mission, Value and Role. A training manual was given out in regard to the instructions. PTT advised LT [redacted] that he needed to be on the list for the training officer program at Q-West.

(MN0036) Al Dawasa LPS: The PTT was informed by the station commander that his station conducted a joint patrol with Al Hadba and also that they have been conducting foot patrols in the Dawasa neighborhood using five IP at a time. The station commander further informed the PTT that they have a 24 hour TCP's, with twelve hour rotating shifts for each one. PTT mentored and advised the Station Commander on how vital the patrols are for the mission of community policing to gain public trust and intelligence. The PTT gathered PSMR data for the station. The station commander informed PTT that they have been using IP in civilian attire to go out and talk to the public to gather intelligence.

PTT informed the Station Commander of the new SOP in regard to the food allowance. PTT explained that the IP would receive 105,000 dinar in cash and 105,000 for food while on duty

at the station. PTT informed the Station Commander that there is still a gas shortage in the city, and to keep up the foot patrols and the TCP's. The station commander requested more c-wire and PTT informed him that we would attempt to bring some more to the station.

PTT instructed the station commander and the training officer on the New Iraqi Police Service Mission, Values and Role. PTT gave a training manual in regard to the instructions. PTT advised CPT [redacted] that he needed to be on the list for the training officer program at Q-West.

(MN0923) Al Yarmook: PTT was accompanied by MAJ [redacted] from CF. We met with LTC [redacted] and a local electrician who estimated electrical work needed at the facility. The list was extensive and most items will be picked up at Dahuk. Also addressed was the plumbing problem which might be pumping out the septic tank. LTC [redacted] stated most of his problems stem from being in a "bad neighborhood" and the contractors are afraid of being shot.

PTT was advised that if two IP trucks were brought to the Service Station, two new trucks would be issued. PTT escorted two damaged IP trucks to the Service Station. The IP vehicle repair fueling facility started to reject the vehicles until PTT, along with MAJ [redacted], convinced the COL in charge to take the vehicles and issue a receipt. The Service Station stated Al Yarmook has to pick up the vehicles at Provincial HQ. LTC [redacted] advised four of the new 35 IP have quit due to poor working conditions and more are talking about leaving.

(MN0220) Al Karama DHQ: PTT met with the station commander who advised PTT that there have been no IP injured or killed recently. PTT spoke with the commander about getting more foot patrols scheduled in order to implement the community oriented policing training that has been completed. The commander was in favor of this and will cooperate. PTT also scheduled a range for the end of this week. Force protection at the station is above standard at this time and all towers and guard stations were monitored.

(MN0076) Tall Afar DHQ: PTT spent the day with BG [redacted] conducting inspections of IP and visiting stations. PTT visited the Abu Maria LPS to speak with the station commander MAJ [redacted]. The MAJ was not at the station so PTT met with the OIC. The OIC was asked why there were only six IP on duty at the station and none of them were wearing the proper IP uniform. The OIC stated that he was unable to correct the situation without the order of MAJ Salah. BG [redacted] advised the OIC that the problem would soon be rectified and that he was very upset with the lack of professionalism shown by the station.

PTT also visited several sites in the city of Tall Afar to find a potential replacement site for the Al Salaam LPS. The building used currently as a station for Al Salaam, will soon be turned into a passport office so a replacement is needed. PTT taught professionalism and conduct to twenty IP. The focus of the class was on the proper uniform and proper behavior when speaking with local citizens.

(MN0131) Bughah LPS: PTT met and interviewed a contractor offering to build a bridge over the wadi which was discussed earlier with CPT [redacted]. The estimate for the construction was $4000.00.

PTT observed two IP assigned to administrative duties conduct their job and offered advice and mentoring.

At Tamim

(TT0099) Criminal Investigations Unit: PTT found Chief Investigative Judge [redacted] holding a meeting with the Major Crimes Unit staff. Judge Farouq stayed with PTT after the meeting and discussed the new direction of the MCU and the Major Crimes Court. Judge [redacted] stated that he was very pleased with the guidance the PTT had given the investigators and the cases being presented were very good.

PTT discussed some issues Judge [redacted] has with specific cases involving the IA. Judge [redacted] has sent five memos to IA commanders in Hawijah about a case where three suspects were arrested in possession of IED paraphernalia. Judge [redacted] and MCU investigators have been attempting to get the statements of the IA personnel involved in the arrests. Judge [redacted] stated that without these statements the suspects will be released because no other evidence exists for conviction. Judge [redacted] asked if PTT could assist in advising the IA to send the personnel to Kirkuk to give their statements. PTT advised they would look into making contact with CF commanders to assist. This has been an ongoing issue with the IA arrests. IA personnel will arrive at the MCU with prisoners who are dropped off with no statements from arresting personnel or evidence, these cases have no evidence to proceed and suspects must be released. PTT will work with MCU and Kirkuk Headquarters to develop a policy for turning over prisoners to MCU.

(TT0003) Arafa Patrol Police Station: PTT monitored the investigations unit work on a case of a family disturbance where one subject was subsequently arrested for fighting. PTT advised MAJ [redacted] on minor improvements that he could have made during questioning each subject.

(TT0910) Aydallah Patrol Police Station: PTT met with MAJ [redacted] regarding an incident during the morning hours on 03Jul07. According to MAJ [redacted] a VBIED was parked unoccupied next to a building near the station. The vehicle exploded while Aydallah Police Commander and his bodyguards when heading to the station. Six IP were injured, two civilians were killed and seventeen were wounded. The IP injuries were not known at the time but they were all in good conditions. The case is under investigation.

(TT0009) Domies Patrol Police Station: PTT met with COL [redacted] there were no problems to report. PTT also reviewed cases with investigations. IRD workers were paid.

(TT0026) Rahemawa Patrol Police Station: PTT performed spot checks on the station force protection, ECP, and visitor's reception area. PTT found that SGT [redacted] was doing a good job in those areas. PTT did advise the ECP guards that no visitors are to be allowed into the station without a proper search and given a visitors badge.

(TT0032) Taza Karhmatu Patrol Police Station: PTT convoyed to Taza LPS and observed roll call but needed to return to the FOB due to the interpreter becoming ill.

Irbil

(MI0275 Irbil Provincial JCC: The PTT continued discussions with the command staff of the PJCC on the development of the response plan for the province. The discussions included the breakdown of the operations room into three main sub-sections; the Security Forces section including the Peshmerga, Zaravani, and the Border Patrol, the Law Enforcement/ Investigative section including the Asayish, Irbil Police, and Traffic Police and the Response and Recovery section including the Civil Defense Police, the Ministry of Health, and the Irbil Government. The PTT will continue working with each representative of each agency to narrow down specific duties in various situations and incidents.

The PTT would like to see a generator dedicated to the operations section of the JCC so that power there is maintained constantly. The power outages are becoming very frequent and the UPS units that are in use are no longer effective at maintaining power to their systems at all. The building is already connected to a generator that keeps power to the Governor's office and all his staff, and simply running one wire to the operations room would solve this problem. PTT was asked once again if any progress was made on the issues of getting a budget established specifically for the JCC. Employees there are becoming very frustrated at having to buy phone cards out of their own salary in order for the landlines to the JCC to operate. According to the staff, reimbursement is very slow in coming and often takes months if it ever happens at all. The PTT explained that these types of issues have very recently been presented to the KMOI and we are awaiting his response.

(MI0028) Discipline Center Local Police: The PTT traveled to the Discipline Center Local Police Station and met with Commissioner [redacted] (b)(6), (b)(6)(c) to deliver an 18HP Portable Emergency Generator for the use of the station. PTT issued further guidance to mentor and will monitor the use of equipment in future visits to the stations. The equipment will be issued to stations to re-charge the batteries on recently issued station base radios, cell phone and limited lighting at the stations, computer, UPS and remote crime scene along with check points as required. The policemen at the station were presented with a short presentation as to how to put the generator in operation and perform operational checks to ensure continued use availability of the equipment. They were cautioned that it has limited capacity for limited use in emergency situations. They expressed enthusiastic appreciation for the generator.

PTT learned the station has 46 policemen including officers assigned and 38 were on duty at the time of the visit. All the policemen are issued Glock 9MM pistols and there are 40 AK rifles at the station for the use of select policemen depending on their assignment. Policemen assigned to this station patrol the Irbil Downtown Citadel Area and have a substation located at the historical site. Seven of the policemen have been issued a taser electric shock self protection weapons. They however, are forced to use the weapon without the replaceable device which allows a distance between the police and suspect. Currently, they are requesting to be supplied with the replaceable unit.

They were again reminded that CPATT, except for special circumstances, has turned over all normal activity logistical matters to the Minister of Interior and they must go through their normal logistical request system. They also want CPATT and IPLO's to assist them with a uniform change to allow a new flash badge for the hat to be designed and issued because the one that is currently being issued and worn is from the former regime. They want to put the memory of this in the past with no ties to the past. They requested that CPATT and IPLO's assist them in establishing a weapons re-qualification course as it has been over two years since the policeman have trained and qualified with weapons.

(NO FFID) Civil Defense Police: The PTT visited the Civil Defense Police to gather information of missing equipment for their EOD robot. The PTT discussed what parts were missing from the robot and the possibility of getting more of his men trained to operate the robot. The BG [redacted] (b)(6), (b)(6)(c) advised the PTT that he had three men trained in Basrah for three months last year on the operations of the robot. BG [redacted] (b)(6), (b)(6)(c) advised the PTT that his men need training with the robot but need the robot to be complete before the training starts.

(MI0936) Irbil Security Police HQ: The IPT conducted a Bomb Recognition class for the Asayish manning the check points through the city; 26 students attended the class and the students were very receptive to the training. CPT [redacted] (b)(6), (b)(6)(c) also attended the class. CPT [redacted] (b)(6), (b)(6)(c) and the students were grateful for the training. They stated that it was very

useful in that it will help them recognize explosives and explosive componets in their duties. Also in attendance was Mr. [redacted], Deputy Director of Asayish. IPT and Mr. [redacted] discussed their training wants and needs at length. The IPT suggested Mr. [redacted] compile a training list describing what they need. IPT advised Mr. [redacted] they would visit him in the near future to discuss and implement the training requests. Mr. [redacted] said that they needed any and all training that can be supplied to them.

(NO FFID) Camp Zaytun: PTT contacted the ISF Liaison for the CF at Camp Zaytun. PTT has secured funding through the CF to supply the IP with non-militaristic equipment. The amount of funding is not yet determined, but PTT estimates these funds to be near $22,000 USD. PTT will meet with the ISF liaison Thursday to get a confirmed dollar amount that will be available. PTT will then make recommendations and obtain bids for the purchase of the recommended equipment and supplies. The South Korean Government refuses to supply anything that could be considered militaristic because of diplomatic relationships with the Turkey Government. PTT was informed that the Turkish Government official complained to the Korean Government about the Kurdish Government receiving CF supplied equipment such as weapons, ammunition, uniforms, and vehicles. PTT will have to use these funds to purchase items such as generators and office supplies.

(MI0001) Irbil Provincial Police HQ: PTT met with PDOP in his office to discuss several matters. PTT had information that a computer class was being taught there. MG [redacted] stated a lady by the name of (withheld and witheld) were in his office yesterday and talked with him about a criminal data-base program, but there had been no training started yet. PTT had no information about the program.

PTT asked PDOP his opinion about starting an educational program in the schools and colleges. This would help inform young drivers and prospective drivers about traffic laws and courteous and safe driving. PTT advised PDOP of plans to initiate a traffic law enforcement program with the Irbil Traffic Police. PDOP expressed his approval and encouraged the plan. He said he agreed the laws should be enforced and also that use of TV, newspapers and radio to notify the public of the program would be advisable. PTT will contact Provincial Director of Traffic Police, MG Azwar and KMOI to gain support.

PDOP said he has been actively working with women's rights groups recently. He stated the KMOI has recently expressed his disdain for the local cultural crime of honor killings. PDOP spoke of two recent killings. One was a young woman who was arrested for theft. She was sentenced to prison but her family gained her release by promising she would steal no more. Shortly afterward her family killed her. Another was a married woman who was arrested for allegedly having sexual relations with a man other than her husband. Her family got her released from a prison sentence by promising she would commit no further transgressions. Shortly afterward she too was killed by her family. PDOP said arrest warrants have issued for the killers but have not yet been arrested. They will be charged with murder.

PTT informed PDOP of their involvement in getting parts for the EOD robots in the city. PDOP reminded PTT of the promise made by COL [redacted] during the 8May07 meeting at the MOI building to take care of the matter immediately. PTT said word would be passed up the chain of command again.

PTT asked about the fuel shortage for the Police. LTC [redacted] was summoned to the meeting and provided limited information. LTC [redacted] is the Director of the Irbil Maintenance Police Station. He said the F-350 Ford Diesel trucks are allotted 400 liters of Diesel per month and the C-3500 Chevrolet trucks are allotted about 600 liters per month. He said the patrol police vehicles are allotted 750 liters per month because they drive more than local station personnel. LTC [redacted] said the Police get their fuel from the Kawrogosik fuel

terminal, which is owned by the KRG. He said they have to pay the Kawrogosik terminal for the fuel at time of delivery and the Kawrogosik terminal pays Baghdad. PDOP said the fuel is supposed to be furnished by the government in Baghdad as a portion of the seven-teen percent of national oil revenues for which the Kurds are entitled but they have to pay for it again. LTC [redacted] said the fuel usually comes from Baji refineries and is of low quality and very contaminated. The fuel filters and injectors on their vehicles are constantly plugging because of the poor quality fuel. He said the Diesel is worse than the fuel. PTT agreed to visit LTC [redacted] on Wednesday to discuss the lack of parts for all their vehicles as well as the fuel problems. PTT will also visit the Deputy Minister of Finance for information about paying for fuel. PTT agreed to furnish a generator to the Vehicle Maintenance Police and will deliver it tomorrow.

Sulaymaniyah [redacted]

(TS0005) Emergency Police HQ: PTT met with MOI and PHQ IP for bodyguard training at the Emergency police HQ building. The class today dealt with range safety and procedure. The latter part of the class pertained to shooting stance with 9mm and AK-47, reloading and carrying of the weapons.

(TS0034) Dukan DHQ: PTT met with investigators from the Dukan DHQ. There were fourteen IP investigators present and all were very interested in the up coming class. The IP were provided with the course curriculum and dates and times of classes. The IP were also provided with detailed instructions on what was required for the completion of this investigations class.

(NO FFID) Kalar JCC: PTT obtained pictures and GPS reading of Kalar JCC. PTT traveled to Kalar to obtain information concerning one of the five new JCC that are opening in the Sulay district.

(TS0010) Sulay Traffic HQ: PTT conducted the third day of the Advance Motorcycle Class. All students spent several hours conducting exercises through the U-Turn, Figure eight and Clover Leaf coarse. The Key Hole and Slow Speed exercise was added today. Students continue to show major improvement as they apply the skills required to navigate through the coarse.

(TS0008) Sulay PHQ: The team continues the fifth and final week of the 40-day advanced accident investigations course today at the Sulaymaniyah Police Academy. This course is being conducted at the request of MG [redacted], to insure his police investigators have an understanding of accident investigation, as they have the duty under Iraqi Law to present the case to the Investigative Judges in fatality cases.

Today's lesson focused on a review of the accident scene photography practical exercise conducted by the students yesterday. In addition, the students were tasked with conducting various calculations based on data collected in order to determine all of the various factors contributing to the accident, and reach initial speed conclusions.

Overall the class continues to progress, and has developed a good understanding of all the facets involved in conducting a thorough investigation in motor vehicle collisions. The students for the most part are demonstrating their ability to properly evaluate, document and collect the necessary data, to reach the appropriate findings in motor vehicle collisions.

Dahuk [redacted] (b)(3), (b)(6)

(MD0633) Sarsing LPS: The PTT met with LT [redacted] (b)(3), (b)(7)(c) since the station commander was not there. The LT advised they are running day and night patrols and using temporary and mobile vehicle checkpoints nightly in their area. The station has been issued only six radios which are not enough to effectively support the station. The radios are working properly and the reception is good in the area. The station is being issued 600 liters of fuel a month, which is enough to support the stations needs. The LT advised that the special operations would like to receive a third vehicle for undercover work in his area. PTT advised him to take that request and give it to his DHQ. It is a good idea, since the crime in Sarsing is higher than other areas, due to it being a tourist location.

The station is in need of a few minor needs but overall it appears that DHQ is supporting it. The station is in need of a copier machine since it was never issued one. They have two computers but would like a third for the records room. The station has 49 IP, but only 28 pistols. They are still in need of 21 pistols along with ammunition for them. The LT is going to have a meeting with the station commander and decide on what type of training is most needed at the station. We also discussed the train the trainer program, which he will also report back to his station commander. There are four IP at his station that have not been to any type of training academy.

(NO FFID) Akre Asaish Prison: PTT attended and participated in a security committee meeting in Akre. In attendance were the Mayor, the head of communications with PDK, the COL over Asaish, the MAJ over the Asaish prison, the COL over traffic police, the MAJ over the IP, and the CPT over civil defense, along with the entire sub District Mayors.

PTT spoke about an Emergency Response Plan and an Emergency Response Team for the Akre District. The committee seemed very interested in set plans for protection of their district against threats, but had nothing concrete put together. The committee had several ideas which were strengthening protection in rural areas were terrorists could possibly cross undetected, strengthen checkpoints, implement a community policing system, and increase patrols.

PTT advised training for their area would begin with a Critical Incident Management Course for the leaders. From there, training would move into training the trainer to teach a group from the Akre area the proper techniques for teaching. Then training sessions will be covered in force protection, firearms, traffic control points, entry tactics, hostage rescue, personal security detail, and defensive tactics, among other things.

The committee seemed very excited about PTT making a project out of the Akre district and wanted to know how quickly the program could be started. PTT advised everything would start with the Critical Incident Management Course that will be given to them the second week of August.

(MD0002) Dahuk PHQ: PTT traveled to Dahuk PHQ today and collected PSMR information.

Ramadi (MND-W) [redacted] (b)(3), (b)(6)

Al Anbar [redacted] (b)(3), (b)(6)

(RA0002) Provincial Headquarters: The Police Transition Team Chief and Deputy Chief attended a Ramadi Chief's meeting where the Provincial Chief of Police addressed the group about the growing rumors of Iraq Police (IP) losing their jobs due to a coalition cap of

21,000 being placed as the total number IP in Al Anbar. Other coalition force members discussed the need to raise this number to 25,000. The administration section met and discussed their recent gains at the Ministry of Finance and Interior. The PTT began working to discover how many IP have been issued hiring orders and have not yet been placed on a pay roster.
