CPATT IPLO DAILY SITREP

L30

07 July 2007

Baghdad (MND-B) [redacted]

Baghdad [redacted]

(b)(3), (b)(6), (b)(3), (b)(6)

(BC0003) Airport Police Local Police Station: The Team monitored the usual morning IP Guard Mount. The Team Leader met with the Global Security operations manager to discuss any current security issues. The Team also met with the IP command staff to discuss station operations. The IP Chief has requested there be no training scheduled at the BIAP facilities on Friday and Saturday. This is due to all available personnel being needed for security posts. The Team conducted mentoring of the IPs and conducted the daily inspection of the BIAP station jail. There are still no detainees in the F/V sub-station.

(BC0007) Al Adhamiya Patrol Police Station: Upon arriving at the station, it was discovered there were no admin personnel present and only force protection there. The Team met with the CPT and discussed admininstrative and supply issues.

(BC0011) Al Dorah Local Police Station: The team arrived at the station and was told 8 dump trucks were taken earlier today and 7 drivers were kidnapped. This information was available because 1 driver was able to escape. 5 dump trucks were recovered and 9 suspects were taken into custody. All suspects tested positive for G.S.R. and were handled by the military. Information gathered indicated the dump trucks were to be used as truck-bombs. The team drove around the area looking for them with negative results.

The station commander is due to leave soon and a Captain is scheduled to take over and be promoted to Major. The Commander said 3 males were seen close to the north tower of the compound, one carrying a PKC. The suspect opened fire on the tower. The IPs returned fire and killed him. Then a vehicle pulled up shooting at the tower. Someone in the vehicle took the body and fled the scene in an unknown direction.

(BC0018) Al Jazaaer Local Police Station: The team met with the Col. and spoke with him about the fuel situation at the station. The Col advised he did receive fuel on the 7-5-07, the first time in several days. The Team's military counterpart furnished the station with a new color printer, paper, and camera. The team also had a representative from another company on this mission. This person was there to obtain information on the method homicide investigations were being conducted by the IPs. He was introduced to the Col. and a meeting with the investigators was set up. The Col. advised there were no major incidents to report in the past few days. A joint patrol was conducted with 4 IPs with no significant events occurring during both the mounted and foot portions of the patrol.

(BC0021) Al Kadhimaya Local Police Station: The Team initially traveled to Kadhimiya Patrol and conducted QRF for another squad. Later the Team went to Kadhimiya LPS for a short visit. The continuing issue of fuel shortages is still being reported by IPs. The team advised station personnel to request assistance from their higher HQ.

(BC0037) Al Kahdra Local Police Station: The Team made suggestions to the station commander regarding the force protection issues that came up on the previous mission. The front gate and the over-watch were not adequate to provide sufficient protection and needed to be addressed. The Station Commander sent IPs to both locations only after the team discussed it with him. The station commander took recommendations and said he would place IPs in the suggested locations starting today. Construction is ongoing for the station

defense plan. The construction on the roof of the station is going well with added walls and improved guard towers. The Station Commander reported one of the Shift Commanders had a brother who was killed today and the body was located approximately 500 meters behind the station. No other information was available at this time.

(BC0041) Al Mesbah Local Police Station: Four IPs from Force Protection were provided a remedial class in Person Searches, Handcuffing and Suspect Control by the Team. The class was conducted as a result of the poor searches observed being conducted on persons entering the IP compound. The team also noted ceiling fans and water coolers CF supplied the station were being used in locations other than the detention cell. The team discussed this with the OIC and it is expected this problem will be resolved.

(BC0046) Al Quanat Local Police Station: The Team met with both the Gen. and the Col. to discuss IPs refusing to work at Al Qanat this morning. He also promised as soon as he views the video that was recorded by the infantry catching the IPs stealing gas, he would punish them. The Team spoke to the Col. about the problem with generator fuel. He said he made a request for fuel and the General told him to make a second request, which he will do tomorrow and provide the Team with a copy. The Team then met with the military who told us they had spoken to the Col. a month ago and told him they will not be able to provide them with fuel for the generator anymore. They will need to make a request to the MOI for the fuel. After the meeting the Team conducted the training for 7 IPs.

(BC0056) Al Sa'adoun Local Police Station: The Team visited the various checkpoints manned by station IPs and evaluated the force protection staff.

(BC0069) Al Thawra Local Police Station: The Team arrived at the station in the middle of the night. As the Team arrived, a murder victim was observed in the back of an IP truck near the front gate. They posted it there so the guards at the gate could watch it until morning when it was to be taken to the morgue. The victim still had handcuffs on his wrists, which were behind his back and had a blindfold on. It appeared he had been shot once or twice in the head. The only information the Team was able to obtain was the body was recovered in the Al Thawra patrol area. There was a person with the Team today from another company who needed to ask some questions regarding homicide investigations. The Team conducted a joint patrol with 4 IPs from the Al Jazaaer station with no significant incidents.

(BC0071) Al Thawra Patrol Police Station: The team observed very few IPs at the station due to the IPs being on patrol. The station was being directed by the 1st Lt. He reported no significant events or issues. Training Officers were off due to the fact it was Friday.

(BC0075) Al Zaafaranyah Local Police Station: Training was conducted for 3 IPs at the station covering Hasty Checkpoints and Vehicle Searches. A joint patrol was conducted. However, the IP patrol vehicle ran out of fuel and team members towed the IP vehicle back to the station.

(BC0099) Mada'in Local Police Station: The team met with the Major who stated the Lt. in charge of training will be meeting with him to plan the training program for this station. The Team will be working with the training officer in both the development and implementation of the MOI Training Plan.

CPATT IPLO DAILY SITREP

Babylon (MND-CS/S) (b)(3), (b)(6)

Al Qadisiyah (b)(3), (b)(6)

Due to a CC mandated stand down as a result of threat level, there were no missions scheduled on this date.

FOB Echo: Training was put on hold due to an Iraqi religious day. Training will continue on the following date and will focus on Combat Life Support.

Babil (b)(3), (b)(6)

(BB0043) Babil Iskandariyah IHP Station: The PTT Team from FOB Kalsu met with Captain [redacted], watch commander, and learned there have been no significant events in the station's area of operations in the past two days. There was one detainee present in the IHP detention cell at the time of this visit. The detainee was an IP incarcerated for being "undisciplined". The IP has been incarcerated for three days and reported he has been treated humanely and has ready access to food, water, and bathroom facilities. The IP also told the team, he intended to modify his work ethic subsequent to being released in order to avoid being jailed again for disciplinary action. (b)(6), (b)(7)(c)

(BB0038) Tunis Local Police Station: The team met with Captain [redacted], and learned, there have been no significant events in the Tunis area in the past two days. The Capt. requested assistance in obtaining PKC box-type magazines to help protect PKC ammunition from the dusty conditions and improve the reliability of the PKC rifles in his inventory. The team advised they may have a source for these magazines and is pursuing the matter. The team also advised the Capt. of a pending order from District HQ that would require, 75% of all IP's assigned to a station to be on-duty at any given time. The team discussed various scheduling options with the Capt, who stated he would advise Major [redacted] on the matter for a final determination. Capt. [redacted] did state he expects the IP's will not be pleased with a schedule that decreases their time off and he expects incidence of AWOL personnel to increase. (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

FOB Kalsu: The team worked to prepare the training compound for the arrival of 150 IP's that will take part in the ERU training.

Wasit (b)(3), (b)(6)

Due a shortage of military personnel, there were no missions conducted on this date.

FOB Delta: Today was a maintenance day for the military. The team met and began preparations for the Crucible session #6.

Dhi Qar / Al Muthanna (PIC) (b)(3), (b)(6)

PIC members attended a SSR meeting with Coalition Forces who passed on intelligence information to team members and discussed daily operations to the team. PIC members continued to work on written doumentation concerning the last desert operations to the Al Muthanna Police Academy. Team members held a team meeting and discussed IPS training this afternoon. The team constructed a new lesson plan for the upcoming key leadership engagement in the Al Muthanna Police Academy. Team members will be implementing training on the next upcoming visit. Team members worked on the financial meeting for the upcoming key leadership meeting in the upcoming week.

PIC members sent financial requests for information to the MOI CPATT contact in Baghdad. Information centered upon provincial purchases and requests, tracking purchases, and reconicliations. Additional information requests centered upon MOI reccommendations for the IPS financial officers in the two provinces to improve their budget requests. Logistical requests for information were sent to the MOI CPATT contact in Baghdad concerning ammunition and weapon issuance within the last 120 days to Al Muthanna and Dhi Qar. Information centered upon amount requested, amount the MOI has released, and the amount that is on hold for the two provinces. Team members prepared for the upcoming key leadership engagement with the financial officer, PJCC Commander, NIIA Officer, and the Mobile Garage Commander from the Al Muthanna Province.

A planning meeting was held amongst team members concerning the team's goals and objectives for the next upcoming 90 days. A meeting will be held tomorrow to review current goals and objectives that the team has been attempting to fulfil. Team members will be inserting new goals and objectives into the second upcoming 90 days that will cover to the end of this current Battlegroup's tour. Team members liaisoned with the Al Muthanna PJCC concerning the security situation in Al Muthanna with the civil unrest that is taken place in As Samawah. PIC members prepared written documentation for regional command concerning NIIA in the Basrah Region. PIC members will be meeting with the Al Muthanna NIIA in the upcoming key leadership engagement.

Tikrit (MND-CW) [redacted] (b)(3), (b)(6)

Diyala [redacted] (b)(3), (b)(6)

(No FFID) Abu Saida Local Police Station: There were 350 IP working today with 20 IP working at the station for force protection. There are 700 IP employed with none quitting this week. One IP was kidnapped in Baqubah and one IP was arrested by the Iraqi Army. The team spoke with CPT [redacted] who requested more HESCO barricades and concertina wire to help secure the area around his station. He has had problems with snipers and is in need of HESCO barricades. PTT also spoke with LT [redacted] who presented the team with the problems that he is having with Provincial HQ in getting ammo. He was advised to send the request again, and follow up with their response to PTT if he received no ammo from the HQ. PTT also spoke with CPT [redacted] about the problems the team had with the current academy class. The IP were not prepared for a three week course and stated they reported for work and were put on a bus to the academy. In the future, he stated, he would better prepare any IP that came to the academy about the curriculum.

Salah Al Din [redacted] (b)(6), (b)(7)(c)

(TA0037) Al Owja LPS: PTT visited Owja IPS and spoke with LT [redacted], who is the shift commander. Both the Chief and assistant Chief were off duty, as well as any other regular administrative officers. 14 IP were on duty. PTT conducted a joint patrol with the IP to check out a suspicious vehicle in the city. After searching the vehicle and gathering all necessary information, PTT and IP continued a joint mounted patrol of the city. The IP stopped at every suspicious vehicle and did a quick search. The IP also dismounted at known former IED holes to inspect the ground.

(TA0601) Tikrit Main LPS: PTT met with Logistics officer, LTC [redacted] about weapons and ammunition inventory. He had 42 AK47's rounds as well as 8060 7.62 rounds. He had 36 Glock 9mm pistols and 1292 9mm rounds. He had 2 RPK's and one PKC, which was on the roof at the time of this inventory. LTC [redacted] also had 128 IBA's, 56 Kevlar's and 10 canteens.

Compiled by [redacted]

4

7/7/2007

(TA0079) Salah Al Din Check Point HQ: PTT went to the Checkpoint HQ in regards to conducting a PTT mission at that location. The main concern that the PTT was trying to address today was the lack of ammunition at the various checkpoints. Each IP is only issued so many rounds (60) per AK-47. This is unacceptable when there is enough ammunition stored in the HQ Arms room to supply each IP with a bigger standard issue load. This was addressed to COL [redacted]. He did say that he would talk to the Commander and get this issue resolved. (b)(6), (b)(7)(c)

(TA0084) Samarra District HQ: PTT along with IP performed an inventory on all portable radios. As of this time, the IP put aside all the working and non working radios in too separate piles. The IP are requesting some kind of container to put the radios in. PTT also met with LT [redacted] in reference to the IP vehicles at the Motor Pool. LT [redacted] has taken all the keys that he had received from HQ and matched them up with the vehicles. (b)(6), (b)(7)(c) (b)(6), (b)(7)(c)

The topic of instruction was Tactical Shooting, Movement Drills. The IP picked up tactics very quickly, but marksmanship while moving was sub par. This will take some more time and more training to develop their skill set and muscle memory.. ODA and IPLO are planning a mock raid on a location in the Green Zone. This will allow the IP to demonstrate their learned skills in a semi-controlled environment. This will not be a live fire exercise, practical exercise only.

(TA0050) As Sanyiah Police Station: There were 18 IP on duty, mostly from Bayji. There is now a new LTC at the station along with a new CPT and 1st LT. After introductions were complete, PTT was advised that most of the IP were going on patrol with CF to pick up the weapons of the IP that had not returned to work. PTT stayed with two of the officers and discussed what was happening with the station and the hopes that within the next few months they would have their station back.

PTT then taught what new force protection plans could be put into place. There are now plans to put the PKC's up on the roof to support the automatic weapons already there. Situations were discusses regarding where the compound had been breached and how they would deploy their men.

The patrol then returned and brought back 7 Glock pistols that former IP had along with a considerable amount of uniforms, holsters and side handle batons. After logging the new weapons in, the former MAJ who was in charge of pay and records came to the station. The Team had been advised that COL [redacted] from Bayji had ordered the arrest of this subject for the theft of the money from the station. This subject was arrested and later transported to Bayji by the IP. (b)(6), (b)(7)(c)

There was an extensive amount of work being done, by both the IP and CF. A once empty room was turned into an equipment room and as soon as the new IP officer in charge of equipment arrives he will begin to sign out supplies. The storage room that was once used as a junk supply room by the IP was cleaned, sandbagged up and bunk beds are now being built to fill the room for CF.

Mosul (MND-N) [redacted] (b)(3), (b)(6)

Ninewah [redacted] (b)(3), (b)(6)

(MN0201) Ninewah SWAT: PTT met with CF and was convoyed from FOB Diamondback to the SWAT compound, without incident. PTT met with SWAT command regarding information from a source regarding arms/weapons caches. SWAT command was provided

with the name and phone number of a source willing to reveal the locations of terrorist cache sites in Mosul. A face to face meeting was set for the near future to pinpoint the sites and hopefully develop a mission to locate and destroy the caches.

PTT spoke with the LNO at the Provisional Joint Command Center who informed the PTT they were doing their own force protection. The Ninewah SWAT team has always, due to the close proximity of SWAT and the PJCC, remained a quick response force for them. The senior CF officer spoke with the PTT about the possibility of moving the SWAT team to the PJCC compound. In doing this the SWAT team could be responsible for the force protection and at the same time move into buildings free of water leaks, mold, and poor heat/cooling. The team would remain operationally attached to the PTT remaining an asset for the CF. The PTT will speak to BG [redacted], the commanding officer at the PJCC who has suggested this move in the past. PTT will also speak to Ninewah Provincial Headquarters PTT regarding discussion with MG [redacted] on this issue. Uniforms are, again, an issue with the SWAT team, with many wearing faded or unserviceable shirts and trousers. PTT will attempt to speak to MG [redacted] on this issue.

(MN0232) 1st Emergency Response Battalion: PTT traveled to the 1st Emergency Response Battalion. Upon arrival PTT spoke with LTC [redacted] and COL [redacted]. PTT obtained new information for the IPFSR paperwork while on station. PTT also discussed sending IP to the Basic Academy with both LTC [redacted] and COL [redacted]. Both LTC [redacted] and COL [redacted] expressed concern about sending IP to the Basic Academy. They advised PTT they were a very busy ERB and did not believe they would be able to send any. PTT explained the benefits of the Basic Academy to both LTC [redacted] and COL [redacted]. LTC [redacted] and COL [redacted] agreed to send fifteen IP to the next Basic Academy.

(No FFID) 4th Emergency Response Battalion: PTT traveled to the 4th Emergency Response Battalion. Upon arrival PTT made contact with LTC [redacted]. This was the first time PTT had spoke to LTC [redacted] since they were moved to the Al Zahour neighborhood. LTC [redacted] stated he had been conducting both vehicle patrols and foot patrols in his AOR. In addition LTC [redacted] advised PTT he had been doing some checkpoints as well. PTT spoke with LTC [redacted] about sending IP to the Basic Academy and LTC [redacted] told PTT he was too busy and had too much work now to send IP. PTT explained the importance of sending IP to the Basic Academy to LTC [redacted] and LTC [redacted] agreed he would send fifteen IP to the next academy.

LTC [redacted] advised PTT he had one large Generator at this facility and was not receiving enough fuel to keep the generator running. PTT advised LTC [redacted] we would look into the matter of the fuel for his generator. LTC [redacted] also advised PTT he did not receive enough fuel for his vehicles. LTC [redacted] advised PTT he was doing patrols all day and did not have enough fuel for his vehicles to be able to maintain the patrol pattern.

(MN0009) Al Hadba DHQ: PTT traveled to Al Hadba DHQ and met with the District Commander, BG [redacted]. When asked about any recent attacks on the IP. BG [redacted] explained that, on 05JUL07, three mortar rounds were fired in the areas of Bobligish, Dawaza and the train station near the Wacaz police station. The explosion at the train station wounded one IP and one civilian. The mortar rounds were fired from the Al Tabana neighborhood.

In addressing the issue of vehicle maintenance, BG [redacted] stated that the District currently has 47 IP vehicles assigned to it. Of the 47 vehicles, six are currently inoperable and are being repaired. As to the Al Hadba Police District itself, there are eight vehicles. Hwever, two are in for repairs, leaving only six in working condition. When asked about scheduling maintenance for the vehicles, he explained that he has SGT [redacted] who is in charge of

preventative maintenance working on the vehicles. The maintenance schedule requires the vehicles to have their oil changed every 2,000 miles. Before each patrol goes out, the driver of the vehicle is responsible for checking all the fluid levels and making sure that the vehicle is in good operating condition.

When asked about the matter of the prisoners being fed, he indicated that since he took command at Al Hadba there has not been food provided for his station to feed the prisoners. Any food the prisoners get is the leftovers from what the IP eat.

BG [redacted] (b)(6), (b)(7)(c) went on to complain once again that the quality of the food being given to the IP is horrible and the contractor who is providing the food should be arrested for such poor quality food. Each IP is given approximately one can of meat a month and two eggs. He again requested assistance from the PTT in pressuring Provincial Headquarters to look into this matter.

It should be noted that when asked, BG [redacted] (b)(6), (b)(7)(c) reviewed his records and stated that the Al Hadba District currently has 200 IP, while LTC [redacted] (b)(6), (b)(7)(c), the Payroll Officer indicated during the last payday, 29JUN07, the Al Hadba District currently had 225 IP. Efforts will be made to determine the true number through a review of the pay records and then interview LTC [redacted] (b)(6), (b)(7)(c) when he is available.

An updated Armory Listing was requested on 06JUL07 due to allegations that a large quantity of weapons were missing within the Mosul Police Services. The updated Armory List is as follows: 1320 BKC Ammo, 8580 9MM ammo, 7218 AK-47 ammo, eight BKC machineguns, 128 AK-47 rifles, and 185 9MM Glocks, however, four of the Glocks were missing due to four IP recently quitting and failing to turn in their handguns.

It appeared these were the two main concerns of the IP. The PTT made an introduction to LTC [redacted] (b)(6), (b)(7)(c), the new head investigator for Al Hadba. A discussion ensued in which LTC [redacted] (b)(6), (b)(7)(c) advised he had been in the Iraqi Air Force for twenty years and had been a Colonel with the Air Defense Group. He joined the IP in February of 2004. He did not receive investigative experience until being assigned to Al Hadba one month ago. Currently, LT [redacted] (b)(6), (b)(7)(c) works with him as an investigator.

The PTT addressed a group of six-teen IP in the station concerning the future plans for conducting joint foot patrols in their district. The purpose of the joint foot patrols was explained to them with the idea of community policing being practiced during the patrols, along with the eventual gathering of Intel. During the discussion, the IP expressed their concerns about the high numbers of IP presently being attacked. They also voiced their complaints about the quality of food they are receiving.

(MN0023) Al Rashidyah LPS: PTT met with 1st LT [redacted] (b)(6), (b)(7)(c) and discussed station issues concerning equipment and other logistics. LT [redacted] (b)(6), (b)(7)(c) requested that PTT assist with supplying office supplies as request to DHQ have not yet been filled. PTT discussed future plans to establish a basic fingerprinting system for arrested parties and detained subjects. PTT advised LT [redacted] (b)(6), (b)(7)(c) that a fingerprint kit would be provided to him upon our next visit and that instruction for the use of the kit would be conducted. PTT also expressed interest on observing a crime scene investigation conducted by the LT and advised that assistance would be provided from PTT with all available means.

PTT observed three inmates were currently incarcerated in the detention facility at the IPS. The jail was maintained and the inmates had amenities provided. PTT spoke with one inmate who advised he was a former IP from Tal Afar. The inmate stated that he had been shot by insurgents in Tal Afar in 2005 and was in care for 20 months. The inmate stated that

during the attack his weapon and ID was taken by the insurgents. He was placed in the jail to pay for the weapon. PTT plans to meet with the station commander to collect additional information for the inmates' case. PTT was advised that all IP assigned to the station have been paid to date. PTT was advised that the station has 40 IP assigned including officers. Four of the IP are assigned to a judge working in the area.

(MN0076) Tall Afar DHQ: PTT traveled to Abu Maria LPS with BG [redacted] to meet the new station commander. The station commander is LTC [redacted]. The former commander, MAJ [redacted], was also present. MAJ [redacted], who is also the brother of LTC [redacted], will assume the position of second in command with the hopes that eventually, LTC [redacted] will be able to mentor him to the point that he can resume command of the station in the future. If this happens, LTC [redacted] would be transferred to another station. At the suggestion of BG [redacted], MAJ [redacted] will begin a twenty day leave tomorrow in order to allow LTC [redacted] time to gain the respect of his IP.

PTT returned to DHQ in order to meet the commander of the Sinjar District LTC [redacted]. LTC [redacted] briefed PTT and BG [redacted] on the current situation in the Sinjar district. The Bulayj station is in immediate need of IP and supervisors and LTC [redacted] has stated that he will work with BG [redacted] to man the station expeditiously.

PTT also responded to the DHQ jail facility in order to investigate a report of the abuse of a detainee. After completion of the investigation, it was determined that no abuse had occurred and that the subject in question was detained by the IA and had never been in IP custody.

(MN0222) Rabiyah DHQ: PTT traveled to Rabiyah DHQ to interview a suspect reported to be involved in alleged insurgent activity. The suspect was found to be mentally unstable and the information relating to the accusation was misleading and incorrectly relayed. The facts of the incident resulted in the detention of two brothers for assaulting their younger brother who is mentally challenged. PTT then inspected the jail and instructed ten IP in several different classes. The situation with the suspected insurgent provided the ideal opportunity to mentor and provide instruction on Interview Techniques, Domestic Abuse Investigations, and Juvenile Welfare. PTT also conducted a class in Officer Safety, Arrest and Detention Procedures. The IP were given a lecture, a demonstration, and then a practical exercise upon completion of the instruction block.

(MN0033) Bulayj LPS: PTT traveled to LPS to conduct an assessment. It was reported prior to PTT arrival at Bulayj LPS that the Station Commander and other IP had been arrested for involvement in AIF activity. Upon PTT arrival, IA MAJ [redacted] was in charge of the LPS. A small force of IA soldiers had taken up residence at the LPS. MAJ [redacted] advised there are no IP on post. It is unknown if they abandoned the station temporarily or quit. PTT noted two IP Chevy patrol trucks at the LPS in good condition. The IA Major had keys to most locked areas of the LPS, although not to the arms room. PTT was unable to verify the status or quantity of IP inventory at the LPS at this time. The LPS was found to be in fair condition. PTT will have to conduct further follow up at this station at a later date. No prisoners are being held at the LPS.

At Tamim [redacted]

(TT0910) Aydallah Patrol Police Station: PTT met with MAJ [redacted] and LT [redacted] who were the shift officers. They wanted PTT to take it to the Station Commander that the present shift was not working well. PTT suggested they make a new plan and they would help them

present it. MAJ [redacted] stated they had several police vehicles damaged in IED attacks and are now short of patrol vehicles.

(No FFID) Busharia Local Police Station: PTT met with the shift supervisor and the station armorer. The armorer was encouraged to implement a regular maintenance and inspection schedule for both issued handguns and AK's. PTT will attempt to obtain and provide cleaning supplies. Force protection was discussed and PTT will provide additional sandbags and wire.

(TT0021) Laylan Patrol Police Station: PTT convoyed to Laylan LPS and completed the monthly PSMR.

(TT0022) Meghdad Patrol Police Station: PTT met with 1st SGT [redacted] who was the Shift Supervisor. PTT observed the Shift change inspection and briefing. According to 1st SGT, four IP from Meghdad were arrested for assaulting a Truck driver on 03JUL07 while on duty. The IP were transferred to Headquarters for confinement. Case is still under investigation.

(TT0027) Rashad Patrol Police Station: Upon arrival force protection was in place. Chief [redacted] was not at the station for the third day in a row. PTT participated in the security meeting with IP, IA, and CF. CF advised the IP that they wanted them to do two patrols a day; one with IA and the other with CF. The IP are still not allowed to patrol or respond to calls unsupervised. PTT was informed of a dead body found the day before. The body was an unidentified male that was shot in the head. The body showed signs of torture.

(TT0032) Taza Karhmatu Patrol Police Station: PTT Met with COL [redacted] who expressed his concern that CF is dropping off detainees at the Tarkalan substation to be held. Four detainees were left two weeks ago without any documentation and the shift supervisor was advised to simply hold them. They were then transferred to Taza because COL [redacted] has a policy stating detainees can only be held for 24 hours at a substation. A similar situation happened several months ago where three detainees were held for almost a month without being charged or interviewed. COL [redacted] stated that IP will not question the authority of CF and will continue to hold them. PTT will attempt to contact CF and resolve the problem.

PTT spoke with COL [redacted] about the IP that returned from the IP training class at the academy. COL [redacted] stated that the IP may need to return to his normal duties and training will be secondary. PTT stressed the importance of the IP conducting regular training sessions at the station. PTT advised it will now be their responsibility to train themselves with PTT observing and mentoring. PTT feels there needs to be direct pressure from HQ to encourage station commanders to get involved with their own training. This current program developed by IPT at the academy was never explained to the station commanders by anyone at HQ and was never properly implemented.

Irbil [redacted]

The Team traveled to Kirkuk to transport personnel

Sulaymaniyah [redacted]

PTT convoyed to Kirkuk and Irbil before returning to Sulaymaniyah.

Dahuk [redacted]

No Station visits were conducted today due to the religious holiday. PTT worked on paperwork and camp issues.

Ramadi (MND-W) [redacted] (b)(3), (b)(6)

Al Anbar [redacted] (b)(3), (b)(6)

(RA0002) Provincial Headquarters: Delayed reporting due to extended station visit,
07052007: The Provincial Chief of Police (PCOP) and Police Transition Team (PTT) continued to review hiring orders, pay rosters, and manning allotments for the various stations, districts, and Provincial Security Unit (PSU) to remain within the 21,000 Iraq Police (IP) cap put in place by Ministry of Interior (MOI). The PTT met with the training section to begin training on a regularly scheduled basis utilizing both PTT members and experienced IP.
07062007: The Provincial Chief of Police (PCOP) and Police Transition Team (PTT) met with the Deputy Commanding General of Multi-National Force-West (MNF-W) and the Iraq Security Force Coordinator for MNF-W. The discussions included a re-distribution plan for Iraq Police (IP) in Al Anbar, the Al Anbar Training Academy, plans of action to reduce the number of IP on the pay rosters, and an agenda for an upcoming meeting with the Provincial Council and Ministry of Interior officials in Baghdad.

(RA0007) Al Qaim Local Police Station: No station visit due to Police Transition Team (PTT) assigned other PTT mission duties.

(RA0010) Tameem: No station visit due to Police Transition Team (PTT) assigned other PTT mission duties.

(RA0013) Fallujah District Police HQ: Delayed reporting due to extended station visit,
07032007: Police Transition Team (PTT) conducted training to the Provencal Security Unit (PSU) on the fundamentals of vehicle searches and AK-47 marksmanship training
07042007: The Police Transition Team (PTT) conducted training to the Provencal Security Unit (PSU) on vehicle checks, vehicle searches where multiple subjects are present and armed, AK-47 marksmanship training.
07052007: The Police Transition Team (PTT) conducted training to the Provencal Security Unit (PSU) on vehicle checks with multiple subjects in the vehicle and armed subjects, proper way to handle vehicles where bombs have been located, as well as what to do if one of the vehicle occupants, AK-47 marksmanship training and vehicle check point procedures.
07062007: The Police Transition Team (PTT) conducted training to the Provencal Security Unit (PSU) on vehicle check point procedures.
