9. I, [redacted], WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

At approx 0215 on 29 Mar 06 the ETT compound at FB Robinson came under small arms and RPG fire from the North. I (weight) went immediately to the roof to support Cpt [redacted] who was on guard by. Cpt Stafford had taken up a position on the NW corner of the roof with a M249. I took up another position in the center of the North wall and returned fire with an M249 toward the castle ruins to the NW. SFC Doc Stone was the next soldier that I saw on the roof, he was firing his M4 on my right hand side. When I saw him (Stone) I asked him to pop the red star cluster the carpet signal for an attack. I returned to firing and I remember the explosions and hearing and feeling the bullets coming by. I heard [redacted] yelling I'm hit from the sound of his I knew that he was to my left. Spc [redacted] was at this time firing his M249 on my left side so I moved to help [redacted] was laying on the roof behind me yelling about his leg and his face. SSG [redacted] and myself started to assess [redacted] injuries while also yelling for a medic. Someone handed me a flashlight and I found that [redacted] had been hit in the left leg close to his pistol holster. He had also been hit along his left cheek. The corpman had made it to the roof by this time and he started to work on [redacted] SFC [redacted] told me that the medic needed to check the soldier next to the wall also because he had blood on his back. I immediately moved over to the wall that blocked the stairwell and found Doc Stone slumped over against the east side of the wall. Spc [redacted] was beside him ahead, and he assisted me in laying Doc down so that we could assess him. I found blood coming from his ear and couldn't find a pulse on his left wrist. The corpman had SSG [redacted] assist [redacted] off the roof and moved to assess Doc Stone. The corpman assessed Doc Stone and found no pulse or breathing he told us that he was a Navy corpman and that Doc Stone was dead. The corpman left the roof to treat [redacted] and I found a blanket on the roof to cover Doc Stone. We regrouped and reloaded and were watching for targets when the SF medic came up on the roof about 5 minutes later. He checked Doc Stone and also stated that he was dead. Doc Stone was moved off the roof and we continued security until first light. At first light Spc [redacted] found a pool of

blood where Doc Stone had been kneeling and wanted to clean it up. so I had him cover it with the dirt from a sandbag. Later in the morning I was shown bullet holes in the tent, refridgerator connex, 2 regular connexs and a generator that are positioned south east of our roof fighting position in the direction of the SF compound. The Canadian forces were also located inside this compound and other Afghan forces were positioned outside this compound. These bullet holes had not been in these items prior to the fire fight. Also I was shown a bullet and told it had been removed from the south side of the metal wall where b(6);b(7)(c) had been standing.
