I, _____, WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

ON 28 March 2006 I had been the acting team SSG of 2062 FOR 2 days. ON the DAY of the TIC I started out on Tower watch during my time on watch an 80 vehicle ETT convoy was hit with an IED (This convoy was coming to Fire Base Robinson). During this TIC my time on the TOWER was extended by 5-6 hrs. I was accompanied by the Air Force JTAC, he was working air to cover the convoy, I was talking to SKULL 33 in order to keep them informed. AFTER the convoy arrived at The Fire Base I was informed by SKULL 33 that a CAnadian QRF would be arriving at Fire Base Robinson. I continued to maintain tower watch and communication with SKULL 33. Concurrently The Canadians were recieved and briefed by the ODA CdR & the senior 18B. AFTER that I was relieved from the tower. I recieved a briefing from The ODA CDR on the basic break down of the canadians. AFTER the briefing I conducted 100% accountability OF ALL ODA & Canadian personnel and Reported ALL accounted FOR to SKULL 33. AFTER the call to SKULL 33 I went to my Container FOR Rest (most all ODA members were in their respective sleeping Quarters. At aprox 1-2 Am Local I heard a Loud explosion outside the North wall of the A Camp I immediatly Jumped from my cot And started moving out of the container

as I reached the door another explosion went off
it seemed as if it were over my container I fell
back inside and had to recover after I recovered I moved
south to the OPCEN in order to put on my vest & mitch
as I was accomplishing this massive automatic weapons fire,
& what I believed to be RPG Airburst erupting.
By the time I got my gear on and moved outside into
the compound the Cpt had occupied the TOWER.
The first thing I recall doing was a run around the
A camp in order to get accountability [redacted] and ensure
fighting positions were manned. I reported 100% accountability
to the CdR. After that I remember looking up and seeing
sustained tracer fire from the north, west & East North East.
The next thing I remember was hering the Cpt trying to give
direction & distance instructions to the motor pit. I immediatly
started running between the motor pit and the tower in order
to pass this information. I participated in this activity for probably
5-8 minutes. After that I run the perimitter again in order to get
accountability and check fighting positions again. During this check
I was informed that SGT [redacted] was moving to the ETT compound
to provid medical assistance to the ETT's. Shortly after we
started coordinating for a medivac. I orcastrated the vehicle
formation, [redacted] the PZ security and designated the WIA vehicle
[redacted] prior to the MEDEVAC arriving I pushed
out the PZ security element as the MEDEVAC arrived the
WIA vehicle was pushed out and concluded the EVAC operation.--
