ereby make the following statement in reference to the events witnessed
n the morning of 29 mar 2006. soon after arriving in camp wolf
ry UAH team deployed to the easter point of the camp on an op.
During the first half of our watch a canadian soldier had approached
our vehicle and informed us that there were canadian soldiers on the
north gate in a ditch. that was the only briefing I personally received
as to the layout of our op and the friendly force situation around.
At approximately 0245 hrs (6); b(7)(c I heard a discharge from a northerly bearing followed
by a flash and explosion to the southeast of the compound. approximately
10 minutes later there was a second discharge. There was no radio traffic or
another discharge for a good while. I exited the UAH front passenger side
and climbed on the rear of the truck behind our gunner to observe the area.
a few minutes elapsed when a third motar impacted and the firefight erupte
Approximately 2-3 minutes into the engagement a line of approximately 7-10
canadians crossed directly in front of me from the south heading north. I
visually followed them onto the north east side of the compound outside the
empty Hesco wall but within our wire. They took a fighting position
on some dirt mounds next to the Hesco wall. By this time several minu
had elapsed into the engagement. Once the canadians were set and engaged
I heard a burst from the south eastern side of the compound. As I looked
in that direction I saw machine gun fire from the north east position on
top of the Hsco of the SF compound shooting in our direction with
rounds and tracer fire on our side of the Hsco. I immediatly jumped
off the vehicle and entered on the passenger side. the driver was
saying that the canadians were taking fire and shortly there after the first
canadian transmission that they were taking fire came thru. I immediatly lo
to the right at the SF compound and saw another long burst behind our ve
that fanned to the northwest over the ETT compound. Another transmiss
came thru by the canadians that they were taking friendly fire and neede

immediate medevac for three wounded and ... KIA. We responded to their location and euce the wounded first and made a second trip for the KIA.
