I, (b)(3), (b)(6), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

On 8 September 2009, (b)(2)High was notified by ABAD TOC of a 9-line dropping arou(b)(2)High By 0321Z (b)(2)High was ready to launch, ten minutes later it was instructed by Palehorse TOC that (b)(2)High had launch approval. (b)(2)High(b)(2)High departed FOB Wright inorder to link up with Scouts Weapons team covering the engagment a few kilomoters south east of ABAD. Upon arrival (b)(2)High made contact wit(b)(2)High o coordinate patient pickup(b)(2)High elayed that the ground element was in heavy contact from every direction except the west. By monitoring the ground frequency (b)(2)High was informed that there was five critical paitents including a KIA. M(b)(3), (b)(6) PC coordinated wit(b)(2)High o relay information to the ground element (b)(2)High to mark the PZ, he acknowldeged and (b)(2)High made its initial approach for patient pick up with the (b)(2)High providing cover. As (b)(2)High made its approach the PZ was still not marked however several individuals, could be seen taking cover behind the terraces. At this point (b)(2)High Crewchief SG(b)(3), (b)(6) w the marker (b)(3), (b)(6) nstructed the ground element that the PZ was in sight and not to approach the Aircraft untill the crew instructed them to. (b)(2)High made its approach and landing. SG(b)(3), (b)(6) he Medic exited the Aircraft to retrive the patients, only one patient was at the PZ however (b)(2)High confirmed that there was 4 more paitents up the valley still waiting to be picked up. As the aircraft began to take off SG(b)(3), (b)(6) egan to fire his M-4 as the Aircraft flew west bound S(b)(3), (b)(6) also began to fire his weapon, they had both seen 7 Muzzle flashes from our 7 O'clock position. M(b)(3), (b)(6) ayed this the SWT team and (b)(2)High flew direct to ABAD to drop off the patient who was shot in the neck. As we landed there was no FLA. PZ control quickly reacted and aquired a gator to load the patient. SG(b)(3), (b)(6) nd CPT(b)(3), (b)(6) umped on board with the paitient to drop off the patient at the FST.

(b)(2)High relayed to the Pale elements that we nede(b)(2)High nd CAS support, howeve(b)(2)High tated that he felt that the (b)(2)High could mangage the situation. (b)(2)High sent this same request to Palehorse TOC and was denied the additional support. (b)(2)High remained at ABAD for approximatl(b)(2)High n while the th(b)(2)High rmed and refueld. (b)(2)High and the Scout Weapons Team then returned to the Ganigal Valley where it was clear that the ground element was still in heavy contact. As (b)(2)High attempted to consolidate his wounded soldiers (b)(2)High circled west of the Valley while the OH-58 tried to provide some kind of enemy supression. It was clear that the ground element did not know where all its elments were located or how many casualties they had sustained. On several occasions they announced that they did not have to combat power to continue on. It was at this point that (b)(2)High monitoring the ground freguency sent seve(b)(2)High essages to the Palehorse TOC requesting (b)(2)High upport. This continued for several minutes while Scouts Weapon Team 2 arrived on station. At this poin(b)(2)High was still adoment that they could manage the situation, and instructed the oth(b)(2)High o hold west of the valley. This continued for several minutes wit(b)(2)High nable to supress the enemy and unable to coordinate with the ground elements to pickup the remaining patients. It was then that CPT(b)(3), (b)(6) spotted (b)(2)High ement and airforce (b)(2)High heading south in the valley. M(b)(3), (b)(6) ntacted them on the Air to Air frequency and informed them of the situation and that we could use their support. They had patients on board, insturcted us that they would drop them of at ABAD and return to assist with patient extraction. After approxim(b)(2)High inutes of circling (b)(2)High oordinated with the ground element who had all of its patiens consolidated on an PZ for MEDEVAC to land. (b)(2)High then proceded east up the wash to extract the patients. (b)(2)High landed and picked up three critical patients, as they were leaving to return to JA(b)(2)High turned to pick up the remaining patients. M(b)(3), (b)(6) ontacted them once again and told them (b)(2)High would guide them to the PZ. (b)(2)High llowed (b)(2)High flew over the PZ, S(b)(3), (b)(6) opped a smoke gernade to mark the PZ. (b)(2)High then headed west to return to JAF to drop off the patients. As (b)(2)High was breaking statio(b)(2)High alled the Palehorse TOC over the Satcom and requeste(b)(2)High upport if it was availble. (b)(2)High flew directly to JAF, where the three critical patients that were picked up were transfered to the FST.
