Sir, ref our discussions after this morning's (b)(2)High on subject above and email below. I incorrectly reported that the unit had done an AR15-6. TF1-5 / 2-1ID conducted a commander's inquiry, not a formal AR15-6.

Corps is now directing we do another investigation with suspense of 20 SEP.

a.. Following an extensive search for information, there are no MND-B events akin to the circumstances described in the request for information on the 3rd July 2007.

b.. One MND-B event cited as a possible fit took place over the period of darkness between 30 June and 1 July. However, the location involved in this event did not match the physical description of (b)(6).

c.. MND B has no information on any individual named (b)(6).

I will confirm with P6 that the IO will come from 2-1ID and let you know asap.

men: I did a little research. I am no re, but I believe this was a (b)(2)High incident out of 2-1 ID that involved a (b)(6) y.o. Iraqi who, according to mily went out to fix a generator. Lots IEDs near his house over time and a bag of HME found on other side of house. See attached storyboard.

COS ... Subject name is case we spoke about briefly this afternoon.

As pledged after (b)(2)High I went back to get context and history.

Death was reported 30 June 07 in Baghdad, allegedly at hands of CF (MND-B).

(b)(5)

I signed MFR to MNC-I r.e. 15-6 on 03 August 07.

MFR was predicated upon several RFI's received here.

(b)(5)

(b)(6)

was initially in touch with TF 134 for RFIs.

Those RFIs should have come to you with the 03 August letter.
