261344DAPR07
261157DAPR07

- LINE 1: SIZE: 2X LN Vehicle, UNK # of LN Passenger
- LINE 2: ACTIVITY: EOF resulting in death of LN
- LINE 3: LOCATION: (b)(2)High }, West of Basrah, Iraq
- LINE 4: UNIT/GROUP ID: 586 ESFS
- LINE 5: TIME: 261001DAPR07
- LINE 6: EQUIPMENT: 2X 5.56 Tracer round, 1X M4
- LINE 7: SOURCE OF REPORT: 33RD MP BN
- LINE 8: REPORTING UNIT: 16TH MP BDE (ABN)
- LINE 9: (b)(2)High EPHONE: BTL CPT/NCO, (b)(2) @iraq.centcom.smil.mil

ON TAKEN: At 261001DAPR07 while traveling west on (b)(2)High an 586 ESFS (586-73 / M1114) element reported an e while conducting ASO, resulting in a gun shot wound to a LN. The TL in the l (b)(2)High orted that the squad was traveling E/B in the E/B lane of (b)(2)High conducting routine patrol. There were two LN vehicles he E/B lane di t the ASO element. These 2 LN vehicles were first observed at (b)(2)High meters because the LN vehicles were coming around a bend on the ASR. The le truck activated the Galls mounted siren and air horn immediately at (b)(2)High meters. The gunner started to wave at the 2X LN vehicles and sh s weapons. The interpreter also got onto the Gall's system and yelled in Arabic for the vehicles to move out of the way. One of the two LN vehicles pulled across the median and continued to travel W/B in the W/B lane. The second LN vehicle continued its course t lane directly at the ASO element. The gunner then (b)(2)High when the LN vehicle was approximately (b)(2)High mete

finally pulled over to a gradu the third gun truck passed the LN vehicle, he observed the (b)(2)High had gone through the right portion of the windshield. The LN vehicle was a Euro style car resulting in the driver being on the right side of the car. After hearing this report, the squad turned around to check on the LN vehicle. As the ASO element was returning to the scene, they saw a bloody body being pulled from the LN vehicle and being put into an IP vehicle. The IP vehicle and the LN vehicle drove off before the ASO element could figure out exactly what happened. The ASO element then secured the scene and took pictures of the pool of blood on the ground. There was nothing else at the scene for evidentiary matters. The IPs came back to the scene and stated that the driver was dead from the shooting and the victim had been taken to the Safwan Hospital. The ASO element left the scene and came back to FOB Bucca for debrief. This information was forwarded to CID, who initially reported that unless a criminal act has taken place, as identified through a 15-6 investigation, this is not their purview. Currently, the IPs and LN witnesses are at Burma Gate and we are talking to them to get more information. Story board to follow. ///more to follow///
