Thanks (b)(3), (b)(6) This is good checking. Will pass to MajGen Robeson to see if any of it squares with (b)(3), (b)(6) info.

If it didn't happen at night after all and if deaths were closer to (b)(2)High then maybe th  
 d of B Troop 1-8 Cav reports "patrol returned fire on ied t 3 (b)(2)High  
 (b)(2)High t 1156 it reports they are returning fire from source of small arms fire vic (b)(2)High  
 (b)(2)High

But those are big ifs.

Gentlemen,

We've rec (b)(6) MND-B, CJSOTF and TF-714 concerning the reported  
 (b)(6) a member of the National Security Advisor  
 (b)(6) r. The vent is reported to have occurred the night

027357

of 13/14 Jul 07, in the area of Baladiyat (New Baghdad).

Findings:

- TF-714 had no operations executed in the vicinity, during that period.
- CJSOTF conducted no operations in the vicinity during that period of time.
- MND-B had no kinetic actions in the area of Baladiyat during the stated time. There was one Complex Attack which occurred near Baladiyat on 13 Jul at (b)(2)High. This event resulted in the killing of 2X IED triggermen. (storyboard ed).

Without additional details (grid/address, DTG of event, etc), we cannot verify this event as having occurred as a result of CF actions.

(b)(3), (b)(6)
