ASSESSMENT

Activity in N2KL has remained consistent over the last four reporting periods. In Nuristan, CF have successfully withdrawn from Barge Matal, resulting in AAF focusing their attacks on ANSF in the area. AAF will also continue to focus attacks on COPs Keating and Lowell in the near term. In Konar, AAF continue to target CF in the Pech district, centering their attacks on fixed locations. AAF leadership continues to be active in the Konar province, especially in the Pech and Dara Noor districts which possibly indicates planning or meetings taking place. Fighters will increase disruption style attacks as they stage for more complex engagements in the future, likely surrounding the conclusion of Eid. Attacks in northern Konar, will remain to be seen in the Ghaziabad district focusing on CF movement along MSR California. Attacks will also be centered on COP Pirtle-King, OP Lion's Den and OP Bari Alai over the next 24-48 hours to hinder resupply and preparations for winter months. In Nangarhar, there remains a decrease in activity. This decrease will be short lived as AAF will increase IED emplacement and direct fire attacks against ANSF/CF in southeastern provinces. These attacks will be used to slow CF patrols, facilitate illicit activity and protect freedom of movement. Attacks in the near future will potentially be directed at ANSF/CF facilities or GIROA officials, as AAF have reportedly begun an assassination campaign directed at Pro-GIROA members.

24-48 THREAT REPORTING

As of: 09/21/2009 5:00 D+

MTN WARRIOR

"Led by Love of Country" "All The Way"

SECRET //REL TO USA, GCTF, ISAF, NATO

5

Laghman:

No Direct Threat Reporting. Reporting indicated COP Najil would be attacked after Ramadan.

Konar:

- Reporting indicates **AAF plan to engage COP Pirtle-King, OP Bari Alai, CP Lion's Den and FOB Bostick in the next 24-48 hours.** With the recent successful attacks against CF convoys and bases in the area, **AAF will attempt to carry out coordinated attacks as the SPARTAN CLP as it EXFILS the Ghaziabad District on 21SEP09.**
- Reporting indicates **AAF will likely continue attacks targeting OP Mace in the next 24-48 hours.**
- Reporting on 20SEP09 indicated **AAF planned to attack OP Stallion and OP Clydesdale, as CF destroyed a mortar system IVO OP Stallion on 20SEP09, it is plausible that AAF will carry out the planned attacks in the next 24-48 hours.** AAF will likely conduct sporadic SAF attacks.
- Reporting indicates **AAF will possibly conduct attacks targeting COP Honker-Miracle on 21SEP09. AAF will also attempt to conduct ambushes targeting CF patrolling in the Watapur Valley in the next 24-48 hours.**
- AAF will continue to conduct attacks targeting CF patrolling elements operating in eastern Pech and western Dara Noor.

Nangarhar:

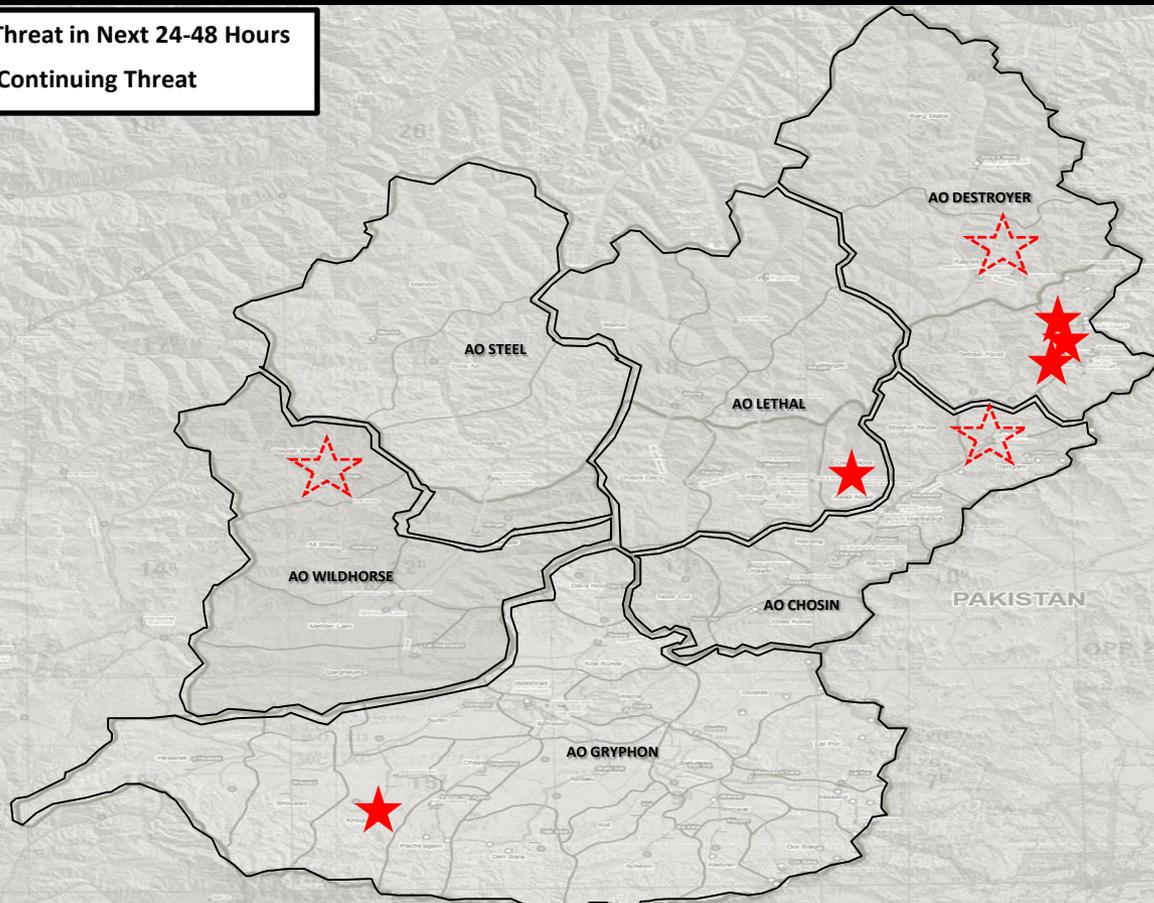

- AAF CMDR has emplaced a RCIED in the Wazir Valley, Khogyani District IVO the Abuko Shrine targeting CF convoys traveling in the area, possibly in the next 24-48 hours.

Nuristan:

- AAF will continue to conduct attacks targeting COP Lowell and COP Keating in the next 24-48 hours.

★ -Threat in Next 24-48 Hours

★ - Continuing Threat

THREAT ASSESSMENT

- AAF will increase harassing direct and IED initiated attacks throughout Konar province to slow CF targeting and patrols in the area. Attacks will target CF bases throughout Pech and Dara Noor districts with IDF and SAF from stand-off distances. IED and ambushes along MSR Rhode Island will be emplaced to interfere with CF/ANSF operations in the area. Attacks will be most prevalent along western portions of Rhode Island due to AAFs freedom of movement and unpaved surfaces.
- The presence of multiple AAF leadership in Konar possibly indicates the planning and staging for future attacks targeting CF bases and convoys. AAF have likely staged and will plan for attacks in the near term, potentially surrounding Eid (20-22SEP09). Attacks will primarily consist of IDF and other harassment style engagements as their main tactics.
- IED activity in southern Nangarhar will continue to screen and facilitate AAF and criminal activity in the area. Increased intimidation will also occur in these southern districts targeting both locals and ANSF to slow patrols and retain freedom of movement with GIRoA interference.

- OBJ BURNSIDE
- OBJ KILTY
- OBJ COPYCAT
- OBJ WRIGLEY
- OBJ MOWGLI
- OBJ HOTDATE

- TB Radio Active

ASSESSMENT

- SIGACTS during the past week have consisted primarily of stand-off style attacks and attacks along northern MSR California in an attempt to assess CF TTPs; AAF will continue to employ the use of IDF targeting CF/ANSF bases in an attempt to prevent CF from conducting offensive operations so AAF are able to freely facilitate MWE across key supply routes; AAF will continue to conduct sporadic attacks targeting OP Mace in the next 24-48 hours
- AAF will engage CF bases in Ghaziabad and attempt to engage the SPARTAN CLP as it EXFILS the area on 21SEP09; AAF's primary targets will be OP Bari Alai, COP Pirtle-King and CP Lion's Den; AAF will engage CF bases in an attempt to fix friendly forces in static positions while forcing IDF assets to be used for base defense as opposed to supporting the CLP against ambushes; recent coordinated attacks in this area have indicated that AAF are not only extremely motivated to attack CF, but are also well trained, and with the recent visitation of high level commanders in the area, CF can expect to see coordinated attacks in the next 24-48 hours
- AAF are possibly preparing to emplace IEDs along RTE Beaverton at the mouth of the Ganjgal Valley; although IEDs are not historically seen in the area, recent indications suggest that TB CMDR Toralay was attempting to construct an IED in the Ganjgal Valley when but the IED prematurely detonated, which also suggests that IEDs will be ineffective until AAF bring IED experts into the area; AAF in the Ganjgal area will likely initiate an ambush with an IED followed by SAF/RPG IVO Sarkani Village where AAF have established some level of LN support
- Continued weapons acquisitions in correlation with sensitive reporting suggest AAF are preparing for a large scale attack targeting COP Honker-Miracle in the near term; AAF will likely use a combination of IDF and DF weapons in an attempt to conduct a large scale attack targeting the COP; AAF operating in both the Dara Noor and Pech Districts are preparing for large scale attacks targeting CF bases during the latter part of September

SIGNIFICANT ACTIVITY 6 x SIGACTS

So What...
 AAF WILL CONTINUE TO CONDUCT SPORADIC ATTACKS TARGETING COP KEATING AND COP LOWELL IN THE NEXT 24-72 HOURS AS FIGHTERS MOVE INTO THE AREA.

ASSESSMENT

SIGNIFICANT ACTIVITY

4 x SIGACTs

- COP LOWELL RECEIVED RPG
- COP LOWELL RECEIVED DF
- COP KEATING RECEIVED DF
- ABP IN BARGE MATAL WERE ATTACKED

- Over the past week, AAF within Nuristan have slightly increased in their levels of harassment style engagements, primarily targeting CF/ANSF in Barge Matal; over the past 24 hours AAF have continued to engage ANSF operating in Barge Matal Village with UNK complexity, it is likely that AAF will continue to engage ANSF operating in Barge Matal Village with harassment style tactics as seen when CF were in the area
- Meetings held by AAF in early September in western Nuristan discussed future attack strategies for targeting CF in the area, CMDRs believed that they were not conducting sufficient attacks targeting CF in the area; it is plausible that AAF will conduct sporadic IDF attacks on FOB Kalagush prior to winter months, AAF also may continue to emplace IEDs IVO MSR Iowa in an attempt to hinder CF FOM in the area
- Recent attacks targeting CF bases in the Kamdesh District suggest AAF are assessing CF TTPs in preparation for future large scale attacks; AAF will primarily focus attacks on COP Lowell, indicating the CF base will continue to see attacks in the next 24-48 hours; COP Keating will continue to see sporadic engagements in the near term

So What...

AAF WILL TARGET COP NAJIL AND THE DOWLAT SHAW DISTRICT CENTER WITH IDF IN THE NEAR TERM. CWIEDs IN ALISHANG WILL CONTINUE TARGETING ANSF/CF VEHICLES TRAVELING TO AND FROM COP NAJIL.

3 LAGHMAN PROVINCE

ASSESSMENT

- Recent trend analysis indicates a slight decrease in kinetic activity from last weeks total; trends this week are identical to 2008 trends; reporting indicates multiple post Ramadan attacks will occur, expect to see an increase of kinetic activity
- AAF in the vicinity of Qala Najil are focusing on stand off attacks; AAF are emplacing IEDs by burying them the night before an attack is scheduled to be executed in order to minimize the opportunity to be detained by ANSF/CF; expect to see continued use of CWIED in the Alishang District
- AAF are preparing for a large scale post-Ramadan attack targeting the Dowlat Shah District Center and Combat Outpost Najil
- AAF are removing the command wire from landmines after emplacing them in order to use the IED later; this TTP may explain the incomplete IEDs found in the NKL area

So What...

IN THE NEXT 24-48 HOURS AAF WILL CONDUCT A COMPLEX ATTACK ON THE PACHIR WA AGAM DISTRICT CENTER. AAF WILL TARGET MALIK NIAZ AND HIS IN ACHIN IN THE NEAR FUTURE, TO RETAIN CONTROL AND REMOVE GIROA SUPPORTERS

ASSESSMENT

- Recent trend analysis indicates a slight decrease in kinetic activity from last weeks total; This weeks trends are identical to 2008 trends; With indications of post Ramadan attacks expect to see an increase of kinetic activity
- Hezb-e Islami/Gulbuddin members are attempting to attack the district center in Pachir Wa Agam during Eid al-Fitr with small arms and indirect fire in order to take advantage of the small force set to guard the district center during the Eid celebration
- [redacted] has attempted to negotiate the release of fighters h [redacted] through jirgas, bribes and agreements, but his attempts have proven to be unsuccessful; Bagh is unhappy that [redacted] refuses proposals from Bagh, the Lashkar-e Islam leader, and thus plans to send fighters to attack [redacted] village and kill [redacted] after the Eid al-Fitr holiday

- ★ 22 August – 20 September – Ramadan
- ◆ 3 September – Preliminary results
- ♦ 16 September – Lailatul-Qadr (Night of Power)
- 17 September – IEC certifies presidential election
- ☆ 20 September – Eid-al-Fitr (Generally lasts 3-5 days)
- 🇵🇰 01 October – Presidential run-off, if needed
- 🇵🇰 17 October – Inauguration (if no Run-off)

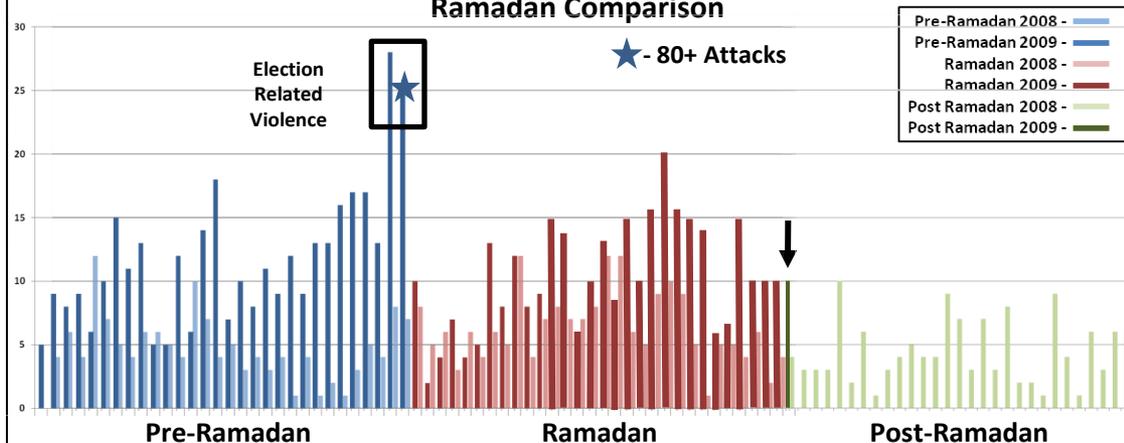

Significant Date Threats and Assessments

Ramadan

- During this period, there has been no decrease in activity that has been attributable to Ramadan. The increase observed during the latter part of the Pre-Ramadan period is a direct result of election related attacks. Supply issues will be the biggest factor contributing to the decrease observed during this Ramadan period. Reporting continues to indicate attacks will commence once supply levels return to acceptable amounts.
- The timing of Ramadan this year will likely see insurgent and criminal activity remain increased across N2KL due to favorable weather conditions, the peak of the fighting season, as well as election related events and a possible election run-off.
- Attacks will likely recommence once supplies return to an acceptable level. These attacks will focus on CF bases to avoid local casualties. Election results being released just after the Laiatul-Qadr (Night of Power) observance could provoke demonstrations and increased propaganda. Large crowds will present viable targets for possible suicide bombs however to avoid negative IO, AAF will refrain from such attacks instead targeting ANSF, CF and GIROA facilities.
