ASSESSMENT

Activity in N2KL remained steady over the reporting period. Activity will likely remain at these slightly elevated levels over the next month until the onset of winter, followed by a subsequent lull in volume and effectiveness of attacks. In Nuristan, activity will remain decreased overall; any attacks conducted will focus IVO COP Keating and Lowell to facilitate the movement of MWE. In Konar, AAF continue to bring MWE into the area and provide funding for attacks. AAF will continue to target CF convoys and patrolling elements and bases in the Pech and Dara Noor districts. IED-initiated ambushes and direct fire attacks along MSR will become more prevalent IOT restrict CF FoM. In Laghman, AAF have recently received funding and possible training from Pakistan which could result in increase in attacks. IEDs and small arms fire along MSR will be used to disrupt CF patrols and intimidate LNs in the area. In Nangarhar, AAF will continue to emplace IEDs and conduct direct fire attacks against ANSF/CF throughout southern districts, focused along Route Newark. These attacks will be used to slow CF patrols, facilitate illicit activity and protect freedom of movement. Intimidation attacks targeting GIROA officials may increase in the near term as insurgents wish to further dissuade LNs from further cooperating with both GIROA and CF. Continued delays in the release of Presidential election may bring unrest or support AAF's propaganda capabilities; targeting of GIROA officials or facilities may occur as AAF challenges GIROAs ability to secure the population.

24-48 THREAT REPORTING

As of: 09/30/2009 5:00 D+

MTN WARRIOR

"Led by Love of Country" "All The Way"

SECRET //REL TO USA, GCTF, ISAF, NATO

5

Laghman:

• **No Direct Threat Reporting.** AAF may attack ANSF/CF bases or supply trucks traveling on HWY7

Konar:

- **AAF will conduct sporadic attacks targeting CF bases in the Korengal Valley in the next 24-48 hours.** Attacks targeting COP Vegas will likely continue in the near term.
- Reporting indicates **AAF are planning to conduct simultaneous attacks targeting COP Able Main and COP Michigan in the next 24-48 hours.** AAF are also reportedly planning a large scale attack on COP Michigan in the near term.
- Reporting indicates **AAF plan to ambush a CF patrol operating in Recha Lam Village, Pech District on 30SEP09.** Prior reporting indicated Gul Zaman and fighters plan to conduct an IED initiated ambush on CF patrolling IVO Senji Village, Pech District in the next 24-48 hours.
- **AAF are planning to attack FOB Joyce in late SEP or early OCT.** It is possible that AAF will carry out an IDF attack targeting the FOB in the next 24-72 hours.
- **AAF will likely continue to conduct attacks targeting CF patrolling elements operating in eastern Pech and western Dara Noor.** Reporting indicates AAF have possibly emplaced an RCIED IVO COP Michigan and plan to carry out an IED initiated ambush in the near term.

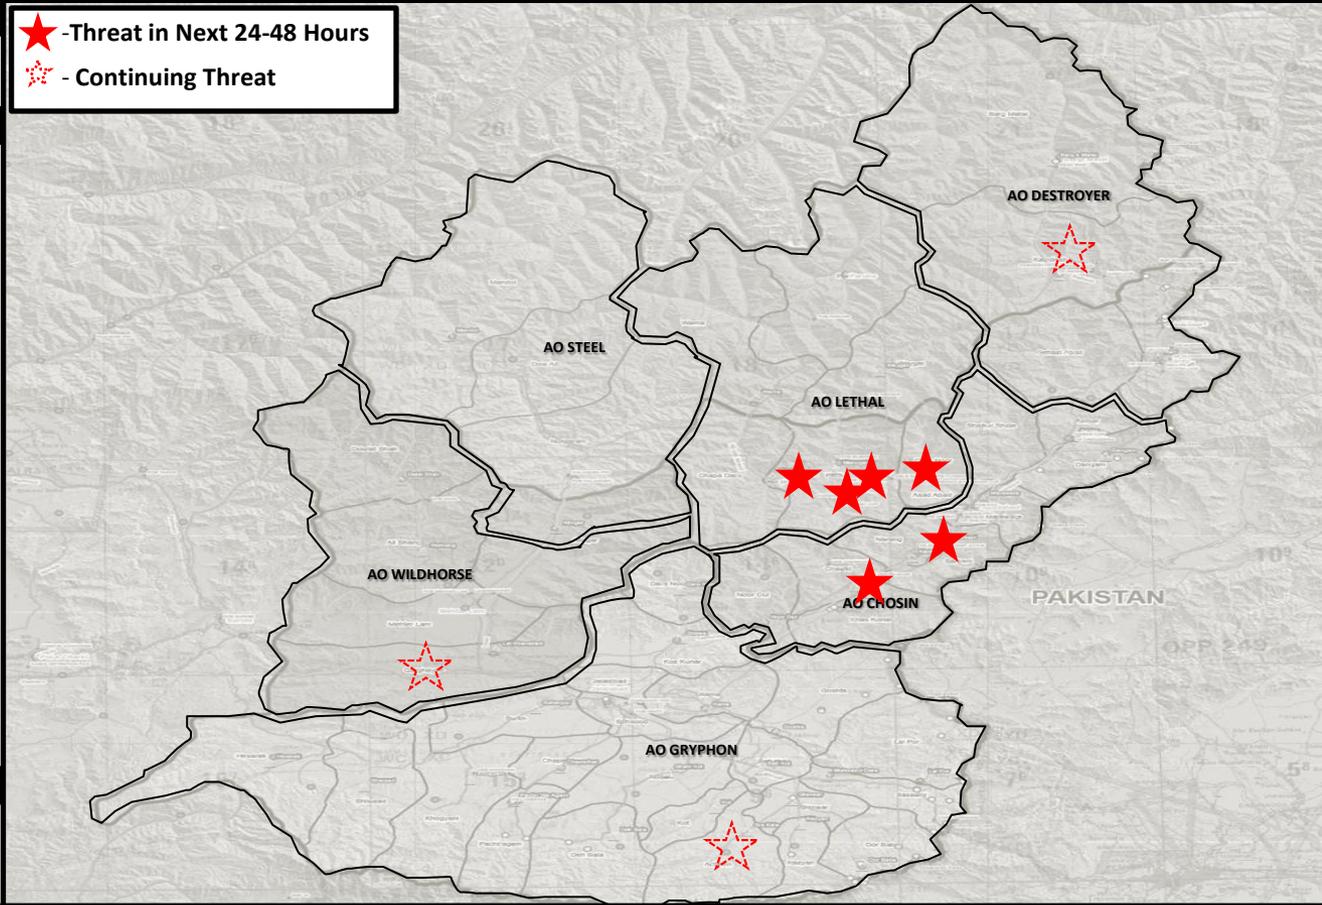

Nangarhar:

No Direct Threat Reporting. Increased targeting of GIROA and tribal leaders could occur as AAF attempt to regain control and challenge the governments ability to secure the population.

Nuristan:

• Reporting indicates **AAF will attack COP Keating in the next 24-48 hours.**

- ★ -Threat in Next 24-48 Hours
- ☆ - Continuing Threat

THREAT ASSESSMENT

- AAF will increase harassing direct and IED initiated attacks throughout Konar province to slow CF targeting and patrols in the area. Attacks will target CF bases throughout Pech and Dara Noor districts with IDF and SAF from stand-off distances. IED and ambushes along MSR Rhode Island will be emplaced to interfere with CF/ANSF operations in the area. Attacks will be most prevalent along western portions of Rhode Island due to AAFs freedom of movement and unpaved surfaces.
- AAF in Konar will conduct IED-initiated attacks along MSRs in the near future will target CF/ANSF convoys and patrols in western Dara Noor and the eastern Pech districts. IDF attacks targeting CF bases in Dara Noor are highly probable in the next 24-48 hours.
- IED activity in southern Nangarhar will continue to screen and facilitate AAF and criminal activity in the area. Increased intimidation will also occur in these southern districts targeting both locals and ANSF to slow patrols and retain freedom of movement with GIROA interference.

ASSESSMENT

IO in the Mountain Warrior AO for this week highlights multiple rifts between AAF throughout N2KL. Distrust and a lack of unity will have a significant impact on the number of coordinated attacks conducted against CF/ANSF in the near future. The inability of the AAF to successfully resolve these issues provides CF/GIRoA the ability to positively impact local areas through more face to face meetings and information gathering from the populace. The removal of a TB Shadow Governor in Laghman, may soon signify a more unified leadership in the province. Any attacks seen, may increase in ferocity as new leadership enters the area. AAF in the area will likely continue their attempts to intimidate LNs from working with CF and supporting GIRoA; their attempts thus far have yet to sway a majority of LNs, both elders in Nangarhar, are pushing to make a unified pact between three tribal groups to stand up against the Taliban. This pact has the potential to sway other elders in the area to take this route as well, especially as the elders intend to conduct intimidation type attacks against LNs in the province. Earlier warnings from the elders have brought about the potential for Taliban to surrender their arms in the near future. If this happens, AAFs influence in the area will greatly diminish, bringing about the potential for more LNs to stand up and urge their elders to join in the disarmament of AAF in their villages. Intimidation on locals persists; the AAF paying criminals to murder or kidnap LNs is not unheard of, but not overly common. AAF detaining villagers and confiscating their weapons may increase tensions enough for the locals to rise against the AAF and deny them aid in the future.

- ☐ SIGINT/OTHER
- ◆ ACTIVE OBJ
- ▲ NIGHT LETTER
- ★ CF BASE
- X LN CAUSALITIES

ASSESSMENT

- SIGACTs during the past week have decreased slightly in comparison to last week's trends; this decrease in activity can be attributed to AAF's lack of fighters and resources to carry out effective attacks; AAF CMDRS are also finalizing plans for large scale attacks that will be carried out in OCT and attempting to repair disagreements between various AAF groups; however, the push of AAF into Konar from PAKMIL operations will likely result in a slight increase of attacks in the near term
- Attacks along southern MSR California will increase in the near term; CF can expect to see continued complex ambushes targeting CF resupply convoys operating in the Noor Gul District, which has historically seen sparse kinetic activity until approximately two weeks ago when AAF began increasing attacks against convoys of opportunity in this area; the lack of CF presence in the area allows AAF to freely operate throughout the district; the last attack on a CF convoy in this area was on 26SEP09
- AAF are preparing for complex attacks targeting friendly forces in central Konar; the continued acquisition and movement of weapons IVO Maidan Village increases the likelihood that AAF are preparing for attacks targeting CF patrolling elements operating in western Dara Noor and eastern Pech, as well as preparing for IDF attacks targeting COP H-M and COP Able Main; these attacks will occur as early as the next 24-72 hours

So What...

ATTACKS TARGETING CF BASES WILL RESUME IN THE NEXT 24-48 HOURS; CF CAN EXPECT TO SEE B-10 RECOILLESS RIFLE ALONG WITH DIRECT FIRE ATTACKS POSSIBLY TARGETING COP KEATING AND OP FRITSCHKE AS A NEW WEAPONS ARE BROUGHT INTO THE AREA.

ASSESSMENT

SIGNIFICANT ACTIVITY

0 x SIGACTs

NSTR

AAF Attacks Resulting in LN Casualties

NSTR

- Over the past week, kinetic activity within Nuristan has significantly decreased in comparison to prior weeks' trends; CMDRs attendance at various meetings, the lack of fighters and weapons acquisitions prevented AAF from conducting large scale attacks
- The past two days DF attacks targeting CF bases in eastern Nuristan indicate AAF have finished conducting resupply operations and will continue to engage CF bases in the next 24-48 hours; AAF's primary targets will continue to be COP Lowell and COP Keating and AAF will likely continue to conduct sporadic DF attacks targeting the bases
- AAF operating IVO Mandagal Sofla Village, Kamdesh District are attempting to recruit more fighters and dissuade the local populace from working with CF; pending AAF's further recruitment of fighters, AAF will begin to conduct more complex attacks targeting friendly force static locations within eastern Nuristan
- The movement of a B-10 recoilless rifle weapon's system back into the Kamdesh District indicates B-10 attacks targeting COP Keating will return in the near term; AAF have not conducted B-10 attacks on COP Keating or OP Fritsche since late 29AUG09 when a CF bomb drop was assessed to have destroyed the weapon's system

So What...

AAF WILL CONDUCT IED ATTACKS IN ALISHANG, TARGETING CONVOYS TRAVELING ROUTE NEBRASKA. AAF HAVE RECEIVED FUNDING AND TRAINING FROM PAKISTAN WHICH WILL RESULT IN INCREASED ATTACKS THROUGHOUT LAGHMAN IN THE NEAR TERM.

ASSESSMENT

- Trends for Laghman this week indicate a continued low level of kinetic activity that is only slightly higher than 2008 activity levels; current trends will increase due to new fighters from Pakistan conducting operations in Laghman
- A senior Taliban shura in Peshawar, P cted in order to resolve the recent demands of Taliban members in Laghman Province; due ineffective logistical support he may be replaced with a more effective logistical leader ; that would indicate that fighters in Laghman Province may be able to increase attacks as AAF could then receive weapons to carry out planned attacks
- CWIED engineers in Masamute village will increase the IED production in Alishang indicating an increase in activity
- has sought to conduct SAF on ANSF/CF elements along HWY1A in Qarghayee; the ANP CP may have presented the highest chance for success and attempted to avoid fighter casualties

Nangarhar Daily Activity:

SIGNIFICANT REPORTING

So What...

AAF WILL CONDUCT DIRECT FIRE ATTACKS ON ANP AND IED ATTACKS ON ROUTE NEWARK IN THE VICINITY OF MEMLA VILLAGE, KHOGYANI TO PREVENT ANSF/CF OPERATIONS IN THE AREA, SECURING SAFEHAVENS AND FACILITATION AREAS FOR ILLICIT ACTIVITY.

3 NANGARHAR

ASSESSMENT

- 2009 trend analysis indicates a small increase in kinetic activity that resemble 2008's level of attacks; due to a large influx of AAF from Pakistan, current trends will increase in Nangarhar as AAF conduct operations before the winter snow blocks mountain passes
- and provincial leadership are planning to conduct a formal pact which is ready to be signed by three subtribes which include, E mdadkheyl, and the Babarkheyl; the three subtribes committed themselves to eradicating any poppy and drug labs in the Mohmand valley; this development threatens Taliban and other AAF who utilize the Mohmand valley, Achin to facilitate insurgent operations
- AAF are attempting to conduct a SVIED attack on CF patrols in the vicinity of Achin and Deh Bala; AAF also plan to attack ANP posts IVO Memla circa night hours; multiple reporting indicates that AAF intend to carry out kinetic attacks throughout Nangarhar during the near term prior to the onset of winter
- Due to Taliban smuggling high quality poppy seeds into the N2KL area and competitive poppy harvesting between farmers in Nangarhar, the Taliban narcotic smugglers are able to decide where and what type of quality poppy seed should be distributed

CENTER GRID: 42S XC 69601 75373
DATE: 28SEP09
COORDINATES NOT TO BE USED FOR TARGETING OR NAVIGATIONAL PURPOSES

~~SECRET//REL TO
USA, ISAF, NATO~~

DRV FM: DIA
CL BY-1.4 C
DECL: 20340928

MISSION TYPE: SECURITY

EEL's:

1. Identify Local Nationals digging in or next to roads.
2. Identify Local Nationals loitering in groups of 2-4 personnel on or next to roads.
3. Movement of munitions, weapons equipment and supplies.
4. Identify suspicious objects placed on or next to roads. Identify large heat sources in or near buildings.

Production:

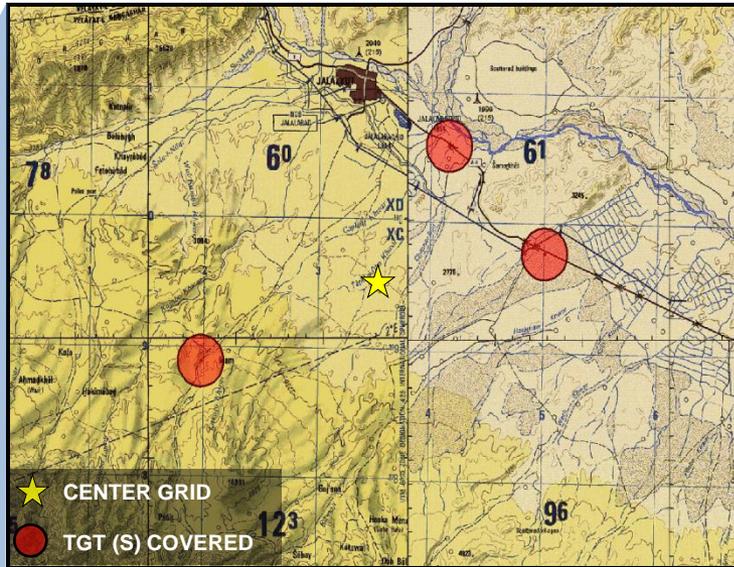

1. TF ODIN-A provided coverage of 04 target(s).
2. TF ODIN-A produced a total of:
 1. 00 IDPs
 2. 00 Highlight Video
 3. 00 Storyboard Products
3. Supplementary Imagery
 1. 00 National Imagery
 2. 00 TIGR Derived

Justification for Imagery: TF Gryphon requests FMV/EO/IR IOT assist in planning future operations in the Kuz Konar District. The lack of FMV will hinder CF/ANSF general movement in the area, and pose unnecessary risk to both mounted and dismounted troops.

TF-ODIN Jalalabad Comment: All significant activity was reported to the unit via Mirc.

~~SECRET//REL TO
USA, ISAF, NATO~~

OPERATION: HWY 1A NAI 1-4
MAP SCALE: 1:250K
RC/E PROVINCE: NANGARHAR, AF
CENTER GRID: 42S XC 35322 95044
DATE: 29SEP09
COORDINATES NOT TO BE USED FOR TARGETING OR NAVIGATIONAL PURPOSES

★ CENTER GRID
● TGT (S) COVERED

Justification for Imagery: TF Gryphon requests FMV/EO/IR IOT assess flood damage to HWY1a and assist in mission planning for alternate routes along the route. CF, ICW ANSF, prepare to coordinate reconstruction efforts, traffic control measures, and possible vehicle staging areas along the route as logistical moves are halted due to limited traffic ability. Failure to launch FMV will force CF and ANSF to coordinate without proper SA of the extent of the damage along the route.

TF-ODIN Jalalabad Comment: All significant activity was reported to the unit via Mirc. At 0146Z, TFO-A observed a stalled vehicle on the north bypass IVO 42S XD 41713 05956. At 0304Z, TF Gryphon requested an imagery derived product (IDP) of a recently repaired road.

- Mission type:** security
- EEL's:**
1. Identify vehicle traffic ability along route.
 2. Identify number of personnel on foot along route.
 3. Identify vehicles whose speed is excessively fast.
 4. Identify location of each congested location along the route.
 5. Identify and locate any checkpoints along the route.
 6. Identify driver actions at checkpoints to include efforts to avoid them.
 7. Confirm or deny the presence of personnel in possible overwatch position observing hwy1a.
 8. Confirm or deny any evidence of digging along HWY 1A
 9. Confirm or deny the presence of large items for storage of bulk homemade explosives emplacements
 10. Confirm or deny any evidence of clearing of trees, shrubs or terrain to obtain los from possible hide site to IED
 11. Identify any personnel digging on or along, side roads or personnel congregating on the road, or in concealed locations (from the road).
 12. Identify cold or hot thermal signatures located on the road or immediately alongside (within 5-10 meters on either side of the road).
 13. Identify any personnel in positions within 10-15 meters of the road in positions that provide clear line of sight to the road.
 14. Identify any vehicles that appear to be abandoned. Identify any vehicle tracks leading to a thermal signature or indication of disturbed earth/suspicious object.
 15. Identify any indications of new piles of dirt or rubbish to include bags, boxes and any other items larger than 0.5m by 0.5m; concrete blocks or barriers as along side the road that appear out of place (serve no identifiable purpose) or new.
 16. Identify any disturbed earth, broken pavement, speed bumps, shallow pits, or trenches on or immediately alongside (within 5-10 meters) of the road.
 17. Identify any earth movement, ground scarring, or vegetation clearing along side roads (within 5-10 meters).
 18. Identify and annotate size and location of any visual indications of wire, tubing, or cord laid across the road surface or along the road (within 5-10 meters).
- Production:**
1. TF ODIN-A provided coverage of 3 target(s).
 2. TF ODIN-A produced a total of:
 1. 05 IDPs
 2. 00 highlight video
 3. 00 storyboard products
 3. Supplementary imagery
 1. 00 national imagery
 2. 00 TIGR derived

DECL: 20340929

MISSION TYPE: SECURITY

EI's:

1. Identify Local Nationals digging in or next to roads.
2. Local Nationals loitering in groups of 3 or more personnel on or next to roads.
3. Identify movement of munitions, weapons, equipment and supplies.
4. Identify suspicious objects placed on or next to roads.
5. Identify MAMs with weapons within 500 meters of roads.
6. Identify possible illegal traffic control points along roads.
7. Traffic jams or congestion of 5 or more vehicles.
8. Disturbed earth in or along roads.
9. Movement of 3 or more vehicles traveling together.

Production:

1. TF ODIN-A provided coverage of 13 target(s).
2. TF ODIN-A produced a total of:
 1. 02 IDPs
 2. 00 Highlight Video
 3. 00 Storyboard Products
3. Supplementary Imagery
 1. 00 National Imagery
 2. 00 TIGR Derived

Justification for Imagery: TF Gryphon requests FMV/EO/IR IOT assist in planning future operations in the Nazyan District. The lack of FMV will hinder CF/ANSF general movement in the area, and pose unnecessary risk to both mounted and dismounted troops.

TF-ODIN Jalalabad Comment: All significant activity was reported to the unit via Mirc. At 1739z TFO-A observed 2 beds being occupied blocking north side of bridge IVO 42S XD 5200 028374. At 1834z Shadow 2252 was tasked to observe POSS ambush in TF Chosin AO IVO 42S XD 86320 48120.

- ★ 22 August – 20 September – Ramadan
- ◆ 3 September – Preliminary results
- ♦ 16 September – Lailatul-Qadr (Night of Power)
- 17 September – IEC certifies presidential election
- ☆ 20 September – Eid-al-Fitr (Generally lasts 3-5 days)
- 🇵🇰 01 October – Presidential run-off, if needed
- 🇵🇰 17 October – Inauguration (if no Run-off)

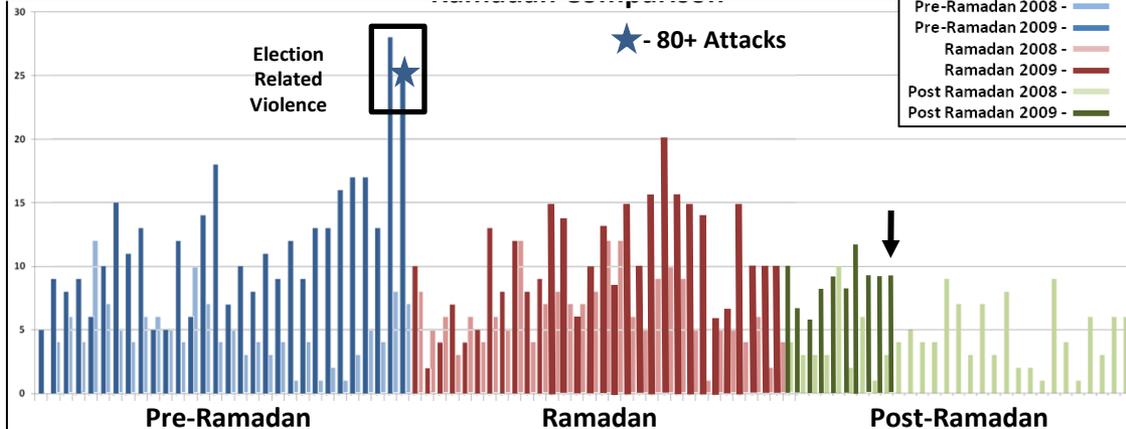

Significant Date Threats and Assessments

Ramadan

- During this period, there has been no decrease in activity that has been attributable to Ramadan. The increase observed during the latter part of the Pre-Ramadan period is a direct result of election related attacks. Supply issues will be the biggest factor contributing to the decrease observed during this Ramadan period. Reporting continues to indicate attacks will commence once supply levels return to acceptable amounts.
- The timing of Ramadan this year will likely see insurgent and criminal activity remain increased across N2KL due to favorable weather conditions, the peak of the fighting season, as well as election related events and a possible election run-off.
- Attacks will likely recommence once supplies return to an acceptable level. These attacks will focus on CF bases to avoid local casualties. Election results being released just after the Laiatul-Qadr (Night of Power) observance could provoke demonstrations and increased propaganda. Large crowds will present viable targets for possible suicide bombs however to avoid negative IO, AAF will refrain from such attacks instead targeting ANSF, CF and GIROA facilities.
