### AO Chosin

- 021225D+OCT09 - SAF  
SPARTAN CLP received SAF from UNK AAF

## ASSESSMENT

Activity throughout N2KL has significantly decreased over the reporting period consistent with historical Friday activity. Attacks in October will likely to remain slightly elevated in relation to previous years' trends as unseasonable weather extends the fighting season. A lull in the volume and effectiveness of attacks will occur once weather changes and AAF are unable to sustain attacks. In Nuristan, activity will remain decreased overall; attacks conducted will be standoff attacks, continuing to target CF bases in the Kamdesh facilitating the movement of MWE. Attacks and propaganda will increase once AAF become aware of a possible swift of CF from fixed locations in the area. In Konar, AAF are planning for large scale attacks that are expected to take place in the near future. In northern Konar, attacks will remain focused in the Pech district. In southern Konar, attacks will be directed towards CF bases in the Sarkani and Khas Konar districts. Attacks will continue targeting CF convoys traveling on MSR California throughout the province. Commencement of operations by PAKMIL throughout Pakistan will also contribute to this increase of activity as TB fighters enter the area. In Laghman, AAF will continue their intimidation tactics targeting ANSF in a continued effort to dissuade them from supporting GIROA. In Nangarhar, attacks will target LNs working for CF and GIROA. Multiple reports of leadership wanting to implement the use of suicide bomber throughout N2KL persists but will be unlikely in many areas, as IDF and DF attacks are in AAF's favor. Attacks targeting GIROA officials and tribal leaders may increase as insurgents attempt to dissuade LNs from cooperating with GIROA and CF.

# 24-48 THREAT REPORTING

As of: 10/03/2009 5:00 D+

MTN WARRIOR

"Led by Love of Country" "All The Way"

SECRET //REL TO USA, CCTF, ISAF, NATO

5

## Laghman:

- AAF intend to attack the Tanga ANP Checkpoint in Qarghayee targeting CF supply convoys or jingle trucks traveling along HWY7 using RPGs and SAF, possibly in the next 24-48 hours.
- AAF will attack the Jaboom ANP Checkpoint with SAF and RPGs in the next 24-48 hours for their continued support of the GIRoA.

## Konar:

- Reporting indicates AAF are possibly planning to attack CF patrolling south of OP Dallas in the next 24-72 hours.
- AAF plan to engage CF operating IVO Wodi Geram or Qandaro Villages, Pech District in the next 24-48 hours.
- Reporting indicates AAF plan to conduct unspecified attacks within the Korengal Valley in the next 24-48 hours.
- Reporting indicates AAF are prepared to ambush a CF convoy operating IVO Matin Village.
- Reporting indicates AAF set up an ambush position on top of Surano Sar, Shigal District and plan to engage a CF convoy of opportunity traveling MSR California in the near term.
- AAF are possibly preparing for attacks targeting CF convoys patrolling between the villages of Kutgay and Kodu, Narang District.
- Multiple reports indicate AAF plan to attack FOB Fortress and possibly FOB Joyce in the near term.

## Nangarhar:

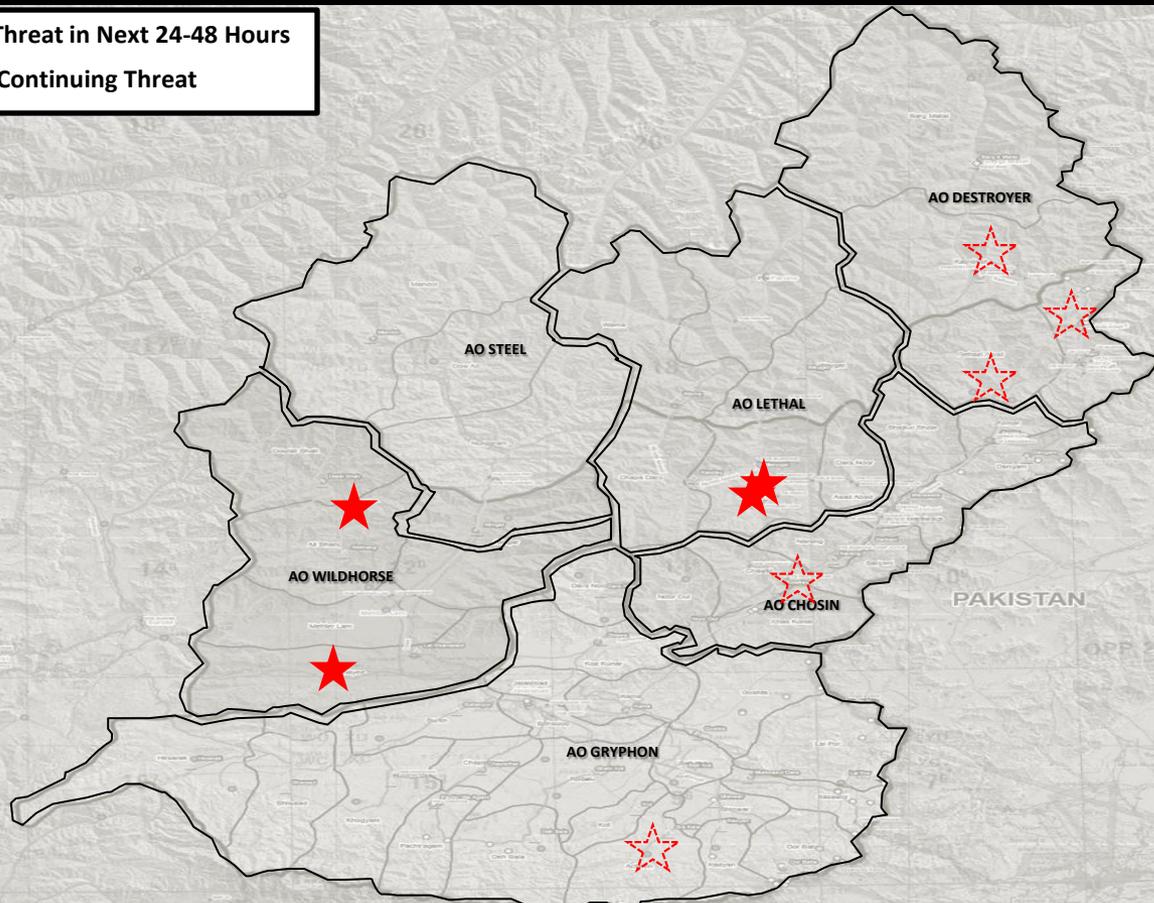

- Three groups of AAF have massed on the mountain peaks in Pachir Wa Agam, near an UI ABP checkpoint IOT shoot down a CF helicopter of opportunity in the area.
- AAF under the JeM have recently decided to target LNs assisting GIRoA. Assassination and arrests of LNs working for the U.S. in Jalalabad, the Jalalabad PRT, or the the NDS may be targeted. This group has been known to use suicide bombers.

## Nuristan:

- Reporting indicates AAF will conduct sporadic attacks targeting CF bases in the Kamdesh District. AAF will likely continue to target OP Fritsche with IDF in the next 24-48 hours.

★ -Threat in Next 24-48 Hours

★ - Continuing Threat

## THREAT ASSESSMENT

- AAF will continue to conduct attacks along MSR California. Attacks in the Pech and Dara Noor districts will remain. Reporting indicates attacks in the near future will be larger in scale, especially targeting FOB Blessing. Usage of suicide bombers is rumored in the Pech district. Attacks will also target CF bases in the Sarkani and Khas Konar districts.
- AAF in Nuristan will increase their attacks on CF bases in Kamdesh, using IDF as their main tactic. As the bases close, AAF will likely push down to northern Konar to conduct attacks prior to the end of the historic fighting season and the beginning of winter as travel is impeded due to snowfall in the passes.
- IED activity in southern Nangarhar will continue to screen and facilitate AAF and criminal activity in the area. Increased intimidation will also occur in these southern districts targeting both locals and ANSF to slow patrols and retain freedom of movement with GIRoA interference.

### SIGNIFICANT ACTIVITY

4 x SIGACTs

- NARAY POLICE STATION RECEIVED IDF
- FALCON BASE RECEIVED DF
- SPARTAN CLP RECEIVED SAF
- 2/D/2-12IN RECEIVED SAF

AAF Attacks Resulting in LN Casualties  
NSTR

- SIGACTs during the past week have decreased slightly in comparison to last week's trends; AAF CMDRS are also finalizing plans for large scale attacks that will be carried out in OCT while attempting to repair disagreements between various AAF groups; AAF continue to engage CF convoys of opportunity in the Noor Gul District
- AAF operating in southern Konar are finalizing attack plans targeting CF bases and plan to carry out the attacks in the near term; Zabit Jalil and fighters' recent movements in the Sarkani and Khas Konar Districts indicate AAF are preparing to resume attacks targeting FOB Joyce as AAF prepare for final large scale attacks prior to the lull in kinetic activity during the winter months
- Recent indications suggest AAF are preparing for a large scale attack targeting FOB Blessing, possibly using suicide bombers during the attack; however, attacks targeting the FOB will likely consist of IDF as AAF have historically conducted IDF targeting the base
- With the downgrade of CF presence in northern Konar and in the Kamdesh District, CF can expect to see a slight increase of attacks targeting CF bases in northern Konar; it is plausible that AAF will continue to conduct IDF attacks targeting FOB Bostick in an attempt to embellish AAF's ability to control the area; this will ultimately increase LN support of AAF across northern Konar

### So What...

CF CAN EXPECT TO SEE CONTINUED IDF ATTACKS TARGETING OP FRITSCHÉ IN THE NEXT 24-72 HOURS; AAF ARE PREPARING FOR LARGE SCALE ATTACKS TARGETING CF BASES PRIOR TO WINTER MONTHS AND THE DESCENT OF CF FROM KAMDESH TO NORTHERN KONAR DISTRICTS

## ASSESSMENT

### SIGNIFICANT ACTIVITY

#### 1 x SIGACT

- OP FRITSCHÉ RECEIVED IDF

### AAF Attacks Resulting in LN Casualties

NSTR

- Over the past week, kinetic activity within Nuristan has significantly decreased in comparison to prior weeks' trends; OP Fritsche received IDF for the third consecutive day; AAF CMDRs continue to recruit AAF in the Kamdesh District IOT carry out pre-planned large scale attacks on CF bases
- [redacted] is reportedly in charge of the mortar system team that is conducting attacks on OP Fritsche; AAF's recent resupply and [redacted] of a mortar team indicates CF can expect to see continued IDF tactics employed on OP Fritsche in the near term; IDF attacks are effective attack strategies for AAF to use on CF bases as AAF are able to conduct attacks on CF then quickly exfil the area, minimizing AAF casualties
- Multiple indications suggest AAF are aware of CF relocating assets from the Kamdesh District into Nari and Ghaziabad Districts, Konar Province; CF can expect to see continued stand-off attacks on CF bases in the near term, AAF will slightly increase attacks IOT use the rearrangement of friendly forces as a recruitment tool and morale booster; Dost Mohammad had pledged to rid Kamdesh of CF presence by OCT2009, and TB see the recent CF base closures as a huge success in their fighting efforts and a way to highlight their superiority over CF to garner additional support from locals

## So What...

DIRECT FIRE ATTACKS IN ALISHANG WILL OCCUR IN THE NEXT 24-48 HOURS AS TALIBAN LOOK FOR AN OPPORTUNITY TO HARASS AND INTIMIDATE ANP IVO OF JABOOM VILLAGE; NEW LEADERS FROM PAKISTAN ARE COORDINATING AN ATTACK FOCUSING ON HWY7 CPs AND ANSF/CF LOGISTICS CONVOYS

## ASSESSMENT

- Trends for Laghman this week indicate a continued low level of AAF kinetic activity which is slightly higher than 2008 activity levels; current trends will increase due to new fighters from Pakistan conducting operations in Laghman
- Recent intelligence indicates that Mullah Hazrat would be involved with an attack on the Tanga ANP Checkpoint on HWY1A, however previous reporting has indicated that Mullah Hazrat has fled to Pakistan to avoid detainment
- Taliban fighters have traveled from Tarawu in order to conduct an attack on the Jaboom ANP checkpoint using RPGs; historically, AAF have attacked the Jaboom CP IOT punish the ANP working there for supporting the GIROA
- Waziristan, PAK has facilitated the upcoming explosives attacks that are planned by providing explosives training aimed at successfully and effectively executing the attacks
- AAF leadership has distributed money from Pakistan to mid level AAF for attacks indicating an increase of attacks in central Laghman may be seen in the coming week

### So What...

TALIBAN FIGHTERS ARE POSSIBLY MASSING IN SOUTHERN PACHIR WA AGAM IN ORDER TO CONDUCT ATTACKS, POSSIBLY INCLUDING THE TARGETING OF CF AIRCRAFT. SMALL ARMS FIRES AND DIRECT ENGAGEMENTS MAY INCREASE AS AAF ATTEMPT TO DRAW SUPPORT FOR FOLLOW-ON TARGETING.

**5** NANGARHAR

## ASSESSMENT

- 2009 trend analysis indicates a small increase in kinetic activity that resemble 2008's level of attacks; due to a large influx of AAF from Pakistan, current trends will increase in Nangarhar as AAF conduct operations before the winter snow blocks mountain passes
- As of mid September the Taliban has emplaced new leadership in Nangarhar as they plan to increase attacks in Afghanistan; recent meetings conducted in Pakistan have resulted in Taliban refocusing disruption efforts in Nangarhar
- Despite CF counter narcotic operations, laboratories in Helmand Province put financial pressure on laboratory owners and poppy growers in the Nangarhar Province which strained and drove some Nangarhar laboratory owners out of business; fewer heroin processing laboratories in Nangarhar will increase the value of heroin smuggled out of the province and affect heroin funded insurgent operations
- Corrupt PAK ISI may be responsible for a Maulana Masood Azhar founded group named Jaish-E-Muhammed that has decided to begin a campaign to target Afghan nationals working for U.S. entities, PRTs and NDS in Jalalabad; this group will be operating out of Peshawar, Pakistan and its goals advocate violence to force a withdrawal of CF from Afghanistan

COORDINATES NOT TO BE USED FOR TARGETING OR NAVIGATIONAL PURPOSES

**MISSION TYPE: SECURITY**

**EEL's:**

1. Identify Local Nationals digging in or next to roads.
2. Local Nationals loitering in groups of 3 or more personnel on or next to roads.
3. Identify movement of munitions, weapons, equipment and supplies.
4. Identify suspicious objects placed on or next to roads.
5. Identify MAMs with weapons within 500 Meters of roads.
6. Identify possible illegal traffic control points along roads.
7. Traffic jams or congestion of 5 or more vehicles.
8. Disturbed earth in or along roads.
9. Movement of 3 or more vehicles traveling together.

**Production:**

1. TF ODIN-A provided coverage of 13 target(s).
2. TF ODIN-A produced a total of:
  1. 04 IDPs
  2. 01 Highlight Video
  3. 00 Storyboard Products
3. Supplementary Imagery
  1. 00 National Imagery
  2. 00 TIGR Derived

**Justification for Imagery:** TF Gryphon requests FMV/EO/IR ISO Operation Last Call, a battalion area operation designed to interdict the movement of AAF from operation areas in Afghanistan to winter safe holds in Pakistan. The operation is a continuous mission designed to run from 29 Sep 09 until 29 Oct 09. FMV will be utilized to overwatch NAls during specific hours to ID likely AAF personnel movements, track identified personnel/materials, conduct terrain denial and to support ground forces with the location and detainment of identified personnel/materials. Without FMV coverage, AAF will have increased FOM throughout AO Gryphon and will be able to retrograde to sanctuaries in The lack of FMV will hinder CF/ANSF general movement in the area, and pose unnecessary risk to both mounted and dismounted troops.

**TF-ODIN Jalalabad Comment:** All significant activity was reported to the unit via Mirc. At 1910z TFO-A observed 5-6 U/I PAX moving in a Line west on trail
