ASSESSMENT

Activity in N2KL has slightly increased over the reporting period, returning to normal levels following the end of Ramadan and the Eid celebrations. Activity will remain consistent with historical trends prior to the onset of winter. In Nuristan, AAF will increase attacks IVO COP Keating and Lowell in the near term. More coordinated attacks, as well as SAFIRE attempts, may increase as AAF become aware of possible CF movement from the area and resupply operations occur as winter months approach. In Konar, AAF continue to target CF in the Pech and Dara Noor districts, centering their attacks on CF fixed locations. AAF leadership in Konar continue to make plan for future attack and distributing money possibly for large scale attacks targeting CF bases as well as IED-initiated ambushes along MSRs to restrict CF FoM. In Laghman, AAF will increase emplacement of IEDs along MSRs to disrupt CF patrols and intimidate LNs in the area. The IDF IVO COP Najil today may have been targeting a LNs construction crew contracted with road development in the area. AAF wish to impede growth of infrastructure and LN support for GIROA/ CF in the province. In Nangarhar, AAF will continue to emplace IEDs and conduct small arms fire attacks against ANSF/CF throughout the province, especially along Route Newark. These attacks will be used to slow CF patrols, facilitate illicit activity and protect freedom of movement. Reporting of suicide bomber facilitation in Nangarhar persists, though there has been no reporting on dates, times or targets. Attacks throughout N2KL will most likely increase in the near term as Eid has concluded and the AAF's historical fighting season subsides.

24-48 THREAT REPORTING

As of: 09/25/2009 5:00 D+

MTN WARRIOR

"Led by Love of Country" "All The Way"

SECRET //REL TO USA, CCTF, ISAF, NATO

5

Laghman:

No Direct Threat Reporting. IEDs will be emplaced along MSR Nebraska and Iowa targeting ANSF/LNs

Konar:

- Reporting indicates **AAF are possibly planning to conduct attacks targeting OP Mace, COP P-K and OP Bari Alai;** attacks could occur in as soon as the next 24-48 hours.
- **AAF will continue to engage CF operating in the Korengal Valley with sporadic harassment attacks in the next 24-48 hours.**
- Reporting indicates **AAF plan to attack FOB Blessing in the next 24-48 hours.**
- AAF are planning to emplace IEDs in western Pech between the villages of Wodigram and Kandarrow Villages; **AAF are planning to conduct an IED initiated ambush targeting CF/ANSF patrolling elements possibly as soon as the next 24-48 hours.**
- Reporting indicates **AAF are planning to increase attacks targeting COP Penich suggesting the COP may be attacked in the next 24-48 hours.**

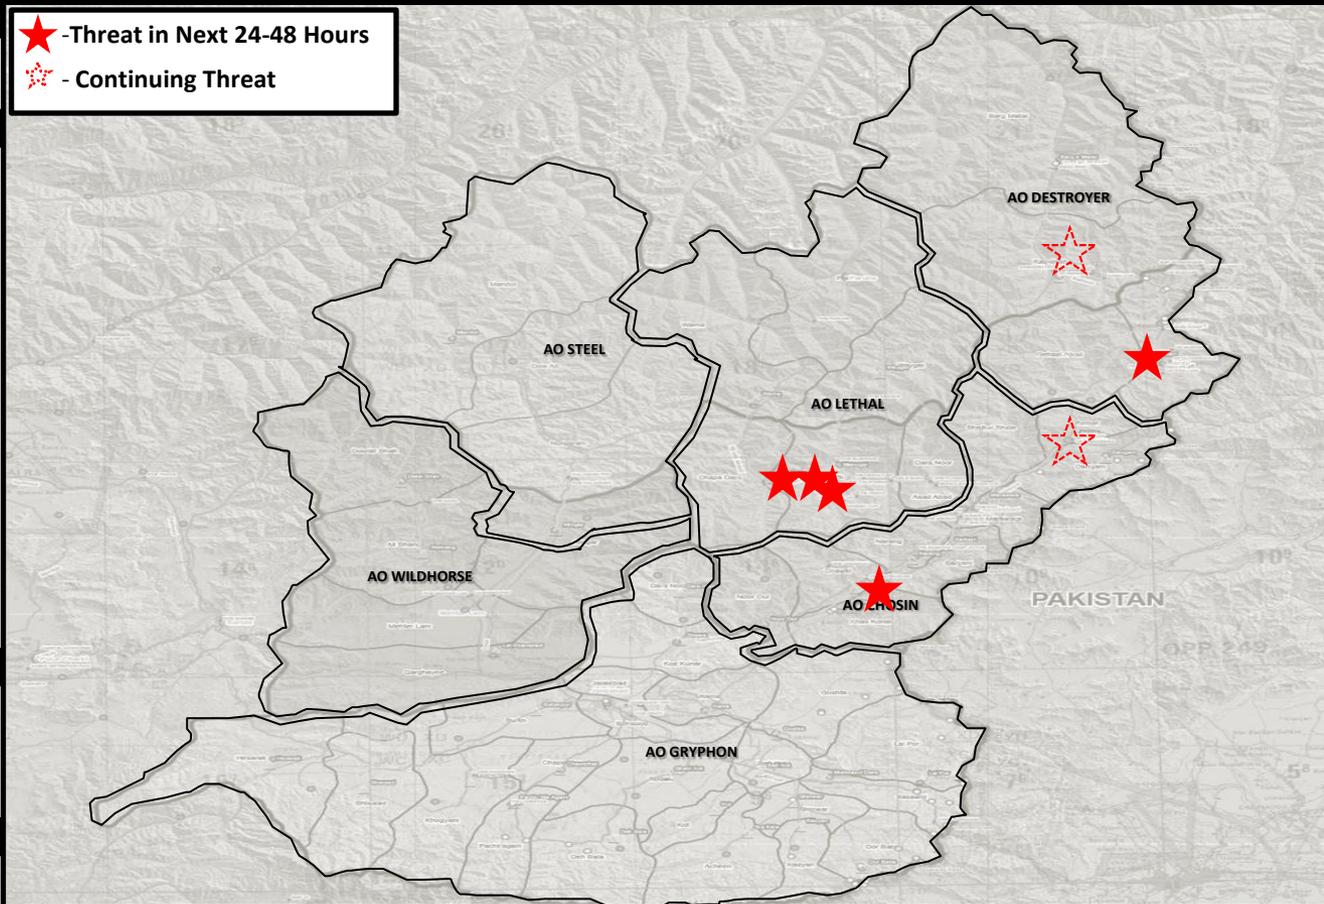

Nangarhar:

No Direct Threat Reporting. Increased targeting of GIROA and tribal leaders could occur as AAF attempt to regain control and challenge the governments ability to secure the population.

Nuristan:

- AAF will continue to conduct attacks targeting COP Keating and COP Lowell in the near term.

- ★ -Threat in Next 24-48 Hours
- ★ - Continuing Threat

THREAT ASSESSMENT

- AAF will increase harassing direct and IED initiated attacks throughout Konar province to slow CF targeting and patrols in the area. Attacks will target CF bases throughout Pech and Dara Noor districts with IDF and SAF from stand-off distances. IED and ambushes along MSR Rhode Island will be emplaced to interfere with CF/ANSF operations in the area. Attacks will be most prevalent along western portions of Rhode Island due to AAFs freedom of movement and unpaved surfaces.
- AAF in Konar continue to conduct meetings for future attack plans consisting of more large scale, coordinated attacks targeting CF bases. AAF in the Khas Konar District have reportedly received multiple IEDs and plan to emplace them in the near future. IED-initiated attacks along MSRs in the near future will target CF/ANSF convoys and patrols especially IVO the Shaunkrai Valley. Attacks targeting CF bases in the Pech, Ghaziabad and Nari Districts will be most prevalent over the next 24-72 hours.
- IED activity in southern Nangarhar will continue to screen and facilitate AAF and criminal activity in the area. Increased intimidation will also occur in these southern districts targeting both locals and ANSF to slow patrols and retain freedom of movement with GIROA interference.

- ☐ SIGINT/OTHER
- ◆ ACTIVE OBJ
- ▲ NIGHT LETTER
- ★ CF BASE

4 MOHMAND AGENCY, FATA, PAK

ASSESSMENT

- SIGACTS during the past week have decreased in comparison to both previous weeks and 2008 trends; this decrease in activity can be partially attributed to AAF's continued attempts to stockpile weapons with winter approaching, infighting between AAF groups, and an emphasis on meetings to plan future attacks; AAF will continue conducting sporadic attacks including IDF and SAF on CF elements in the near term
- AAF are conducting meetings throughout the province IOT determine more effective TTPs to engage CF/ANSF operating within Konar; during meetings, funds are being distributed and plans are being discussed for future large scale, coordinated attacks on bases and IED initiated ambushes on roadways; AAF are also increasing training efforts in the area in an attempt to increase the accuracy and ferocity of upcoming attacks
- AAF operating in southern Konar are attempting to gain further funding and recruits by increasing attacks such as the 24SEP09 targeting CF/ANSF operating along southern MSR California; the 24SEP09 attack on CF was a larger than attacks typically conducted in the area, AAF will continue to focus attack efforts along southern MSR California in the near term

CF CAN EXPECT TO SEE MINIMAL KINETIC ACTIVITY IN NURISTAN IN THE NEXT 24-48 HOURS; HARASSING ATTACKS MAY OCCUR, ATTEMPTING TO SCREEN MOVEMENT OF MWE IN PREPARATION FOR FUTURE, POSSIBLY MORE COMPLEX ATTACKS

ASSESSMENT

SIGNIFICANT ACTIVITY

1 x SIGACT

● PALEHORSE RECEIVED SAFIRE

AAF Attacks Resulting in LN Casualties

NSTR

- Over the past week, AAF within Nuristan have slightly decreased attack levels in comparison to prior weeks' trends; expect to see a continued decrease in kinetic activity during the near term as the majority of prior attacks were focused on Barge Matal Village prior to CF withdrawing forces from the area
- Attacks targeting CF across Nuristan will remain minimal in the upcoming days, attacks will remain sporadic, targeting CF bases with harassment style attacks on an irregular basis IOT emphasize that AAF are still occupying the area
- AAF are conducting meetings throughout the Nuristan province IOT distribute funds and plan for future attacks; AAF are planning for future, possibly more complex, attacks to be carried out in the near term; attacks in the Kamdesh District will resume after AAF finish conducting their refitting efforts possibly as soon as the next 24-48 hours, consisting primarily of DF attacks as typically seen in the area

ASSESSMENT

SIGNIFICANT ACTIVITY

1 x SIGACT

● COP NAJIL RECIEVED IDF

AAF Attacks Resulting in LN Casualties
NSTR

- Trends for Laghman this week indicate a decrease in activity from last week; we can expect to see activity for this week to closely follow Laghman's 2008 trends
- AAF who have conducted recent IDF attacks on FOB Mehtar Lam and COP Najil are receiving assistance from operatives reportedly coming from Pakistan; Pakistan based insurgents are assisting AAF with attacks in Laghman to ensure effective attacks occur, as senior leadership has expressed discontent in the number of aggressive attacks targeting CF in the past
- [redacted] may have recently received a shipment of mines that he intends to use on ANSF/CF on COP Najil; the acquisition of these mines indicate increased IED activity throughout the Alishang District in the near term
- AAF are removing the command wire from landmines after emplacing them in order to use the IED later; this TTP may explain the incomplete IEDs found in the NKL area

COORDINATES NOT TO BE USED FOR TARGETING OR NAVIGATIONAL PURPOSES

~~SECRET//REL TO
USA, ISAF, NATO~~

DRV FM: DIA
CL BY-1.4 C
DECL: 20340923

MISSION TYPE: C-IED

EEL's:

1. Report on changing personnel and vehicle activity IVO roads/footpaths.
2. Personnel movements and possible surveillance positions overlooking roads/CF positions.
3. Personnel possibly setting up ambush positions.
4. Personnel meeting in groups.
5. People digging IVO roads/ structures.
6. Groups of personnel larger than three, possibly transporting weapons or supplies.
7. Personnel possibly setting up rocket/mortar positions.

Production:

1. TF ODIN-A provided coverage of 3 target(s).
2. TF ODIN-A produced a total of:
 1. 00 IDPs
 2. 00 Highlight Video
 3. 00 Storyboard Products
3. Supplementary Imagery
 1. 00 National Imagery
 2. 00 TIGR Derived

Justification for Imagery: Shadow was tasked ISO TF Lethal to provide overwatch of a possible IED emplacement and complex ambush of CF near FOB Blessing.

TF-ODIN Jalalabad Comment: All significant activity was reported to the unit VIA mIRC. No significant or EEL related activity was observed.

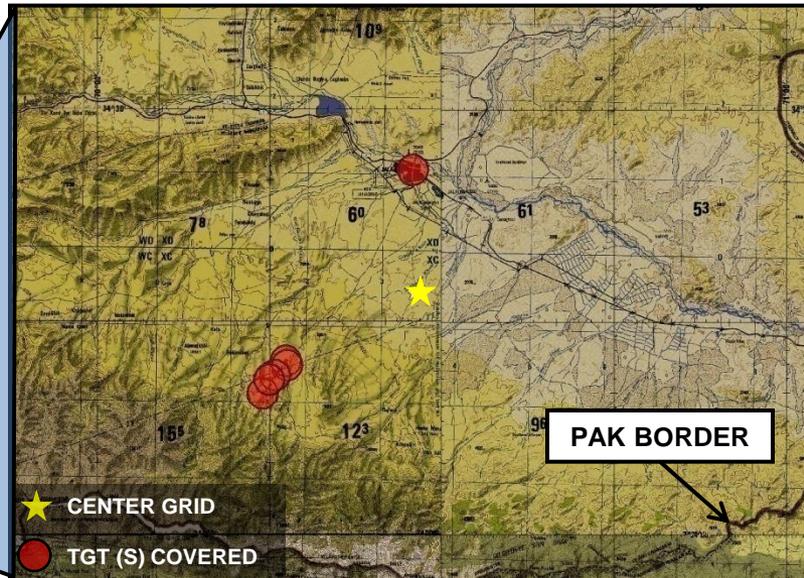

OPERATION: JBAD MARKET ASSESSMENT
MAP SCALE: 1:250K
RC/E PROVINCE: NANGARHAR, AF
CENTER GRID: 42S XC 34571 94684
DATE: 24SEP09
COORDINATES NOT TO BE USED FOR TARGETING OR NAVIGATIONAL PURPOSES

~~SECRET//REL TO
USA, ISAF, NATO~~

DRV FM: DIA
CL BY-1.4 C
DECL: 20340924

MISSION TYPE: SECURITY

EEI's:

1. Identify any suspicious movement.
2. Identify personnel recording or videotaping the patrol.
3. Identify the lack of civilians in a usually heavily populated area.
4. Identify personnel placing or dropping items on the road.
5. Identify any unusual items in or along route.
6. Identify MAMs with weapons within 500 meters of the patrol.
7. Observe the actions of LN to determine patterns of life for future analysis.

Production:

1. TF ODIN-A provided coverage of 07 target(s).
2. TF ODIN-A produced a total of:
 1. 07 IDPs
 2. 00 Highlight Video
 3. 00 Storyboard Products
3. Supplementary Imagery
 1. 00 National Imagery
 2. 00 TIGR Derived

Justification for Imagery: TF Gryphon requests FMV/EO/IR IOT observe the patterns of life in the Jalalabad and to identify any suspicious activity IOT disrupt AAF operations, increase local security, and to increase creditability of ANSF and GIRoA. Identify any suspicious movement, identify personnel recording or videotaping the patrol, the lack of civilians in a usually heavily populated area, personnel placing or dropping items on the road, any unusual items in or along route, MAMs with weapons within 500 meters of the patrol and observe the actions of LN to determine patterns of life for future analysis. The lack of FMV will hinder CF/ANSF general movement in the area, and pose unnecessary risk to both mounted and dismounted troops. The lack of FMV/EO will also compromise follow-on missions in the area requiring timely, accurate, and relevant intelligence IOT action possible targets.

TF-ODIN Jalalabad Comment: All significant activity was reported to the unit VIA mlRC. **Adhoc 6:** At 0602Z TFO-A ARST observed a suspicious truck carrying multiple MAMS IVO a compound at 42S XC 15323 83095. Between 0603Z and 0609Z truck departed compound traveling north on RTE Nara Vista. At 0610Z truck stopped to drop off approximately 10 x MAM IVO 42S XC 16783 84940, which was identified as a possible hospital using TIGR. At 0641Z, TFO-A observed 3 x MAM standing outside a vehicle on the east side of RTE Nara Vista IVO 42SS XC 19553 88292. **Adhoc 7:**At 0641Z, the vehicle began travelling north on RTE Nara Vista and made its first stop where it possibly picked up MAMs IVO 42 S XC 19657 88566. At 0642Z, vehicle began travelling north again on RTE Nara Vista and made its second stop where it picked up 1 x MAM IVO 42 S XC 20098 89270. At 0643Z, vehicle Continued north on RTE Nara Vista and made its third stop where the vehicle picked up 2 x MAM IVO 42 S XC 20385 89556. At 0645Z, vehicle continued travelling north and made one final stop where it picked up 1 X MAM IVO 42 S XC 20692 89904. At this time shadow lost PID of vehicle. TFO-A was able to confirm at least 7 x MAM in vehicle

OPERATION: HWY1A NAI1-4
MAP SCALE: 1:250K
RC/E PROVINCE: NANGARHAR, AF
CENTER GRID: 42S XD 17532 08118
DATE: 24SEP09
COORDINATES NOT TO BE USED FOR TARGETING OR NAVIGATIONAL PURPOSES

~~SECRET//REL TO
USA, ISAF, NATO~~

DRV FM: DIA
CL BY-1.4 C
DECL: 20340924

MISSION TYPE: SECURITY

EEI's:

- 1) identify vehicle traffic ability along route.
- 2) identify number of personnel on foot along route.
- 3) identify vehicles whose speed is excessively fast.
- 4) identify location of each congested location along the route.
- 5) identify and locate any checkpoints along the route.
- 6) identify driver actions at checkpoints to include efforts to avoid them.
- 8) confirm or deny the presence of personnel in possible overwatch position observing hwy1a.
- 9) confirm or deny any evidence of digging along hwy1a
- 10) confirm or deny the presence of large items for storage of bulk homemade explosives emplacements
- 11) confirm or deny any evidence of clearing of trees, shrubs or terrain to obtain los from possible hide site to IED.
- 12) identify any personnel digging on or alongside roads or personnel congregating on the road, or in concealed locations (from the road).
- 13) identify cold or hot thermal signatures located on the road or immediately alongside (within 5-10 meters on either side of the road).
- 14) identify any personnel in positions within 10-15 meters of the road in positions that provide clear line of sight to the road.
- 15) identify any vehicles that appear to be abandoned. Identify any vehicle tracks leading to a thermal signature or indication of disturbed earth/suspicious object.
- 16) identify any indications of new piles of dirt or rubbish to include bags, boxes and any other items larger than 0.5m by 0.5m; concrete blocks or barriers as along side the road that appear out of place (serve no identifiable purpose) or new.
- 17) identify any disturbed earth, broken pavement, speed bumps, shallow pits, or trenches on or immediately alongside (within 5-10 meters) of the road.
- 18) identify any earth movement, ground scarring, or vegetation clearing along side roads (within 5-10 meters).
- 19) identify and annotate size and location of any visual indications of wire, tubing, or cord laid across the road surface or along the road (within 5-10 meters).

Production:

1. TF ODIN-A provided coverage of 02 target(s).
2. TF ODIN-A produced a total of:
 1. 00 IDPs
 2. 00 Highlight Video
 3. 00 Storyboard Products
3. Supplementary Imagery
 1. 00 National Imagery
 2. 00 TIGR Derived

Justification for Imagery: TF Gryphon requests FMV/EO/IR IOT assess flood damage to HWY1a and assist in mission planning for alternate routes along the route. CF, ICW ANSF, prepare to coordinate reconstruction efforts, traffic control measures, and possible vehicle staging areas along the route as logistical moves are halted due to limited traffic ability. Failure to launch FMV will force CF and ANSF to coordinate without proper SA of the extent of the damage along the route.

TF-ODIN Jalalabad Comment: All significant activity was reported to the unit via mirc. At 1101z, TFO-A observed a convoy that was involved in an IED blast IVO 42S XC 01582 95213. At 1146z, shadow conducted a RTE scan from 42S XC 0277 9768 to 42S XC 0076 9471 with NSTR. At 1200z, shadow returned to conduct a 500m scan around convoy with NSTR. Finally at 1348z, shadow conducted one final RTE scan from 42S XC 0277 9768 to 42S XC 0076 9471 with NSTR

- ★ 22 August – 20 September – Ramadan
- ◆ 3 September – Preliminary results
- ◆ 16 September – Lailatul-Qadr (Night of Power)
- 17 September – IEC certifies presidential election
- ☆ 20 September – Eid-al-Fitr (Generally lasts 3-5 days)
- 🇺🇸 01 October – Presidential run-off, if needed
- 🇺🇸 17 October – Inauguration (if no Run-off)

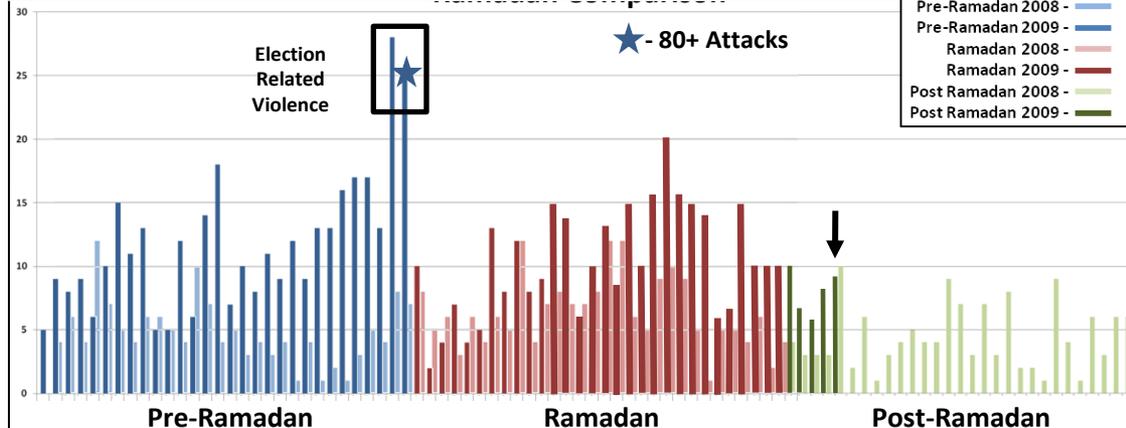

Significant Date Threats and Assessments

Ramadan

- During this period, there has been no decrease in activity that has been attributable to Ramadan. The increase observed during the latter part of the Pre-Ramadan period is a direct result of election related attacks. Supply issues will be the biggest factor contributing to the decrease observed during this Ramadan period. Reporting continues to indicate attacks will commence once supply levels return to acceptable amounts.
- The timing of Ramadan this year will likely see insurgent and criminal activity remain increased across N2KL due to favorable weather conditions, the peak of the fighting season, as well as election related events and a possible election run-off.
- Attacks will likely recommence once supplies return to an acceptable level. These attacks will focus on CF bases to avoid local casualties. Election results being released just after the Laiatul-Qadr (Night of Power) observance could provoke demonstrations and increased propaganda. Large crowds will present viable targets for possible suicide bombs however to avoid negative IO, AAF will refrain from such attacks instead targeting ANSF, CF and GIROA facilities.
