132

CPATT IPLO DAILY SITREP

10 July 2007

Baghdad (MND-B) [redacted]

Baghdad [redacted]

(b)(3), (b)(6), (b)(6)

(BC0001) Abu Ghraib District HQ: The Team met the Station Commander and discussed Station operations. He advised of problems with the IA General in charge of Muthana Base. Information indicated the IA General is a friend of the previous IP District Commander which may be the basis for these problems. The Station Commander advised that, on 08 July 2007, the IA prevented an IP patrol from responding to an explosion near Al Nassir Wa Salam LPS. Information revealed the patrol was fired on (above their heads) by members of the IA manning a Checkpoint on the route. The Military counterpart MP Commander will attempt to resolve the issue with the land owners and the IA. The Team is currently investigating the possibility of obtaining fuel (on an emergency basis) from the IA. The Station Commander was supportive of the idea, but felt the IA would not provide any assistance.

(BC0003) Airport Police Local Police Station: The Team held a meeting to discuss future operations and meet a new language assistant assigned to the Team. The Team will continue to provide Training for IPs and monitor their routine duties at the BIAP. The Training class scheduled had to be cancelled due to IP personnel being assigned to Baghdad Police Academy for other classes.

(BC0008) Al Adhamiya Traffic Police Station: The Team met the Station Commander to discuss Station operations. He advised all was well at the Station and there were no problems to discuss.

(BC0010) Al Bayaa Local Police Station: The Team arrived at the Station after the shift change (guard-mount) and observed Major [redacted] directing Command Staff to assign Patrols. The Team met Major [redacted] and discussed the Station Operations Logbook (police journal/significant acts). The logbook will serve as a permanent record for providing statistics and briefing information to personnel at shift changes. The Team provided soccer balls to the neighborhood children during the visit.

(b)(7)(c), (b)(6), (b)(7)(c)

(BC0011) Al Dorah Local Police Station: The Team met the Station Commander and discussed operations. The Teams' Military counterpart is planning to provide several computers, printers and copiers for Stations in the District. The Station Commander was asked to obtain a supplier and cost for the items including extra ink cartridges. The Station continues to operate without any electrical power. The Station Commander advised information indicated the Manager of the power station promised that the Station should receive 40% power by 12 July 2007.

(BC0012) Al Dorah Patrol Police Station: The Team conducted a short visit to the Station. The Teams Military counterpart is experiencing a personnel shortage due to 3 members being airlifted to Germany last week for medical treatment.

(BC0026) Al Karamah Local Police Station: The Team met the Captain (OIC) and discussed Station operations. The Team conducted a Foot Patrol with IPs and no incidents were experienced.

(BC0056) Al Sa'adoun Local Police Station: The Team conducted 1 Joint Patrol with 4 IPs and set-up a Hasty Checkpoint with no incidents experienced.

Compiled by [redacted]

(b)(6), (b)(6), (b)(6), (b)(6), (b)(2), (b)(6)

CPATT IPLO DAILY SITREP

(BC0063) Al Saliyah District Police HQ: The Team conducted a short visit to the Station. The Teams Military counterpart is experiencing a personnel shortage due to 3 members being airlifted to Germany last week for medical treatment.

(BC0081) Bab Al Sheikh Local Police Station: The Team met the Station Commander to discuss operations and he reported there were no significant incidents in the AOR during the past 24 hours. The Team conducted 1 Joint Patrol with 2 IPs and no incidents were experienced. The Teams' Military counterpart supplied 80 liters of fuel for Station operations. The Commander advised there were 3 Officers and 63 IPs working this date. Further information revealed there were 5 mounted patrols and 4 unmounted patrols scheduled for this date.

(BC0086) Baghdad Main Provincial Police HQ: The Team traveled to PDOP and met the Headquarters Staff personnel. The Team met [redacted] warehouse clerks and discussed operations. The Team met Lieutenant Colonel [redacted] who advised an unsuccessful attempt to kidnap him was made on 08 July 2007. Details revealed he was driving to work (traveling across Baghdad College Bridge South of Route Irish) when 8 suspects exited their vehicles and pointed their Glock pistols at him. He continued driving past the suspects while leaning down in his vehicle (out of the line of fire) as they began firing their weapons at him. Lieutenant Colonel [redacted] stated he drove to an IP/IA Checkpoint and reported the attack. The suspects were occupying gold or yellow Opel 4 door vehicles and no further information was available concerning the attack.

(BC0105) Criminal Investigation Directorate Unit 2: The Team inspected locked offices at the Station and no issues were found. The Team met the General to discuss previous issues and future objectives for the Unit. No Traning was conducted due to the Station FTO being off duty.

(BC0119) Al Rusafa Patrol Station: The Station was unable to provide IPs for Training due to a class being presented earlier in the day. The IP stationed at the JSS requested 1 handheld radio so as to maintain communications with the ECP. The Team observed the IP manning the JSS is doing an excellent job of logging incidents and passing information to other agencies. The IP appears to have taken a personal interest in the successful operation of the JSS.

(BC0120) Rusafa Directorate Police HQ: The Team found the Stations' Computer Department requires repair parts for some of the equipment. The Logistics Department is scheduled to receive new office supplies for Station operations. Information revealed the Internal Affairs Section has not received any further information concerning 25 IPs arrested for accepting bribe money at Checkpoints. The Team met the Station Commander and discussed electrical power problems at Ademiyah Station and a possible repair date for air-condition units. The Team documented information concerning the Stations fuel containers and the storage capacity. The Administration Department requested additional office supplies.

Babylon (MND-CS/S) [redacted]

Al Qadisiyah [redacted]

Due to a CC mandated stand down as a result of threat level, there were no missions scheduled.

Compiled by [redacted]

7/10/2007

FOB Echo: Training was conducted for 15 IP's from the Province. The IP's were given a "Train the Trainer" Combat Life Saver Course. The IP's appeared attentive and participated in the class. Each IP was given a combat lifesaver bag to take with him to his IP Station.

Babil

(BB0032) Babil Provincial Police HQ: The team from FOB Reo met with General [redacted], commander, and learned, the main problem delaying the opening of training for the new ERU at FOB Charlie was with the lack of funding and or cooperation from the Provincial Council. FOB Charlie is without any of the utilities to become fully operational. There are 3 generators in place, which could at least temporarily supply the required amount of electricity. However, there are only 3000 liters of fuel for these generators. Using rough calculations, this is only fuel enough for approximately 24 hours of operation. Once the electrical problem is resolved, the water supply issue (that being the system's pump not having electricity) will subsequently be eliminated. There is no immediate resolution for the sewage, housing or DFAC issues. General [redacted] explained most local contractors are reluctant to provide any services without being paid in advance due to the poor track record of the Provincial government in paying fulfilled contracts. Generally, it is uncertain when the training of the ERU will commence. There was a brief discussion of the possibility of sending the entire contingent to Kalsu for training since that section apparently started on time.

(BB0500) Al Hillah Regional Police Academy: The team arrived at the Al Hillah Academy and met with incoming recruits for the new class that started on 07/08/07. The team met with 467 of the recruits as they arrived for the start of the class the next day. The team toured the different areas of the facility visiting the Shooting range, the gym, and the restaurant as well as the parade grounds and admin offices. The Academy is scheduled to train some 1138 new recruits

Diyarh Local Police Station: The PTT Team from FOB Kalsu met with Captain [redacted] at the Diyarah Patrol Base. Captain [redacted] stated he is expecting 138 IP's and three Officers to man the Diyarah station. As of today, 60 IP's have arrived at the station, 30 of which were sent home until the station is fully operational. The remaining 30 IP's are staying at the station until further notice. Coalition and IA forces currently man the station. Captain [redacted] and his IP's will not be allowed to occupy the station until the forces relocate to a facility that is scheduled to be in operation by 15 Aug 07. Until then, the Captain and his IP's will be operating out of the IHP station. A dedicated AO for Captain [redacted] and his Diyarah IP's is being constructed on the IHP compound but is not finished yet.

Captain [redacted] has requested his IP's work with the IHP forces to gain experience until they can occupy the Diyarah station. The captain is scheduled to receive three vehicles. He has one on hand as of today. He has received 4 PKC's, with 3,000 rounds of ammunition. The 75 AK-47s received at the IHP station on 07JUL07 were for the Diyarah station. He also received 10,000 rounds of AK ammunition. Captain [redacted] has not requested any pistols or 9mm ammunition. He is concerned about a known militia presence within the IA forces now occupying the Diyarah station and has been advised to gather intelligence on the suspected militia members for further action.

Wasit

Due to a shortage of military personnel, no missions were conducted on this date.

FOB Delta: The team began research on items needed for range operations during the Crucible training sessions. The team also began discussion and development of additional courses to be offered to IP's in the region.

CPATT IPLO DAILY SITREP

Dhi Qar / Al Muthanna (PIC)

PIC members attended a SSR meeting with CF regarding daily operations and intelligence. A planned meeting with Dhi Qar IPS Training Commnder, Brigadier General [redacted], and Colonel [redacted] concerning the Dhi Qar Police Academy was cancelled. The meeting was rescheduled. Another meeting was cancelled this morning with the Dhi Qar TSU Commander. PIC members conducted training for the provincial instructors at the Al Muthanna Police Academy. Team members will be returning in the near future. In addition, other team members will be conducting a meeting with the Al Muthanna PJCC Commander concerning security planning. Team members also relayed requests for information to regional command regarding financial issues with the IPS in both provinces. PIC Financial team member will provide more details to the regional PTT chief upon return from desert operations.

Future plans include a key leadership engagement with the Dhi Qar Provincial Logistic Officer, and PJCC Commander. The team will be meeting with Dhi Qar IPS Training Commander, Brigadier General [redacted], this meeting will be taking place in the upcoming week. PIC members will be performing T3 (Train the Trainer) in the near future for the Al Muthanna Police Academy. Team members will be conducting an assessment of the Academy in the near future to help facilitate this training. PIC members are planning follow up meetings with Lt. Col. [redacted] and evaluate the renovations that have been done on the Al Muthanna PJCC (Provincial Joint Communications Center) as well as check the status of his continued work on the Provincial Security Plan. This may take place during the Al Muthanna Academy training. Team members will continue to assess and distribute logistical MTOE (Military Table of Equipment) to help facilitate equipment distributed to the IPS (Iraqi Police Service) of both provinces, and PIC are exploring the feasibility of obtaining training for the Al Muthanna Provincial Mobile Garage Personnel.

Tikrit (MND-CW)

Diyala

(TD0110) Diyala ERF 2 Facility: PTT-D met with COL [redacted] and was told that ERF 2 still maintains strength of 390 IP. Of those, approximately 100 are on leave. COL [redacted] told PTT-D that he is still having trouble getting equipment, such as weapons and ammunition, from IPS-HQ.

Brigadier Gen Subhi Academy: The IP instructors and PTT-D trained 40 IP at the range today. All IP took part in a practical shooting course of fire with emphasis on stance, sight picture and weapon control. The IP then received training on building entry at the shoot house.

Scorpion Academy: The PTT trained 25 IP today in building clearing. There was a practical exercise in small and large buildings. The students were also instructed on IED placement in structures and common booby traps used.

Salah Al Din

(TA0080) Salah Al Din Provincial HQ: PTTP met with MG [redacted] and discuessed several subjects. MG [redacted] advised that he had been to the village of Amerili after a VBIED detonated there on 8 July 2007. He said that the Chief of Amerili has been fired and he is currently in the transitory jail pending an investigation. He Said that the District Chief from Sulliman Beg has also been fired from his position. He advised that these Chiefs have

been replaced by LTC [redacted] and MAJ [redacted] is the new chief of Amerili. MG [redacted] also advised that MOI has approved the hiring of 270 more IP. MG [redacted] advised that he is waiting for the list of the new IP to arrive, so that they can be brought to the TIPS academy for testing. He also advised that the newly hired IP will be requested to bring their own weapons to work with them. He said that the stations will supply the ammo for these weapons.

MG [redacted] spoke of the hiring of 130 new IP for Bayji. He said that he has signed off on this order and 50 of these IP will go to Sanyiah and 80 of them will go to Bayji District HQ. MG [redacted] advised that these are new hires and they are not replacements for fired IP. MG [redacted] advised that he has not received a list of IP to fire from Bayji. He said that once he does receive this list Bayji will be able to hire more IP to replace the fired IP.

MG [redacted] advised that there have been 7 new IP vehicles that have been sent to Bayji to replace damaged vehicles. He advised that since the damage to the station he has only received a request for vehicles and 5 Million IQD to assist in the rebuilding of the station. He has not received any requests for any other supplies. When asked if Bayji was possibly using this money for fuel, MG [redacted] confirmed that MAJ [redacted] came to PHQ 2 days ago and picked up the July allotment of fuel money, 1.5 Million IQD. He advised that the 5 Million was to be used for repairs to the station.

PTTP met with MAJ [redacted] and requested a record of payroll for all 13 districts within SAD. PTTP received the list and will have it translated within the coming week. MAJ [redacted] stated he had completed the 2008 budget and sent it to MOI. The new budget includes a 30% increase from the 2007 budget. The total 2008 budget request is 179,187,552,000 IDN. All of the budget line items are the same as the 2007 budget.

PTTP asked the number of uniforms received for the 274,900,000 IDN paid to the contractor from this year's budget. The MAJ said he has no idea and only the supply personnel would know. PTTP questioned how that much money could be spent without a receipt for the items. The MAJ stated LTC [redacted] has the receipt and has not turned it into finance. The total amount of uniforms purchased this year is 4575. This includes shirts, pants, boots and belts. This issue has been given to PTTP/logistics personnel.

PTTP asked how much money Tuz was allotted for fuel in the 2007 budget. The MAJ stated Tuz is given 1,000,000 IDN a month, which equals 12,000,000 IDN a year. However, the fuel funds are depleted and SAD has been given their budget from the Governor. The fuel amount has been doubled for Tuz starting this month. The MAJ further stated he has contacted Tuz three times and requested they come to Tikrit for their fuel money, as of this date no one has picked up the money. The MAJ said all districts are issued 1,000,000 IDN for fuel a month except for Samarra, Bayji and Shargat. Samarra, Bayji and Shargat are issued 1,500,000 IDN per month. All districts will increase to 2,000,000 IDN per month due to the Governors budget.

(TA0013) Al Alam District HQ: PTT traveled to Al-Alam District Headquarters to conduct PSMR operations. PTT was able to schedule Dismounted Patrol Training that will be conducted at FOB Danger in the near future. PTT informed COL [redacted] of the up-coming training.

(TA0601) Tikrit Main LPS: PTT went to Tikrit Main to talk to the Chief of the station, LTC [redacted]. He had been put in charge of Tikrit Main just recently; he was the former Chief of the Al Owja PD. PTT told the Chief that they would arrange for contractors to raise their walls and redesign the jail. Information regarding the submission of paperwork for the

request was given to the LTC. PTT also talked with the Logistics Officer to gather information for the PSMR.

(TA0087) Thar Thar Station: PTT met with National Police MAJ [redacted] and Warrant Officer Abid both in joint control of Thar Thar. PTT observed the NP doing force protection on all four corners of Thar Thar Station. This has never been the case in the past. When asked how many personal were assigned to Thar Thar, MAJ [redacted] stated that the NP have 61 NP assigned, and WO Abid stated that he has 54 IP assigned but only 11 work per shift.

Camp Bernstein (Tuz): The IP were given their final exam practical by the IP instructors and PTT. The students showed that they retained most of the knowledge from the past few weeks. There were a few IP that needed to be guided to perform the correct task at hand, but overall students performed well.

FOB Wilson (AD Dwar): PTT started out with having the 9 IP from QRF go through some dry fire drills. The medic then gave the combat medic class. We then continued with building entry drills. The IP are looking good going through the dry fire exercises and did well in the building entry drills.

Mosul (MND-N)

Ninewah

(MN0056) Ninewah Provincial Headquarters: PTT spoke with BG [redacted], OIC TOC, and received a briefing on the significant events that occurred within the past 24 hours in Ninewah Province. He advised that a carjacking and kidnapping occurred to a civilian male in the Old Sunauah neighborhood. A female FPS officer was murdered at Mosul University. Three mortar rounds impacted and detonated on 1st ERB with no injuries, but two additional mortar rounds impacted and detonated on a nearby civilian house and injured a child. A civilian male was murdered by person(s) unknown in the Al Jazauier neighborhood. An IED was emplaced under the driver's seat of a Toyota owned and operated by an IP resulting in his death and the death of an IP passenger. AIF engaged a 4th ERB patrol resulting in the destruction of one AIF vehicle and the capture of a second one. In the seven-teen Tumouz neighborhood, person(s) unknown murdered a civilian male by shooting him to death. Two members of the Mosul City Council were murdered near their homes by AIF.

PTT spoke with MG [redacted], PDOP, concerning the relocation of Ninewah SWAT from its present facility to the PJCC compound. MG [redacted] agreed with the PTT recommendation and directed that the SWAT unit move to the PJCC compound for billeting within the week. PTT met BG [redacted], Finance Officer, and requested recent payroll rosters for all IP and Officers assigned to the Al Hadba District. PTT will perform a payroll and personnel audit of this district due to all the complaints of alleged payroll irregularities in this district. PTT met with staff members of the Personnel Department and requested updated personnel roster of all IP and Officers of the Al Hadba District. This information will be compared against the payroll rosters currently under review. PTT also received an update on new employees as of 01Jun07 and noted that 1,249 have been hired by NPHQ for IP duty.

(MN0099) Major Crimes Unit/Major Terrorist Unit: PTT met with COL [redacted] of MTU and delivered two rolls of concertina wire for the detention facility that is to be built. COL [redacted] stated that COL Fisal of the NPHQ Planning Office stated there was no money in the budget for additions at his facility. This information was passed to MG [redacted], PDOP for his consideration and assistance in budgeting for the improvement. PTT also discussed the issue of IP that are detaining suspected terrorists without proper evidence. COL [redacted] stated under current requirements, if a suspected terrorist is detained the arresting IP are

required to produce all evidence. Further, the arresting IP are to be present to appear before the Investigative Judge before the detainee will be accepted by MTU. COL [redacted] stated that all IP have begun conforming to this policy and it is relieving some of the case load that the MTU Investigators are tasked with. COL [redacted] stated that they were unable to obtain the identification of the suicide bomber that attacked his residence on 05Jul07. An attempt was made utilizing the BATS system to match his fingerprints with know suspects but no match was found. There had been no documents on his person at the time of his death.

(MN0220) Al Karama DHQ: PTT met with the commander who advised the PTT that his IP were on patrol and utilizing community policing skills by gaining information from the citizens. The commander advised the PTT his patrols have discovered that enemy forces have moved out of the city of Mosul for the most part, and are concentrating on the outlying areas such as Badoush and Tal Afar. It was unknown how accurate this information is. PTT noticed that the force protection was very good on this visit with all guard posts manned and security at the front gate was heavy.

(MN0928) Abi Tamaam DHQ: PTT met with district commander COL [redacted]. He advised the PTT activity on this date was normal. Thirteen patrols are being conducted this date. Six of which are mobile. COL [redacted] stated he will be unable to conduct any additional mobile patrols today or any day during the evening or night due to fuel not being provided. COL [redacted] is very frustrated and concerned. The fuel shortage is causing COL [redacted] not to be able to provide adequate patrol in the community. The visibility of the IP is not as dominate as in the past few months. COL [redacted] stated that he is doing the best that he can with the fuel, but it is not enough. COL [redacted] stated he blames the fuel shortage on the death of CPT [redacted] from the Al Zahor station. There was not enough fuel to send an additional IP to assist CAPT [redacted]. Therefore CPT [redacted] was on mobile patrol as a single unit with only one additional IP as a passenger. Twenty new IP have been transferred from the district station to stations throughout the district. Twenty-five new IP have been fired. Abi Tamaam district station is back to 150 IP. All 150 IP are being paid.

(MN0201) Ninewah SWAT: PTT met with MG [redacted] and discussed moving the SWAT team from their sub standard building into the Provisional Joint Communications Center, nearby. This move would benefit the SWAT team in terms of quality of life issues and provide a dry storage area for weapons storage. CF LNO at PJCC is also supportive of the move as it will provide the PJCC with a strong force protection unit. MG [redacted] agreed and consented to the move. He agreed to write the order and have it dispatched to SWAT command on 12July07. PTT made contact with SWAT command relaying the move information. PTT met with CF Special Forces command and was advised of an upcoming mission. The target package particulars and timeline were briefed to SWAT command.

(NO FFID) 5th Emergency Response Battalion: PTT traveled to the 5th ERB and met with COL [redacted]. PTT discussed training with the 5th ERB. COL [redacted] introduced PTT to LT COL [redacted], one of the 5th ERB Administrative Officers. PTT discussed the upcoming training class for the training officers to ensure they would be attending the class. PTT began collecting data for the IPFSR on this station.

(TA0278) Ash Shurgat: PTT reiterated the importance of force protection. PTT was informed that the IP can only patrol approximately one hour due to fuel shortages. When they patrol, the IP are sent to highly distressed areas. PTT is aware that the station still lacks a generator and the city supplied electricity is intermittent at best. The power is up and down through out the day it makes police functions difficult.

(MN0076) Tall Afar DHQ: PTT picked up IB Ibrahim and traveled to Sinjar to meet with IA and IP, who were conducting a joint raid. PTT then traveled to Bulayj LPS, to meet with COL [redacted]. PTT was informed by COL [redacted] of a weapons cache; the IA had found and turned over to IP. Other CF elements were also on location and took possession of the weapons cache that contained an RPG and TNT. IB [redacted] stated his IP will take the remainder of the cache, which consist of twelve magazines, two AK's and six tubes for an RPG.

PTT also met with COL [redacted], in regards to IP on location and IP resigning. COL [redacted] stated that 67 IP had quit and 60 were left for the station. IB [redacted] sated there are 100 IP in Tal Afar and 50 in Mosul that are ready to be moved to Bulayj LPS, but cannot do so without signed orders from MG [redacted]. Joint operations were stressed to COL [redacted].

(MN0225) Al Mumi: PTT responded to an unnamed road intersection near the Al Mumi LPS to investigate a report that the Al Mumi IP was involved in a gun battle. The shooting incident led to the wounding of two IP. One IP is reported to be seriously injured. Details at this time are unclear. Initial reports indicate that the Al Mumi IP were investigating a false checkpoint and were attack with small arms fire by four AIF. One AIF was killed and three suspect insurgents were captured. During this time most of the resources of Al Mumi LPS was involved with the securing the site of the shooting. A report came in of an attack on the Al Mumi IP station. There were no injuries reported in the second incident.

At Tamim [redacted]

No station visits reported on this date.

Irbil [redacted]

(MI0030) Emergency Police – SWAT: PTT met with LTC [redacted] at the Irbil Emergency Police Station. PTT inspected the new construction at the station that includes office space and sleeping quarters. The new additions to the station make it much more suitable for the 302 IP stationed at the facility. There is still not enough room, but they are making the best of what is available.

PTT inspected the ammunition supply and found that the station is in need of 7.62 X 39mm and 9X19mm ammunition. There is enough duty ammo, but no training ammo. The station is a tactical unit and sustained training is of the utmost importance. The SWAT unit is called upon for missions daily. These missions are sometimes as simple as guarding the soccer stadium during a major sporting event, but sometimes they are called upon to travel across the country to Baghdad or even to the Kuwait and Iraq border. These long trips are completed in a standard Chevy 3500 pickup that has no armor plating. The SWAT team should have armored vehicles, or at least armor plating in the current stock vehicles. In the past, the SWAT team has been attacked in areas outside of the Kurdish Region and had to rely on the assistance of the CF for medical and QRF. The Kurdish IPS was shunned by the Arab IPS, arguably because of ethnic bias. The SWAT team should be well outfitted and equipped, but they are lacking in certain areas. PTT will present these issues to the PDOP and try to correct the shortfalls.

Previously the SWAT team was responsible for traveling to Baghdad monthly to both transport and escort the KMOI operating budget from the MOI in Baghdad. This trip was very dangerous for the SWAT team because the funds were only available on a certain day of each month. The SWAT team was not equipped with the proper vehicles to escort the huge amount of money that was required approximately twelve tons of ID. The SWAT team has not been called upon to do this mission for the last two months. The Peshmerga Special Forces have been escorting the funds back to Irbil from Baghdad. The Peshmerga SF has

light armored vehicles that offer more protection for personnel and allow them to fight through an attack. This convoy is regularly attacked and there should be a better system put into place for the transfer of this large amount of money. PTT will look into this matter further and try to identify a cost effective solution that will be amenable to the KRG.

(MI0935) Mirra Supply Station: PTT traveled to Mirra Supply) Station and met with 1st LT [redacted], Logistic Officer to deliver four emergency generators to be issued to the Districts. LT [redacted] explained all the Districts within the Irbil Province except those located in Soran Directorate are within his responsibility. He is supervised by BG [redacted] from the Irbil Provincial Police Directorate and BG [redacted] of Irbil Provincial Police Headquarters under the direction of the Provincial Director of Police MG [redacted]. LT [redacted] advised he would provide a sub hand receipt to the PTT once the issue of the generators is planned and formulated. PTT informed LT [redacted] that more generators would be forthcoming should funding be approved and equipment acquired. PTT informed LT [redacted] that MG [redacted] would be consulted should the generators be acquired. PTT provided copies of hand receipt for the four-teen other generators that were issued in the Province for his record.

LT [redacted] explained that his section currently consist of eight IP and himself for a total of nine IP. All are trained and equipped as IP and have additional duties as welders, mechanical, and technical skills required for the section duties. He stated the duties of his section is to receive the request for logistics including, uniforms, weapons, ammunition, vehicles, radios and facility furniture and other items, to ensure the approval of the Directorate and Provincial Logistic Officers, to budget the request and acquire and issue the equipment along with the repair of items which are not mission capable and can be repaired within the budget and value of equipment. He stated the number of his IP will vary due to some being trained in specific duties, causing the IP to be reassigned throughout the province.

He further stated the vehicle maintenance section is also co-located at this facility and once he issues the vehicles they then are controlled by the Vehicle Maintenance Department. He stated that he, along with the District Logistic Officer issues and accounts for all items acquired from the CF and CPATT and any other agency that provides items to the IP in Irbil Directorate. He advised his staff was recently assigned to the Koya District and are rapidly making effort to bring the shortcomings up to the acceptable standards. He is encouraging all the District Logistic Officers including Koya to make known all their equipment requests in writing. He has advised the Districts to send the request through the formal channels to facilitate their request.

(NO FFID) Camp Irbil: PTT gathered data on products from the local economy to purchase for the IPS. The products will be purchased by funding provided by the ROKA ISF. PTT will continue to research products and supplies that will assist the IP in their service. A finalized proposal will be presented to the ROKA for approval and the products will be purchased through a local contractor.

(MI0044) Khabat District Police HQ: PTT met with station commander from KDHQ and followed up on a previous discussion about the importance of the Community Policing program.

(NO FFID) CIVIL DEFENSE POLICE: PTT visited the Civil Defense IP to gather information on the level of training they have received for their EOD robot. PTT also discussed the mission of the Civil Defense. Station commander BG [redacted] advised PTT that Civil Defense IP respond to Fire calls all around the city and helped with other areas of Fire Investigations. BG [redacted] will gather information needed for advancement of his men.

The certificates will show their level of training and who trained them. PTT will return tomorrow to obtain copies of the certificates and forward them to the proper contacts.

(MI0100) Soran Directorate Police Headquarters: Police Transition Team traveled to Soran Directorate Headquarters and met with Director of Police BG [redacted]. BG Saeed expressed appreciation for the PTT issue of the Emergency Generators last week. BG [redacted] and PTT formulated an issue plan for the Local Police Station that could best utilize the equipment.

PTT advised BG [redacted] that sub hand receipts for the equipment are requested when Logistic Officer, LT [redacted], issues the portable emergency generators to Soran Swat and Local Police Stations in Choman, Soran and Mergasor Police Districts. PTT will further coordinate and monitor the delivery, issue, hand receipt and familiarization procedures for implementation and use of the generators at the stations to insure the generators are properly utilized and maintained. LT [redacted] will coordinate the delivery and issue to the designated local police station and obtain sub-hand receipts from the station commanders for the equipment. PTT will issue further guidance and mentor and monitor the use of equipment in future visits to the stations. The equipment will be issued to stations that have no or little access to other power source to re-charge the batteries on recently issued station base radios, cell phone and limited lighting at the stations and remote crime scene along with check points as required. BG [redacted] also expressed appreciation to the team for the instruction that was presented to policemen to qualify them as instructors of police. He advised he looks forward to the lesson plan translation to Kurdish so the instructors can continue to refresh the subjects the police were presented in the academy. He requested PTT do an assessment of the District and Stations on computer equipment and assist him in formulating logistical requests and if possible provide training to enable the Districts and Local Police Stations to enhance the use of this equipment for reports and messages that are required within the Directorate. He agreed that wireless communication would greatly reduce fuel costs and vehicle wear and tear if hand written reports and requests which are hand delivered by vehicles in remote long driving distance.

He again stated he has considerable fuel shortages in his budget, especially with the diesel trucks that were issued by the CF. Soran District Headquarters currently has internet capability and like all the other District Headquarters and majority of local police stations are co-located in Directorate governmental buildings with telephone lines and computer with fax capability, could be utilized to send documents pending further internet capability being developed.

(MI0001) Irbil Provincial HQ: PTT visited PDOP to deliver copies of the handover receipts for generators delivered from TIFF funds. PDOP was hosting a meeting with IP officials from the Sulaymaniyah and Support staff from the Irbil provincial Police.

(No FFID) Irbil Crime Lab: PTT and BC met with MG [redacted], Director of the Irbil Crime Lab and discussed a case he was working. MG [redacted] invited PTT and BC to meet the Irbil Governor. After a phone call to the Governor MG [redacted] advised a visit was scheduled. PTT took advantage of that time to visit the MOI buildings nearby to view the reconstruction ongoing there to repair the damage from the 09May07 bombing. Workers there advised PTT it should be about two months until the reconstruction is complete and the MOI and staff can move back in. CF is reportedly providing six million for the reconstruction project.

Sulaymaniyah [redacted]

(TS0008) Sulay Traffic PHQ: PTT met with LT. [redacted] to discuss and coordinate the up coming class for the Basic Motorcycle Course. Class will run for four consecutive weeks, with each class lasting five days. The course is set to begin on Oct 14th 2007. PTT also discussed the reliability of the Traffic Police motor bikes. LT [redacted] acknowledged that the bikes are not very well made and he was concerned for the safety of the IP. PTT advised him, that the motorcycles did not hold-up very well with the past Advanced Motor Course. Major problems related to the motorcycles are severe brake fade, clutch issues and cycles overheating from the outside temperatures.

(TS0008) Sulay PHQ: PTT met with two contractors and went over the Vehicle Maintenance project for Sulaymaniyah. The third contractor was unable to meet with PTT and asked to reschedule, due to unforeseen reasons. The bids will be submitted when all three have been obtained, in hopes of approval for a new vehicle maintenance facility.

The team completes the final week of the 40-day advanced accident investigations course at the Sulaymaniyah Police Academy. This course is at the request of MG [redacted], the Provincial Director. To insure his IP investigators have an adequate understanding of traffic accident investigation. This is due to the IP, not Traffic IP have the duty under Iraq Law to present potential criminal cases to the Investigative Judges in fatality cases.

Today the team administered a final written examination to the students. This was conducted to evaluate their level of understanding and knowledge, based on the past five weeks of training. In addition, the written examination will assist the team in an evaluation of the course content as taught, to determine if changes are needed to the course curriculum.

(TS0034) Dukon DHQ: COL. [redacted] has replaced COL. [redacted] as commander of this District. He has been in charge for the last six months. The Commander was assigned in Penjewen prior to being assigned here. He has been a police officer for 20 years and is a graduate of the police college in Baghdad.

The DDHQ is housed in a newly constructed building owned by the government. The building also houses the Mayors office, Economics office, Asaish, ID division and the Tourist division. The station is mainly an administrative facility with the main police duties falling on the Dokan police station just down the street.

(TS0047) Khalakhan LPS: Commanders bio prepared for this station. The station was fully staffed and the staff was busy and very professional. The force protection was not sufficient and a class in force protection will be provided in the near future. The IP have moved into the new police station as of two months ago. The building was completed a year ago but had no power or running water. They now have the power and water and have started operations from this building.

(TS0048) Khdram LPS: The Commander's bio was completed. PTT performed a station check at this station and every thing was running very professional and without problems.

(TS0071) Ranya DHQ: PTT performed a station check at this station. The force protection was very professional and alert. The IP at this station are all busy and professional. This attitude is a direct reflection on the leadership ability of the station commander. The station is in need of logistical support. Written request have been sent without end and still there have been no answers to the requests. The AOR is running well and the community has been a big help on several cases.

(TS0609) Pshdar DHQ: The IP advised there have been several problems at the Kurdish/Iran border. The Iranians have been causing problems on a daily basis. The station

is in need of weapons, they have AK's but out of the 30 they have; only five are in working condition. The IP advised he would gladly give up all 25 for one pistol. They were given Bullet proof vests and plates; problem is the plates are not for the vests. He has written ten requests to Gen [redacted] but all were denied. This AOR is in need of items to perform their daily functions as IP. (b)(6), (b)(6)

Dahuk (b)(3), (b)(6)

(MD0628) Ahemdi DHQ: PTT began a defensive tactics class that will last approximately five days. PTT instructed twelve IP that the station commander had chosen. The PTT were unable to finish the training do to an emergency call that the station commander received from the Deraluk LPS over the new radios. There was a riot, over a land dispute in the area. Upon receiving the call, the IP were ready and prepared to respond in approximately two minutes. The QRF was very quick and effective. The PTT will return tomorrow to start on day two of the training. The PTT also issued the station commander a memory card for his camera and flex cuffs.

(MD0641) Semel DHQ: PTT visited the Semel DHQ and met with the station commander. The DHQ supplies administrative and supervisory support for the stations in their district. They also provide guards for the bank, hospital, mayor, government buildings, and bodyguards for the station commander. The station commander advised that the low pay is becoming a serious issue. Logistically, their main needs are for fuel for their vehicles and a computer for the station commander. There is no training presently being conducted. The station commander advised he will consult with his staff regarding what training is needed and later report to the PTT.

Ramadi (MND-W) (b)(3), (b)(6)

Al Anbar (b)(3), (b)(6)

(RA0002) Provincial Headquarters: Unknown visit due to lack of communications with Police Transition Team (PTT), the Daily Station Report (DSR) will be delayed.
