CPATT IPLO DAILY SITREP

14 July 2007

Baghdad (MND-B) _____ (b)(6), (b)(3), (b)(3)

Baghdad _____

(BC0003) Airport Police Local Police Station: The Team met with the Global Security Operations Manager to discuss security issues and exchange information. The Team briefly met members of the IP Command Staff and discussed Station operations. The Team monitored the morning Guard Mount and no issues were observed. The Team inspected the Detention Facility and no problems were detected. The Team observed and mentored IPs during their regular assigned duties at the Terminal.

(BC0011) Al Dorah Local Police Station: The Station generator is operating 13 hours per day using approximately 330 liters of fuel and the Deputy Commander has requested additional fuel. Information revealed the Station Commander has not selected a designated logistics person. Additional information indicated electrical power was scheduled for connection to the Station on 15 July 2007. The Team observed the Station to be unsettled due to the Station Commander leaving.

(BC0020) Al Kadhimiya District Police HQ: Training was conducted for IPs covering Weapons Safety, Target Acquisition, Arrest/Detention Techniques, Suspect Takedowns and Pain Compliance Techniques.

(BC0039) Al Mamum Local Police Station: The Team met Major (b)(6), (b)(7)c and Captain (b)(6), (b)(7)c to discuss Station operations. Information revealed Captain (b)(6), (b)(7)c (Patrol Commander) was kidnapped on 11 July 2007. The victims father reported the crime and advised the kidnappers contacted him by phone requesting $50,000US for the release of Captain (b)(6), (b)(7)c. Additional information indicated Captain (b)(6), (b)(7)c resides at Al Banuk in the Rusafa District and was in possession of his issued Glock pistol and badge at the time of the kidnapping.

(BC0046) Al Quanat Local Police Station: The Team visited Checkpoints in the AOR and no incidents were experienced. The Team met with the Station Investigator and conducted a Training class covering Crime Scene Management. The Team met the Station Commander to discuss operations and he advised the Military is providing generator fuel for the Station. He further advised the working relationship with the JSS is improving. Information revealed the Stations' northwest guard tower was attacked by RPG 2 days ago. Details indicated 10 assailants were involved and no injuries were sustained from the attack. The Teams Military counterpart advised plans are underway for reconfiguration of the entrances to the Station so as to improve Force Protection. Details revealed the changes will provide for better monitoring of pedestrian traffic during the hours of darkness and create 2 additional bunkers. The Team conducted 2 Joint Patrols with IPs and no incidents were experienced.

(BC0063) Al Saliyah District Police HQ: The Team met Lieutenant (b)(6), (b)(7)c and discussed formulating a Training File for Station personnel. It was determined that photographs of all personnel should be included which would assist in issuing ID cards. Issues were discussed covering past negative experiences relating to IPs without valid ID cards. The Team discussed the importance of IPs wearing clean uniforms so as to present a professional image. The Team reviewed information regarding a MOI IP detained by CF on 12 July 2007

Deleted: 10/24/2007

Deleted: 7/14/2007

Compiled by (b)(6), (b)(3), (b)(2) (b)(6), (b)(3), (b)(3)

6/13/2008

for his association with JAM. Details revealed the IP was trained by Iranians according to a MOI Investigator.

(BC0069) Al Thawra Local Police Station: The Team arrived at the Station and commenced processing 34 IPs into the HIIDE Biometrics System. The Team inspected the Detention Facility and found the air-condition unit had been repaired. The Team met the Shift Commander (2nd Lieutenant) who advised the AOR had been quiet during the past 24 hours.

(BC0079) Bab Al Muadam Patrol Station: The Team met the Station Commander who advised the AOR had been quiet except for a physical altercation between 2 shop-keepers. Details revealed both individuals had to be hospitalized due to the incident.

(BC0090) Boob Al Sham Local Police Station: The Team learned that none of the equipment previously requested for the MOI Training Program was received. Information revealed IPs located an IED and insurgents managed to remove the device and flee the scene undetected during a police cordon. The diesel fuel issue remains unchanged at the Station. Training material was passed on and the Team discussed practical exercises for future Training. The Team conducted a range exercise with the JSS during the visit.

(BC0105) Criminal Investigation Directorate Unit 2: The Team conducted an inspection of locked offices at the Station and no issues were found. The Team conducted Training for IPs covering ASP Baton. The Team removed 25 detainees from the Detention Facility to verify their identification against a provided roster. The Teams Military Medic checked the detainees' health conditions and no problems were found.

(BC0107) Medical City Local Police Station: The Team met the Stations' Lieutenant Colonel to discuss Station operations. He advised 1 of the Stations Lieutenants and 9 IPs were arrested by the IA for transporting a detainee in the trunk of a vehicle. The Team conducted an inspection of the Stations Force Protection and grounds.

(BC0119) Al Rusafa Patrol Station: The Team met the Station Major and discussed Station operations. Discussion was held concerning the movement of 3 detainees from the COB to Bab Al Shek.

Babylon (MND-CS/S) (b)(6), (b)(3), (b)(6), (b)(3)

Al Qadisiyah

No missions were scheduled due to a CC mandated stand down as a result of threat level.

Babil (b)(6), (b)(3)

FOB Kalsu: No PTT missions were scheduled for Kalsu today due to vehicle maintenance issues. Instructors were tasked with the three daily meals for the students, and making sure water was resupplied to the compound. IP's were given the day to study, take care of personal hygiene, clean the compound, and wash uniforms.

Wasit (b)(6), (b)(3)

(BW0034) Wasit Check Point HQ: The PTT Team met with LTC (b)(6), (b)(7)(c) Commander, and discussed checkpoint operations. The team assisted in check point operations, while mentoring the IP's, working the checkpoint. The IP's were doing very well on the operations

Deleted: 10/24/2007

Deleted: 7/14/2007

of the checkpoint. It was told to the team, the IP's are practicing what they were instructed at the training sessions provided by the team. The IP's were moving vehicles as instructed in class, making contacts, conducting checkpoint interviews, and searching vehicles. During this mentoring, no unusual situations or seizures were made.

The team observed the use of a digital camera search tool the IP's use in two hour intervals to search the under carriage of vehicles. When the camera is not in use, they use lens and mirrors. The team also inquired about the x-ray machine. The station commander stated he was not sure about this and he would look into it and advise the team on the next visit. LTC [redacted] stated his IP's confiscated 237 full cases of Anti-aircraft ammo that was hidden in a produce truck and arrested two local nationals from Diyala. This incident occurred on July 3rd, 2007 and the individuals are currently in Badra waiting to meet with a magistrate. The ammunition was hand receipted over to Provincial HQ.

(BW0601) Wasit Patrol Police Station: The team met with Major [redacted] Commander, and observed a shift change that included vehicle maintenance, briefings, and weapons inspections by the officers on duty. One issue discussed was that Major [redacted] is concerned about his patrols taking small arms fire from the local community. The Major stated he is certain they are not insurgents but are local civilians. When asked about what was being done to curb these attacks, he stated his IP's do apprehend the offenders and then process them as policy dictates. The team advised him, if further assistance is needed, the team would continue to participate in joint patrols with his IP's. The Major stated his IP's apprehended 2 Iranian nationals with weapons during an altercation. They were processed and taken to the Badra station to see the magistrate. There was no additional status or update on these individuals during the interview. The Major stated there is a new security plan that is being implemented and it is requiring the joint patrol efforts of his station and local districts in his area and he believes they are successful.

(No FFID#) Wasit 4th SRT: The team met with the Officer in charge, Lt [redacted] After some discussion of the current situation and their problems, a joint patrol was planned and conducted. Lt [redacted] advised the team, LTC [redacted] had been assigned to take over command of the 4th SRT, and he should be arriving to assume his duties within a few days. The station received eight new PKC machine guns from PHQ, along with 1600 rounds of ammunition for the weapons. They were happy to get the weapons, but expressed some dissatisfaction that they were of Chinese manufacture rather than Russian, as the Russian weapons are considered to be of higher quality.

The Officers currently in charge of the 4th SRT were very reluctant to conduct a joint patrol in certain areas of their AOR, citing the threat of ambush and concerns about later retaliation. After some discussion the team convinced them to cooperate in a joint patrol that would avoid actions likely to provoke violence, with the idea that future joint operations would gradually increase pressure on enemy forces as the skill and confidence level of the IP's increases. The joint patrol was conducted in the central Al Kut area for about one hour, and was completed without incident.

FOB Delta: The team continued research on items needed for range operations during the Crucible, training sessions. The team also continued discussion and development of additional courses to be offered to IP's in the region.

Dhi Qar / Al Muthanna (PIC) [redacted]

Team members continued to work on the PowerPoint presentation for the upcoming training at the Al Muthanna IPS Academy. PIC members held a meeting in Camp Terendak regarding the Dhi Qar IPS. Team members attended a patrol briefing with the Combat Team

Deleted: 10/24/2007

Deleted: 7/14/2007

Courage this afternoon regarding future outings in the desert. PIC members delivered updated paperwork per the request of the Garrison Command Provost Marshall's Office concerning weapon cards. PIC members will be performing T3 (Train the Trainer) in the near future for the Al Muthanna Police Academy. Team members will be conducting an assessment of the Academy in the near future to help facilitate this training. PIC members will continue to assess and distribute logistical MTOE (Military Table of Equipment) to help facilitate equipment distributed to the IPS (Iraqi Police Service) of both provinces.

Tikrit (MND-CW) (b)(6), (b)(3)

Diyala (b)(6), (b)(3)

(TD0039) Dali Abbas District Police HQ: PTT-D traveled to Dali Abbas District Station and collected information on the investigation unit. The station has four investigators, all with college degrees. COL (b)(6), (b)(3), the station commander, decides who is assigned what cases. There are six cases pending a judge's review with no cases pending further investigation. There is only one investigative judge in the district and of the cases completed six are still pending review.

The COL requested Hesco and concertina wire along with magazines for the AK-47 rifles, due to some of the IP quitting and not turning them in. There were three IP that were fired or quit yesterday. A list of further IP to be fired was sent from the commander of Baqubah. The COL advised the PTT-D that he has more than 100 IP to hire but he is awaiting approval. There were 50 IP working today. We also went on a joint patrol with IP.

(TD0001) Abu Saida District Police HQ: PTT traveled to Abu Saida Local Police Station. PTT was advised they have a total of 420 IP, 3 of which are investigators. They have a judge available except for Friday. They are currently housing three prisoners (IP) for fighting that will not be seen by the judge. Within the last month, 2 prisoners were found guilty and sent to Baqubah. The average time between arrest and review before the judge is approx. 3 days. In the last month this station has taken 50-60 reports and made 3 arrests with approx. 30 investigations pending. PTT-D explained to the Chief that more investigators were needed for that type of case load. This station has sent several requests for ammo to Baqubah but have yet to receive any form IPSHQ.

FOB WARHORSE: PTT-P traveled to FOB Gabe to inspect the facilities for a training academy.

Salah Al Din (b)(6), (b)(3)

(TA0100) Tikrit Emergency Patrol: Team conducted routine PSMR questions, but did not receive all the information needed. One of the biggest concerns the station has is lack of fuel supplies for their patrol vehicles. PTT observed the walls around the station will need to be raised in certain areas for force protection, a few towers built, and repairs inside the station are needed. PTT advised we will bring contractors at a later date for an assessment.

(TA0106) Dijhlay Highway Patrol: PTT met with MAJ (b)(6), (b)(7)c who is the officer in charge of Dijhlay for the day, as the Chief was off. MAJ (b)(6), (b)(7)c stated that they still have 45 IP working in Dijhlay, and that there are 7 IP working today, along with one officer (himself). MAJ (b)(6), (b)(7)c stated that they have 4 working IP vehicles, along with one more that is broken down. MAJ (b)(6), (b)(7)c stated that they are still having problems of not having fuel for their vehicles, but this is the only complaint that he had. PTT issued to MAJ (b)(6), (b)(7)c two computers, one printer, and a calculator. When asked if they had anyone that can operate

Deleted: 10/24/2007

Deleted: 7/14/2007

the computers he stated that they have sent off two IP to learn how to operate the computers, and two more are in the process of going to Tikrit to be trained.

(No FFID) Tikrit Check Point South: PTT went to the North Checkpoint to observe how they operated at dusk, and to get some basic information from the checkpoint. PTT spoke to CPT [redacted] (Checkpoint Police) and 2nd LT [redacted] (Iraqi Army). Apparently this checkpoint is now manned by 6 IP and 6 IA. The basic issues that were covered were manning, training and equipment. This checkpoint is good on manning and training, but lacks several items for the overall well being of the individuals manning this checkpoint. One generator does not work and they are in need of about 100 meters of electrical wiring to wire some of the equipment they do have and to run electricity to one of the buildings. The operational side is good and the IP and IA are working together and searching the vehicles coming from the north, but they are not searching the vehicles coming from Tikrit as well as they are doing the ones trying to enter Tikrit. This was addressed and will be fixed.

(TA0050) As Sanyiah Police Station: Once at the station PTT did a roll call of the IP, there were 16 on location. PTT and the Iraq senior staff dispatched 5 IP to a check point and had 3 mount towers for security. The Sanyiah station is in the process of being turned into a Joint Security Station and several modifications are in progress. PTT taught a two hour class on Checkpoint Operations and Vehicle Search. There is a plan to teach these classes for the next week until the IP are proficient enough to conduct hasty checkpoints at the end of the week.

Mosul (MND-N) [redacted]

Ninewah [redacted]

(MN0076) Tall Afar DHQ: PTT traveled to DHQ to meet with BG [redacted] The purpose of the meeting was to meet with the families of two IP killed in the line of duty last week. BG Ibrahim and PTT held a ceremony and made martyr payment to the families. PTT assisted BG Ibrahim in coordinating the transport and security of 140 IP to BDHQ. Upon arrival in Bi'aj, the IP will be equipped by BDHQ and begin duties.

(MN0962) Al Salaam: PTT is on an overnight mission in the City of Tall Afar. No information is available for reports at this time.

Other PTT Teams stood down for maintenance, were on overnight missions or were on base in locked down status.

At Tamim [redacted]

(TT0099) Criminal Investigations Unit: PTT arranged a prisoner transport from FOB Warrior to the Major Crimes Unit. The subject was processed at the MCU and transported back to FOB Warrior. The prisoner will later be released in the (withheld) area. PTT shared information with LT [redacted] and LT [redacted] in reference to insurgent activities and planned attacks. The information was passed on to patrol units. PTT discussed Intelligence gathering and procedures. PTT will be working with the MCU in establishing an intake form which will be placed in a word document and then stored on a computer in the Communications Room. The information will be both searchable and retrievable for later use by the Investigators. PTT will be monitoring another interview of the 02APL07 MCU bombing suspect during the next station visit.

Deleted: 10/24/2007

Deleted: 7/14/2007

Compiled by [redacted]

(TT0023) Azadi Patrol Police Station: PTT met with COL [redacted] and discussed station operations and intelligence information. PTT was present during a portion of the interview of the suspects of an auto theft ring and gathered intelligence information. PTT inspected the jail. PTT met with CPT [redacted] and discussed training issues.

(TT0606) Mareay Local Police Station: PTT met with CPT [redacted] observed roll call and advised on unsafe weapons handling observed during this process. PTT also gave suggestions to command staff on more tactical positioning of equipment carried by IP. IP were observed to have replacement magazines and hand cuffs under there protective gear where it is difficult to access. PTT also discussed crime scene security and investigation with CPT [redacted].

(TT0027) Rashad Patrol Police Station: On 09Jul2007, PTT inspected IP and their equipment. PTT noticed several new IP do not have knowledge of basic police skills. PTT also observed their manner of dress and weapons control is inappropriate. On 10Jul2007, It was learned an unknown dead body was discovered by citizens in the Ryada AOR. The body was transported to Kirkuk and information was given to Ryada for investigations. On 11Jul2007, PTT observed equipment cleaning. IP were instructed to bring their issued firearms to the station where they were mentored in weapons field stripping and cleaning. There are nine AWOL IP on this date. PTT wrote an AWOL policy and it was read by the Station Commander and placed into use. CF states Chief [redacted] has signed for four generators, although Chief [redacted] disagrees with the claim and stated he did not sign for them. CF member is looking into this matter.

(TT0030) Saragaran Patrol Police Station: PTT discussed training with STO. He will prepare a training schedule. There was no training as planned for today as it was a religious day. Minimal personnel were at the station. PTT discussed with the shift commander the upcoming armorer and STO courses. PTT reviewed current investigations and observed IP check points.

Irbil [redacted]

(MI0044) Khabat District Headquarters: PTT traveled to Khabat District Headquarters and met with LTC [redacted] Talib Hassan, District Director of Police. PTT was informed by LTC [redacted] his district now has five stations: Khabat, Rizgari, Kani Kirzallaa, Kawragosik, and Shakhwlan. Reorganization has transferred supervision of four IP Stations to the new district AinKawa. LTC [redacted] explained that he has four investigators, three LT and one SGT. All have been trained. The work out of Khabat and Rizgari IP Station is under supervision and are assigned to cases by the station commander. He advised they are assigned by the situation and who is on duty at the time of the incident. He also advised that all cases are referred to the investigative Judge during the initial investigation. Cases that are not resolved in a short time frame are referred to the Crime Combat IP for further investigation. Irbil Crime Lab is called to the scene and responds to collect and preserve physical evidence as the situation of the crime and evidence requires. All cases referred to the Investigative Judge are currently ninety five percent complete. He advised his IP have material and the ability to make fingerprints of subjects with ink and fingerprint cards, but do not have the equipment to recover latent prints at a crime scene. Irbil Crime Lab is called and responds when this evidence situation develops. He welcomes the opportunity to send other IP and officers to the basic investigation and advance courses if available. Khabat Headquarters and IP Station are located along the main highway between Irbil and Mosul, in a newly renovated building with ample space. Adequate force protection measures and sufficient manpower on duty were observed. The station is connected to the electric grid and has adequate lighting and plumbing and has a small detention facility. The station has

Deleted: 10/24/2007

Deleted: 7/14/2007

and utilizes computers for general record keeping and correspondence. LTC [redacted] requested PTT support the issue of more computers and further training for his IP. (b)(6), (b)(7)c

(MI0275) Irbil Provincial JCC: The PTT continued with the discussions on the development of the response plan for the region. The discussion centered on the importance of sharing information with the rest of the country when it pertains to security issues and when the law enforcement community is trying to perform any duty related to the enforcement of the laws of Iraq.

The PTT advised the JCC they need to consider data storage. The PTT was asked exactly what type of system this is going to be and what type of training will be needed in order to use it. The PTT advised the command staff that the PTT would make contact with some representatives of Ideal Innovations to show them a presentation of some things that is being coordinated through the office of the MOI. The JCC advised they would need some advance notice in order to clear their schedules for a meeting like this. The PTT advised this would not be a problem and advised it may be several weeks in order to set this meeting up.

Sulaymaniyah [redacted] (b)(6), (b)(3)

No station activity was reported on this date.

Dahuk [redacted] (b)(6), (b)(3)

No station activity was reported on this date.

Ramadi (MND-W) [redacted] (b)(6), (b)(3)

Al Anbar [redacted] (b)(6), (b)(3)

(RA0002) Provincial Headquarters: The Police Transition Team (PTT) conducted train the trainer class with Two Iraqi Police (IP). The classes were on the care, operation, and tactical use of night vision gear. Night vision gear was the issued to the Provincial Chief of Police Physical Security Detail.

(RA0005) Amariyah Patrol Police: The Police Transition Team (PTT) conducted training with the Provincial Support Force, on vehicle searches. The training consisted of vehicle searches with multiple passengers, vehicle searches where explosive devices are found, explosive devises found on passengers and AK-47 marksmanship training.

(RA0007) Al Qaim Local Police Station: Delayed reporting due to extended station visit,
07092007: The Police Transition Team (PTT) conducted an inspection of the station and found both generators are now working.
07102007: The Police Transition Team (PTT) conducted training on basic combat life saver course, basic handgun manipulation, and weapons disarming.
07112007: The Police Transition Team (PTT) went to the weekly Chief's meeting at the District Headquarters. The Police Transition Team (PTT) ran drills with the Iraq Police (IP) on what to do when the station comes under attack The Iraq Police (IP) has a white board that breaks down the shifts for easy identification. The board is to be mounted in the Station Chiefs office. It has the number of Officers and IP working at a given time, and lists the other numbers that are required by the PTT.
07122007: The Police Transition Team (PTT) conducted training on weapons safety and the Glock handgun. The Police Transition Team (PTT) ran drills with the Iraq Police (IP) on what to do when the station comes under attack
