During the briefing, SGT (b)(6) was contacted by an anonymous source and advised of two IEDs which had recently been placed in the Hassanqoi LPS patrol area. SGT (b)(6) advised PTT that he would like to investigate the IEDs and asked for PTT assistance which was provided.

Upon arrival at the scene of the suspected IED, PTT advised SGT (b)(6) on the proper way to secure the area to ensure the safety of his IP and the civilians in the area. PTT found that force protection stations were not being manned, there were no patrols and the IP were all sitting around or in bed. PTT spoke with CPT (b)(6), (b)(7)(c) about the problems. When asked why there was no patrol, CPT (b)(6), (b)(7)(c) said because they are scared to patrol. He also said the IP are afraid to make arrests or to patrol because of threats by the terrorists in the area. PTT informed CPT (b)(6), (b)(7)(c) that this was the job of the IP to arrest the bad people so as to make the area safe, he agree, but said that the IP were not going to do this and the officers of the LPS were not going to make them. PTT has found that there is a gross lack of leadership at this LPS and that as long as the officers who are currently in charge remain so there will be little to no progress made. The IP of this station are content to sit and not work and the officers are content to let them do so. There is little to no cooperation between this station and the PTT. COL [redacted] stated that there are going to be increased patrols and that the IP are making the people that are not from the Rabiyah area move out. PTT suggested that the IP be stricter on the curfew during the Ramadan period. PTT conducted a one hour dismounted patrol with the IP in the city of Rabiyah. PTT observed the IP stop several groups of individuals for violating the curfew. The IP did a good job of going after the people that attempted to go in the other direction when they saw the IP out walking. PTT told the IP that the patrol was conducted well but suggested that in addition to telling people to go home after curfew that they take the names of the people out after curfew and also have the people show them their Iraqi ID card.

CF took over the training and instructed the IP to do head-on traffic stops and advised them this was the best option. PTT recommended that this not be done, but the recommendation was dismissed. IP demonstrated a head-on traffic stop in a controlled environment. PTT monitored this training observing IP to exit their patrol vehicle and approaching the suspect vehicle blinded by the headlights until at the doors of the vehicle where they aggressively aimed their AK 47 into the vehicle. The only violation that prompted this vehicle stop was a curfew violation. PTT observed the IP perform another mock traffic stop again for curfew violation and again the IP came out too aggressive for this infraction. PTT then participated in a joint patrol with IP.
