16 September 2007

Baghdad (MND-B) **Unassigned**

Baghdad (b)(3), (b)(6)

(BC0003) Airport Police Local Police Station: (TRA Level NA) The BIAP security profile has increased and more personnel are needed for the additional post. The BIAP Team Leader is presently working on a proposal for a food services contract and met with local contractors to discuss bids on the food services for the Warehouse Training Facility. The team inspected the conditions at the BIAP and French Village sub-stations. They also conducted the daily inspection of the BIAP station jail where everything was found to be in order. IPA instructors conducted hands on mentoring of the IP in the terminal area.

(BC0022) Al Kadhimaya Patrol Police Station (West): (TRA Level 2) The team met with Col. (b)(3), (b)(6) the Station Commander. They discussed the BIAP training center and that it was in the process of being operational again. When asked if he would send IP, the Colonel advised he will need a letter from someone at the Training Center requesting IP for training. He will send this request and a letter from himself to MOI seeking permission to send IP to the training.

(BC0023) Al Kadhimaya Traffic Police Station: (TRA Level 2) The team discussed the problems of fake checkpoints in and around the patrol areas. Lt (b)(3), (b)(6) from the Kadamiyah Traffic, Major (b)(3), (b)(6) from Karkh Motorcycle Traffic and the team were present during this meeting. The discussion included ideas for developing a special unit assigned to identify these fake checkpoints so the suspects could be apprehended.

(BC0025) Al Karada Patrol Police Station (East): (TRA Level 1) The team issued the new badges to IP and entered the them into the HIIDE system. Training was conducted during this process covering combat grip and sighting for the pistol.

(BC0038) Al Khansa Local Police Station: (TRA Level 2) The team conducted a JSS assessment and spoke with Major (b)(3), (b)(6) about training plans and manpower issues. He is still sending 6 patrols to Shorwa to assist with "denied access " in that area. With the checkpoints he is responsible for, along with a QRF squad assigned to the JSS TOC, he can only provide 5 to 6 IP for training on each visit. These IP are the same on each visit, so new IP are rarely available for training. The team will speak with Hamid in an attempt to have the IP checkpoints replaced with National Police personnel in order to free up IP for training and patrols. (b)(3), (b)(6) advised he has tried this in the past and the request was denied due to it being a joint IP/IA initiative.

(BC0039) Al Mamum Local Police Station: (TRA Level 2) The team met with Major (b)(3), (b)(6) and discussed the IP from Khadra who are currently working with him and his IP. point. The vehicle was stolen and was occupied by 2 suspects. $38,000 in U.S. currency and Dutche Marks, as well as 2 weapons were found in the trunk. Weapons were also checked and all ammunition was accounted for. The team conducted a training class with 6 IP covering person searches. The IP were then observed conducting searches on civilians coming through one of the station's checkpoints. The IP performed satisfactorily.
