

# CPATT IPLO DAILY SITREP

L15

13 June 2007

Baghdad (MND-B)

[Redacted] (b)(3), (b)(6)

Baghdad

[Redacted] (b)(6), (b)(7)(c)

**(BC0003) Airport Police Local Police Station:** The Team conducted 2 Training classes for 23 IPs covering Basic Glock Pistol. NCO [Redacted] (FTO) attended a class at the French Village Sub-Station and was provided FTO material for future reference. The Team met Global Security officials and made arrangements for the arrival of new IPIs scheduled on June 13th. The Team met Colonel [Redacted] (Station Commander) and advised IPs will not be allowed to attend Range Training until completing the classroom portion of instruction. The Team continues to monitor IPs daily performance at the Terminal and French Village Sub-Station.

**(BC0021) Al Kadhimaya Local Police Station:** The Team conducted Training for 8 IPs and 1 Officer covering Vehicle Search Procedures, Weapons/Defensive Tactics and Combat Takedown/Detention Procedures. Students were attentive to the material presented and participated in practical exercises to demonstrate proficiency. Major [Redacted] (Station Commander) and Colonel [Redacted] are implementing the MOI Training Plan.

Major [Redacted] advised Sergeant [Redacted] was killed while off duty in the Ghazalia area approximately 20 days ago.

**(BC0030) Al Karkh Highway Traffic Police Station:** The Team arrived at the Station and found no Command Staff Officers present. The Team met Sergeant [Redacted] (Shift Supervisor) who was unable to provide details as to why the Station was closed (locked-up) June 6th. A US Military MP Unit reported the closure after finding the ECP locked and the Station abandoned. The Team discussed the fuel issue with Sergeant Ahmed who advised that IPs purchase fuel with their own money when the Station runs out of fuel. Further information revealed IPs are punished (for not contributing) by being assigned to foot patrols. The Team intends to follow-up on the issues with Lieutenant Colonel [Redacted] (Station Commander) at earliest convenience.

**(BC0044) Al Nahda Traffic Police Station:** The Team met Colonel [Redacted] (Station Commander) who advised the AOR had been quiet during the past 24 hours. CF is supplying fuel for Station operations. Colonel [Redacted] advised the Detention Facility is holding 21 IP detainees and 10 IP Officers for various reasons. He requested additional training classes covering Force Protection, Vehicle Searches and Evidence Collection.

**(BC0045) Al Nasir Local Police Station:** The Team conducted Training for 9 IPs and 1 Officer covering Police Survival Skills. Students were attentive to the material presented and participated in practical exercises covering fire and maneuver drills. The Team met Captain [Redacted] (Station Commander) and discussed Station operations. The Team conducted 1 Joint Patrol with 4 IPs and no incidents were experienced.

**(BC0046) Al Quanat Local Police Station:** The Team conducted 1 Joint Patrol and Foot Patrol with IPs and no incidents were experienced. The Team visited a local Checkpoint and mentored IPs concerning deficiencies observed during the Foot Patrol. The Team met Captain [Redacted] (Station Commander) and discussed Station operations.

(b)(2), (b)(3), (b)(6)

## CPATT IPLO DAILY SITREP

**(BC0051) Al Rasheed Local Police Station:** The Team conducted Training for 7 Officers covering Command Authority Responsibilities. The Team conducted Training for 7 IPs covering Night Foot Patrols and Force Protection. The Team conducted 2 Joint Patrols and 1 night Foot Patrol with IPs. The patrols visited Checkpoints in the AOR and set up a Hasty Checkpoint with no incidents experienced. CF is delivering 25 gallons of fuel per day for Station operations.

**(BC0073) Al Yarmouk Patrol Police Station:** Captain [redacted] (Shift Commander) advised 1 IP patrol was attacked by IED on June 12<sup>th</sup>, near the 3 million man mosque. Details revealed a civilian approached a group of men on the street (dressed as IPs) and reported an IED was located less than 100 meters from their location. The men reported the information to the Station and then detonated the IED as a Yarmouk Patrol drove-by in response. Information revealed no IPs was injured and only the vehicle was damaged from the blast.

The Team met Warrant Officer [redacted] who advised the 4 week in-house training for IP recruits remains in progress. Additional information indicated recruits are scheduled for Firearms Range Training on the 19 and 20 of June. Warrant Officer [redacted] advised experienced IPs are assisting with presenting the Weapons Familiarization portion of the class.

**(BC0085) Baghdad Provincial Patrol Police HQ:** The Team contacted Headquarters Training Department and learned the Tiger Team Class is scheduled to begin next week. Details revealed a delay was experienced due to repair work for targets at the range facility. The Team discussed supplying furniture for the new Training Building. The Station reported 69 AWOLs to MOI for disposition. The Team is assisting Officer Hamid with correct procedures for requisitioning logistic items.

**(BC0092) Baghdad IHP HQ:** The Team met Major [redacted] who advised IHP Headquarters will no longer conduct Joint Patrols with the Iraqi Army. Additional information revealed IHP will not be allowed to participate with IA at Checkpoints or search vehicles around the Headquarters area. Major [redacted] received the information at a meeting with the new IA Brigade on June 11th. The Team will follow-up on the matter with the IA Brigade Commander for clarification.

The Team learned IHP Headquarters can no longer obtain fuel from MOI due to recent transfer of control to PDOP. Details revealed PDOP refuses to provide fuel to IHP Headquarters. The Team met Colonel [redacted] and discussed 32 AWOLs reported at Taji Station. Colonel [redacted] verified the list of AWOLs and advised the matter was in the hands of MOI for disposition. It was determined the MOI process for dealing with AWOLs is lengthy and involves Legal and Finance Sections of the Iraqi Government.

**(BC0101) Mahmoudiya District Police HQ:** The Team conducted Training for 120 IP recruits covering Vehicle Search Procedures and Checkpoint Operations. The Team visited the Station on June 11th and monitored IP instructors conducting Training for 30 IPs. The class covered Democratic Policing, Vehicle Searches and Checkpoint Operations. Information indicated the recruits will attend formal training at Baghdad Academy on a later date.

## CPATT IPLO DAILY SITREP

**(BC0103) Criminal Investigation Directorate HQ:** Information revealed the MCU Evidence Room received an A+ rating after being inspected by the MOI Integrity Unit. Headquarters investigators continue to receive cases from the Iraqi Army. Information revealed requests for IA witnesses are being denied. The Team will follow-up on the matter for resolution as soon as possible.

**(BC0106) Criminal Investigation Directorate Unit 3:** Fuel continues to be a major issue at the Station. The Team met the Fleet Maintenance OIC who advised IPs continue the purchasing of fuel on the black market for Station operations. Additional information revealed Fuel Point attendants continue to 'turn-away' IPs indicating fuel is not available.

**Babylon (MND-CS/S)** [redacted] (b)(3), (b)(6)

**Al Qadisiyah** [redacted] (b)(3), (b)(6)

Missions have been canceled by the Babylon Region command staff.

The PTT Team from Camp Echo continued plans for the training facility and erected a tent to be used as a temporary classroom at the training site. The name of the training program is VISTA (Vocational In-Service Training Academy).

**Wasit Province** [redacted] (b)(3), (b)(6)

**(BW005) Wasit Provincial Police HQ:** The PTT Team from FOB Delta met with General [redacted], the Provincial Police Chief who advised the station had already completed the paperwork for MOI in regards to the Glock 9mm handguns they are to receive. Additionally, he requested more live range weapons training for his IPs as the previous instructions through the Crucible was of high quality and very much needed. The General requested training for all investigative units throughout the Wasit Province.

The team next met with Colonel [redacted], Personnel Chief who stated that his unit was inspected by MOI and received high grades. He is currently working to hire fifty 50 women for use at checkpoints for searches of females.

The team then met with Deputy Chief, Colonel [redacted] and discussed the June 11th operation. He advised he was questioned by the Wasit Provincial Governor as to why the governor was not advised prior to the operation. This is an on-going problem with the Government and their interference with police operations. The Colonel requested a meeting involving the PHQ Chief, Governor, PTT members and himself to discuss and make clear what each party's responsibilities are and to keep them separate. The team requested copies of any and all written requests made by PHQ to MOI.

**(BW0034) Wasit Check Point HQ:** The team met with Checkpoint HQ Chief, Lieutenant Colonel [redacted] who stated that they had made several arrests in the past few days. Two of the individuals arrested are suspected insurgents/militia that was in possession of numerous vehicle tags. One arrest involved a suspect having 710 rounds of PKC ammo. From information provided by a citizen informant, the IPs recovered a grenade that was thrown from a vehicle before it reached their check point.

MOI has approved new construction for several buildings within the Check Point HQ's area of responsibility. Bids should be approved shortly, with construction starting in two weeks.

# CPATT IPLO DAILY SITREP

## Babil Province

[Redacted]

(b)(3), (b)(6)

**(BB0032) Babil Provincial Police HQ:** The PTT Team from FOB REO met with Commander, Lieutenant General [Redacted], who stated that of the total allotment of 315 IPs; 64 were currently on duty. Three were absent due to illness and 67 were on scheduled days off. Of the total Protection Force of 211, 40 were on duty. There is only one female IP available to Babil PHQ. When the situation demands more than one female IP, one is brought in from another station to assist. The Detention Administrator, Lieutenant Colonel [Redacted], mentioned MOI controls the hiring of female IPs and at this time there is a freeze on hiring of them.

There are approximately 800 vehicles in the Babil Province. Of those, 42 are completely totaled due to accidents or IEDs. An additional 19 are mechanically broke down but can be repaired. The existing problem is that most are American built vehicles and diagnostic equipment to assist in repairs is not available, plus the mechanics do not have the knowledge to run diagnostic tests. The current method of repair is to simply begin replacing parts until the vehicle runs. Additionally, the fuel the IPs have to use is of poor quality and is part of the reason the vehicles are constantly needing repairs and tune-ups.

The official capacity of the jail remains at 150. Of the 289 detainees, 266 are male and 23 are female. Three children of one of the female detainees were also present. 73 of the male detainees have been convicted along with four of the females. The four convicted females will be sent to the women's prison in Baghdad whenever arrangements for transportation are made. This is apparently the responsibility of MOJ or MOI. In addition, Babil PHQ is the collection point for 40 male prisoners who have been sentenced to 15 years or more. This is being done prior to being sent on to the men's prison. The LTC again mentioned the fact the new prison is still not open. Apparently, there is a dispute over ownership and responsibility. Efforts need to be made to expedite the opening of this facility in order to relieve the extreme over-crowding of jails at every current location in the province.

A check was made with the Engineering Department regarding the floor plan of Babil PHQ. The floor plan diagram will be beneficial to the PTT team in locating offices and command staff more efficiently. According to the OIC, they should be ready Thursday.

**(BB0500) Babylon Police Academy (Al Hilla):** The team, along with a U.S. Captain from Brigade met with Commander, Colonel [Redacted]. The Captain has been tasked with assessing Force Protection at the academy. The team took this opportunity to discuss the fact that no bomb shelters were included in the initial construction of the academy, nor are there any buildings or other structures on the academy grounds that would afford any protection from attacks. The Captain advised he would discuss the academy's needs with Brigade. He advised the necessary materials needed to construct the bunkers were already in Kalsu and were not allocated to any location.

## Dhi Qar / Al Muthanna (PIC)

[Redacted]

(b)(3), (b)(6)

PTT members attended the daily operational briefing in Camp Terendak and the daily SSR/MITT/CPATT meeting with Major Hamsey. PTT member also assisted in the reconciliation of weapons issued to local IPS by OBG-2 as requested by Colonel [Redacted], the new Battle Group Commander.

## Tikrit (MND-CW)

[Redacted]

(b)(3), (b)(6)

## Diyala

[Redacted]

(b)(2), (b)(3), (b)(6)

# CPATT IPLO DAILY SITREP

No report on this date from Diyala Provincial assets which is due possibly to the Chlorine VBIED attack that occurred on June 3rd. Internet service is inoperable at this time.

Salah Al Din [redacted] (b)(3), (b)(6)

**(TA0080) Salah Al Din Provincial Police HQ:** PTT met with finance in regards to the Samarra payroll issue. According to MAJ [redacted], Samarra only returned 113,000,000 ID (about 90K US) or the pay for 160 IP. Samarra had received pay for 878 IP or 583,217,000 ID (about 430K US) and issued it out. PTT questioned why the rest of the payroll was not returned, due to just a little over 120 IP working in Samarra. At this point COL [redacted] arrived at the meeting and requested a meeting with PTT and GEN Hammed on the matter. COL [redacted] stated he has spoken with GEN [redacted] and both men know the matter must be addressed. PTT will send this information to the PTT in Samarra.

PTT met with Major [redacted] of the Salah Ad Din Provincial Logistics at COB Speicher and was issued 968 leather arch folders, 553 fire extinguishers, 2 phones, and 60 Hesco baskets.

**(TA0050) As Saniyah Local Police Station:** PTT went to the As Saniyah Station and upon arriving found nine IP on duty which included two Lieutenants and one Captain. There were 5 IP on duty at the check point with one IP at the station. PTT conducted training with the Captain and the two Lieutenants on Chain of Command and Supervisory Techniques.

**(TA0013) Al Alam District Police HQ:** PTT traveled to the Al Alam District Headquarters and met with COL [redacted]. COL [redacted] told PTT that he had received information that the same group that carried out the attack on the Abu Ajeel IHP station was planning to attack the Tikrit Bridge with a VBID. There was discussion on ways to prevent such an attack and will present the suggestions to General [redacted].

COL [redacted] said he has talked to Gen. [redacted] concerning the problem of the IP at Abu Ajeel not wanting to cooperate with the PTT team at the station. He said that they decided to make some changes in the personnel and see if the cooperation improves. He also said that no IP have quit since the attack on the IHP station. PTT conducted a 'train the trainer' session on force protection and VBIED's.

**(TA0084) Samarra District Police HQ:** PTT met with GEN [redacted], MAJ [redacted] and CF [redacted] concerning current logistics in Samarra. MAJ [redacted] stated that they are not getting anything from Tikrit PHQ. During the meeting, it was discovered that the IP command have not been completing the proper paperwork to request the equipment. The only things that PTT can see that Samarra needs at this time are uniforms and boots. W/O [redacted] stated that we are down to about 2000 rounds of PKC ammo and Samarra could use more.

The next item that was brought up was the current pay issue in regards to ghost officers being paid in Samarra. MAJ [redacted] stated the money had been taken back to Tikrit from the IP that were not paid. PTT again asked MAJ [redacted] for a list of the IP that were paid this month. MAJ [redacted] stated he would have the list tonight. PTT also asked [redacted] for a list of the 175 IP that have been fired from Samarra and told him this list needs to be sent to PHQ so they can get those IP off the books and add new personnel that will show up to work. Major [redacted] stated it was not 175, but was actually 248 IP that were fired.

**(TA0056) Balad District Police HQ:** PTT went to the Balad District IP HQ where the PTT utilized the BATS system for IP data information entry.

# CPATT IPLO DAILY SITREP

**(MN0099) Mosul (Ninewah) Major Crimes Unit (CID):** PTT met with COL [redacted] with MTU and discussed the issues with the Investigative Judges. COL [redacted] stated there are not enough Investigative Judges working in Mosul to handle the number of cases being brought before them on a daily bases. This information was passed to the Provincial Reconstruction Team. COL [redacted] is also going to send a memo to PDOP for funding to build a holding cell at MTU.

The PTT met with COL [redacted] from MCU and discussed the standardized form [redacted] is creating for the IO's. COL [redacted] gave the form to the PTT for examination and explained the heading of the form is most utilized by the IO's for their cases. COL [redacted] advised the PTT he will continue to work on the additional forms and will create the forms on an as needed basis.

The PTT instructed COL [redacted] to send a written memorandum to the PDOP and to request funds to build a temporary cell inside of the MCU building. Currently, MCU does not have a holding facility and sufficient accommodations to house temporary prisoner.

**(MN0201) Ninewah SWAT Team:** PTT mentored Ninewah SWAT command on the use of informants and sources. Also, PTT covered the steps taken to prepare for action on a target package utilizing CF and Iraqi Security Forces. The SWAT commander was given training on what areas of the target package must be covered during the initial meeting, and the final brief before action on target. Order of movement and disposition of prisoners was the last area of concern covered during this training period.

Ninewah SWAT commanding officer, CPT [redacted], vetted a source over the past month. As a result he presented a mission brief to CF, PSF, SF, with the PTT attending. All assets agreed that Ninewah SWAT would take the lead on this target and they would maintain a supportive role. This target was of particular importance to CF as the terrorist targeted represented many of the individuals responsible for a number of small arms and Improvised Explosive Devices aimed at CF. Five targets were simultaneously entered by Ninewah SWAT and CF. As a result twenty six individuals, suspected AIF, were taken into custody. These individuals are currently being interviewed and at last report have given substantial information that will aid CF in the future. The result of this operation clearly show the progress being made by the IP in their fight against terror in Mosul, Iraq.

**(NO FFID) 2<sup>nd</sup> Emergency Response Battalion:** This station was not visited today due to military re-tasking.

**(NO FFID) 3<sup>rd</sup> Emergency Response Battalion:** This station was not visited today due to military re-tasking.

**(NO FFID) 4<sup>th</sup> Emergency Response Battalion:** This station was not visited today due to military re-tasking.

**(NO FFID) Emergency Response Unit:** This station was not visited today due to military re-tasking.

**(MN0008) Al Gizlani LPS:** This station was not visited today because the military portion of the PTT was assigned to QRF duty.

**(MN0214) Al Waqaas LPS:** This station was not visited today because the military portion of the PTT was assigned to QRF duty.

**(MN0928) Abi Tamaam District Police HQ:** PTT met with LT [redacted], Patrol Commander, who requested his promotion of rank be presented to NPHQ. This has to occur so that his rank will be recognized and his pay increased. At this time, LT [redacted] is not being paid as a Lieutenant. PTT then met with the District commander, COL [redacted], who advised the 32 radios that are in need of repair are, in fact not broken but in need of

## CPATT IPLO DAILY SITREP

programming through NPHQ. The above information is being forwarded to personnel at NPHQ for review and programming.

PTT will continue firearms training for IP throughout the district. Several IP have not been trained in firearm proficiency. COL [redacted] advised that his XO, COL [redacted], will be transferred back to the AL Rashidiah IP station due to the present station commander's absence. The station has been operating without a station commander. Abi Tamaam district will also be receiving three additional colonels from NPHQ.

COL [redacted] stated the university is now under his control. Terrorist activity at the university has decreased since COL Abd's control.

**(MN0953) Al Thakkafa Local Police Station:** CPT [redacted] stated that he received seven new IP, but they have not yet attended the police academy. PTT talked about community oriented policing concepts and how they can help better relations between the police and citizens. CPT [redacted] stated that LT [redacted], LT [redacted], and LT [redacted] have gone out and established informants in the neighborhood that are trustworthy and will call if they see anyone suspicious or wanted persons. CPT [redacted] stated that things have gotten better in his area, versus ten months ago. CPT [redacted] stated that since they have established a command presence in the area, the insurgents' activity has decreased.

CPT [redacted] is still concerned because the contractor has not shown up to conduct an assessment on the police station. This IP station is in need of much work, since it was attacked by a VBIED. The bathroom area is extremely filthy and backed up with raw sewage. There is no running water for the station and no place for the men to take showers and clean up. Where the IP sleep, the windows are boarded up with paneling and plywood. There is also exposed wiring and severe damage to the building caused by the VBIED attack. CPT [redacted] feels that the morale of his IP will improve if the work on the building is conducted and the living conditions upgraded.

**(MN0076) Tall Afar District Police HQ:** PTT spoke to COL [redacted], and CPT [redacted], since BG [redacted] was unavailable. Later, PTT also spoke with COL [redacted], second-in-command. PTT reviewed the status of the SRT. CPT [redacted] stated additional team members had just completed training and the SRT now has a strength of 80 personnel.

PTT discussed with all personnel the status of a proposed Quality Inspection Team which would be comprised of IP personnel from Operations, Training, Physical Security, Administration and Logistics. The purpose of the team would be to inspect all District stations at least once on a monthly basis. COL [redacted] stated it is already in progress with some stations being inspected by a few personnel. PTT stressed the importance of this concept being forwarded. PTT reviewed IP procedures for storage of unexploded ordnance obtained by the IP. COL [redacted] advised that most times the perimeter is secured until the arrival of EOD. Other ordnance is often stored in the armory. PTT stressed that all ordnance must remain outside of all buildings. PTT proposed the building of an outside sandbagged box for future storage issues. The COL stated it would be accomplished if the materials could be provided.

Considerable discussion was held on the need for new structures, especially for Avgani/Aiadaya and Al Kisik. PTT stated there is more of a need for the Avgani/Aiadaya station since they are currently in CHUs and a tent. Al Kisik has a structure though it needs modernization. PTT advised COL Khalaf of current construction projects and did advise of the availability of a house in the Avgani AO that could be utilized as a station. This will be investigated further. COL [redacted] inquired of MOI ordering 1400 personnel to be hired as IP in the District. PTT informed him that this is highly unlikely due to current circumstances.

# CPATT IPLO DAILY SITREP

PTT was informed that the Al Tahadi Station may be moved to the central area of Tall Afar out of the DHQ compound. This will be further addressed with BG [redacted] upon his return from leave. COL [redacted] informed PTT that all IP personnel at Avgani and Abu Maria may switch with other personnel to give both stations fresh personnel for better enforcement in their respective areas. PTT mentored on the ancillary issues relating to this type of action. COL [redacted] stated the station chiefs may also be transferred. This issue will be reviewed further with BG [redacted] upon his return.

Significant discussion was held concerning Rabiya and other areas outside of Tall Afar proper as to who was responsible for them. COL [redacted] stated Mosul is responsible for Rabiya while BG [redacted] states he is in charge. Other areas such as Sinjar, Bi'aj, Zumar and Muhallabiyah were reviewed as to past and present history of AO ownership. This matter will be clarified in future meetings. PTT reviewed with COL [redacted] the need for issuance for new IP ID badges as most current badges are expiring. PTT will initiate this issue.

**(MN0222) Rabiya District Police HQ:** PTT met with COL [redacted] and discussed IP needs in relation to the recent SVBIED. He stated he is short vehicles and his people are tired. This has been made worse by the recent threat of more violence. He plans to request interagency assistance from other Iraqi Security Forces (ISF). PTT suggested Memorandums of Understanding be drafted, so interagency cooperation can be understood and agreed upon prior to a need arising. PTT asked COL [redacted] to prepare Rabiya DHQ for incoming Hesco Barriers which are being made available on an emergency basis. COL [redacted] told PTT a new contractor would be looking over the site within a day or so.

PTT attended the ISF intelligence meeting. ISF are moving forward with the investigation. They advised of their progress and were concerned about the security of the information, but shared it appropriately. All of the forces present seemed open with one another; an improvement apparently prompted by the recent attack. PTT traveled to Rabiya DHQ and physically inspected the site for the Hesco barrier installation. About 100 feet of the site was ready, but 220 feet needed further debris cleared and leveling. PTT met with LT [redacted] and did a walk through of the site. PTT reinforced the notion that the Hesco barrier works as well as T-walls if installed properly.

**(NoFFID#) Abu Maria Local Police Station:** PTT traveled to Abu Maria and met with MAJ [redacted]. MAJ [redacted] informed PTT, the Abu Maria area has been quiet and nothing to report at this time. He stated the IA and the IP have been working together and that he arranged and had a meeting with CF and IA to put together a working strategy for his AO. The MAJ stated the community and the local civilians have become more of an information bar, providing information to the IP. MAJ stated his numbers of IP have dropped to eighty. He stated that BG [redacted] keeps taking IP from his station, without replacing them. He is concerned why this is occurring, knowing there are larger numbers of IP in the surrounding AO. MAJ said when he inquired from BG [redacted] concerning this matter; BG advised him that the IP were needed to work with IA. PTT explained to the MAJ that the issue will be brought up to the DHQ PTT. MAJ stated none of his IP were scheduled to attend the IP Regional Academy, this time around.

**At Tamim** [redacted]

**(TT0099) Kirkut (Tamim) Major Crimes Unit (CID):** PTT met with LTC [redacted] and discussed the proposed site for the MCU. LT [redacted] was also present and advised that the engineers went to the new building. The next step in the process will be to get three bids on the repairs and construction of interior walls. No date is set for completion of the project.

# CPATT IPLO DAILY SITREP

**(TT0004) Aruba Patrol Police Station:** PTT observed guard mount and identified a few minor uniform deficiencies. PTT observed IP NCO conduct IED identification and cordon operations after discovery. PTT visited the arms room and found IP [redacted] preparing weapons and ammunition evidence for shipping to the crime laboratory. PTT visited the jail. The only physical care complaint was lack of food. There were thirteen prisoners with little climate control.

**(NoFFID#) ERU:** PTT conveyed to ERU and conducted BATS photography and fingerprinting of the station IP. IP advised the station is not being provided firearms and ammunition from District HQ.

**(TT0015) Kalur Patrol Police Station:** This station needs vehicles, ammunition and radios for the patrol units and the check points. The training officer works out of Alton Capri. PTT is going to help Kalur station start tracking the training of each of their IP and officers. PTT trained on the proper method of searching vehicles.

**(TT0022) Meghdad Patrol Police Station:** Meghdad Police Station is still waiting for the Sewage and Holding Cell projects that were sent to HQ. There were five inmates confined inside the holding cell; all five have seen the Judge. The jail is still waiting for renovation due to security reasons. The bid has already been submitted but still no answer from HQ. An in-service class on handcuffing was conducted by the IP instructor.

**(TT0031) Shwan Local Police Station:** PTT paid seven IRD workers who were present at the station. PTT discussed with BG [redacted] the estimate on the improvements to the station. It was discussed that the estimate was too high and that work of that nature will have to be requested through MOI. The station needs approximately 70 meters of Hesco barriers for force protection.

**(TT0032) Taza Karhmatu Patrol Police Station:** PTT conveyed to Taza Karhmatu Patrol Police Station. Upon arrival the team witnessed a shift change and community policing speech by COL [redacted]. The PTT along with an IP Patrol took toys and clothing, donated from the United States, and handed the items out to the citizens of Taza. The team mentored the IP in community policing as the IP distributed the gifts.

**Irbil** [redacted] (b)(3), (b)(6)

**(MI0905) Airport Security Station:** The PTT conducted a survey of the perimeter security of Erbil International Airport (EIA). The perimeter of EIA is approximately twelve miles. Guard stations are dispersed through the perimeter and are staffed by personnel from the Kurdistan Minister of the Interior (KMOI). The station commander has requested that Airport Security Police staff these guard stations. The station commander believes that KMOI personnel should be responsible for the exterior of EIA while EIA personnel control the area from the outer perimeter inward to EIA. The PTT concurs with this request and believes it will eliminate possible command and control issues in the future.

**(NoFFID#) Irbil Traffic Police Highway Patrol:** PTT met with SGT [redacted], as COL [redacted] was attending a meeting, and discussed the changes being made to the Highway Patrol Station. There is a building project adding two additional rooms to the small station and SGT [redacted] showed PTT the new sewage system that has been installed to replace large open holes that were previously used. The two new rooms are for security and a new office for COL [redacted]. SGT [redacted] also showed PTT the guard dogs of the police station. The IP explained that the dogs are helpful in defending the station as they hear better than people and make lots of noise when strangers approach which helps protect the IP and station.

# CPATT IPLO DAILY SITREP

security. SGT [redacted] stated PTT that the station received new IP with the transfer of COL [redacted] because they were loyal to him and enjoyed working for him. The station also brought with the new COL what appeared to be four new vehicles. SGT [redacted] stated PTT that COL [redacted] had many new progressive programs and was doing some great things. PTT agreed to visit again at a later date and speak with COL [redacted].

**(MI0001) Irbil Provincial Police HQ:** PTT visited checkpoints on secondary routes into the city of Irbil in the final steps of assessments prior to completing written recommendations for the MOI. There are four main routs into the city where large cargo vehicles enter and five secondary routes. There are other ingress routes overland by dirt roads and will be included in the assessments.

The MOI has requested the final analysis be completed and a written recommendation be submitted as soon as possible. PTT is very close to finishing the documentation. The MOI has indicated he wishes to purchase at least four x-ray machines to place at checkpoints. One will be used at the Erbil International Airport and three will be on the main routs where trucks enter the city.

**Sulaymaniyah** [redacted]

**(NoFFID#) Sulaymaniyah Asaish HQ:** PTT met with the Asaish check point guards. PTT has been training and working with these Kirkuk check point officers for over a one month. PTT moved training to the Dokan check point and began training.

**(TS0010) Sulaymaniyah Traffic Police HQ:** PTT conducted day three of the Advance Motor Cycle Training Class. The class has a total of nine students and three student instructors.

**(TS0024) Cham Chamal District Police HQ:** PTT arrived at Chamchamal DHQ and continued the lesson on Crime Scene Evidence Collection. The topic of the class was "Collection of Hair Samples" for evidence at crime scenes. The PTT also conducted day two of a two week community policing training program.

**(TS0008) Sulaymaniyah Provincial Police HQ:** The PTT continues the second week of the 30-day advanced accident investigations course at the Sulaymaniyah Police Academy.

A course was also given on Search of Persons/Handcuffing and Defensive tactics.

**(NoFFID#) Sulaymaniyah PJCC:** PTT met with BG [redacted] and MAJ [redacted] and discussed PJCC operation as well as equipment issues for the PJCC and the five other JCCs.

PTT spoke with BG [redacted] and MAJ Latif regarding the PJCC Workbook. Further information was obtained for the workbook as well as a PJCC 'wish list' of needed equipment. This information will be translated and available later this week.

**Dahuk** [redacted]

**(MD0005) Khabat Local Police Station:** PTT learned that IP from Khabat LPS performs between one and three patrols in the day and either one or two patrols at night. Both day and night patrol times are changed daily. PTT also discovered Khabat LPS is responsible for operating a checkpoint on a daily basis. There is no jail at Khabat LPS Headquarters.

## CPATT IPLO DAILY SITREP

The MAJ advised there are no finance issues at Khabat LPS and all KP are receiving the correct pay at the correct time.

MAJ [redacted] advised the city power is a problem as the station only receives about four hours of power a day from the city. At this time, the station is receiving electric assistance from a local Kurdistan TV station. The MAJ advised the TV station is in the process of moving, and when it does, they will no longer have the assistance. The Khabat LPS does not have a back up generator. Another need of the Khabat LPS that was noticed by the PTT was personal armor. The station employs 31 total IP, but only has six ballistic vests, six sets of plates, and six helmets. PTT advised MAJ [redacted] this was a major issue that needed to be addressed. PTT explained to the MAJ that he needed to request more of the listed items from Dahuk PHQ.

While discussing what training the IP at Khabat LPS had received, PTT learned that eleven of the KP had been to neither TIP nor the Jordan Academy. PTT spoke with MAJ [redacted] about the fact that these eleven IP had no formal training and he understood that this was an issue that needed attention.

**(MD0654) Nawroz Local Police station:** PTT met with MAJ [redacted] and discussed the daily activity of his station. The MAJ advised PTT that the only thing his men are doing at this time was working a checkpoint just outside of town. The rest of his men are at the station, by orders, because they are on high alert. The MAJ did say that his men did not have time for patrol because of the check point and the fact that they were to busy with work at the station.

The MAJ informed PTT that he had a small room set aside for a holding cell that could hold up to ten people. The cell was only used on court days to hold those waiting to see the judge.

The MAJ advised there are no finance issues at Nawroz LPS and all IP are receiving the correct pay at the correct time. MAJ [redacted] advised PTT that he only had city power from two to four hours a day. He is connected to the generator that supplies PHQ and has continuous power through them. The MAJ did inform PTT that his toilets did not work and he advised his men not to use them. They have to walk to PHQ to use their facilities. Another issue the MAJ brought to the attention of the PTT was that his station had no body armor or helmets to use. They are also short on weapons and uniforms as well.

Out of the 28 total IP at this station, only three have been to TIPs and six have been to the basic academy in Jordan.

**Ramadi (MND-W)** [redacted]

**Al Anbar** [redacted]

**(RA0807) Fallujah Local Police Station:** No station visit at this time due to the Police Transition Team (PTT) assigned non-PTT duties.

**(RA0061) Shuhada Local Police Station:** No station visit at this time due to the Police Transition Team (PTT) assigned non-PTT duties.

**(RA0059) Tawaheed Local Police Station:** No station visit at this time due to the Police Transition Team (PTT) assigned non-PTT duties.

## CPATT IPLO DAILY SITREP

**(RA00501) Southwest Patrol Police Station:** The Police Transition Team attended the SW Fallujah kick-off (station construction/refurbish) meeting. PTT discussed the start date for construction and the timeline of events.

**(RA0093) Rumana Local Police Station:** The Police Transition Team mentored and advised the station chief in the area of preparing a budget as the fiscal year is approaching.

**(RA0110) Rawah District Police HQ:** PTT conducted training at Camp Rawah to 20 IPs on search and seizure, transporting a suspect and prisoners and Iraqi criminal code.

**(RA0086) Anah District Police HQ:** The Police Transition Team conducted training on fundamentals of rifle marksmanship as well as practical application pertaining to the AK-47.

**(RA0072) Rutbah District Police HQ:** The Police Transition Team conducted range training for 40 Iraqi Police that received weapons yesterday. The IP shot the 9mm and AK-47.

**(RA0025) Al Huria Local Police Station:** No station visit conducted due to the Police Transition Team assigned non-PTT duties.

**(RA0030) Ramadi South Local Police Station:** No station visit conducted due to the Police Transition Team assigned non-PTT duties.

**(RA0048) Ramadi District Police HQ:** The Police Transition Team conducted training and attended the weekly Iraq Police Chief meeting. The force protection was upgraded for the meeting requiring more Iraqi Police for security.

**(RA0095) Baghdadi District Police HQ:** The Police Transition Team conducted screening of the Iraqi Police that may be selected for the Provincial Support Unit.

**(RA0002) Al Anbar Provincial Police HQ:** The Police Transition Team toured the Government Center and took notice of all the improvements being made to the facility. The PTT made contact with all the sections and gathered information on how the Iraq Police were progressing without the Non-Military Police Transition Team. The contractor informed the PTT that the jail will be completed no later than the end of August and would be fully operational.
