(5) (U) **Escalation of Force (EOF) Measures.** When time and circumstances permit, appropriate EOF measures assist Coalition Forces to determine whether Hostile Intent exists in a particular situation. When a Coalition Force member is confronted with a Hostile Act or demonstration of Hostile Intent, the Coalition Force member may use necessary force, including deadly force, immediately, without proceeding through EOF measures. See MNC-I SOP for more specific guidance on EOF.

(a) (U) Warning shots are normally aimed shots or bursts into a safe backstop. They may be used as a signal to an element that does not yet qualify as hostile (a positively identified hostile force, those who commit a hostile act, or those who display hostile intent), but that is potentially hostile.

(b) (U) Limitations on using warning shots.

(c) (U) Disabling Shots as an Alternative to Warning Shots. If a mounted threat is positively identified as hostile, CF personnel may fire a disabling shot instead of a warning shot. A disabling shot or burst is fired with the intent of stopping a vehicle and should never be used against dismounted personnel. Normally, disabling shots with motor vehicles are into tires or engine compartment.
