(b)(6)

another TCR request issue I need some assistance with please. got the word back from (b)(6) today that this itinerary (which is being submitted as a TCR to our system with this e-mail) was not specifically approved by the CDR but the trip in concept was approved. There is wiggle room to work this plan so that JTF-7 can support. Request you contact the POC and see if they want to amend the TCR submission based on below JTF-7 standards. If not, need to push as a TCR via normal channels along with comments that GEN Abizaid didn't approve the itinerary as outlined and there is room for JTF-7 to make a counter proposal if needed. They will want relief here. Recommend talking directly with LTC (b)(6) (b)(6) on this one to see what their going in position will be.

SJS team,

need someone in Qatar to print this document and ask COL (b)(6) (in person) if CDR approved this visit in concept or for these actual dates. Specific questions to ask.... this schedule lays out when CDR and JTF-7 commander(s) will meet which doesn't take any operational considerations into account. also violates the JTF-7 policy of no visits longer than 48 hours and no RONs in IZ. Two day visits are preferred to RON in KU. Need to know if CDR left any "negotiation" room when this visit was blessed or are we looking at an agenda that is more detailed than what was sanctioned by GEN Abizaid... Standing by for feedback.

/r
