82nd Sustainment Brigade

9.

I, (b)(3), (b)(6), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

Serving as the 82nd Sustainment Brigade Surgeon currently deployed to Bagram Airfield, Afghanistan I assist the Mortuary Affairs team in the processing of human remains. The service which I provide is completion of the death certificate (DD2064) for the deceased. Although I am unsure of the exact number, I have completed over 100 death certficates since March 2010. The completion of the DD2064 involves the viewing of human remains with documention of the identity of the remains, the place and date of death, the date and location where I view the remains, and my professional information. On 9 October 2010, I viewed the remains of Linda Norgrove at the Mortuary Affairs Collection Point (MACP) located on Bagram Airfield, Afghanistan. The deceased was positioned on her back with her head toward the South. She was wearing a blue floral print top and black bra. A pulse oximeter was placed on one of her fingers, although I do not recall which finger or hand. Her head was turned to the right with hair obscuring her face. Her left ear was exposed revealing a one to two cm curvilinear defect in the pinna. The upper portion of the trunk was exposed with no obvious injury to her chest or upper abdomen. Her exposed skin was not discolored as I have seen in previous remains when processed anywhere from twelve hours to six days following time of death. This discoloration is secondary to the pooling of blood in dependent areas of the remain and decomposition. This lack of discoloration leads me to believe the time of death was more recent.

I was contacted on 17 October 2010 as I documented the incorrect date on the DD2064 I completed for Linda Norgrove. I documented that I had viewed the remains on 9 September 2010, when in fact the date was 9 October 2010. I completed a new DD2064 with the correct date on 17 October 2010.
