Sir,

At 01:07 the second TM moves to the right side of the first TM (who engaged EWIA 2).
At 1:11 both TMs on the South side of building 22 engage EKIA 3 with one 3-round burst each (total of 6 rounds).
At 1:12, the third TM (located on the rooftop of building 23) engaged EKIA 3 with one three round burst (bringing the total to 9 rounds).

Assessment:

Two TMs, located on the South side of building 22, engaged EKIA 3 as he approached building 23 from the East. The third TM, located on the rooftop of building 23, then engaged EKIA 3 one second after the initial engagement. Approximately nine rounds (based on shell casing counts and muzzle flashes) were directed down range towards EKIA 3 by the end of the engagement.

Please let me know if you need any further information, sir.

v/r
