Cost is now pegged at \$57,202.05 (see attached).

PCCIE does not place surcharge on their service - I wish they did, then maybe the AF would not be reducing their manpower by 50% and we would not be losing their GREAT service next year.

(b)(6), can you please press Eaton for a cost breakdown of the repairs.

I also need you to include any PCCIE fees.

SAF/FM is looking for 3080 funds for us now.

Our Contracting requires a SOW and cost estimate to go with the MIPR we will send you. They won't accept a single lump sum line item.

Thanks
