Subject: FW: Call for Witnesses to Yesterdays Accident

Mr. (b)(6)

Mr. (b)(6) may need to ask questions. He is the CENTCOM Safety officer. Thanks for your quick response; our initial reports are he is out of intensive care and will survive.

Sub tnesses to Yesterdays Accident

LTC (b)(6)

Please excuse me calling you Mr. I was not looking at the signature block when I responded, I normally don't check my NIPR that often but was told to look at this and responded rather quickly, once again no disrespect intended.

(b)(6)

I was one of the first responders to the accident, I immediately responded to the scream that someone fell from the building roof. I did not witness how he fell only that it was head first. I was one of 3 that first reached the victim to provide any medical assistance I could. I am a contractor but a retired combat medic. I can provide the details of what I saw and did, since I was the only responder with a medical background I called the shots and decided to actually move the victim to a board based on a

compromised airway and possible obstruction from bleeding as well as to better control the bleeding and shock that would soon follow.

Should you need more information please don't hesitate to call or email me.
