Subject: Bldg 570 accident

Mr. (b)(6)

I did not witness the person fall, but I came around the corner from Bldg 565 headed to Building 540 immediately after he fell. The one thing I noticed once I figured out what happened is there were maybe 3 other workers on the roof at the time, and it appeared they were moving around or maybe pulling up some sort of plastic sheeting that was on the roof. I remember thinking how easy it would be to step on that plastic and slip. There was a storm coming, so perhaps they were trying to cover an exposed area. I'd say this was approximately 16:53.

Hope this helps and I hope he survived and makes a good recovery.

V/R,
