Sub r Entry - CENTCOM

Good morning

Sir,

On 30 September 2009, at about 1630 hours, I observed this incident taking place at the new USCENTCOM building construction site. Construction site supervisor, 6 SFS personnel, Fire Department personnel, Medical personnel, and the Army Core of Engineers were all on site and handling the situation. Since this was a construction site incident and the Army Core of Engineers had responded to the incident this was their investigation. Today, I'll look into getting a copy of the incident investigation report.

R,

(b)(6) , MSgt, USAFR
C Safety NCOIC

Tampa Safety,

Facilities will inquire, think this may be a construction worker who was banged in head with a pipe.

Very respectfully,

CDR (b)(6)

NTCOM
