(U) ~~(NATO SECRET// REL ISAF)~~ **HIG forces joined by local volunteers for attack against USA forces in Waygal District.**

- Hezb-E Islami Gulbuddin (HIG) forces responsible for the attack on the USA base known as "Zmewbiala" in Waygal District, Nuristan Province have been joined by local civilian volunteers.
- This is due to the Coalition Forces air raid retaliation against HIG and Taliban where a number of civilians were killed.
- Volunteers will assist HIG by fighting and participating in suicide bombings.
- (b)(1)1.4c,

(U) ~~(S)~~ **TF ROCK ANALYST COMMENT:** The incident referring to local civilians being killed in action, is a SIGACT that occurred on 4 July 2008. The incident happened near the COP BELLA, when they received RPG's from an unknown amount of AAF that exfilled via vehicles and were engaged. As soon as the incident occurred, AAF put out false IO messages saying that CF killed civilians. a, it is difficult to get accurate information to them and they are easily swayed by IO from AAF who live among them. This incident will likely outrage the villagers in and around COP BELLA and they will side with the AAF and decide to attack CF. h, (b) 4a, (b
