How to Remove your Information from the PeopleLookup.com Public Records Databases

Public records are available from the official public records custodian or repository to anyone who requests them. In order for any database of public records to be useful, the databases must contain all of the information in the public records offices. If you have a compelling privacy or security issue, you may wish to contact the official custodians of those public records that contain sensitive information about you, such as your county's land records office, to determine how to remove your information from the public record. (The process of having public records sealed typically requires a court order.) This process will ensure that the information is not available to the public, to us, or to any other public records information provider.

In addition to public records, personal information may be publicly or commercially available. Publicly available information consists of online and offline information that is generally available but is not maintained by a government agency, such as names, addresses and telephone numbers of individuals and businesses, professional licensing and trade organization information, press releases and newspaper articles and content from blogs or social networking sites. Commercial records consist of information that is maintained by enterprises and is available for purchase, such as marketing and telemarketing lists, phone connect and disconnect information, and business profile data.

As a courtesy we allow you to opt out your personal information from our Website. What this means is that your name as it appears in a particular record and the associated identifying information such as your address and phone number will be suppressed if you request this in the manner described below. However, please note that any time your identifying information appears in a public record or in a publicly or commercially available manner, in a way that is different from the particular record you opted out, it will again appear on our Website. For example, if your address or area code changes, your new information -- including other associated identifying information -- will again appear unless you opt out the new record. Similarly, if the way in which your name or address appears in a record differs from a record you opted out (e.g., "Michael" instead of "Mike," or "1212 Second AVE NE" instead of "1212-2nd Avenue Northeast"), we may include the differing record. Please also note that there may be more than one record on our Website associated with your personal information. Opting out one particular record will not opt out other record(s). Your opt out will apply from processing date forward; any report purchased prior to your opt out will still be available to the purchaser thereof in accordance with the terms of our service. In addition to this Website, there are many other companies offering public records search services, and your request that we opt out your information from this Website will not prevent your information from appearing on these other services.

In order for us to suppress or opt out your personal information from appearing on our Website, we need to verify your identity. To do this, we require faxed proof of identity. Proof of identity can be a state issued ID card or driver's license. If you are uploading, faxing, or mailing a copy of your driver's license, we require that you cross out the photo and the driver's license number. We only need to see the name, address and date of birth. We will only use this information to process your opt out request.

Submit your opt out request via fax to 425-974-6194 or via mail to: PeopleLookup.com Consumer Affairs PO Box 808 Bothell, WA 98041-0808. Allow 7-14 days to process your request. We will only process opt out requests received by fax, or mail and no request will be processed without complete information (i.e., name, address and date of birth). Requests for opt out will not be processed over the phone or via email.

How to Block Display of your Profile on US Search Websites and in US Search Reports:

US Search obtains most of the information for our products and services from partners who generally obtain it from public records. We do not maintain or control those records, and cannot remove your name from any public records.

As a courtesy we offer individuals the ability to block certain records from appearing on the US Search websites, in US Search Reports, and in advertisements "powered by US Search" on third party website. The US Search Privacy Lock suppresses your name only as it appears in the particular record you block, and only suppresses information (e.g., address and phone number) that is associated with the record you block. If your identifying information appears in a different format in other public records, your name may still appear on our Website, in our reports, or in our advertisements. For example, if your name appears as "Mike" in some records and "Michael" in another, you will need to repeat the lock process for each record separately.

If your identifying information, such as your address or area code changes, you will need to opt out again to prevent your new information from appearing. In order for us to suppress or opt out your personal information from appearing on our Website, we need to verify your identity. To do this, we require you to send us proof of identity via postal mail or fax, which we will use only to process your opt-out request. Proof of identity can be a state issued ID card or driver's license. Please cross out everything but your name, address, and date of birth before sending us the proof of identity.

Requests for opt out will not be processed over the phone or via email. Subject to limited exceptions for elected officials and/or law enforcement officers, US Search does not process third party requests or requests submitted in any other manner.
